Logitech Harmony Ultimate Now Compatible with Nest Learning Thermostat

Expands Simple Control of Your Home Devices from the Comfort of Your Couch

NEWARK, Calif.--(BUSINESS WIRE)-- Today Logitech (SIX: LOGN) (NASDAQ: LOGI) announced an update to its [Harmony® Ultimate](#) remote, allowing you to view and adjust your [Nest® Learning Thermostat™](#) settings directly from the remote's 2.4-inch color touch-screen. In addition to controlling temperature, you can also change the thermostat's settings, such as switching from heating to cooling or turning the system off completely.

relaxing on the couch."

This update also enables the Logitech Harmony Ultimate to communicate with Nest's Auto-Away™ function. Because both the remote and Nest Thermostat are connected to your home network, when you pick up the remote it notifies your Nest Thermostat that you're home, and Nest adjusts the home temperature according to your settings.

Pricing and Availability

The free update is expected to be available for new and current Harmony Ultimate users beginning June 24, 2014. For more information, or to add your Nest Thermostat, please visit www.myharmony.com/nest or our [blog](#).

About Logitech

Logitech is a world leader in products that connect people to the digital experiences they care about. Spanning multiple computing, communication and entertainment platforms, Logitech's combined hardware and software enable or enhance digital navigation, music and video entertainment, gaming, social networking, audio and video communication over the Internet, video security and home-entertainment control. Founded in 1981, Logitech International is a Swiss public company listed on the SIX Swiss Exchange (LOGN) and on the Nasdaq Global Select Market (LOGI).

Logitech, the Logitech logo, and other Logitech marks are registered in Switzerland and other countries. All other trademarks are the property of their respective owners. For more information about Logitech and its products, visit the company's website at www.logitech.com.

(LOGIIR)

"With the Logitech Harmony Ultimate you can already control a wide variety of devices in your home, and with this Nest Thermostat integration Logitech now delivers on one of the most requested features we hear from our customers - temperature control from the comfort of your couch," said Joerg Tewes, vice president and general manager of Logitech's digital home business group. "Adding Nest extends the Harmony Ultimate's existing support for the most advanced home devices. With one touch of the remote or the Harmony App on your tablet or smartphone, you can dim your Philips Hue lights, turn on your TV, start a movie, and now set the temperature on your Nest thermostat."

"The Nest Developer Program makes it possible for us to work with companies like Logitech to build new experiences in the home," said Matt Rogers Nest founder and vice president of engineering. "Through integrating with the Logitech Harmony Ultimate you now can adjust your home's temperature while
