## Logitech Announces Affordable UC Headset Designed for Comfort

New Logitech USB Headset H570e Delivers Enterprise-Quality Audio and Premium Features for Business

NEWARK, Calif.--(BUSINESS WIRE)-- Today Logitech (SIX: LOGN) (NASDAQ: LOGI) introduced the new [Logitech USB Headset H570e](#), designed for all-day comfort, ease of use, and reliability, at an affordable price. Compatible with most unified communication (UC) platforms, the enterprise-quality H570e headset is stylish with unmatched features in its category, enhancing the UC and collaboration experience in the workplace.

The H570e headset is available in stereo for employees who need to block out surrounding noise during desktop calls, and in mono for employees who prefer to have an open ear to their surroundings. It has a durable and adjustable padded headband for all-day comfort, while the metal reinforcement provides strength and flexibility for the best fit. The leatherette headset ear pads are also designed to be comfortable for hours of use and can be easily cleaned or replaced as needed. Inline controls include volume up/down, microphone mute and call answer/end and are designed to be intuitively navigated by touch.

"With over 15 years of experience in audio technology, we understand the quality requirements and know that IT decision makers need a comfortable, reliable and affordable headset to deploy in the workplace," said Marcel Stolk, senior vice president, Logitech. "The H570e is a lightweight, business-grade UC headset built for quality and outstanding audio performance, and it is affordably priced for high-volume soft phone deployment."

Ensuring an integrated UC experience, the USB Headset H570e and all headsets in the Logitech [UC audio portfolio](#) are optimized for Microsoft® L y n c™, Cisco Jabber™, compatible, Skype™ certified, and compatible with most leading UC platforms.

user-friendly features Logitech products are known for. Additional features include an LED indicator that flashes with incoming calls (in compatible UC applications) providing a convenient visual cue to answer the call. The digital signal processing enables precise tuning for both the microphone and speaker so conversations are more life-like, and acoustic echo cancellation blocks unwanted noise coming from the speaker from entering the microphone path for a clearer communication experience.

### Pricing and Availability

The Logitech USB Headset H570e is available through select resellers worldwide for a suggested price of \$44.99 USD (mono) and \$49.99 USD (stereo). Replaceable leatherette ear pads are available for a suggested price of \$9.99 USD.
