The Committee's responsibility is oversight of the Company's compliance with legal and regulatory requirements related to compliance matters, including product safety and quality and the development, manufacturing, marketing, distribution and sale of the Company's products as well as other related Company matters, excluding matters regarding financial compliance, which are subject to the oversight of the Audit Committee. The Committee relies on the expertise and knowledge of management and

consultants as it deems necessary in carrying out its oversight responsibilities. Management of the Company is responsible for conforming the Company's conduct to the dictates of legal and regulatory requirements and the Company's internal policies and procedures. Management also is responsible for developing and supervising the Company's internal programs and monitoring the Company's compliance with applicable laws, regulations, policies and procedures.

Thus, it is not the duty of the Committee to plan or conduct compliance audits, to conduct investigations, or to assure compliance with such laws or regulations, or the Company's internal policies, procedures and controls. Rather, the Committee will oversee the work of the Company's senior compliance executives and other relevant members of senior management, and will receive reports from such executives and, as appropriate, other employees, about material issues and/or matters related to the Company's compliance with such laws and regulations. From time to time, as appropriate, the Committee will give guidance to management and will report any material findings of the Committee to the Board. As part of its oversight, the Committee shall:

- Meet periodically with the Company's Chief Executive Officer, Compliance Officer, General Counsel, and other members of management (as appropriate) to receive reports from such executives and review the adequacy of the Company's internal controls, policies, procedures and programs regarding (i) product safety and quality, (ii) the development, manufacturing, marketing, distribution and sale of the Company's products, and (iii) the Company's compliance with related legal and regulatory requirements (including compliance with the Federal Food, Drug and Cosmetic Act and the regulations promulgated thereunder, federal and state anti-kick-back laws and government price reporting requirements).
- Discuss with the Company's Chief Executive Officer, Compliance Officer, General Counsel, and other members of management (as appropriate) any correspondence with regulators or governmental agencies and any employee complaints or reports which raise material issues regarding the Company's compliance with legal and regulatory requirements related to drug safety and quality and the development, manufacturing, marketing, distribution and sale of the Company's products.
- Review the Company's Corporate Code of Ethics and Conduct periodically and make recommendations to the Board with respect to changes to the Code of Conduct.
- Oversee and monitor the resources assigned to the Company's compliance function and programs to assess their adequacy.

Controls and Procedures

Oversight. The Committee shall:

- Coordinate the Board of Directors' oversight of the non-financial compliance aspects of the Company's internal compliance system, the Company's disclosure controls and procedures, and the Company's Code of Conduct.
- Review the non-financial aspects of the risk management policies followed by the Company in operating its business activities.

Procedures for Complaints. The Committee shall ensure that the Company has adequate procedures for the receipt, retention and treatment of complaints received by the Company regarding non-financial compliance matters, including for the confidential, anonymous submission by employees of the Company of concerns regarding such matters.

Additional Powers. The Committee shall have such other duties as may be delegated from time to time by the Board of Directors.

In addition, the Committee will meet at any time that it or the Company's Compliance Officer believes that communication to the Committee is required. The Committee may additionally meet with other employees of the Company as it deems appropriate.
