ALEXIS MINERALS CORPORATION

(A Development Stage Company)

Notes to the Unaudited Consolidated Financial Statements
For the six months ended June 30, 2008

1. NATURE OF OPERATIONS AND GOING CONCERN

Alexis Minerals Corporation (the "Company") currently has interests in exploration properties in the province of Quebec. Substantially all of the Company's efforts are devoted to financing and developing these properties. As at June 30, 2008, the Company was a development stage entity, as defined by the Canadian Institute of Chartered Accountants (the "CICA") Accounting Guideline 11. During the first quarter of 2008, the Company announced that a production decision at its Lac Herbin deposit was approved by the Board of Directors. The Company plans to enter commercial production during the fourth quarter of 2008.

These interim consolidated financial statements are unaudited and are not reviewed by the Company's auditors.

Management has prepared these unaudited consolidated financial statements for the six months ended June 30, 2008 in accordance with Canadian generally accepted accounting principles. These statements should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2007.

The disclosure in these interim unaudited consolidated financial statements may not conform in all respects to generally accepted accounting principles in Canada for annual financial statements.

In the opinion of management, all adjustments considered necessary for fair presentation have been included in these unaudited consolidated financial statements. Operating results for the six months ended June 30, 2008 are not indicative of the results that may be expected for the full year ending December 31, 2008.

The business of mining and exploring for minerals involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. The recoverability of the carrying value of exploration properties and the Company's continued existence is dependent upon the preservation of its interest in the underlying properties, the discovery of economically recoverable reserves, the achievement of profitable operations, or the ability of the Company to raise additional financing, if necessary, or alternatively upon the Company's ability to dispose of its interests on an advantageous basis. Changes in future conditions could require material writedowns of the carrying values.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to government licensing requirements or regulations, unregistered prior agreements, unregistered claims, aboriginal claims, and non-compliance with regulatory requirements.

These unaudited consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles applicable to a going concern. Accordingly, they do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and liquidate its liabilities and commitments in other than the normal course of business and at amounts different from those in the accompanying unaudited consolidated financial statements.

The Company has a need for equity capital and financing for working capital and exploration and development of its properties. Because of continuing operating losses, the Company's continuance as a going concern is dependent upon its ability to obtain adequate financing and to reach profitable levels of operation. It is not possible to predict whether financing efforts will be successful or if the Company will attain profitable levels of operations.

2. SIGNIFICANT ACCOUNTING POLICIES

Except as disclosed below, these unaudited consolidated financial statements are prepared using the same accounting policies and methods of application as those disclosed in note 2 to the Company's annual audited consolidated financial statements for the year ended December 31, 2007.

ALEXIS MINERALS CORPORATION

(A Development Stage Company)

Notes to the Unaudited Consolidated Financial Statements
For the six months ended June 30, 2008

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

New accounting pronouncements:

The CICA issued the following new accounting standards: Inventories (Handbook Section 3031), Capital Disclosures (Handbook Section 1535), Financial Instruments – Disclosures (Handbook Section 3862), and Financial Instruments – Presentation (Handbook Section 3863). These new standards became effective for the Company on January 1, 2008.

(i) Inventories

Handbook Section 3031 replaces the previous inventories standard and requires inventory to be measured at the lower of cost and net realizable value and includes guidance on the determination of cost, including allocation of overheads and other costs to inventory. Further, it requires the reversal of previous write-downs to net realizable value when the economic circumstances have changed to support an increased inventory value.

(ii) Capital Disclosures

Handbook Section 1535 specifies the disclosure of (i) an entity's objectives, policies and processes for managing capital; (ii) quantitative data about what the entity regards as capital; (iii) whether the entity has complied with any capital requirements; and (iv) if it has not complied, the consequences of such noncompliance. The Company has included disclosures recommended by the new Handbook section in note 3 to these interim unaudited consolidated financial statements.

(iii) Financial Instruments - Disclosures and Presentation

Handbook Sections 3862 and 3863 replace Handbook Section 3861, Financial Instruments – Disclosure and Presentation, revising and enhancing its disclosure requirements, and carrying forward unchanged its presentation requirements. These new sections place increased emphasis on disclosures about the nature and extent of risks arising from financial instruments and how the entity manages those risks. The Company has included disclosures recommended by the new Handbook section in note 4 to these interim unaudited consolidated financial statements.

3. CAPITAL MANAGEMENT

The Company manages and adjusts its capital structure based on available funds in order to support the acquisition, exploration and development of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

The properties in which the Company currently has an interest are in the exploration and development stage; as such the Company is dependent on external financing to fund its activities. In order to carry out planned exploration and development, and pay for administrative costs, the Company will spend its existing working capital, recovery of gold from bulk samples, and raise additional amounts as needed. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

There were no changes in the Company's approach to capital management during the six months ended June 30, 2008.

ALEXIS MINERALS CORPORATION

(A Development Stage Company)

Notes to the Unaudited Consolidated Financial Statements
For the six months ended June 30, 2008

4. FINANCIAL RISK FACTORS

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

Credit risk

The Company's credit risk is primarily attributable to cash equivalents, amounts receivable and tax credits receivable. The Company has no significant concentration of credit risk arising from operations. Cash equivalents consist of guaranteed investment certificates and bankers acceptances, which have been invested with reputable financial institutions, from which management believes the risk of loss to be remote. Financial instruments included in amounts receivable and tax credits receivable consist of goods and services tax due from the Federal Government of Canada, tax credits due from the Provincial Government of Québec, and receivables from related and unrelated companies. Management believes that the credit risk concentration with respect to these financial instruments is remote.

Liquidity risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at June 30, 2008, the Company had a cash and cash equivalents balance of \$2,539,313 (December 31, 2007 - \$6,153,297) to settle current liabilities of \$12,796,904 (December 31, 2007 - \$11,793,419). Included in current liabilities, is a short term demand loan of \$5,345,689 which will be repaid using funds received from the Provincial Government of Quebec related to tax credits receivable. Approximately \$6,800,000 of the Company's financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms.

Market risk

(a) Interest rate risk

The Company has cash balances and a short term demand loan subject to fluctuations in the prime rate. The Company's current policy is to invest excess cash in investment-grade short-term deposit certificates issued by its banking institutions. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks. As a result of the demand loan where interest payable is based on a fluctuating prime rate, the Company is subject to interest rate risk, however due to the short term nature of the loan, this risk is not considered material. Currently, the Company does not hedge against interest rate risk.

(b) Foreign currency risk

The Company's functional currency is the Canadian dollar and major purchases are transacted in Canadian dollars. Management believes the foreign exchange risk derived from currency conversions is negligible and therefore does not hedge its foreign exchange risk.

(c) Price risk

The Company is exposed to price risk with respect to commodity prices, specifically gold. The Company closely monitors commodity prices to determine the appropriate course of action to be taken by the Company. The Company's future gold mining operations will be significantly affected by changes in the market prices for gold. Gold prices fluctuate on a daily basis and are affected by numerous factors beyond the Company's control. The supply and demand for gold, the level of interest rates, the rate of inflation, investment decisions by large holders of gold including governmental reserves and stability of exchange rates can all cause significant fluctuations in gold prices. Such external economic factors are in turn influenced by changes in international investment patterns and monetary systems and political developments.

ALEXIS MINERALS CORPORATION

(A Development Stage Company)

Notes to the Unaudited Consolidated Financial Statements
For the six months ended June 30, 2008

4. FINANCIAL RISK FACTORS (continued)

Sensitivity analysis

The Company has designated its cash and cash equivalents as held-for-trading, measured at fair value. Amounts receivable and tax credits receivable included in other assets are classified as loans and receivables, which are measured at amortized cost. Accounts payable and accrued liabilities are classified as other financial liabilities, which are measured at amortized cost. Short and long term debt is classified as held-to-maturity and measured at amortized cost.

As at June 30, 2008, the carrying and fair value amounts of the Company's financial instruments are the same.

Based on management's knowledge and experience of the financial markets, the Company believes the following movements are "reasonably possible" over a three month period.

The Company carries short term debt on which interest is payable based on fluctuations in the prime rate. A 1% increase or decrease in the prime rate will generate monthly fluctuations in interest expense of approximately \$4,500.

The Company does not hold significant balances in foreign currencies to give rise to exposure to foreign exchange risk.

The Company holds gold inventory. At decrease in the market price of gold of \$100 per ounce on the inventory held at June 30, 2008 would generate a decrease in value of approximately \$453,000.

The Company intends to begin production later this year. At the current time the Company has no intention to hedge its future gold sales.

The Company has filed for approximately \$10,800,000 of government assistance related to exploration expenditures in the province of Quebec for the year ended December 31, 2007. The Company has accrued a further \$3,900,000 in assistance for the six months ended June 30, 2008. The assistance has been applied to the exploration properties to which it pertains.

Subsequent to the end of the quarter, the Company received \$8,900,000 in assistance from the Government of Quebec related to the 2007 year.

Rouyn Noranda Properties, Quebec (Rouyn)

Pursuant to the June 15, 2004 binding letter of intent with Falconbridge Ltd., now referred to as Xstrata Copper ("Xstrata"), a business unit of Falconbridge Ltd., the Company officially vested into a 50% interest in all of Xstrata's properties in the prospective Rouyn-Noranda Base Metal and Gold Camp. The Company accelerated the release of funds from the trust account to a segregated account established by Xstrata to further fund the exploration expenditures.

Certain claims that form part of this property are subject to NSR royalties that range from 0.5% to 2% of net proceeds or production royalties that range from 7.5% to 20%.

6. EXPLORATION PROPERTIES AND DEFERRED EXPLORATION EXPENDITURES (continued)

Lac Pelletier Property, Rouyn-Noranda, Quebec (Rouyn)

Pursuant to the September 2005 option agreement within Thundermin Resources Inc. ("Thundermin"), the Company can acquire a 100% interest in the Lac Pelletier Property, subject to a 3.5% NSR royalty and \$1 charge per tonne milled, by spending \$1,000,000 in exploration expenditures by September 1, 2008. During 2007, the Company met their expenditure obligations.

Pursuant to the agreement, the Company is also required to make a production decision by September 1, 2008 and reach commercial production by September 1, 2009. These dates can both be extended by one year by making a cash payment of \$75,000 to Thundermin. If the Company fails to reach commercial production by the specified date, the Company will be required to make annual advance royalty payments of \$75,000.

VMS Properties, Quebec

Pursuant to the March 17, 2004 option agreement with AUR Resources Inc. ("AUR"), the Company met its exploration expenditure commitments, and during the first quarter made a final \$1,000,000 cash payment to AUR in order to vest into a 100% interest in the properties under the agreement. AUR will subsequently retain between a 2% and a 2.5% net smelter return royalty on the properties depending on pre-existing underlying royalties. The Louvex and Bonnefond properties were held under an existing joint venture agreement whereby Novicourt Inc. owned a 45% interest. However, effective December 31, 2006, Novicourt Inc. opted to no longer fund the joint venture and consequently their interest will decrease and the Company's will increase with further exploration on these properties. (See Note 18.)

Aurbel (Including Lac Herbin) Property, Quebec

During the fourth quarter of 2007, the Company completed a bulk sample from Lac Herbin resulting in 6,692 ounces of fine gold, of which 5,692 ounces remained on hand at December 31, 2007. During the first quarter of 2008, these ounces were sold for gross proceeds of approximately \$5,000,000.

There is a 2% Net Smelter Return royalty held by a company that is controlled by a director of the Company. During the first quarter of the year, the Company made a royalty payment of \$106,000 to this company related to the bulk sample. As well, during the quarter, the Company accrued US\$93,000 in royalties payable to this director related to gold production during the period.

In June 2008, the Company commenced a milling campaign which was completed in early July. A total of 5,047 ounces of gold was recovered from 26,798 dry tonnes of ore processed. At June 30, 2008, the Company recorded \$4,292,414 in gold inventory. Subsequent to the end of the quarter, the Company sold 1,625 oz of gold at a price of \$970 per oz.

7. SECURED DEMAND NOTE

During 2007, the Company signed short-term demand loan agreements with two major Canadian Chartered banks for non-revolving demand loans of up to an aggregate of \$5,900,000 at an interest rate of prime plus 0.75%. These loans are secured against and are repayable upon receipt of anticipated 2007 refundable Quebec government assistance of approximately \$8,900,000. A loan guarantee was provided by Investissement Quebec for a fee of 3%, or \$177,000. In accordance with the loan guarantee the Company was required to deposit \$150,000 in a GIC. As at December 31, 2007, a total of \$5,345,689 had been advanced to the Company with respect to these loan agreements. Total interest costs for the six months period related to this loan amounted to \$157,368.

Subsequent to the end of the quarter, the Company received \$8,900,000 in assistance from the Quebec government, and these loans were repaid in full.

ALEXIS MINERALS CORPORATION

(A Development Stage Company)

Notes to the Unaudited Consolidated Financial Statements
For the six months ended June 30, 2008

8. CAPITAL LEASE OBLIGATION

During 2007, the Company entered into a capital leasing arrangement for mobile equipment. The Company is committed to monthly lease payments of \$23,517 over the two year term of the lease. The capital lease obligation bears interest at 4.12%. During the first quarter of 2008, the Company entered into another capital leasing arrangement for mobile equipment whereby monthly payments of \$22,411 are required over a three-year term. This capital lease obligation bears interest at 7.95%.

As at June 30, 2008, the future minimum lease payments under the capital lease arrangement were:

<u>Capital lease obligations</u>	
2008	275,567
2009	527,616
2010	268,927
2011	22,411
	<u>1,094,521</u>
Less: Amounts representing interest	(80,652)
	<u>1,013,869</u>
Less: Current portion	498,629
Long-term portion	<u>515,240</u>

9. LONG-TERM DEBT

In 2007, the Company entered into financing contracts to purchase equipment. The financing contracts have interest rates ranging from 7.25% to 7.75% and are repayable over two to four years.

In July 2006, the Company purchased a building, being the Val d'Or office, from Aur Resources Inc. The Company made a payment of \$100,000 towards the purchase price, with the balance payable in 45 monthly instalments of \$10,000 and recorded as a non-interest bearing long-term debt, discounted at a rate of 6.28%. Accretion expense related to this loan for the six months ended June 30, 2008 totalled \$6,667 (2007 - \$6,667).

Principal repayments are as follows:

	<u>Building</u>	<u>Equipment</u>	<u>Total</u>
2008	53,333	30,139	83,472
2009	106,667	59,039	165,706

2011	-	51,175	51,175
Total long-term debt	<u>195,555</u>	<u>204,134</u>	<u>399,689</u>
Less: current portion	106,667	59,088	165,755
Long-term portion	<u>88,888</u>	<u>145,046</u>	<u>233,934</u>

ALEXIS MINERALS CORPORATION

(A Development Stage Company)

Notes to the Unaudited Consolidated Financial Statements
For the six months ended June 30, 2008

10. CONVERTIBLE DEBENTURE

During 2006, the Company completed a private placement debenture financing with Industrial Alliance Securities Inc. ("Industrial Alliance") raising \$4,210,000 in gross proceeds. Pursuant to the terms of the private placement, the Company issued Units comprised of \$1,000 principal convertible debentures (the "Debentures") maturing April 28, 2010 and 150 common share purchase warrants (the "Warrants"). The \$1,000 face value Debentures are unsecured and subordinated obligations of the Company, have a coupon rate of 6.0% and are convertible at the option of the holder, any time after 12 months from the date of closing, into common shares of the Company at an exercise price of \$0.75 for the second year, \$0.825 for the third year and \$0.9075 for the fourth year (the "Conversion Prices"). Interest on the loan is payable in cash or in common shares of the Company at the option of the Company based on a price equal to 90% of the average closing price of the common shares of the Company on the TSX Venture Exchange for a period of 20 consecutive trading days ending 5 days before the payment date. The Warrants are exercisable for one common share of the Company at a price of \$0.75 per common share until May 11, 2008. The Company will have the right to redeem the Debentures in their fourth year provided that the shares of the Company are trading in excess of \$1.13 over the 20 consecutive trading days ending five trading days preceding the date on which notice of redemption is given. The redemption can be satisfied through the issuance of common shares valued at 90% of the 20 day average trading price ending five days prior to the date of redemption.

The Debentures are classified as a liability, with the exception of the portions relating to the conversion features and the attached Warrants, resulting in the carrying value of the Debentures being less than its face value. The discount is being accreted over the term of the Debentures, utilizing the effective interest rate method at a 15% discount rate. For the six months ended June 30, 2008, accretion of discount totalled \$261,562 (Q2 2007: \$243,347).

Financing charges associated with the Debentures were prorated between the debt and equity components of the Debentures. Those allocated to the debt portion of the Debentures were deferred and are being accreted over the term of the Debentures. The financing costs relating to the equity portion have been recorded as a cost of issue against the value of the equity portion of the Debentures. For the six months ended June 30, 2008, \$41,551 in deferred financing charges was charged to the Statement of Operations (Q2 2007: \$31,637).

During the quarter, the Company issued 213,695 common shares of the Company in lieu of the 6% cash interest payment due to the debenture holders. The shares were valued at \$0.5927 per share or a total amount of \$126,657. The warrants attached to the debentures expired unexercised during the current quarter.

11. ASSET RETIREMENT OBLIGATIONS

The Company's asset retirement obligations ("ARO") are based on management's estimates of costs to abandon and reclaim exploration properties and facilities as well as an estimate of the future timing of the costs to be incurred.

The following table presents the reconciliation of the beginning and ending aggregate carrying amount of the ARO associated with the retirement of the Company's exploration properties:

	June 30, 2008	December 31, 2007
	\$	\$
Balance, beginning of period	479,000	423,000
Liabilities incurred	-	-
Accretion expense	<u>31,000</u>	<u>56,000</u>
Balance, end of period	<u>510,000</u>	<u>479,000</u>

The Company has estimated its total asset retirement obligations to be \$510,000 at June 30, 2008 based on a total future liability of \$2,648,505 and a credit adjusted risk-free rate of 13%. Most of these obligations are expected to be incurred in approximately 15 years.

12. SHARE CAPITAL

(a) Authorized

Unlimited number of common shares without par value

(b) Issued

(i) In March 2008, the Company completed a brokered private placement with the issuance of 16,714,286 units of the Company at \$0.70 per unit for gross proceeds of \$11,700,000. Each unit consists of one common share of the Company and one half of one common share purchase warrant. Each whole share purchase warrant entitles the holder to purchase one common share of the Company at a price of \$1.00 until March 18, 2010. In connection with the private placement, the underwriters received a cash commission equal to 6% of the gross proceeds.

The fair value of the warrants, an amount of \$2,314,929, was estimated on the date of grant using the Black-Scholes option pricing model under the following assumptions: expected dividend yield of 0%, expected volatility of 70%, risk-free interest rate of 2.7% and an expected life of 2 years.

Common Shares issued	Number of Shares	Stated Value

	8,566,500	8,766,500		

The Company applies the fair value method of accounting for stock-based compensation awards. During the six months ended June 30, 2008, 100,000 stock options (2007: 325,000) were granted to directors, officers, employees and consultants of the Company with a weighted-average grant date fair value of \$0.61 per option (2007: \$0.51). These options vested immediately. Stock-based compensation expense of \$61,100 (Q2 2007: \$75,800) relating to these options was recorded against professional, consulting and management fees. As well, \$58,353 was recorded to the exploration projects related to options that vested during the period (Q2 2007: \$66,664). The fair value of these options was estimated on the date of grant using the Black-Scholes option pricing model, with the following assumptions, quoted at their weighted averages:

	<u>Q2 2008</u>	<u>Q2 2007</u>
Expected dividend yield	0%	0%
Expected volatility	86.34%	79.9%
Risk-free interest rate	3.5%	3.97%
Expected life	5 years	5 years

16. RELATED PARTY TRANSACTIONS

The Company was charged \$30,000 during the six months ended June 30, 2008 (Q2 2007: \$32,100) by companies controlled by directors of the Company for administration and engineering services.

An amount of \$30,000 is payable to directors and officers or companies controlled by directors and officers of the Company at June 30, 2008 (Q2 2007: \$nil).

During the six months ended June 30, 2008, 100,000 options were granted to a newly appointed officer of the Company exercisable at a price of \$0.88 per share (Q2 2007: 100,000 at \$1.14 per share).

The Company shares its premises with other companies that have common directors and officers, and the Company reimburses the related companies for their proportional share of the expenses. Included in accounts payable and accrued liabilities at June 30, 2008 is \$47,588 (Q2 2007: \$74,199) owing to such companies. As well, the Company is owed \$17,970 from related parties for shared expenses (Q2 2007: \$2,679).

A royalty of US\$106,124 (CDN\$106,591) was paid during the quarter ended March 31, 2008 to a company controlled by a director of the Company, all of which had been accrued at December 31, 2007 (Note 6). A further US\$93,000 was accrued at June 30, 2008 related to gold production during the period.

All of the above transactions are in the normal course of operations and are measured at the exchange amount which is the amount of consideration established and agreed to by the related parties.

17. COMMITMENTS AND CONTINGENCIES

i. The Company is party to certain management contracts. These contracts contain clauses requiring additional payments of up to \$3 million be made upon the occurrence of certain events such as a change of control. As the likelihood of these events taking place is not determinable, the contingent payments have not been reflected in these interim unaudited consolidated financial statements. Additional minimum management contract commitments remaining under the agreements are approximately \$500,000.

ALEXIS MINERALS CORPORATION

(A Development Stage Company)

Notes to the Unaudited Consolidated Financial Statements
For the six months ended June 30, 2008

17. COMMITMENTS AND CONTINGENCIES (continued)

ii. The Company is committed to minimum amounts under long-term capital lease agreements for equipment, which expire in September 2011. Minimum commitments remaining under these leases were approximately \$1,095,000, including imputed interest of approximately \$81,000, over the following twelve-month periods ending:

2008	276,000
2009	528,000
2010	269,000
2011	22,000
	<u>1,095,000</u>

iii. The Company has been named as a defendant in a legal action relating to the cancellation of 100,000 options held by a former consultant. These options were cancelled three months after the termination of the contract pursuant to the terms of the stock option plan of the Company. The former consultant is claiming \$750,000 in damages for breach of agreement. Management believes that the claim is without merit and plans to vigorously defend itself.

18. INTEREST IN JOINT VENTURE

The Company's proportionate share of the assets, liabilities and cash flows of its joint venture included in these interim unaudited consolidated financial statements are as follows:

	Novicourt JV		Xstrata JV	
	2008	2007	2008	2007
Current assets	-	-	-	-
Exploration properties and deferred exploration expenditures	3,502,356	2,906,576	421,297	-
Current liabilities	-	-	(212,799)	-
Revenues	-	-	-	-
Expenses	-	-	-	-
Cash flows from operating activities	-	-	-	-
Cash flows from investing activities	-	-	-	-

Novicourt JV

As the joint venture partner has opted to no longer fund this joint venture, their interest is decreasing as the Company continues to incur expenditures on the properties. At June 30, 2008, the Company's interest in this joint venture has increased to 75%.

Xstrata JV

The Company vested into a 50% interest in the Xstrata group of properties during the six months ended June 30, 2008. Xstrata is operator of this joint venture. Effective April 2008, the Company contributes funding for 50% of the total expenditures.

19. COMPARATIVE FIGURES

Certain comparative amounts have been reclassified to conform to the current period's presentation.

ALEXIS MINERALS CORPORATION

(A Development Stage Company)

Notes to the Unaudited Consolidated Financial Statements
For the six months ended June 30, 2008

20. SUBSEQUENT EVENTS

The Company completed a custom milling campaign in July 2008 recovering a total of 5,047 ounces of gold from 26,798 dry tonnes of ore processed. In July 2008, the Company sold 1,625 oz of gold at a price of \$970 per oz.

In July 2008, the Company received \$8,900,000 in 2007 Quebec government assistance, and from that repaid the outstanding demand loans plus accrued interest.
