**viii. the nature of the issuer's business;**

Avidbank Holdings, Inc. is a bank holding company registered under the Bank Holding Company Act of 1956, as amended. The Company was incorporated under the laws of the State of California in 2007 for the principal purpose of engaging in activities permitted for a bank holding company. As a bank holding company, the Company is authorized to engage in the activities permitted under the Bank Holding Company Act of 1956, as amended, and the regulations thereunder. Its principal office is located at 1732 North First Street, 6<sup>th</sup> Floor, San Jose, California 95112 and its telephone number is 408 200-7390.

The Company owns 100% of the issued and outstanding common shares of its banking subsidiary, Avidbank.

The Bank was incorporated under the laws of the State of California on April 8, 2003, and with the approval of the Department of Financial Protection and Innovation and the Federal Deposit Insurance Corporation (the "FDIC"), opened for business on October 1, 2003. In doing so, the Bank became the first locally owned commercial bank to start business in Palo Alto in many years. Avidbank operates in Santa Clara, San Mateo and San Francisco Counties including a head office and branch office in San Jose located at 1732 North First Street, 6<sup>th</sup> floor, San Jose. The Bank has loan production offices in Redwood City located at 821 Winslow Street and in San Francisco located at 135 Main Street, Suite 2150.

Avidbank's deposits are insured by the FDIC up to applicable legal limits. Avidbank's primary business is providing a wide array of financial products with an exemplary level of personal service to small and medium-sized businesses, professionals and individuals preferring quality personal attention. The Bank's principal service area is Santa Clara, San Francisco and San Mateo counties, and the Bank utilizes electronic banking systems and an extensive courier service to provide

personalized banking services throughout its service area. Avidbank offers checking, money market and savings deposits along with certificates of deposit. On the lending side, Avidbank offers unsecured commercial loans, lines of credit, secured commercial real estate loans, construction loans, invoice financing loans and other installment and term loans along with other customary banking services. The Bank is a California state-chartered banking institution.

The mission of Avidbank is to provide customized financial services to the San Francisco Bay Area's businesses, professionals, and individuals who desire a high degree of personalized attention.

The Company's Primary SIC Code is 6022, state commercial bank.

For discussion of Supervision and Regulation of the Company and the Bank, see Appendix A.

At [December 31, 2023](#), the company had [143](#) full-time employees and equivalents.

**ix. the nature of products or services offered;**

Avidbank is a full-service community bank that specializes in providing financial services to small and medium sized businesses, professionals and individuals in the San Francisco Bay Area. Avidbank's Specialty Finance and Venture Lending divisions work with companies throughout the country. The products and the marketing focus of the Bank are designed to meet the demands of the Bank's target market. In addition to providing products and services, the Bank emphasizes the establishment of long-standing relationships with its customers, and regularly modifies the products and services it offers to meet the unique demands of its customers. The following discussion is a review of the base or core products and services that Avidbank offers and is prepared to structure to meet customer needs.

*Commercial Lending*

The Bank provides a full array of commercial credit products:

- Lines of Credit to finance seasonal cash flow fluctuation.
- Term Loans to finance equipment purchases, business acquisitions and other growth needs.
- Venture Term Loans to bridge companies to their next equity round and to provide ongoing working capital.
- Account Receivables / Inventory Lines to finance business with ongoing working capital requirements.
- Invoice Financing Lines to provide ongoing working capital.
- Standby Letters of Credit in lieu of performance bonds or guarantees.

The Bank's commercial and industrial loans have a high degree of industry diversification. A substantial portion of commercial and industrial loans that are not secured by real estate are secured by accounts receivable, inventory, equipment or other collateral. The remainder of the Bank's commercial and industrial loans are unsecured. Both secured and unsecured loans are underwritten based on the underlying historic and projected cash flow of the borrower.

## *Commercial Real Estate and Construction Lending*

The Bank provides commercial real estate financing for both construction and mortgage purposes as well as construction lending on residential properties. Although many real estate borrowers are owners / users of the property constructed and / or permanently financed, the Bank also provides real estate financing for developers. The products offered by the bank include:

- Construction Loans for both residential and commercial projects.
- Commercial Mortgage financing (“Mini Perms”) with maturities up to ten years with longer amortizations.
- Acquisition financing for “build ready” lots that are already zoned and approved for the proposed project.
- Business lines of credit secured on residential or commercial property which provide secured working capital lines to developers.

Real estate mortgage loans are secured by deeds of trust on commercial property with repayment from the cash flow of the borrower.

Real estate construction loans consist of loans to individuals and developers that are secured by single-family and multi-family residential properties and to owner-users and developers that are secured by commercial properties. Repayment of construction loans is generally from long-term mortgages.

## *Personal Loan Products*

For individuals, Avidbank offers lines of credit and term loans on an unsecured basis to qualified borrowers.

## *Cash Management Services*

For business customers, Avidbank offers an extensive array of cash management products, which can be customized to meet specific customer requirements. Products on the accounts payable side include ACH payments, Bill Pay, Positive Pay, Wire Transfers and Zero Balance Accounts. Products on the accounts receivable side include ACH Collections, Lockbox, Merchant Services, Remote Deposit Capture (RDC), Mobile RDC and Incoming Wire Transfers.

## *Deposit Products*

Avidbank offers a wide variety of both interest bearing and non-interest-bearing transactional accounts for both businesses and individuals. In addition to providing access to deposit accounts via Online (Internet) Banking, the Bank also provides extensive courier service throughout the San Francisco Bay Area so that customers’ deposit and other banking needs may be served without the customer having to make a trip to the Bank. The Bank also offers savings accounts, money market deposit accounts and certificates of deposits for businesses and individuals.

## *Other Services*

Avidbank offers notary services and medallion guarantee stamps for stock transfers.

It is Avidbank’s intent to provide our customers with easy access to solutions for all their financing needs.

## *Competition*

The Bank's primary market area consists of the San Francisco Bay Area peninsula and nearby communities of adjacent counties. In California generally, and in the Bank's service area specifically, major banks and local regional banks dominate the commercial banking industry. By virtue of their larger capital bases, such institutions have substantially greater lending limits than those of the Bank, as well as more locations, more products and services, greater economies of scale and greater ability to make investments in technology for the delivery of financial services.

As an independent bank, the Bank's principal competitors for deposits and loans are other banks (particularly major banks), savings and loan associations, credit unions, thrift and loans, mortgage brokerage companies and insurance companies. Other institutions, such as mutual funds, brokerage houses, credit card companies and even retail establishments have offered new investment vehicles, such as money-market funds, that also compete with banks. The direction of federal legislation in recent years favors competition between different types of financial institutions and encourages new entrants into the financial services market, and it is anticipated that this trend will continue.

To compete with larger financial institutions in its service area, the Bank relies upon specialized services, responsive handling of customer needs, local promotional activity, and personal contacts by its officers, directors and staff, compared to large multi-branch banks that compete primarily on interest rates and location of branches. The Bank also assists customers requiring services not offered by the Bank to obtain such services from its correspondent banks. For customers whose loan demands exceed the Bank's lending limits, the Bank seeks to arrange funding for such loans on a participation basis with its correspondent banks or other independent commercial banks. No assurance can be given that the Bank will be able to compete successfully for such loans. Even if the Bank is successful in making such larger loans, larger and stronger borrowers may be more creditworthy and therefore may be able to negotiate for lower interest rates on their loans, which in turn may reduce the net interest margin in the Bank's portfolio.

### **x. the nature and extent of the issuer's facilities;**

The Company and Avidbank lease all four of their current premises.

The Company's headquarters and branch office are located at 1732 North First Street, 6th Floor, San Jose, CA 95112. The landlord is RNM First Street Center, L.P., located at 230 California Avenue, Suite 212, Palo Alto, CA 94306. The premises consist of approximately 28,404 square feet on the sixth floor of the office building. The Bank leased the property for ten years commencing on November 13, 2017 and contains one five-year renewal option.

Avidbank's former branch office is located at 437 Lytton Avenue, Suite 100, Palo Alto, CA 94301. The landlord is Manhattan Associates, LP, 3105 Woodside Road, Woodside, CA, 94062. The office consists of approximately 2,986 square feet situated on the first floor of the building. The office was leased for a ten-year term commencing on October 23, 2017 and contains one five-year renewal option. The Palo Alto office was closed on October 1, 2021 and the location was subleased due to a lack of client foot traffic. Branch personnel have been moved to our San Jose and Redwood City offices.

The Bank's Redwood City loan production office is located at 821 Winslow Street, Redwood City, California. The office relocated from another downtown Redwood City office on March 9, 2020. The premises consist of approximately 6,040 square feet on the first floor of a one story, single tenant commercial office building. The office space is leased from Windy Hill Property Ventures, LLC.

The lease has a schedule of fixed annual rent increases with the initial term expiring in 2025. The lease contains one three-year renewal option.

The Bank's San Francisco loan production office opened March 30, 2015, and is located at 135 Main Street, Suite 2150, San Francisco, California. The premises consist of approximately 7,377 square feet on the twenty-first floor of a twenty-two-story commercial office building. The office space is leased from RNM 135 Main, LP. This lease has a schedule of fixed annual rent increases with the term expiring in 2030.

**xi. the name of the chief executive officer and members of the board of directors;**

Name	Principal Occupation, Business Experience and Other Information
<p>Mark D. Mordell</p> <p>Age: 63</p> <p>Position with Company: Chairman of the Board and Chief Executive Officer</p> <p>Director Since: 2006</p>	<p>Mr. Mordell joined the board in January of 2006 and was appointed Chairman in February of 2007. (A) The address for all persons is c/o Avidbank Holdings, Inc, 1732 North First Street, 6th Floor, San Jose, CA 95112.

(B) Includes all shares owned, whether directly or indirectly, individually or together with associates.

(C) Includes all shares granted of unvested restricted stock.

(D) The 200,000 shares reflected in the "shares owned" column are held directly by PTMR Capital Partners LP. In addition to PTMR Capital Partners LP, PTMR GP, LLC, TRF Partners LLC and Michael F. Rosinus may be deemed to have beneficial ownership of the shares; however, each of them disclaims beneficial ownership thereof, except to the extent of any pecuniary interest therein.

**xii. the issuer's \$28.6 million private offering**

On May 11, 2022, the Company completed a \$28.6 million private offering of common shares at a purchase price of \$22.50 per share. Piper Sandler & Co. acted as financial advisor for Avidbank Holdings in connection with the offering. Manatt, Phelps & Phillips, LLP, San Francisco, CA acted as legal counsel to Avidbank Holdings.

**xiii. the issuer's \$20 million private offering**

On July 13, 2017, Avidbank Holdings, Inc. completed a \$20 million private offering of common shares at a purchase price of \$19.00 per share. Sandler O'Neill + Partners, L.P. acted as the sole placement agent for Avidbank Holdings in connection with the offering. Manatt, Phelps & Phillips, LLP, San Francisco, CA acted as legal counsel to Avidbank Holdings. Sheppard, Mullin, Richter & Hampton LLP acted as legal counsel to the placement agent.

**xiv. the issuer's private placement of subordinated notes;**

On December 20, 2019, the Company issued \$22 million in ten-year, fixed-to-floating rate subordinated notes to certain qualified institutional buyers and institutional accredited investors. The subordinated notes have a maturity date of December 30, 2029, and bear interest at the rate of 5.00% per annum, payable semiannually, for the first five years of the term, and then quarterly at a variable rate based on the then current 3-month Secured Overnight Financing Rate plus 359.5 basis points. The notes are redeemable after five years subject to certain conditions. The indebtedness evidenced by the subordinated notes, including principal and interest, is unsecured and subordinate and junior to general and secured creditors and depositors. On the balance sheet the subordinated notes are carried net of debt issuance costs less accumulated amortization.

The subordinated notes were issued at the holding company level and have been structured to qualify as Tier 2 capital for regulatory purposes. The Company plans to use the proceeds from the placement of the subordinated notes for general corporate purposes including, but not limited to, contributing capital to the Bank to fund future growth. Sandler O'Neill + Partners, L.P. acted as placement agent for the private placement of the subordinated notes. The Company was advised by Manatt, Phelps & Phillips, LLP.

**xv. the issuer's most recent balance sheet and profit and loss and retained earnings statements;**

Please refer to the financial tables below. The balance sheet includes retained earnings.

**xvi. similar financial information for such part of the two preceding fiscal years as the issuer or its predecessor has been in existence;**

Please refer to the Company's audited balance sheets as of December 31, 2022 and December 31, 2021 and related consolidated statements of income, statements of shareholders' equity and comprehensive income cash flows for each of the years in the two-year period ending December 31, 2022 in conformity with generally accepted accounting principles together with the report of independent certified public accountants included in Avidbank Holdings, Inc.'s 2022 Annual Report.

A copy of the Company's 2022 Annual Report can be found on the home page of the company's web site [www.avidbank.com](http://www.avidbank.com) under the title Investor Relations followed by the subtitle Annual Financial Statements.

**xvii. whether a broker or dealer or any associated person is affiliated, directly or indirectly with the issuer;**

No broker or dealer or any associated person is affiliated, directly or indirectly, with the Company in connection with any shares of the Company's common stock that may be resold under Rule 144. One or more brokers or dealers facilitate trades in the Company's common stock and may act as informal market makers. However, no broker or dealer has any obligation to purchase or sell any of the Company's shares of common stock at any time and may discontinue any market-making activities at any time.

**xviii. [omitted]**

**xix. whether a quotation is being submitted or published directly or indirectly on behalf of the issuer, or any director, officer or any person, directly or indirectly the beneficial owner of more than 10 percent of the outstanding units or shares of any equity security of the issuer, and, if so, the name of such person, and the basis for any exemption under the federal securities laws for any sales of such securities on behalf of such person.**

To the best knowledge of the Company, there is no quotation being submitted or published directly or indirectly on behalf of the Company, or any director, officer or any person directly or indirectly the beneficial owner of more than 10 percent of the outstanding units or shares of any equity security of the Company, or at the request of any promoter for the Company.

As of the date of this disclosure, officers or directors of the Company for whose account a broker or dealer is offering to sell shares of the Company's common stock include the following:

**NONE as of December 31, 2023**

\*\*\*\*\*

The Company's regular outside counsel is Manatt, Phelps & Phillips, LLP, San Francisco, California. The Company's independent public accounting firm is Crowe LLP. The services provided by Crowe LLP include the auditing and reporting of the financial status of the Company.

This information has been prepared by the Company. If this information is made available by a broker or dealer to other persons pursuant to a request under Rule 15c2-11, delivery of this information to other persons shall not constitute a representation by the broker or dealer that the information is accurate.

Date as of which this information was last revised: **December 31, 2023**

No dealer, salesman or any other person has been authorized to give any information, or to make any representations, not contained herein in connection with the issuer. Such information or representations, if made, must not be relied upon as having been authorized by the issuer.

Delivery of this information file does not at any time imply that the information contained herein is correct as of any time subsequent to the date above.

## **Appendix A**

### **SUPERVISION AND REGULATION**

#### **General**

Avidbank Holdings, Inc. (the “Company”) is a bank holding company within the meaning of the Bank Holding Company Act of 1956, as amended (the “Bank Holding Company Act”), and is registered as such with, and subject to the supervision of, the Board of Governors. The Company is required to obtain the approval of the Board of Governors before it may acquire all or substantially all of the assets of any bank, or ownership or control of the voting shares of any bank if, after giving effect to such acquisition of shares, the Company would own or control more than 5% of the voting shares of such bank. The Bank Holding Company Act prohibits the Company from acquiring any voting shares of, or interest in, all or substantially all of the assets of, a bank located outside the State of California unless such an acquisition is specifically authorized by the laws of the state in which such bank is located. Any such interstate acquisition is also subject to applicable California and federal law.

The common stock of the Company is subject to the registration requirements of the Securities Act of 1933, as amended, and the qualification requirements of the California Corporate Securities Law of 1968, as amended.

The Company, and any subsidiaries which it may acquire or organize, are deemed to be “affiliates” within the meaning of that term as defined in the Federal Reserve Act. This means, for example, that there are limitations (a) on loans by Avidbank to affiliates, (b) on investments by Avidbank in affiliates’ stock as collateral for loans to any borrower, and (c) other transactions between any bank subsidiary and the Company. The Company and its subsidiaries are also subject to certain restrictions with respect to engaging in the underwriting, public sale and distribution of securities.

Avidbank is licensed by the California Commissioner (the “Commissioner”) of the Department of Financial Protection and Innovation (the “DFPI”), and its deposits are insured by the FDIC up to the applicable legal limits. Avidbank shares and Avidbank are required to file reports with the Board of Governors, the Commissioner, and the FDIC and provide any additional information that the Board of Governors, the Commissioner, and the FDIC may require.

#### **Capital Standards**

Federal regulations require FDIC insured depository institutions, including state-chartered banks, to meet several minimum capital standards: a common equity Tier 1 capital to risk-based assets ratio, a Tier 1 capital to risk-based assets ratio, a total capital to risk-based assets and a Tier 1 capital to total assets leverage ratio.

The capital standards require the maintenance of common equity Tier 1 capital, Tier 1 capital and total capital to risk-weighted assets of at least 4.5%, 6% and 8%, respectively, and a leverage ratio of at least 4% Tier 1 capital. Common equity Tier 1 capital is generally defined as common stockholders’ equity and retained earnings. Tier 1 capital is generally defined as common equity Tier 1 and Additional Tier 1 capital. Additional Tier 1 capital generally includes certain noncumulative perpetual preferred stock and related surplus and minority interests in equity accounts of consolidated subsidiaries. Total capital includes Tier 1 capital (common equity Tier 1 capital plus Additional Tier 1 capital) and Tier 2 capital. Tier 2 capital is comprised of capital instruments and related surplus meeting specified requirements and may include cumulative preferred stock and long-term perpetual preferred stock, mandatory convertible securities, intermediate preferred stock and subordinated debt. Also included in Tier 2

capital is the allowance for credit losses limited to a maximum of 1.25% of risk-weighted assets and, for institutions that have exercised an opt-out election regarding the treatment of Accumulated Other Comprehensive Income (“AOCI”), up to 45% of net unrealized gains on available-for-sale equity securities with readily determinable fair market values. Institutions that have not exercised the AOCI opt-out have AOCI incorporated into common equity Tier 1 capital (including unrealized gains and losses on available-for-sale securities). We exercised the opt-out election regarding the treatment of AOCI. Calculation of all types of regulatory capital is subject to deductions and adjustments specified in the regulations.

In determining the amount of risk-weighted assets for purposes of calculating risk-based capital ratios, a bank’s assets, including certain off-balance sheet assets (e.g., recourse obligations, direct credit substitutes, residual interests), are multiplied by a risk weight factor assigned by the regulations based on perceived risks inherent in the type of asset. Higher levels of capital are required for asset categories believed to present greater risk. For example, a risk weight of 0% is assigned to cash and U.S. government securities, a risk weight of 50% is generally assigned to prudently underwritten first lien 1 – 4 family residential mortgages, a risk weight of 100% is assigned to commercial and consumer loans, a risk weight of 150% is assigned to certain past due loans and a risk weight of between 0% to 600% is assigned to permissible equity interests, depending on certain specified factors.

In addition to establishing the minimum regulatory capital requirements, the regulations limit capital distributions and certain discretionary bonus payments to management if the institution does not hold a “capital conservation buffer” consisting of 2.5% of common equity Tier 1 capital to risk-weighted assets above the amount necessary to meet its minimum risk-based capital requirements.

Management believes that Avidbank is in compliance with the minimum capital requirements, including the fully phased-in capital conservation buffer requirement based upon its capital position at [December 31, 2023](#).

In accordance with the Dodd-Frank Act and long-standing Federal Reserve policy, the Company must act as a source of financial and managerial strength to Avidbank. Under this policy, the Company must commit resources to support the Bank, including at times when the Company may not be in a financial position to provide it. The Company could be required to guarantee the capital plan of Avidbank if it becomes undercapitalized for purposes of banking regulations, as described below. Any capital loans by a bank holding company to its subsidiary bank are subordinate in right of payment to deposits and to certain other indebtedness of such subsidiary bank. The Bank Holding Company Act of 1956, as amended (the “BHC Act”) provides that, in the event of a bank holding company’s bankruptcy, any commitment by the bank holding company to a federal bank regulatory agency to maintain the capital of a bank subsidiary will be assumed by the bankruptcy trustee and entitled to priority of payment.

On October 29, 2019, the federal banking regulators adopted a final rule, which was effective as of January 1, 2020, to simplify the regulatory capital requirements for certain community banks and holding companies that opt into the Community Bank Leverage Ratio (“CBLR”) framework. In order to be eligible to opt in to the CBLR framework, an institution must have less than \$10 billion in average consolidated assets and a leverage ratio of at least 9.0% and meet certain other asset-related requirements. If the election is made, the institution would be considered to have satisfied the capital requirements of Basel III adopted by the federal banking regulators and would be able to satisfy the regulatory capital requirements by calculating and reporting a single leverage ratio, reducing the time associated with risk-weighting assets for capital ratio reporting purposes. An eligible institution may opt in to the CBLR framework in connection with any regulatory financial report and may opt out of the CBLR framework at any time by completing the Basel III capital ratio calculations in connection with any regulatory financial report. The rule establishes a two-quarter grace period for institutions

whose leverage ratio falls below 9.0% but remains above 8.0%. The Company and the Bank have not opted in to the CBLR framework.

### **Safety and Soundness Standards**

Each federal banking agency, including the FDIC, has adopted guidelines establishing general standards relating to internal controls, information and internal audit systems, loan documentation, credit underwriting, interest rate exposure, asset growth, asset quality, earnings, compensation, fees and benefits and information security standards. In general, the guidelines require appropriate systems and practices to identify and manage the risks and exposures specified in the guidelines. The guidelines prohibit excessive compensation as an unsafe and unsound practice and describe compensation as excessive when the amounts paid are unreasonable or disproportionate to the services performed by an executive officer, employee, director, or principal stockholder. The FDIC also has issued guidance on risks banks may face from third party relationships (e.g., relationships under which the third party provides services to the bank). The guidance generally requires the bank to perform adequate due diligence on the third party, appropriately document the relationship, and perform adequate oversight and auditing, in order to limit the risks to the bank.

### **Prompt Corrective Regulatory Action**

Federal law requires that federal bank regulatory authorities take “prompt corrective action” with respect to institutions that do not meet minimum capital requirements. For these purposes, the statute establishes five capital tiers: well capitalized, adequately capitalized, undercapitalized, significantly undercapitalized and critically undercapitalized.

State banks that have insufficient capital are subject to certain mandatory and discretionary supervisory measures. For example, a bank that is “undercapitalized” (i.e., fails to comply with any regulatory capital requirement) is subject to growth limitations and is required to submit a capital restoration plan; a holding company that controls such a bank is required to guarantee that the bank complies with the restoration plan. A “significantly undercapitalized” bank is subject to additional restrictions. State banks deemed by the FDIC to be “critically undercapitalized” are subject to the appointment of a receiver or conservator.

The final rule that increased regulatory capital standards also adjusted the prompt corrective action tiers as of January 1, 2015, to conform to the new capital standards. The various categories now incorporate the newly adopted common equity Tier 1 capital requirement, an increase in the Tier 1 to risk-based assets requirement and other changes. Under the revised prompt corrective action requirements, insured depository institutions are required to meet the following in order to qualify as “well capitalized:” (1) a common equity Tier 1 risk-based capital ratio of 6.5% (new standard); (2) a Tier 1 risk-based capital ratio of 8% (increased from 6%); (3) a total risk-based capital ratio of 10% (unchanged) and (4) a Tier 1 leverage ratio of 5% (unchanged).

### **Additional Regulations**

Under the Federal Deposit Insurance Corporation Improvement Act of 1991 (FDICIA), the federal financial institution agencies have adopted regulations which require institutions to establish and maintain comprehensive written real estate policies which address certain lending considerations, including loan-to-value limits, loan administrative policies, portfolio diversification standards, and documentation, approval and reporting requirements. The FDICIA further generally prohibits an insured state bank from engaging as a principal in any activity that is impermissible for a national bank,

absent FDIC determination that the activity would not pose a significant risk to the Bank Insurance Fund, and that the bank is, and will continue to be, within applicable capital standards.

The Federal Financial Institution Examination Counsel (“FFIEC”) utilizes the Uniform Financial Institutions Rating System (“UFIRS”) commonly referred to as “CAMELS” to classify and evaluate the soundness of financial institutions. Bank examiners use the CAMELS measurements to evaluate capital adequacy, asset quality, management, earnings, liquidity and sensitivity to market risk. Effective January 1, 2005, bank holding companies such as the Company, were subject to evaluation and examination under a revised bank holding company rating system. The so-called BOPEC rating system implemented in 1979 was primarily focused on financial condition, consolidated capital and consolidated earnings. The rating system reflects the change toward analysis of risk management (as reflected in bank examination under the CAMELS measurements), in addition to financial factors and the potential impact of non-depository subsidiaries upon depository institution subsidiaries.

The federal financial institution agencies have established bases for analysis and standards for assessing a financial institution’s capital adequacy in conjunction with the risk-based and Basel III capital guidelines including analysis of interest rate risk, concentrations of credit risk, risk posed by non-traditional activities, and factors affecting overall safety and soundness. The safety and soundness standards for insured financial institutions include analysis of (1) internal controls, information systems and internal audit systems; (2) loan documentation; (3) credit underwriting; (4) interest rate exposure; (5) asset growth; (6) compensation, fees and benefits; and (7) excessive compensation for executive officers, directors or principal shareholders which could lead to material financial loss. If an agency determines that an institution fails to meet any standard, the agency may require the financial institution to submit to the agency an acceptable plan to achieve compliance with the standard. If the agency requires submission of a compliance plan and the institution fails to timely submit an acceptable plan or to implement an accepted plan, the agency must require the institution to correct the deficiency. The agencies may elect to initiate enforcement action in certain cases rather than rely on an existing plan particularly where failure to meet one or more of the standards could threaten the safe and sound operation of the institution.

Community Reinvestment Act (“CRA”) regulations evaluate banks’ lending to low and moderate income individuals and businesses across a four-point scale from “outstanding” to “substantial noncompliance,” and are a factor in regulatory review of applications to merge, establish new branches or form bank holding companies. In addition, any bank rated in “substantial noncompliance” with the CRA regulations may be subject to enforcement proceedings. In its most recent exam for CRA compliance, Avidbank has a rating of “satisfactory.”

### **Limitations on Dividends, Repurchases and Redemptions**

The Company’s ability to pay cash dividends is subject to restrictions set forth in the California General Corporation Law. Funds for payment of any cash dividends by the Company would be obtained from its investments as well as dividends and/or management fees from its subsidiaries, including Avidbank. The payment of cash dividends and/or management fees by Avidbank is subject to restrictions set forth in the California Financial Code, as well as restrictions established by the FDIC. Under the California Financial Code, funds available for cash dividend payments by a bank are restricted to the lesser of: (i) retained earnings; or (ii) Avidbank’s net income for its last three fiscal years (less any distributions to shareholders made during such period). However, under the California Financial Code, with the prior approval of the Commissioner, a bank may pay cash dividends in an amount not to exceed the greater of the: (1) retained earnings of the bank; (2) net income of the bank for its last fiscal year; or (3) net income of the bank for its current fiscal year. However, if the state finds that the shareholders’ equity of the bank is not adequate or that the payment of a dividend would be unsafe or unsound, the

Commissioner may order such bank not to pay a dividend to shareholders. The Company does not currently pay any cash dividends and we cannot provide any assurance that we will pay dividends in the future.

It is an essential principle of safety and soundness that a banking organization's redemption and repurchases of regulatory capital instruments, including common stock, from investors be consistent with the organization's current and prospective capital needs. Consultation with the Federal Reserve before redeeming any equity or other capital instrument included in Tier 1 or Tier 2 capital is generally advisable in all circumstances and is required if such redemption could have a material effect on the level or composition of the organization's capital base. Bank holding companies that are experiencing financial weaknesses, or that are at significant risk of developing financial weaknesses, must consult with the appropriate Federal Reserve supervisory staff before redeeming or repurchasing common stock or other regulatory capital instruments for cash or other valuable consideration. Similarly, any bank holding company considering expansion, whether through acquisitions or through organic growth and new activities, generally also must consult with the appropriate Federal Reserve supervisory staff before redeeming or repurchasing common stock or other regulatory capital instruments for cash or other valuable consideration. In evaluating the appropriateness of a bank holding company's proposed redemption or repurchase of capital instruments, the Federal Reserve will consider the potential losses that the holding company may suffer from the prospective need to increase reserves and write down assets from continued asset deterioration and the holding company's ability to raise additional common stock and other Tier 1 capital to replace capital instruments that are redeemed or repurchased. A bank holding company must inform the Federal Reserve of a redemption or repurchase of common stock or perpetual preferred stock for cash or other value resulting in a net reduction of the bank holding company's outstanding amount of common stock or perpetual preferred stock below the amount of such capital instrument outstanding at the beginning of the quarter in which the redemption or repurchase occurs. In addition, a bank holding company must advise the Federal Reserve sufficiently in advance of such redemptions and repurchases to provide reasonable opportunity for supervisory review and possible objection should the Federal Reserve determine a transaction raises safety and soundness concerns.

Bank holding companies that are not well capitalized or well managed, or that are subject to any unresolved supervisory issues, must provide prior notice to the Federal Reserve for any repurchase or redemption of its equity securities for cash or other value that would reduce by 10% or more the holding company's consolidated net worth aggregated over the preceding 12-month period.

## **FDIC Insurance**

The FDIC, through the Deposit Insurance Fund ("DIF"), insures the deposits of the Bank up to prescribed limits for each depositor (currently, \$250,000 per depositor). The assessment paid by each DIF member institution is based on its relative risk of default as measured by regulatory capital ratios and other factors. Specifically, the assessment rate is based on the institution's capitalization risk category and supervisory subgroup category. The deposit insurance assessment is calculated on the average total consolidated assets of insured depository institutions during the assessment period, less the average tangible equity of the institution during the assessment period as opposed to solely bank deposits at an institution. An institution's capitalization risk category is based on the FDIC's determination of whether the institution is well capitalized, adequately capitalized or less than adequately capitalized.

A deterioration in the economic conditions impacting financial institutions or a significant number of failed institutions might necessitate increases in premium assessments to maintain the DIF which could adversely impact the Company's earnings.

## Impact of Certain Legislation and Regulation

*Interstate Banking.* The Dodd-Frank Act signed into law by President Obama on July 21, 2010, includes provisions authorizing national and state banks to establish branch offices in other states to the same extent as a bank chartered by that state would be permitted to branch. Previously, banks could only establish branch offices in other states if the host state expressly permitted out-of-state banks to establish branch offices in that state. Accordingly, banks may be able to enter new markets more freely.

*Gramm-Leach-Bliley Act.* In 1999, the Gramm-Leach-Bliley Act (the “GLB Act”) was signed into law. The GLB Act eliminated most of the remaining depression-era “firewalls” between banks, securities firms and insurance companies which were established by The Banking Act of 1933, also known as the Glass-Steagall Act (“Glass-Steagall”). Glass-Steagall sought to insulate banks as depository institutions from the perceived risks of securities dealing and underwriting, and related activities. The GLB Act permitted bank holding companies that could qualify as “financial holding companies” to acquire securities firms or create them as subsidiaries, and securities firms could acquire banks or start banking activities through a financial holding company. Prior to the GLB Act, banks were also (with minor exceptions) prohibited from engaging in insurance activities or affiliating with insurers. The GLB Act removed these restrictions and substantially eliminated the prohibitions under the Bank Holding Company Act on affiliations between banks and insurance companies. Consequently, the common ownership of banks, securities firms and insurance firms was possible, in addition to the conduct of commercial banking, merchant banking, investment management, securities underwriting and insurance within a single financial institution using a “financial holding company” structure authorized by the GLB Act.

A bank holding company could qualify as a financial holding company if (i) its banking subsidiaries are “well capitalized” and “well managed” and (ii) it files with the Board of Governors a certification to such effect and a declaration that it elects to become a financial holding company. The Bank Holding Company Act was amended to permit financial holding companies to engage in activities, and acquire companies engaged in activities, that are financial in nature or incidental to such financial activities. Financial holding companies were also permitted to engage in activities that were complementary to financial activities if the Board of Governors determined that the activity did not pose a substantial risk to the safety or soundness of depository institutions or the financial system in general. These standards expanded upon the list of activities “closely related to banking” which have defined the permissible activities of bank holding companies under the Bank Holding Company Act. Neither the Company nor Avidbank has determined whether or when to seek to acquire and exercise powers or activities under the GLB Act.

*Volcker Rule.* On December 10, 2013, the federal banking agencies jointly issued a final rule implementing the so-called “Volcker Rule” (set forth in Section 619 of the Dodd-Frank Act). The Volcker Rule prohibits depository institutions, companies that control such institutions, bank holding companies, and the affiliates and subsidiaries of such banking entities, from engaging as principal for the trading account of the banking entity in any purchase or sale of one or more covered financial instruments (so-called “proprietary trading”) and imposes limitations upon retaining ownership interests in, sponsoring, investing in and transacting with certain investment funds, including hedge funds and private equity funds. Management believes the investment portfolio and activities of Avidbank and the Company are in compliance with the Volcker Rule and its implementing regulations.

*Change in Bank Control Act.* Subject to various exceptions, the BHC Act and the Change in Bank Control Act, together with related regulations, require Federal Reserve approval prior to any person’s or company’s acquiring “control” of a bank holding company. Under a rebuttable presumption established by the Federal Reserve pursuant to the Change in Bank Control Act, the acquisition of 10%

or more of a class of voting stock of a bank holding company would constitute acquisition of control of the bank holding company if no other person will own, control, or hold the power to vote a greater percentage of that class of voting stock immediately after the transaction or the bank holding company has registered securities under the Exchange Act. In addition, any person or group of persons acting in concert must obtain the approval of the Federal Reserve under the BHC Act before acquiring 25% (5% in the case of an acquirer that is already a bank holding company) or more of the outstanding voting stock of a bank holding company, the right to control in any manner the election of a majority of the company's directors, or otherwise obtaining control or a "controlling influence" over the bank holding company. The California Financial Code has similar regulations applicable to acquisition of securities of a California-chartered bank holding company and bank, such as the Company and Avidbank.

*Patriot Act.* On October 26, 2001, President Bush signed the USA Patriot Act (the "Patriot Act"), which includes provisions pertaining to domestic security, surveillance procedures, border protection, and terrorism laws to be administered by the Secretary of the Treasury. Title III of the Patriot Act entitled, "International Money Laundering Abatement and Anti-Terrorist Financing Act of 2001" includes amendments to the Bank Secrecy Act which expand the responsibilities of financial institutions in regard to anti-money laundering activities with particular emphasis upon international money laundering and terrorism financing activities through designated correspondent and private banking accounts.

The Patriot Act contains various provisions that affect the operations of financial institutions by encouraging cooperation among financial institutions, regulatory authorities and law enforcement authorities with respect to individuals, entities and organizations engaged in, or reasonably suspected of engaging in, terrorist acts or money laundering activities. The Company and Avidbank are not currently aware of any account relationships between Avidbank and any foreign bank or other person or entity which would not be in compliance with the Patriot Act.

The effects which the Patriot Act and any amendments to the Patriot Act or additional legislation enacted by Congress may have upon financial institutions is uncertain; however, such legislation could increase compliance costs and thereby potentially may have an adverse effect upon the Company's results of operations.

*Sarbanes-Oxley Act.* On July 30, 2002, President Bush signed into law the Sarbanes-Oxley Act of 2002 (the "Act") which responded to issues in corporate governance and accountability. Among other matters, key provisions of the Act and rules promulgated by the SEC pursuant to the Act include enhancement of financial disclosures and related certification requirements, rules related to audit committees, auditor independence, ethics requirements, securities trading prohibitions, securities reporting requirements, and securities listing requirements.

*Fair and Accurate Credit Transactions Act.* The Board of Governors, the FDIC, the other federal financial institution regulatory agencies, and the Federal Trade Commission issued final rules and guidelines effective January 1, 2008, subject to mandatory compliance as of November 1, 2008, implementing sections 114 and 315 of the Fair and Accurate Credit Transactions Act of 2003 to require financial institutions and other creditors to develop and implement a written identity theft prevention program. The program must include reasonable policies and procedures for detecting, preventing, and mitigating identity theft in connection with certain new and existing covered accounts. Covered accounts are defined as (i) an account primarily for personal, family, or household purposes (i.e., consumer accounts), or (ii) any other account for which there is a reasonably foreseeable risk to customers or the safety and soundness of the financial institution or creditor from identity theft. The program must be appropriate to the size and complexity of the financial institution or creditor and the nature and scope of its activities and should be designed to:

- identify relevant patterns, practices, and specific forms of activity that are “red flags” of possible identity theft and incorporate those red flags into the program;
- detect the occurrence of red flags incorporated into the program;
- respond appropriately to any red flags that are detected to prevent and mitigate identity theft; and
- ensure that the program is updated periodically to reflect changes in risks to reflect changes in risks to customers or to the safety and soundness of the financial institution or creditor from identity theft.

The regulations include guidelines that each financial institution must consider and, to the extent appropriate, include in its program and steps that must be taken to administer the program including (i) obtaining approval of the program by the board of directors or a committee of the board, (ii) ensuring oversight of the development, implementation and administration of the program, (iii) training staff, and (iv) overseeing service provider arrangements. The guidelines contemplate that existing fraud prevention procedures may be incorporated into the program.

*Office of Foreign Assets Control Regulation.* The United States has imposed economic sanctions that affect transactions with designated foreign countries, foreign nationals and others. These are typically known as the “OFAC” rules based on their administration by the U.S. Department of the Treasury Office of Foreign Assets Control (“OFAC”). The OFAC-administered sanctions targeting countries take many different forms. Generally, however, they contain one or more of the following elements: (i) restrictions on trade with or investment in a sanctioned country, including prohibitions against direct or indirect imports from and exports to a sanctioned country and prohibitions on “U.S. persons” engaging in financial transactions relating to making investments in, or providing investment-related advice or assistance to, a sanctioned country; and (ii) a blocking of assets in which the government or specially designated nationals of the sanctioned country have an interest, by prohibiting transfers of property subject to U.S. jurisdiction (including property in the possession or control of U.S. persons). Blocked assets (e.g., property and bank deposits) cannot be paid out, withdrawn, set off or transferred in any manner without a license from OFAC. Avidbank is responsible for, among other things, blocking accounts of, and transactions with, such targets and countries, prohibiting unlicensed trade and financial transactions with them and reporting blocked transactions after their occurrence. Failure to comply with these sanctions could have serious legal and reputational consequences.

*The Dodd-Frank Act.* On July 21, 2010, President Obama signed into law the Dodd-Frank Act. The Dodd-Frank Act is intended to restructure the regulation of the financial services sector by, among other things, (i) establishing a framework to identify systemic risks in the financial system implemented by a newly created Financial Stability Oversight Council and other federal banking agencies; (ii) expanding the resolution authority of the federal banking agencies over troubled financial institutions; (iii) authorizing changes to capital and liquidity requirements; (iv) changing deposit insurance assessments; and (v) enhancing regulatory supervision to improve the safety and soundness of the financial services sector. Below is a summary of certain provisions of the Dodd-Frank Act which, directly or indirectly, may affect us.

- *Changes to Capital Requirements.* The federal banking agencies are required to establish revised minimum leverage and risk-based capital requirements for banks and bank holding companies. The Dodd-Frank Act requires capital requirements to be counter cyclical so that the required amount of capital increases in times of economic expansion and decreases in times of economic contraction consistent with safety and soundness.

- *Enhanced Regulatory Supervision.* The Dodd-Frank Act increases regulatory oversight, supervision and examination of banks, bank holding companies and their respective subsidiaries by the appropriate regulatory agency.
- *Consumer Protection.* The Dodd-Frank Act created the Consumer Financial Protection Bureau (“CFPB”) within the Federal Reserve System. The CFPB is responsible for establishing and implementing rules and regulations under various federal consumer protection laws governing certain consumer products and services. The CFPB has primary enforcement authority over large financial institutions with assets of \$10 Billion or more, while smaller institutions will be subject to the CFPB’s rules and regulations through the enforcement authority of the federal banking agencies. States are permitted to adopt consumer protection laws and regulations that are more stringent than those laws and regulations adopted by the CFPB and state attorneys general are permitted to enforce consumer protection laws and regulations adopted by the CFPB.
- *Deposit Insurance.* The Dodd-Frank Act permanently increased the deposit insurance limit for insured deposits to \$250,000 per depositor. Other deposit insurance changes under the Dodd-Frank Act include (i) amendment of the assessment base used to calculate an insured depository institution’s deposit insurance premiums paid to the Deposit Insurance Fund (“DIF”) by elimination of deposits and substitution of average consolidated total assets less average tangible equity during the assessment period as the revised assessment base; (ii) increasing the minimum designated reserve ratio of the DIF from 1.15 percent to 1.35 percent of the estimated amount of total insured deposits; (iii) eliminating the requirement that the FDIC pay dividends to depository institutions when the reserve ratio exceeds certain thresholds; and (iv) repeal of the prohibition upon the payment of interest on demand deposits to be effective one year after the date of enactment of the Dodd-Frank Act. The FDIC has proposed further changes to the deposit insurance assessments applicable to small insured depository institutions with assets less than \$10 Billion and additional DIF recapitalization obligations for insured depository institutions with more than \$10 Billion in assets.
- *Transactions with Affiliates.* The Dodd-Frank Act enhances the requirements for certain transactions with affiliates under Section 23A and 23B of the Federal Reserve Act, including an expansion of the definition of “covered transactions” and increasing the amount of time for which collateral requirements regarding covered transactions must be maintained.
- *Transactions with Insiders.* Insider transaction limitations are expanded through the strengthening of loan restrictions to insiders and the expansion of the types of transactions subject to the various limits, including derivative transactions, repurchase agreements, reverse repurchase agreements and securities lending or borrowing transactions. Restrictions are also placed on certain asset sales to and from an insider to an institution, including requirements that such sales be on market terms and, in certain circumstances, approved by the institution’s board of directors.
- *Enhanced Lending Limitations.* The Dodd-Frank Act strengthens the existing limits on a depository institution’s credit exposure to include credit exposure arising from derivative transactions, repurchase agreements, and securities lending and borrowing transactions.
- *Debit Card Interchange Fees.* The Dodd-Frank Act requires that the amount of any interchange fee charged by a debit card issuer with respect to a debit card transaction must be reasonable and proportional to the cost incurred by the issuer. The Federal Reserve Board

was required to establish standards for reasonable and proportional fees which may take into account the costs of preventing fraud. The restrictions on interchange fees, however, do not apply to banks that, together with their affiliates, have assets of less than \$10 Billion.

- *Interstate Branching.* The Dodd-Frank Act authorizes national and state banks to establish branch offices in other states to the same extent as a bank chartered by that state would be permitted to branch. Previously, banks could only establish branch offices in other states if the host state expressly permitted out-of-state banks to establish branch offices in that state. Accordingly, banks may be able to enter new markets more freely.
- *Compensation Practices.* Our compensation practices are subject to oversight by the Federal Reserve. The federal banking regulators have provided guidance designed to ensure that incentive compensation arrangements at banking organizations take into account risk and are consistent with safe and sound practices. The guidance sets forth the following three key principles with respect to incentive compensation arrangements: (i) the arrangements should provide employees with incentives that appropriately balance risk and financial results in a manner that does not encourage employees to expose their organizations to imprudent risk; (ii) the arrangements should be compatible with effective controls and risk management; and (iii) the arrangements should be supported by strong corporate governance. The guidance provides that supervisory findings with respect to incentive compensation will be incorporated, as appropriate, into the organization's supervisory ratings, which can affect its ability to make acquisitions or perform other actions. The guidance also provides that enforcement actions may be taken against a banking organization if its incentive compensation arrangements or related risk management, control or governance processes pose a risk to the organization's safety and soundness.

#### *Customer Information Privacy and Cybersecurity*

The FRB and other bank regulatory agencies have adopted guidelines for safeguarding confidential, personal, non-public customer information. These guidelines require each financial institution, under the supervision and ongoing oversight of its board of directors or an appropriate committee thereof, to create, implement, and maintain a comprehensive written information security program designed to ensure the security and confidentiality of customer information, protect against any anticipated threats or hazard to the security or integrity of such information, and protect against unauthorized access to or use of such information that could result in substantial harm or inconvenience to any customer. We have adopted a customer information security program to comply with these requirements.

In March 2015, federal regulators issued two related statements regarding cybersecurity. One statement indicates that financial institutions should design multiple layers of security controls to establish lines of defense and to ensure that their risk management processes also address the risk posed by compromised customer credentials, including security measures to reliably authenticate customers accessing Internet-based services of the financial institution. The other statement indicates that a financial institution's management is expected to maintain sufficient business continuity planning processes to ensure the rapid recovery, resumption and maintenance of the institution's operations after a cyber-attack involving destructive malware. A financial institution is also expected to develop appropriate processes to enable recovery of data and business operations and address rebuilding network capabilities and restoring data if the institution or its critical service providers fall victim to this type of cyber-attack. If we fail to observe the regulatory guidance, we could be subject to various regulatory sanctions, including financial penalties.

The GLB Act requires financial institutions to implement policies and procedures regarding the disclosure of non-public personal information about consumers to non-affiliated third parties. The GLB Act requires disclosures to consumers on policies and procedures regarding the disclosure of such non-public personal information and, except as otherwise required by law, prohibit disclosing such information except as provided in the Avidbank's policies and procedures. We have implemented privacy policies addressing these restrictions that are distributed regularly to all existing and new customers of Avidbank.

State regulators have been increasingly active in implementing privacy and cybersecurity standards and regulations. Several states have adopted regulations requiring certain financial institutions to implement cybersecurity programs and providing detailed requirements with respect to these programs, including data encryption requirements. Many states have also recently implemented or modified their data breach notification and data privacy requirements. In June 2018, the California legislature passed the California Consumer Privacy Act of 2018 (the "California Privacy Act"), took effect on January 1, 2020. The California Privacy Act, which covers businesses that obtain or access personal information on California resident consumers, grants consumers enhanced privacy rights and control over their personal information and imposes significant requirements on covered companies with respect to consumer data privacy rights.

### **Future Legislation and Regulation**

In addition to legislative changes, the various federal and state financial institution regulatory agencies frequently propose rules and regulations to implement and enforce already existing legislation. It cannot be predicted whether or in what form any such rules or regulations will be enacted or the effect that such regulations may have on Avidbank shares or Avidbank. The Company anticipates that additional regulations would likely increase the Company's expenses, which may adversely impact the Company's results of operations, financial condition, future prospects, profitability, and stock price.

### **Conclusions**

It is impossible for the Company to predict with any degree of accuracy the competitive impact the laws and regulations described above will have on commercial banking in general and on the business of the Company and Avidbank in particular. The Company anticipates that banking will continue to be a highly regulated industry. Additionally, there has been a continued lessening of the historical distinction between the services offered by financial institutions and other businesses offering financial services. Also, the trend toward nationwide interstate banking is expected to continue. As a result of these factors, the Company anticipates that banks will experience increased competition for deposits and loans and, possibly, further increases in their cost of doing business.
