Logitech Introduces Light-Powered Protection for the iPad

New Solar Keyboard Folio Provides Hassle-Free Protection with Minimal Bulk for the New, Third-Generation iPad and iPad 2

NEWARK, Calif.--(BUSINESS WIRE)-- Today Logitech (SIX: LOGN) (NASDAQ: LOGI) announced the expansion of both its solar and tablet accessories lineups with the [Logitech® Solar Keyboard Folio](#). Made for the new, third-generation iPad® as well as the iPad 2, the ultra-slim, book-style case and keyboard offer stylish design with protection, featuring a built-in keyboard that's powered by light.

best for you. Open the folio and place your iPad in the first position to enjoy the full keyboard when you're typing. Place your iPad in the second position and the first keyboard row acts as your one-touch media playback and volume controls, so you can play, pause and change volume instantly.

The folio also has an instant On/Off function, which means your iPad automatically wakes when you open the folio and goes on standby when you close it.

Pricing and Availability

The Logitech Solar Keyboard Folio is expected to be available in the U.S. and Europe beginning in May 2012, for a suggested retail price of \$129.99. For more information please visit www.logitech.com or our [blog](#).

About Logitech

Logitech is a world leader in products that connect people to the digital experiences they care about. Spanning multiple computing, communication and entertainment platforms, Logitech's combined hardware and software enable or enhance digital navigation, music and video entertainment, gaming, social networking, audio and video communication over the Internet, video security and home-entertainment control. Founded in 1981, Logitech International is a Swiss public company listed on the SIX

Similar to Logitech's solar keyboards for Mac® and PC, the Logitech Solar Keyboard Folio includes onboard solar cells that charge the built-in Bluetooth® keyboard in any light, whether indoors or outdoors. When fully charged, the battery lasts for up to two years, even in complete darkness (based on an average use of two hours per day).

"Now that people are seemingly inseparable from their tablets, using them for everything from sending emails to watching videos, they want accessories powered to meet their needs," said Alexis Richard, director of product marketing at Logitech. "The Logitech Solar Keyboard Folio is a smart partner for your iPad. Its sleek built-in keyboard uses light to charge and it provides hassle-free protection for your iPad — both for the front and back. It gives you an ideal way to use and protect your tablet without adding bulk."

The Logitech Solar Keyboard Folio has two stand positions, so when you want to use your iPad you can choose the viewing angle that's

Swiss Exchange (LOGN) and on the Nasdaq Global Select Market (LOGI).
