Management's Discussion and Analysis

The following Management's Discussion and Analysis ("MD&A") for Loblaw Companies Limited and its subsidiaries (collectively, the "Company" or "Loblaw") should be read in conjunction with the Company's second quarter 2018 unaudited interim period condensed consolidated financial statements and the accompanying notes included in this Quarterly Report, the audited annual consolidated financial statements and the accompanying notes for the year ended December 30, 2017 and the related annual MD&A included in the Company's 2017 Annual Report – Financial Review ("2017 Annual Report").

The Company's second quarter 2018 unaudited interim period condensed consolidated financial statements and the accompanying notes have been prepared in accordance with International Financial Reporting Standards ("IFRS" or "GAAP"). These unaudited interim period condensed consolidated financial statements include the accounts of the Company and other entities that the Company controls and are reported in Canadian dollars.

Management uses non-GAAP financial measures to exclude the impact of certain expenses and income that must be recognized under GAAP when analyzing consolidated and segment underlying operating performance, as the excluded items are not necessarily reflective of the Company's underlying operating performance and make comparisons of underlying financial performance between periods difficult. The Company excludes additional items if it believes doing so would result in a more effective analysis of underlying operating performance. The exclusion of certain items does not imply that they are non-recurring. See Section 12 "Non-GAAP Financial Measures" for more information on the Company's non-GAAP financial measures.

A glossary of terms used throughout this Quarterly Report can be found on page 127 of the Company's 2017 Annual Report.

The information in this MD&A is current to July 24, 2018, unless otherwise noted.

On May 4, 2018, Choice Properties Real Estate Investment Trust ("Choice Properties") completed the acquisition of Canadian Real Estate Investment Trust ("CREIT"), as described in Section 4.3 "Other Choice Properties' Business Matters" of this MD&A. The Company's second quarter 2018 results include the impacts of CREIT.

1. Forward-Looking Statements

This Quarterly Report, including this MD&A, for the Company contains forward-looking statements about the Company's objectives, plans, goals, aspirations, strategies, financial condition, results of operations, cash flows, performance, prospects, opportunities and legal and regulatory matters. Specific forward-looking statements in this Quarterly Report include, but are not limited to, statements with respect to the Company's anticipated future results, events and plans, strategic initiatives and restructuring, regulatory changes including minimum wage increases and further healthcare reform, future liquidity, planned capital investments, and the status and impact of information technology ("IT") systems implementations. These specific forward-looking statements are contained throughout this Quarterly Report including, without limitation, in Section 4.1 "Retail Segment" Other Retail Business Matters, Section 4.3 "Choice Properties Segment" Other Choice Properties' Business Matters, Section 5 "Liquidity and Capital Resources", Section 11 "Outlook" and Section 12 "Non-GAAP Financial Measures" of this MD&A. Forward-looking statements are typically identified by words such as "expect", "anticipate", "believe", "foresee", "could", "estimate", "goal", "intend", "plan", "seek", "strive", "will", "may", "should" and similar expressions, as they relate to the Company and its management.

Forward-looking statements reflect the Company's estimates, beliefs and assumptions, which are based on management's perception of historical trends, current conditions and expected future developments, as well as other factors it believes are appropriate in the circumstances. The Company's expectation of operating and financial performance in 2018 is based on certain assumptions including assumptions about anticipated minimum wage increases, healthcare reform impacts, cost savings, operating efficiencies and anticipated benefits from strategic initiatives. The Company's estimates, beliefs and assumptions are inherently subject to significant business, economic, competitive and other uncertainties and contingencies regarding future events, and as such, are subject to change. The Company can give no assurance that such estimates, beliefs and assumptions will prove to be correct.

Numerous risks and uncertainties could cause the Company's actual results to differ materially from those expressed, implied or projected in the forward-looking statements, including those described in Section 12 "Enterprise Risks and Risk Management" of the Company's 2017 Annual Report, and the Company's 2017 Annual Information Form ("AIF") (for the year ended December 30, 2017). Such risks and uncertainties include:

- changes to the regulation of generic prescription drug prices, the reduction of reimbursements under public drug benefit plans and the elimination or reduction of professional allowances paid by drug manufacturers;
- failure to effectively manage the Company's loyalty program;
- the inability of the Company's IT infrastructure to support the requirements of the Company's business, or the occurrence of any internal or external security breaches, denial of service attacks, viruses, worms and other known or unknown cybersecurity or data breaches;
- failure to execute the Company's e-commerce initiative or to adapt its business model to the shifts in the retail landscape caused by digital advances;

- failure to realize benefits from investments in the Company's new IT systems;
- failure to effectively respond to consumer trends or heightened competition, whether from current competitors or new entrants to the marketplace;
- changes to any of the laws, rules, regulations or policies applicable to the Company's business, including increases to minimum wage;
- public health events including those related to food and drug safety;
- failure to realize the anticipated benefits, including revenue growth, anticipated cost savings or operating efficiencies, associated with the Company's investment in major initiatives that support its strategic priorities, including Choice Properties failure to realize the anticipated benefits from the acquisition of CREIT;
- adverse outcomes of legal and regulatory proceedings and related matters;
- reliance on the performance and retention of third party service providers, including those associated with the Company's supply chain and apparel business, including issues with vendors in both advanced and developing markets;
- failure to achieve desired results in labour negotiations, including the terms of future collective bargaining agreements;
- the inability of the Company to manage inventory to minimize the impact of obsolete or excess inventory and to control shrink; and
- changes in economic conditions, including economic recession or changes in the rate of inflation or deflation, employment rates and household debt, political uncertainty, tariff disputes, which may include newly imposed surtaxes, interest rates, currency exchange rates or derivative and commodity prices.

This is not an exhaustive list of the factors that may affect the Company's forward-looking statements. Other risks and uncertainties not presently known to the Company or that the Company presently believes are not material could also cause actual results or events to differ materially from those expressed in its forward-looking statements. Additional risks and uncertainties are discussed in the Company's materials filed with the Canadian securities regulatory authorities ("securities regulators") from time to time, including, without limitation, the section entitled "Risks" in the Company's 2017 AIF (for the year ended December 30, 2017). Readers are cautioned not to place undue reliance on these forward-looking statements, which reflect the Company's expectations only as of the date of this MD&A. Except as required by law, the Company does not undertake to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

(i) Net earnings available to common shareholders of the Company are net earnings attributable to shareholders of the Company net of dividends declared on the Company's Second Preferred Shares, Series B.

The Company's year-over-year financial performance will be negatively impacted by minimum wage increases and incremental healthcare reform. The disposition of the Company's gas bar operations, in the third quarter of 2017, had a negative year-over-year impact on financial performance.

In the second quarter of 2018, Choice Properties completed the acquisition of CREIT. The impact of the CREIT acquisition on consolidated results was an increase in revenue of \$69 million, adjusted EBITDA⁽²⁾ of approximately \$48 million and net interest expense and other financing charges of \$48 million in the second quarter of 2018. The acquisition had a nominal impact on adjusted net earnings available to common shareholders of the Company⁽²⁾ in the second quarter of 2018. On a year-to-date basis net interest expense and other financing charges included an additional \$2 million which was recorded in the first quarter of 2018.

Net Earnings Available to Common Shareholders of the Company and Diluted Net Earnings Per Common Share Net earnings available to common shareholders of the Company in the second quarter of 2018 were \$50 million (\$0.13 per common share), a decrease of \$309 million (\$0.77 per common share) compared to the second quarter of 2017. The decrease included the decline in underlying operating performance of approximately \$12 million, excluding the unfavourable impact of the disposition of gas bar operations of approximately \$13 million, and the unfavourable year-over-year net impact of adjusting items totaling \$284 million, as described below:

- the decline in underlying operating performance of \$25 million (\$0.06 per common share) was primarily due to the Retail segment (excluding the impact of the consolidation of franchises) driven by the unfavourable impact of the disposition of gas bar operations of approximately \$13 million, an increase in selling, general and administrative expenses ("SG&A"), a decrease in adjusted gross profit⁽²⁾ and an increase in depreciation and amortization.
- the unfavourable year-over-year net impact of adjusting items totaling \$284 million (\$0.77 per common share) was primarily due to the following:
 - the change in fair value adjustment to the Trust Unit Liability of \$193 million (\$0.51 per common share);
 - acquisition and other costs related to Choice Properties' acquisition of CREIT of \$100 million (\$0.26 per common share); and
 - the change in fair value adjustment to investment properties of \$8 million (\$0.02 per common share);partially offset by,
 - the favourable impact of the reversal of provisions in the second quarter of 2018 related to the Loblaw Card Program of \$8 million (\$0.02 per common share); and
 - the change in fair value adjustment on fuel and foreign currency contracts of \$4 million (\$0.01 per common share).
- the decrease in diluted net earnings per common share also included the favourable impact of the repurchase of common shares (\$0.06 per common share).

The Choice Properties segment included the positive adjusted EBITDA⁽²⁾ contribution from the acquisition of CREIT, which was offset by an increase in adjusted net interest expense and other financing charges⁽²⁾ related to the acquisition. The increase in adjusted net interest expense and other financing charges⁽²⁾ related to the acquisition included interest expense on Choice Properties issuance of unsecured senior debentures, higher distributions from Trust units issued to former CREIT unitholders as part of the acquisition consideration and interest expense on debt acquired as part of the acquisition.

Adjusted net earnings available to common shareholders of the Company⁽²⁾ in the second quarter of 2018 were \$421 million (\$1.11 per common share), a decrease of \$25 million (flat per common share), compared to the second quarter of 2017. Normalized for the disposition of gas bar operations, adjusted net earnings available to common shareholders of the Company⁽²⁾ decreased by approximately \$12 million, as described above. Adjusted diluted net earnings per common share⁽²⁾ also included the favourable impact of the repurchase of common shares (\$0.06 per common share). Normalized for the disposition of gas bar operations, adjusted diluted net earnings per common share⁽²⁾ increased by approximately 3.7%.

Year-to-date net earnings available to common shareholders of the Company were \$427 million (\$1.12 per common share), a decrease of \$164 million (\$0.35 loss per common share) compared to the same period in 2017. The decrease in net earnings available to common shareholders of the Company included a decline in underlying operating performance of \$8 million, excluding the unfavourable impact of the disposition of gas bar operations of approximately \$22 million, and the unfavourable year-over-year net impact of adjusting items totaling \$134 million, as described below:

- the decline in underlying operating performance of \$30 million (\$0.07 per common share) was primarily due to the following:
 - the Retail segment (excluding the impact of the consolidation of franchises), driven by the unfavourable impact of the disposition of gas bar operations of approximately \$22 million, an increase in SG&A and an increase in depreciation and amortization, partially offset by an increase in adjusted gross profit⁽²⁾; and
 - an increase in adjusted net interest expense and other financing charges⁽²⁾, excluding the acquisition of CREIT, due to higher interest expense in the Retail and Financial Services segments;partially offset by,
 - the Choice Properties segment, excluding the acquisition of CREIT, was driven by the expansion of the property portfolio through acquisitions and completed development projects, as well as an increase in net operating income from existing properties. The Choice Properties segment also included positive EBITDA contribution from the acquisition of CREIT, which was offset by an increase in adjusted net interest expense and other financing charges⁽²⁾ related to the acquisition, as described above; and
 - the Financial Services segment, primarily due to the strong credit performance of the credit card portfolio.

- the unfavourable year-over-year net impact of adjusting items totaling \$134 million (\$0.38 per common share) was primarily due to the following:
 - acquisition and other costs related to Choice Properties' acquisition of CREIT of \$109 million (\$0.29 per common share);
 - the change in fair value adjustment to the Trust Unit Liability of \$33 million (\$0.09 per common share);
 - the unfavourable impact of healthcare reform on inventory balances of \$14 million (\$0.04 per common share); and
 - the change in fair value adjustment to investment properties of \$8 million (\$0.02 per common share);
 partially offset by,
 - the favourable impact of income earned, net of certain costs incurred, from the wind-down of *PC Financial* banking services of \$15 million (\$0.04 per common share); and
 - the change in fair value adjustment on fuel and foreign currency contracts of \$12 million (\$0.03 per common share).
- the decrease in diluted net earnings per common share also included the favourable impact of the repurchase of common shares (\$0.10 per common share).

Year-to-date adjusted net earnings available to common shareholders of the Company⁽²⁾ were \$782 million (\$2.05 per common share), a decrease of \$30 million (\$0.03 loss per common share) compared to the same period in 2017. Normalized for the disposition of gas bar operations, adjusted net earnings available to common shareholders of the Company⁽²⁾ decreased by approximately \$8 million, as described above. Adjusted diluted net earnings per common share⁽²⁾ also included the favourable impact of the repurchase of common shares (\$0.10 per common share). Normalized for the disposition of gas bar operations, adjusted diluted net earnings per common share⁽²⁾ increased by approximately 4.0%.

Revenue

For the periods ended June 16, 2018 and June 17, 2017 (millions of Canadian dollars except where otherwise indicated)	2018				2018			
	(12 weeks)	2017 ⁽⁴⁾⁽⁵⁾ (12 weeks)	\$ Change	% Change	(24 weeks)	2017 ⁽⁴⁾⁽⁵⁾ (24 weeks)	\$ Change	% Change
Retail	\$ 10,600	\$ 10,871	\$ (271)	(2.5)%	\$ 20,755	\$ 21,079	\$ (324)	(1.5)%
Financial Services	242	226	16	7.1 %	472	439	33	7.5 %
Choice Properties	295	209	86	41.1 %	510	412	98	23.8 %
Consolidation and Eliminations	(214)	(226)	12		(447)	(446)	(1)	
Revenue	\$ 10,923	\$ 11,080	\$ (157)	(1.4)%	\$ 21,290	\$ 21,484	\$ (194)	(0.9)%

Revenue was \$10,923 million in the second quarter of 2018, a decrease of \$157 million, or 1.4%, compared to the second quarter of 2017, primarily driven by a decrease in Retail segment sales of \$271 million. Excluding the consolidation of franchises, Retail segment sales decreased by \$370 million, or 3.5%. The decrease was primarily due to the impact of the disposition of gas bar operations of \$376 million, partially offset by positive same-store sales growth. The decline in Retail segment sales was partially offset by an increase in the Choice Properties segment net of Consolidation and Eliminations due to the acquisition of CREIT.

Year-to-date revenue was \$21,290 million in 2018, a decrease of \$194 million, or 0.9%, compared to the same period in 2017, primarily driven by a decrease in Retail segment sales of \$324 million. Excluding the consolidation of franchises, Retail segment sales decreased by \$481 million, or 2.3%. The decrease was primarily due to the impact of the disposition of gas bar operations of \$720 million, partially offset by positive same-store sales growth and a net increase in Retail square footage. The impact of the timing of New Year's Day was nominal on Food and Drug retail same-store sales growth. The decline in Retail segment sales was partially offset by an increase in the Choice Properties segment net of Consolidation and Eliminations due to the acquisition of CREIT, and the Financial Services segment.

Operating Income Operating income was \$561 million in the second quarter of 2018, a decrease of \$66 million compared to the second quarter of 2017. The decrease in operating income included an improvement in underlying operating performance of \$27 million and the unfavourable year-over-year net impact of adjusting items totaling \$93 million, as described below:

- improvements in underlying operating performance of \$27 million were primarily due to the Choice Properties segment net of Consolidation and Eliminations, driven by the acquisition of CREIT, and the Financial Services segment partially offset by the Retail segment, including the unfavourable impact of the disposition of gas bar operations. The Retail segment's year-over-year second quarter performance included the favourable contribution from the consolidation of franchises; and
- the unfavourable year-over-year net impact of adjusting items totaling \$93 million was primarily due to the following:
 - acquisition and other costs related to Choice Properties' acquisition of CREIT of \$108 million; and
 - the change in fair value adjustment to investment properties of \$10 million; partially offset by,
 - the favourable impact of the reversal of provisions in the second quarter of 2018 related to the Loblaw Card Program of \$11 million;
 - the change in fair value adjustment on fuel and foreign currency contracts of \$5 million; and
 - the favourable impact of income earned, net of certain costs incurred, from the wind-down of *PC Financial* banking services of \$3 million.

Year-to-date operating income was \$1,041 million in 2018, a decrease of \$81 million compared to the same period in 2017. The decrease in operating income included an improvement in underlying operating performance of \$26 million and the unfavourable year-over-year net impact of adjusting items totaling \$107 million, as described below:

- improvements in underlying operating performance of \$26 million were primarily due to the Choice Properties segment net of Consolidation and Eliminations, driven by the acquisition of CREIT, and the Financial Services segment partially offset by the Retail segment, including the unfavourable impact of the disposition of gas bar operations. The Retail segment's year-over-year performance included the favourable contribution from the consolidation of franchises; and
- the unfavourable year-over-year net impact of adjusting items totaling \$107 million was primarily due to the following:
 - acquisition and other costs related to Choice Properties' acquisition of CREIT of \$120 million;
 - the unfavourable impact of healthcare reform on inventory balances of \$19 million; and
 - the change in fair value adjustment to investment properties of \$10 million; partially offset by,
 - the favourable impact of income earned, net of certain costs incurred, from the wind-down of *PC Financial* banking services of \$20 million; and
 - the change in fair value adjustment on fuel and foreign currency contracts of \$16 million.

Adjusted EBITDA⁽²⁾

For the periods ended June 16, 2018 and June 17, 2017 (millions of Canadian dollars except where otherwise indicated)	2018				2017 ⁽⁴⁾⁽⁵⁾			
	(12 weeks)	(12 weeks)	\$ Change	% Change	(24 weeks)	(24 weeks)	\$ Change	% Change

Adjusted EBITDA ⁽²⁾	\$ 1,027	\$ 986	\$ 41	4.2 %	\$ 1,903	\$ 1,854	\$ 49	2.6 %

Adjusted EBITDA⁽²⁾ was \$1,027 million in the second quarter of 2018, an increase of \$41 million compared to the second quarter of 2017. The increase in adjusted EBITDA⁽²⁾ in the second quarter of 2018 was primarily due to the Choice Properties segment net of Consolidation and Eliminations, driven by the acquisition of CREIT, and the Financial Services segment. The increase was partially offset by the Retail segment which included the unfavourable impact of the disposition of gas bar operations of \$20 million and the favourable contribution from the consolidation of franchises of \$13 million.

Year-to-date adjusted EBITDA⁽²⁾ was \$1,903 million in 2018, an increase of \$49 million compared to the same period in 2017. The year-to-date increase in adjusted EBITDA⁽²⁾ was primarily due to the Choice Properties segment net of Consolidation and Eliminations, driven by the acquisition of CREIT, and the Financial Services segment. The increase was partially offset by the Retail segment which included the unfavourable impact of the disposition of gas bar operations of \$30 million and the favourable contribution from the consolidation of franchises of \$13 million.

Depreciation and Amortization Depreciation and amortization was \$372 million in the second quarter of 2018, an increase of \$12 million compared to the second quarter of 2017. Year-to-date depreciation and amortization was \$741 million in 2018, an increase of \$21 million compared to the same period in 2017. The increase in depreciation and amortization in the second quarter of 2018 and year-to-date was primarily driven by the consolidation of franchises and an increase in IT assets. Included in depreciation and amortization in the second quarter of 2018 and year-to-date was the amortization of intangible assets related to the acquisition of Shoppers Drug Mart Corporation ("Shoppers Drug Mart") of \$119 million (2017 – \$121 million) and \$240 million (2017 – \$242 million), respectively.

Net Interest Expense and Other Financing Charges

For the periods ended June 16, 2018 and June 17, 2017 (millions of Canadian dollars except where otherwise indicated)	2018 (12 weeks)	2017 (12 weeks)	2018 (24 weeks)	2017 (24 weeks)
Net interest expense and other financing charges	\$ 370	\$ 127	\$ 383	\$ 288
Add (deduct) impact of the following:				
Fair value adjustment to the Trust Unit Liability	(192)	1	(68)	(35)
Adjusted net interest expense and other financing charges ⁽²⁾	\$ 178	\$ 128	\$ 315	\$ 253

Net interest expense and other financing charges were \$370 million in the second quarter of 2018, an increase of \$243 million compared to the second quarter of 2017. The increase in net interest and other financing charges for the second quarter of 2018 was primarily due to change in the fair value adjustment to the Trust Unit Liability of \$193 million.

Adjusted net interest expense and other financing charges⁽²⁾ were \$178 million in the second quarter of 2018, an increase of \$50 million compared to second quarter of 2017. The increase in adjusted net interest and other financing charges⁽²⁾ in the second quarter of 2018 was primarily driven by higher interest expense in the Choice Properties segment as a result of the issuance of new unsecured senior debentures and higher distributions from newly issued Trust units to former CREIT unitholders as part of the acquisition consideration.

Year-to-date net interest expense and other financing charges were \$383 million in 2018, an increase of \$95 million compared to the same period in 2017. The year-to-date increase in net interest and other financing charges was primarily due to change in the fair value adjustment to the Trust Unit Liability of \$33 million.

Year-to-date adjusted net interest expense and other financing charges⁽²⁾ were \$315 million in 2018, an increase of \$62 million compared to the same period in 2017 and included:

- higher interest expense in the Choice Properties segment as a result of the issuance of new unsecured senior debentures and higher distributions from newly issued Trust units to former CREIT unitholders as part of the acquisition consideration and the call premium for the early redemption of the Series A senior unsecured debenture;
- higher interest expense in the Financial Services segment due to an increase in borrowings related to credit receivables; and
- higher interest expense in the Retail segment due to higher interest rates on variable rate debt.

The effective tax rate in the second quarter of 2018 was 66.0% compared to 27.0% in the second quarter of 2017. The year-to-date effective tax rate in 2018 was 33.1% compared to 28.2% for the same period in 2017. The increase in the effective tax rate in the second quarter of 2018 and year-to-date was primarily attributable to the impact of non-deductible items including costs related to the acquisition of CREIT and an increase in the non-deductible fair value adjustment to the Trust Unit Liability.

The adjusted income tax rate⁽²⁾ in the second quarter of 2018 was 26.8% compared to 27.0% in the second quarter of 2017. The year-to-date adjusted income tax rate⁽²⁾ in 2018 was 26.9% compared to 27.0% for the same period 2017. The decrease in the adjusted income tax rate⁽²⁾ in the second quarter of 2018 and year-to-date was primarily attributable to the impact of certain non-deductible items.

4. Reportable Operating Segments Results of Operations

The Company has three reportable operating segments with all material operations carried out in Canada:

- The Retail segment consists primarily of corporate and franchise-owned retail food and Associate-owned drug stores, which includes in-store pharmacies and other health and beauty products, apparel and other general merchandise, and provides the *PC Optimum* program. This segment is comprised of several operating segments that are aggregated primarily due to similarities in the nature of products and services offered for sale in the retail operations and the customer base. Prior to July 17, 2017, the Retail segment also included gas bar operations.
- The Financial Services segment provides credit card services, the *PC Optimum* program, insurance brokerage services, Guaranteed Investment Certificates and telecommunication services. As a result of the wind-down of *PC Financial* banking services, the Financial Services segment no longer offers personal banking services.
- Choice Properties owns, manages and develops a high quality portfolio of commercial retail, industrial, office and residential properties across Canada. The Choice Properties segment information presented below reflects the accounting policies of Choice Properties, which may differ from those of the consolidated Company. Differences in policies are eliminated in Consolidation and Eliminations. As of May 4, 2018, the Choice Properties segment includes the acquisition of CREIT.

Sales Retail segment sales in the second quarter of 2018 were \$10,600 million, a decrease of \$271 million, or 2.5%, compared to the second quarter of 2017. Excluding the consolidation of franchises, Retail segment sales decreased by \$370 million, or 3.5%, primarily driven by the following factors:

- The impact of the disposition of gas bar operations of \$376 million; and
- The impact of incremental healthcare reform on Drug retail; partially offset by
- Food retail same-store sales growth was 0.8% (2017 – 1.0%) for the quarter, after excluding gas bar operations. The timing of Easter had a nominal impact on food retail same-store sales growth in the second quarter of 2018. In the second quarter of 2017, food retail same-store sales were relatively flat excluding the favourable impact of the timing of Easter. Including gas bar operations, food retail same-store sales growth was 0.8% (2017 – 1.2%).
 - Sales growth in food was modest;
 - Sales in pharmacy declined marginally; and
 - The Company's Food retail average quarterly internal food price index was marginally lower than (2017 – marginally higher than) the average quarterly national food price inflation of 0.1% (2017 – deflation of 1.4%), as measured by The Consumer Price Index for Food Purchased from stores ("CPI"). CPI does not necessarily reflect the effect of inflation on the specific mix of goods sold in the Company's stores.
- Drug retail same-store sales growth was 1.7% (2017 – 3.7%) and was comprised of pharmacy same-store sales growth of 0.3% (2017 – 2.9%) and front store same-store sales growth of 3.0% (2017 – 4.5%). The timing of Easter had a nominal impact on drug retail same-store sales growth in the second quarter of 2018. In the second quarter of 2017, excluding the favourable impact of the timing of Easter, Drug retail same-store sales growth was approximately 2.9%.
 - Pharmacy same-store sales growth was 0.3% (2017 – 2.9%). The number of prescriptions dispensed increased by 3.0% (2017 – increased by 4.4%). On a same-store basis, the number of prescriptions dispensed increased by 2.9% (2017 – increased by 3.7%) and year-over-year, the average prescription value decreased by 2.6% (2017 – decreased by 1.1%). The timing of Easter had a nominal impact on pharmacy same-store sales growth in the second quarter of 2018. In the second quarter of 2017, excluding the unfavourable impacts of the timing of Easter, pharmacy same-store sales growth was approximately 3.5%.
 - Front store same-store sales growth was 3.0% (2017 – 4.5%). The timing of Easter had a nominal impact on front store same-store sales growth in the second quarter of 2018. In the second quarter of 2017, excluding the favourable impacts of the timing of Easter, front store same-store sales growth was approximately 2.3%.
- 16 food and drug stores were opened and 23 food and drug stores were closed in the last 12 months, resulting in a net increase in Retail square footage of 0.1 million square feet, or 0.1%.

On a year-to-date basis, retail sales were \$20,755 million, a decrease of \$324 million, or 1.5%, compared to the same period in 2017. Year-to-date Food retail sales of \$14,947 million were lower by \$476 million, or 3.1%. The decrease was primarily due to the impact of the disposition of gas bar operations of \$720 million. Drug retail sales of \$5,808 million were higher by \$152 million, or 2.7%. Year-to-date Food retail same-store sales growth was 1.3% (2017 – decline of 0.5%), after excluding gas bar operations. Including gas bar operations same-store sales growth was 1.3% (2017 – flat). Year-to-date Drug retail same-store sales growth was 2.7% (2017 – 2.4%), with pharmacy same-store sales growth of 1.9% (2017 – 2.1%) and front store same-store sales growth of 3.4% (2017 – 2.5%).

The redemption of Loblaw Cards resulted in the delivery of approximately \$36 million of free products to customers in the second quarter of 2018 and \$53 million year-to-date, which was provided for in the fourth quarter of 2017. The redemptions did not benefit sales or the Company's financial performance and Management does not believe it had a significant impact on food retail same-store-sales.

Operating Income Operating income in the second quarter of 2018 was \$568 million, a decrease of \$10 million compared to the second quarter of 2017. The decrease in operating income included a decline in underlying operating performance of \$31 million and the favourable year-over-year net impact of adjusting items totaling \$21 million, as described below:

- the decline in underlying operating performance of \$31 million, including the unfavourable impact of the disposition of gas bar operations, was driven by an increase in SG&A and depreciation and amortization partially offset by an increase in adjusted gross profit⁽²⁾. The decline in underlying operating performance also included the favourable year-over-year contribution from the consolidation of franchises of \$10 million; and
- the favourable year-over-year net impact of adjusting items totaling \$21 million was primarily due to the following:
 - the favourable impact of the reversal of provisions in the second quarter of 2018 related to the Loblaw Card Program of \$11 million; and
 - the change in fair value adjustment on fuel and foreign currency contracts of \$5 million.

Year-to-date operating income was \$967 million, a decrease of \$57 million compared to the same period in 2017. The decrease in operating income was driven by a decline in underlying operating performance of \$59 million and the favourable year-over-year net impact of adjusting items totaling \$2 million, as described below:

- the decline in underlying operating performance of \$59 million, including the unfavourable impact of the disposition of gas bar operations of approximately \$30 million, was driven by an increase in SG&A and depreciation and amortization partially offset by an increase in adjusted gross profit⁽²⁾. The decline in underlying operating performance also included the favourable contribution from the consolidation of franchises of \$7 million; and
- the favourable year-over-year net impact of adjusting items totaling \$2 million was primarily due to the following:
 - the change in fair value adjustment on fuel and foreign currency contracts of \$16 million;
 - the favourable year-over-year impact of pension annuities and buy-outs in the prior year of \$6 million;partially offset by,
 - the unfavourable impact of healthcare reform on inventory balances of \$19 million; and
 - the unfavourable impact of the Loblaw Card Program of \$8 million.

Adjusted Gross Profit⁽²⁾ Adjusted gross profit⁽²⁾ in the second quarter of 2018 was \$3,127 million, an increase of \$76 million compared to the second quarter of 2017. Adjusted gross profit percentage⁽²⁾ of 29.5% increased by 140 basis points compared to the second quarter of 2017. Excluding the consolidation of franchises, adjusted gross profit⁽²⁾ decreased by \$7 million. Adjusted gross profit percentage⁽²⁾, excluding the consolidation of franchises, was 27.9%, an increase of 90 basis points compared to the second quarter of 2017. The increase in adjusted gross profit percentage⁽²⁾ was primarily due to the favourable impact from the disposition of gas bar operations of approximately 70 basis points. Margins were positively impacted by Food retail and negatively impacted by healthcare reform.

Year-to-date adjusted gross profit⁽²⁾ was \$6,106 million, an increase of \$169 million compared to the same period of 2017. Adjusted gross profit percentage⁽²⁾ of 29.4% increased by 120 basis points compared to 2017. Excluding the consolidation of franchises, adjusted gross profit⁽²⁾ increased by \$23 million. Adjusted gross profit percentage⁽²⁾, excluding the consolidation of franchises, was 27.9%, an increase of 80 basis points compared to the same period of 2017. The increase in adjusted gross profit percentage⁽²⁾ was mainly due to the favourable impact from the disposition of gas bar operations of approximately 80 basis points. Margins were positively impacted by Food retail and negatively impacted by healthcare reform.

Adjusted EBITDA⁽²⁾ Adjusted EBITDA⁽²⁾ in the second quarter of 2018 was \$911 million, a decrease of \$19 million compared to the second quarter of 2017 and included the favourable impact of the consolidation of franchises of \$13 million and the unfavourable impact of the disposition of gas bar operations of approximately \$20 million. The decrease in adjusted EBITDA⁽²⁾ of \$19 million was driven by an increase in SG&A of \$95 million partially offset by an increase in adjusted gross profit⁽²⁾ as described above. SG&A as a percentage of sales was 20.9%, an increase of 140 basis points compared to the second quarter of 2017. Excluding the consolidation of franchises, SG&A increased \$25 million. SG&A as a percentage of sales, excluding the consolidation of franchises, was 19.3%, an unfavourable increase of 90 basis points compared to the second quarter of 2017 primarily driven by:

- the unfavourable impact from the disposition of gas bar operations of approximately 60 basis points;
 - higher store costs driven by minimum wage increases; and
 - the unfavourable impact of foreign exchange;
- partially offset by,
- previously announced cost saving initiatives.

Year-to-date adjusted EBITDA⁽²⁾ was \$1,703 million, a decrease of \$38 million, compared to the same period of 2017 and included the favourable impact of the consolidation of franchises of \$13 million as well as the unfavourable impact of the disposition of gas bar operations of approximately \$30 million. The decrease in adjusted EBITDA⁽²⁾ of \$38 million was driven by an increase in SG&A of \$207 million partially offset by an increase in adjusted gross profit⁽²⁾ as described above. SG&A as a percentage of sales was 21.2%, an increase of 130 basis points compared to 2017. Excluding the consolidation of franchises, SG&A increased \$74 million. SG&A as a percentage of sales, excluding the consolidation of franchises, was 19.7%, an unfavourable increase of 90 basis points compared to 2017 primarily driven by:

- the unfavourable impact from the disposition of gas bar operations of approximately 60 basis points;
 - higher store costs driven by minimum wage increases and the launch of *PC Optimum*; and
 - the unfavourable impact of foreign exchange;
- partially offset by,
- previously announced cost saving initiatives.

Depreciation and Amortization Depreciation and amortization in the second quarter of 2018 was \$363 million, an increase of \$10 million compared to the second quarter of 2017. Year-to-date depreciation and amortization was \$724 million, an increase of \$19 million compared to the same period of 2017. The increase in depreciation and amortization in the second quarter of 2018 and year-to-date was primarily driven by the consolidation of franchises and an increase in IT assets. Included in depreciation and amortization in the second quarter of 2018 and year-to-date was the amortization of intangible assets related to the acquisition of Shoppers Drug Mart of \$119 million (2017 – \$121 million) and \$240 million (2017 – \$242 million), respectively.

Other Retail Business Matters

Consolidation of Franchises The Company has more than 500 franchise food retail stores in its network. As at the end of the second quarter of 2018, 352 of these stores were consolidated for accounting purposes under a new, simplified franchise agreement (“Franchise Agreement”) implemented in 2015.

The Company will convert the remaining franchises to the Franchise Agreement as existing agreements expire, at the end of which all franchises will be consolidated. The following table provides the total impact of the consolidation of franchises included in the consolidated results of the Company.

For the periods ended June 16, 2018 and June 17, 2017 (millions of Canadian dollars unless where otherwise indicated)	2018 (12 weeks)	2017 (12 weeks)	2018 (24 weeks)	2017 (24 weeks)
Number of Consolidated Franchise stores, beginning of period	331	225	310	200
Add: Net number of Consolidated Franchise stores in the period	21	16	42	41
Number of Consolidated Franchise stores, end of period	352	241	352	241
Sales	\$ 254	\$ 155	\$ 453	\$ 296
Adjusted gross profit ⁽²⁾	243	160	445	299

Depreciation and amortization	13	10	25	19
Operating income	12	2	7	—
Net income attributable to non-controlling interests	12	3	7	2

Operating income included in the table above does not significantly impact net earnings available to common shareholders of the Company as the related income is largely attributable to non-controlling interests.

The Company expects⁽³⁾ that the estimated annual impact in 2018 of new and current consolidated franchises will be revenue of approximately \$1,000 million, adjusted EBITDA⁽²⁾ of approximately \$80 million, depreciation and amortization of approximately \$60 million and net earnings attributable to non-controlling interests of approximately \$22 million.

Revenue Revenue in the second quarter of 2018 was \$242 million, an increase of \$16 million compared to the second quarter of 2017. Year-to-date revenue was \$472 million, an increase of \$33 million compared to the same period in 2017. The increase in revenue in the second quarter of 2018 and year-to-date was primarily driven by:

- higher year-over-year interchange income due to an industry-wide reduction in interchange rates imposed on MasterCard International Incorporated® (“MasterCard®”) issuers affecting the first half of 2017;
- higher interest and net interchange income attributable to the growth in the credit card portfolio; and
- higher sales attributable to *The Mobile Shop*.

The increase in year-to-date revenue was partially offset by lower revenue from personal banking services attributable to the discontinuation of the services offered under the *PC Financial* brand in April 2018.

Earnings before income taxes Earnings before income taxes in the second quarter of 2018 were \$36 million, an increase of \$9 million compared to the second quarter of 2017, primarily driven by:

- higher interest and net interchange income attributable to the growth in the credit card portfolio; and
- higher year-over-year interchange income due to an industry-wide reduction in interchange rates imposed on MasterCard® issuers affecting the first half of 2017;

partially offset by,

- higher customer acquisition costs; and
- higher IT costs mainly due to investments in digital strategy.

Year-to-date earnings before income taxes was \$97 million, an increase of \$42 million, compared to the same period in 2017. The increase in earnings before income taxes in the second quarter of 2018 and year-to-date was primarily driven by:

- higher interest and net interchange income attributable to the growth in the credit card portfolio;
- recognition of income of \$20 million, net of certain costs incurred, relating to President's Choice Bank's (“PC Bank's”) agreement to end its business relationship with a major Canadian chartered bank, which represented the personal banking services offered under the *PC Financial* brand. Normal operating income from the same personal banking services ended in April 2018; and
- certain year-to-date one-time gains including the sale of charged-off credit card receivables in the first quarter of 2018 and higher year-over-year interchange income due to an industry-wide reduction in interchange rates imposed on MasterCard® issuers affecting the first half of 2017;

partially offset by,

- higher customer acquisition costs;
- higher IT costs mainly due to investments in digital strategy; and
- lower core banking income attributable to the discontinuation of the services offered under the *PC Financial* brand. Normal operating income from the same personal banking services ended in April 2018.

Credit Card Receivables As at June 16, 2018, credit card receivables were \$3,029 million, an increase of \$121 million compared to June 17, 2017. This increase was primarily driven by growth in the average customer balance and active customer base as a result of continued investments in customer acquisition, marketing and product initiatives, partially offset by an increase in allowances due to the adoption of IFRS 9, “Financial Instruments” (“IFRS 9”). As at June 16, 2018, the allowance for credit card receivables was \$153 million, an increase of \$105 million compared to June 17, 2017, primarily due to the adoption of IFRS 9 as set out in Section 10 “Accounting Standards”.

Other Financial Services Business Matters

Wind-down of PC Financial banking services In the third quarter of 2017, PC Bank entered into an agreement to end its business relationship with a major Canadian chartered bank, which represented the personal banking services offered under the *PC Financial* brand. As a result of this agreement, PC Bank received a payment of approximately \$44 million, net of certain costs incurred, \$20 million of which was recognized in the first half of 2018, \$3 million of which was recognized in the second quarter of 2018, and \$24 million which was recognized in 2017.

PC Bank will continue to operate the *PC MasterCard*® program and customers will earn *PC Optimum* points. PC Bank remains committed to providing payment products to its customers and continues to strengthen its credit card services and loyalty program.

4.3 Choice Properties Segment

Funds from operations ⁽ⁱⁱⁱ⁾⁽²⁾	156	108	48	44.4 %	262	217	45	20.7 %

(i) Net interest expense and other financing charges includes a fair value adjustment on Class B Limited Partnership units.

(ii) Choice Properties qualifies as a “mutual fund trust” under the Income Tax Act (Canada) and therefore net income (loss) is equal to earnings before income taxes.

(iii) Funds from operations is calculated for management purposes and excludes the accelerated amortization of debt premium of \$37 million.

Revenue Revenue in the second quarter of 2018 was \$295 million, an increase of \$86 million compared to the second quarter of 2017 and included \$193 million (2017 – \$182 million) generated from tenants within the Retail segment. Year-to-date revenue was \$510 million, an increase of \$98 million compared to the same period in 2017 and included \$376 million (2017 – \$360 million) generated from tenants within the Retail segment. The increase in revenue in the second quarter of 2018 and year-to-date was primarily driven by:

- revenue of \$70 million generated from the investment properties acquired as part of the acquisition of CREIT;
- revenue generated from other properties acquired in 2017 and 2018;
- an increase in base rent and operating cost recoveries from existing properties; and
- additional revenue generated from tenant openings in newly developed leasable space.

Net Interest Expense and Other Financing Charges Net interest expense and other financing charges were \$355 million, an increase of \$257 million compared to the second quarter of 2017, primarily driven by:

- the change in the fair value adjustment on Class B Limited Partnership units of \$191 million;
- a one-time charge for the accelerated amortization of the debt discount related to the conversion of Class C LP Units;
- higher interest expense resulting from the issuance of new unsecured senior debentures related to the acquisition of CREIT;
- interest expense on the debt assumed on the acquisition of CREIT; and
- an increase in interest expense due to higher distributions on Class B Limited Partnership units.

Year-to-date net interest expense and other financing charges in the second quarter of 2018 resulted in income of \$94 million, a decrease of \$405 million compared to the same period in 2017, primarily driven by:

- the change in the fair value adjustment on Class B Limited Partnership units of \$482 million;

partially offset by,

- a one-time charge for the accelerated amortization of the debt discount related to the conversion of Class C LP Units;
- higher interest expense resulting from the issuance of new unsecured senior debentures related to the acquisition of CREIT, and the call premium for the early redemption of the Series A senior unsecured debenture;
- interest expense on the debt assumed on the acquisition of CREIT; and
- an increase in interest expense due to higher distributions on Class B Limited Partnership units.

Net income (loss) Net loss in the second quarter of 2018 was a loss of \$321 million, a decrease of \$363 million compared to the second quarter of 2017, primarily driven by:

- acquisition and other costs related to the acquisition of CREIT of \$108 million;
- the unfavourable change in fair value adjustment to investment properties of \$61 million; and
- the increase in net interest expense and other financing charges;

partially offset by,

- an increase in net operating income from the properties acquired as part of the acquisition of CREIT;
- an increase in net operating income from existing properties; and
- additional net operating income generated from acquisitions and tenant openings in newly developed leasable space.

Year-to-date net income was \$306 million, an increase of \$240 million compared to the same period in 2017. The increase in year-to-date net income was primarily driven by:

- the decrease in net interest expense and other financing charges explained above;
- an increase in net operating income from properties acquired as part of the acquisition of CREIT;
- an increase in net operating income from existing properties; and
- additional net operating income generated from acquisitions and tenant openings in newly developed leasable space;

partially offset by,

- the unfavourable change in fair value adjustment to investment properties of \$121 million; and
- acquisition and other costs related to the acquisition of CREIT of \$120 million.

Funds from operations⁽²⁾ Funds from operations⁽²⁾ in the second quarter of 2018 were \$156 million, an increase of \$48 million compared to the second quarter of 2017, primarily driven by the acquisition of CREIT. The increase included additional property operating income attributable to the acquired portfolio, partially offset by higher interest expense due to the issuance of new unsecured senior debentures related to the acquisition, and an increase in distributions declared on the Class B limited Partnership units due to additional units issued as partial consideration for CREIT.

Year-to-date Funds from operations⁽²⁾ were \$262 million, an increase of \$45 million compared to the same period in 2017 primarily driven by the acquisition of CREIT. The increase included additional property operating income attributable to the acquired portfolio, partially offset by higher interest expense due to the issuance of new unsecured senior debentures related to the acquisition, and an increase in distributions declared on the Class B limited Partnership units due to additional units issued as partial consideration for CREIT.

Other Choice Properties' Business Matters

Acquisition of Investment Properties In the second quarter of 2018, Choice Properties acquired one investment property from third-party vendors for an aggregate purchase price of \$2 million, which was fully settled in cash.

Choice Properties' Acquisition of Canadian Real Estate Investment Trust On May 4, 2018, Choice Properties acquired all the assets and assumed all the liabilities, including outstanding debt, of CREIT for total consideration of \$3,708 million. The consideration was comprised of \$1,652 million of cash and the issuance of 182,836,481 Trust Units.

In anticipation of the acquisition, Choice Properties arranged a new \$1,500 million committed revolving credit facility. Concurrent with closing of the acquisition of CREIT, Choice Properties repaid and cancelled its existing credit facilities prior to the acquisition and those acquired from CREIT.

Also, concurrent with the closing of the acquisition, the Company, Choice Properties' controlling unitholder, converted all of its outstanding Class C LP Units with the face value of \$925 million into Class B LP Units of Choice Properties Limited Partnership. Choice Properties issued to the Company 70,881,226 Class B LP Units upon the conversion and the shortfall in value of approximately \$99 million was paid in cash. In connection with this conversion, the Company recognized capital gains income tax expense of \$8 million in contributed surplus.

The cash portion of the acquisition and other transactions in relation to CREIT was financed as follows:

- \$1,300 million of proceeds from the issuance of senior unsecured debentures Series K and L; and
- \$800 million was obtained through two unsecured term loan facilities, of which \$175 million is due in four years and \$625 million is due in five years.

The preliminary purchase equation is based on management's best estimate of fair value. The actual amount allocated to certain identifiable net assets could vary as the purchase equation is finalized. The preliminary purchase price allocation at the acquisition date is as follows:

(millions of Canadian dollars)

Net Assets Acquired:	
Cash and cash equivalents	\$ 28
Accounts receivable and other assets	45
Mortgages, loans and notes receivable	204
Equity accounted joint ventures	683
Investment properties	4,730
Intangible assets	30
Goodwill	355
Trade payables and other liabilities	(171)
Long term debt	(1,841)
Deferred income tax liabilities	(355)
Total Net Assets Acquired	\$ 3,708

Management's Discussion and Analysis

Choice Properties has one year to finalize the fair value of the assets acquired and the liabilities assumed.

The goodwill is generated on consolidation of Choice Properties and is attributable to deferred income tax recorded on temporary differences arising between the fair value of the investment properties acquired and their respective income tax bases for the Company's effective ownership interest in Choice Properties. The goodwill arising from this acquisition is not deductible for tax purposes. Management has preliminarily allocated this goodwill to the Retail segment.

The following table provides the impacts of the acquisition of CREIT on the Choice Properties segment in the second quarter of 2018:

	2018 (12 weeks)
(millions of Canadian dollars unless where otherwise indicated)	
Revenue	\$ 70
Net income (loss)	25

On a year-to-date pro forma basis, the impact of the CREIT acquisition on Choice Properties segment revenue and net income in the first half of 2018 would have amounted to approximately \$210 million and \$75 million, respectively, excluding the impact of acquisition transaction costs and any adjustment to the fair value of the investment properties acquired. This pro forma information incorporates the effect of the preliminary purchase equation as if the acquisition had been effective December 31, 2017.

The following table provides the impacts of the acquisition of CREIT on the consolidated results of the Company in the second quarter of 2018:

	2018 (12 weeks)
(millions of Canadian dollars unless where otherwise indicated)	
Revenue	\$ 69
Adjusted EBITDA ⁽²⁾	48
Adjusted net interest expense and other financing charges ⁽²⁾	48
Adjusted net earnings available to common shareholders of the Company ⁽²⁾	—
Adjusted diluted net earnings per common share ⁽²⁾ (\$)	—

On a year-to-date pro forma basis, the impact of the CREIT acquisition on the Company's revenue and net income in the first half of 2018 would have amounted to approximately \$207 million and \$10 million, respectively, excluding the impact of acquisition transaction costs and any adjustment to the fair value of the investment properties acquired. This pro forma information incorporates the effect of the preliminary purchase equation as if the acquisition had been effective December 31, 2017.

Cash Flows from Operating Activities Cash flows from operating activities in the second quarter of 2018 were \$591 million, a decrease of \$281 million compared to the second quarter of 2017. The decrease was primarily due an unfavourable change in non-cash working capital, a decrease in provision balances, lower cash earnings and an increase in income taxes paid.

Year-to-date cash flows from operating activities were \$1,025 million in 2018, a decrease of \$226 million compared to the same period in 2017. The decrease was primarily due to an unfavourable change in non-cash working capital, a decrease in provision balances and lower cash earnings partially offset by a decrease in income taxes paid.

Cash Flows used in Investing Activities Cash flows used in investing activities in the second quarter 2018 were \$514 million, an increase of \$196 million compared to the second quarter 2017. Year-to-date cash flows used in investing activities were \$1,964 million, an increase of \$1,395 million compared to the same period in 2017. The increase in cash flows used in investing activities in the quarter and year-to-date was primarily driven by the acquisition of CREIT.

Cash Flows from (used in) Financing Activities Cash flows used in financing activities in the second quarter of 2018 were \$148 million, a decrease of \$168 million compared to the second quarter of 2017. The decrease in cash flows used in financing activities in second quarter was driven by higher net issuances of long term debt primarily related to the acquisition of CREIT, partially offset by a decrease in bank indebtedness and higher repurchases of common shares.

Year-to-date cash flows from financing activities were \$332 million, an increase of \$1,052 million compared to the same period in 2017. The year-to-date increase in cash flows from financing activities was driven by higher net issuances of long term debt primarily related to the acquisition of CREIT, partially offset by higher repurchases of common shares and the timing of dividends paid.

The Company's significant long term debt transactions are set out in Section "5.3 Components of Total Debt".

Free Cash Flow⁽²⁾

For the periods ended June 16, 2018 and June 17, 2017 (millions of Canadian dollars except where otherwise indicated)	2018		2017 ⁽⁴⁾		2018		2017 ⁽⁴⁾

Free cash flow ⁽²⁾	\$ 248	\$ 547	\$ (299)	(54.7)%	\$ 305	\$ 624	\$ (319)	(51.1)%

Free cash flow⁽²⁾ in the second quarter of 2018 was \$248 million, a decrease of \$299 million compared to the second quarter of 2017. The decrease in free cash flow⁽²⁾ was primarily driven by lower cash flows from operating activities as described above.

Year-to-date free cash flow⁽²⁾ was \$305 million in 2018, a decrease of \$319 million compared to the same period in 2017, primarily driven by lower cash flows from operating activities, higher interest paid and an increase in capital investments.

5.2 Liquidity and Capital Structure

The Company expects that cash and cash equivalents, short term investments, future operating cash flows and the amounts available to be drawn against committed credit facilities will enable the Company to finance its capital investment program and fund its ongoing business requirements over the next 12 months, including working capital, pension plan funding requirements and financial obligations.

PC Bank expects to obtain long term financing for the growth of its credit card portfolio through the issuance of *Eagle Credit Card Trust* ("Eagle") notes and Guaranteed Investment Certificates ("GICs").

Choice Properties expects to obtain long term financing for the acquisition of properties primarily through the issuance of unsecured debentures and equity.

The Company manages its capital structure on a segmented basis to ensure that each of the reportable operating segments is employing a capital structure that is appropriate for the industry in which it operates. The following table presents total debt, as monitored by management, by reportable operating segment:

(millions of Canadian dollars)	As at June 16, 2018				As at June 17, 2017				As at December 30, 2017			
	Retail	Financial Services	Choice Properties	Total	Retail	Financial Services	Choice Properties	Total	Retail	Financial Services	Choice Properties	Total

(i) The Financial Services segment made a repayment of \$100 million on its Plaza Facility between June 16, 2018 and June 30, 2018.

(ii) The Financial Services issued \$20 million on its GICs, net of repayments, and the Choice Properties segment made a repayment of \$38 million on its Committed Syndicated Credit Facility between June 16, 2018 and June 30, 2018.

Retail The Company manages its capital structure with the objective of maintaining Retail segment credit metrics consistent with those of investment grade retailers. The Company monitors the Retail segment's debt to rolling year retail adjusted EBITDA⁽²⁾ ratio as a measure of the leverage being employed.

	As at June 16, 2018	As at June 17, 2017	As at December 30, 2017
Retail debt to rolling year retail adjusted EBITDA ⁽²⁾	1.6x	1.7x	1.6x

The Retail debt to retail adjusted EBITDA⁽²⁾ ratio as at June 16, 2018 decreased compared to June 17, 2017, primarily as a result of a decrease in Retail segment debt, and was flat compared to December 30, 2017.

President's Choice Bank PC Bank's capital management objectives are to maintain a consistently strong capital position while considering the economic risks generated by its credit card receivables portfolio and to meet all regulatory requirements as defined by the Office of the Superintendent of Financial Institutions ("OSFI").

Choice Properties Choice Properties manages its capital structure with the objective of maintaining credit metrics consistent with those of investment grade real estate investment trusts ("REITs"). Choice Properties monitors metrics relevant to the REIT industry including targeting an appropriate debt to total assets ratio. In connection with the acquisition of CREIT, Choice Properties entered into \$1.3 billion of senior unsecured debentures in the first quarter of 2018 and obtained \$800 million through two unsecured term loan facilities in the second quarter of 2018.

Covenants and Regulatory Requirements The Company and Choice Properties are required to comply with certain financial covenants for various debt instruments. As at June 16, 2018 and throughout the first half of 2018, the Company and Choice Properties were in compliance with their respective covenants. As at June 16, 2018 and throughout the first half of 2018, PC Bank and Choice Properties have met all applicable regulatory requirements.

Short Form Base Shelf Prospectus In the first quarter of 2018, Choice Properties filed a Short Form Base Shelf Prospectus, which allows for the potential issuance of up to \$2 billion of Choice Properties' Trust Units ("Units") and debt securities, or any combination thereof, over a 25-month period. Under this prospectus, Choice Properties issued \$650 million of senior unsecured debentures.

5.3 Components of Total Debt

Debentures and Medium Term Notes The following table summarizes the debentures and Medium Term Notes ("MTNs") issued or assumed during 2018. There were no MTNs issued in the comparative periods in 2017.

Total Debentures and MTNs issued			\$ 450	\$ 2,400

(i) Offerings were made under the Choice Properties' Short Form Base Shelf Prospectus filed in the first quarter of 2018.

(ii) In the first quarter of 2018, the net proceeds from the issuance of Series K and L were held in escrow as a part of the financing for the acquisition of CREIT. During the second quarter of 2018, the Company completed the acquisition of CREIT and the proceeds were released from escrow.

(iii) Assumed by the Company in connection with the acquisition of CREIT.

The following table summarizes the debentures and MTNs repaid during the periods ended as indicated.

(millions of Canadian dollars except where otherwise indicated)	Interest Rate	Maturity Date	June 16, 2018	June 17, 2017	June 16, 2018	June 17, 2017

(i) Choice Properties Series A unsecured debentures were redeemed on February 12, 2018.

(ii) Choice Properties Series 6 unsecured debentures were redeemed on January 23, 2017.

Unsecured Term Loan Facilities In the second quarter of 2018, Choice Properties obtained \$800 million through two unsecured term loan facilities, one \$175 million 4-year unsecured term loan provided by a syndicate of lenders maturing May 4, 2022 and one \$625 million 5-year unsecured term loan provided by a syndicate of lenders maturing May 4, 2023. The term loans bear interest at variable rates of either Prime plus 0.45% or Bankers' Acceptance rate plus 1.45%. The pricing of these term loans is contingent on Choice Properties credit ratings from DBRS and S&P remaining at "BBB".

Committed Credit Facilities The components of the committed lines of credit as at June 16, 2018, June 17, 2017 and December 30, 2017 were as follows:

(millions of Canadian dollars)	Maturity Date	As at June 16, 2018		As at June 17, 2017		As at December 30, 2017	
		Available Credit	Drawn	Available Credit	Drawn	Available Credit	Drawn

Total Committed Lines of Credit		\$ 2,500	\$ 182	\$ 1,750	\$ 464	\$ 1,750	\$ 561

In the first half of 2018, Choice Properties repaid and cancelled the \$250 million Committed Bi-lateral Credit Facility and the \$500 million Committed Syndicated Credit Facility.

During the second quarter of 2018, Choice properties entered into a new syndicated \$1,500 million senior unsecured committed revolving credit facility maturing May 4, 2023. The credit facility bears interest at variable rates of either: Prime plus 0.45% or Bankers' Acceptance rate plus 1.45%. The pricing of this credit facility is contingent on Choice Properties credit ratings from DBRS and S&P remaining at "BBB".

Independent Securitization Trusts The Company, through PC Bank, participates in various securitization programs that provide a source of funds for the operation of its credit card business. PC Bank maintains and monitors the co-ownership interest in credit card receivables with independent securitization trusts, including *Eagle* and Other Independent Securitization Trusts, in accordance with its financing requirements.

The following table summarizes the amounts securitized to independent securitization trusts:

(millions of Canadian dollars)	As at June 16, 2018	As at June 17, 2017	As at December 30, 2017
Securitized to independent securitization trusts:			
Securitized to <i>Eagle</i>	\$ 900	\$ 650	\$ 900
Securitized to Other Independent Securitization Trusts	590	560	640
Total securitized to independent securitization trusts	\$ 1,490	\$ 1,210	\$ 1,540

Subsequent to the second quarter of 2018, *Eagle* issued \$250 million of senior and subordinated term notes with a maturity date of July 17, 2023 at a weighted average interest rate of 3.10%. In connection with this issuance, \$250 million of bond forward agreements were settled after the quarter, resulting in a realized fair value loss of \$1 million and a net effective interest rate of 3.15% on the *Eagle* notes issued.

Under its securitization programs, PC Bank is required to maintain, at all times, a credit card receivable pool balance equal to a minimum of 107% of the outstanding securitized liability. PC Bank was in compliance with this requirement as at June 16, 2018 and throughout the first half of 2018.

Independent Funding Trusts As at June 16, 2018, the independent funding trusts had drawn \$549 million (June 17, 2017 – \$555 million; December 30, 2017 – \$551 million) from the revolving committed credit facility that is the source of funding to the independent funding trusts. The Company provides credit enhancement in the form of a standby letter of credit for the benefit of the independent funding trusts. As at June 16, 2018, the Company has agreed to provide a credit enhancement of \$64 million (June 17, 2017 and December 30, 2017 – \$64 million) for the benefit of the independent funding trusts representing not less than 10% (2017 – not less than 10%) of the principal amount of loans outstanding.

5.4 Financial Condition

Rolling Year Adjusted Return on Equity⁽²⁾ and Rolling Year Adjusted Return on Capital⁽²⁾

Rolling year adjusted return on equity ⁽²⁾	14.2%	13.6%	14.0%
Rolling year adjusted return on capital ⁽²⁾	9.1%	9.3%	9.7%

The rolling year adjusted return on equity⁽²⁾ and rolling year adjusted return on capital⁽²⁾ as at June 16, 2018 increased compared to June 17, 2017, primarily due to improvements in underlying operating performance and common share repurchases.

The rolling year adjusted return on equity⁽²⁾ as at June 16, 2018 increased compared to December 30, 2017, primarily due to common share repurchases. The rolling year adjusted return on capital⁽²⁾ as at June 16, 2018 decreased compared to December 30, 2017, primarily due to an increase in long term debt due to the acquisition of CREIT and a decrease in cash and cash equivalents, partially offset by common share repurchases.

5.5 Credit Ratings

Subsequent to the end of the second quarter of 2018, the Board of Directors ("Board") declared a quarterly dividend of \$0.295 per common share, payable on October 1, 2018 to shareholders of record on September 15, 2018 and a dividend on the Second Preferred Shares, Series B of \$0.33125 per share payable on September 30, 2018 to shareholders of record on September 15, 2018.

Normal Course Issuer Bid Activity under the Company's Normal Course Issuer Bid ("NCIB") during the periods was as follows:

(millions of Canadian dollars except where otherwise indicated)	June 16, 2018 (12 weeks)	June 17, 2017 (12 weeks)	June 16, 2018 (24 weeks)	June 17, 2017 (24 weeks)

In the first quarter of 2018, the Company entered into and completed an automatic share purchase plan ("ASPP") with a broker in order to facilitate repurchases of the Company's common shares under its current NCIB. Under the Company's ASPP, the Company's broker purchased common shares at times when the Company ordinarily would not be active in the market.

In the second quarter of 2018, the Company renewed its NCIB to purchase on the Toronto Stock Exchange ("TSX") or through alternative trading systems up to 18,952,573 of the Company's common shares, representing approximately 5% of outstanding common shares. In accordance with the rules and by-laws of the TSX, the Company may purchase its common shares from time to time at the then market price of such shares. As at June 16, 2018, the Company has purchased 4,559,682 common shares under its current NCIB.

5.7 Off-Balance Sheet Arrangements

The Company uses off-balance sheet arrangements including letters of credit, guarantees and cash collateralization in connection with certain obligations. There were no significant changes to the Company's off-balance sheet arrangements during the second quarter of 2018. For a discussion of the Company's significant off-balance sheet arrangements see Section 7.7 "Off-Balance Sheet Arrangements" of the Company's 2017 Annual Report.

6. Financial Derivative Instruments

Bond Forwards During the second quarter of 2018, PC Bank held bond forward agreements with a notional value of \$328 million to hedge its exposure to interest rate fluctuations. These agreements qualified for hedge accounting as cash flow hedges. Accordingly, during the second quarter of 2018, PC Bank recorded a nominal unrealized fair value gain of (2017 – nil) net of tax in other comprehensive income related to these agreements.

Interest Rate Swaps During the second quarter of 2018, in connection with the acquisition of CREIT, Choice Properties assumed interest rate swap agreements with a notional value of \$322 million to hedge its exposure to interest rate fluctuations associated with an equivalent amount of variable rate mortgages. These agreements qualify for hedge accounting as cash flow hedges. During the second quarter of 2018, Choice Properties recorded a nominal unrealized fair value loss (2017 – nil) net of tax in other comprehensive income related to these agreements.

The Company also uses futures, options and forward contracts to manage its anticipated exposure to fluctuations in commodity prices and exchange rates in its underlying operations. For further details on the impact of these instruments during 2018 see Section 12 "Non-GAAP Financial Measures" of the MD&A.

7. Results by Quarter

Under an accounting convention common in the retail industry, the Company follows a 52-week reporting cycle which periodically necessitates a fiscal year of 53 weeks. Fiscal years 2018, 2017 and 2016 were 52 weeks. The next 53-week year will occur in 2020. The 52-week reporting cycle is divided into four quarters of 12 weeks each except for the third quarter, which is 16 weeks in duration.

Summary of Consolidated Quarterly Results The following is a summary of selected consolidated financial information derived from the Company's unaudited interim period condensed consolidated financial statements for each of the eight most recently completed quarters:

	Second Quarter		First Quarter		Fourth Quarter		Third Quarter	
	2018 (12 weeks)	2017 ⁽⁴⁾ (12 weeks)	2018 (12 weeks)	2017 ⁽⁴⁾ (12 weeks)	2017 ⁽⁴⁾ (12 weeks)	2016 (12 weeks)	2017 ⁽⁴⁾ (16 weeks)	2016 (16 weeks)

Adjusted diluted net earnings per common share ⁽²⁾ (\$)	\$ 1.11	\$ 1.11	\$ 0.94	\$ 0.91	\$ 1.12	\$ 0.97	\$ 1.39	\$ 1.26
Average national food price inflation (deflation) (as measured by CPI)	0.1%	(1.4)%	1.2%	(3.9)%	1.0%	(2.3)%	0.3%	0.2%
Food retail same-store sales growth (decline)	0.8%	1.2 %	1.9%	(1.2)%	0.5%	1.1 %	1.4%	0.8%
Drug retail same-store sales growth	1.7%	3.7 %	3.7%	0.9 %	3.6%	3.4 %	3.3%	2.8%

Revenue Revenue for the last eight quarters was impacted by various factors including the following:

- seasonality, which was greatest in the fourth quarter and least in the first quarter;
- the timing of holidays;
- macro-economic conditions impacting food and drug retail prices;
- the changes in the price of fuel sold at the Company's gas bars;
- Choice Properties' acquisition of CREIT in the second quarter of 2018;
- the disposition of gas bar operations in the third quarter of 2017;
- consolidation of franchises; and
- changes in net retail square footage. Over the past eight quarters, net retail square footage increased by 0.6 million square feet to 70.2 million square feet.

Net Earnings Available to Common Shareholders of the Company and Diluted Net Earnings Per Common Share Net earnings available to common shareholders of the Company and diluted net earnings per common share for the last eight quarters were impacted by the following items:

- seasonality, which was greatest in the fourth quarter and least in the first quarter;
- the timing of holidays;
- the disposition of gas bar operations in the third quarter of 2017;
- Shoppers Drug Mart acquisition-related net synergies;
- changes in the underlying operating performance of the Company;
- the favourable impact of the repurchase of common shares for cancellation; and
- the impact of certain adjusting items, as set out in Section 12 "Non-GAAP Financial Measures", including:
 - the gain on disposition of gas bar operations;
 - the *PC Optimum* program;
 - the Loblaw Card Program;
 - restructuring and other related charges;
 - the wind-down of *PC Financial* banking service;
 - the impact of healthcare reform on inventory balances;
 - CREIT acquisition and other related costs;
 - the remeasurement of deferred tax balances;
 - asset impairments, net of recoveries; and
 - the change in fair value adjustment to the Trust Unit Liability.

The consolidation of franchises does not significantly impact net earnings available to common shareholders of the Company as the related earnings are largely attributable to Non-Controlling Interests.

8. Internal Control over Financial Reporting

Management is responsible for establishing and maintaining a system of disclosure controls and procedures to provide reasonable assurance that all material information relating to the Company and its subsidiaries is gathered and reported to senior management on a timely basis so that appropriate decisions can be made regarding public disclosure.

Management is also responsible for establishing and maintaining adequate internal controls over financial reporting to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with IFRS.

In designing such controls, it should be recognized that due to inherent limitations, any control, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives and may not prevent or detect misstatements. Additionally, management is required to use judgment in evaluating controls and procedures.

Changes in Internal Control over Financial Reporting There were no changes in the Company's internal controls over financial reporting in the second quarter of 2018 that materially affected, or are reasonably likely to materially affect the Company's internal control over financial reporting, except as noted below:

As permitted by the provisions of National Instrument 52-109, "Certification of Disclosures in Issuers' Annual and Interim Filings", management, including the CEO and CFO, have limited the scope of their design of the Company's disclosure controls and procedures and internal control over financial reporting to exclude controls, policies and procedures of CREIT. Choice Properties acquired the assets and liabilities of CREIT and its subsidiaries on May 4, 2018.

CREIT's contribution to the Company's consolidated financial statements for the quarter ended June 17, 2018 was approximately 0.6% of revenue, approximately 8.6% of consolidated operating income, excluding the impact in the quarter of acquisition transaction costs and any adjustment to the fair value of the investment properties acquired, and 95% of investment properties. CREIT had a nominal impact on net earnings available to common shareholders of the Company in the second quarter of 2018.

The scope limitation is primarily based on the time required to assess CREIT's disclosure controls and procedures and internal controls over financial reporting in a manner consistent with the Company's other operations. The assessment on CREIT's design effectiveness of disclosure controls and procedures and internal controls over financial reporting is expected to be completed by the first quarter of 2019.

Further details related to the acquisition of CREIT are set out in Section 4.3 "Choice Properties Segment" Other Business Matters and in Note 3 Business Acquisitions of the Company's unaudited interim period condensed consolidated financial statements for the second quarter of 2018.

9. Enterprise Risks and Risk Management

A detailed full set of risks inherent in the Company's business are included in the Company's AIF for the year ended December 30, 2017 and the Company's MD&A in the Company's 2017 Annual Report, which are hereby incorporated by reference. The Company's 2017 Annual Report and AIF are available online on www.sedar.com. Those risks and risk management strategies remain unchanged, inclusive of the acquisition of CREIT.

10. Accounting Standards

Accounting Standards Implemented in 2018

On December 31, 2017, the Company implemented IFRS 15, "Revenue from Contracts with Customers" ("IFRS 15") and IFRS 9, "Financial Instruments" ("IFRS 9"), in accordance with IAS 8, "Accounting Policies, Changes in Accounting Estimates and Errors". The impacts on implementation of IFRS 15 and IFRS 9 on the Company's consolidated financial statements are described below.

IFRS 15 In 2014, the International Accounting Standards Board ("IASB") issued IFRS 15, "Revenue from Contracts with Customers", replacing IAS 18, "Revenue" ("IAS 18"), IAS 11, "Construction Contracts", and related interpretations. IFRS 15 provides a comprehensive framework for the recognition, measurement and disclosure of revenue from contracts with customers, excluding contracts within the scope of the accounting standards on leases, insurance contracts and financial instruments. IFRS 15 is effective for annual periods beginning on or after January 1, 2018.

The Company adopted the standard on December 31, 2017 and applied the requirements of the standard retrospectively with the cumulative effects of initial application recorded in opening retained earnings on January 1, 2017 and with the restatement of comparative periods. IFRS 15 permits the use of exemptions and practical expedients. The Company applied the practical expedient in which contracts that began and were completed within the same annual reporting period before December 30, 2017 or were completed on or before January 1, 2017 do not require restatement.

The implementation of IFRS 15 did not have a significant impact on the Company's Retail, Financial Services or Choice Properties segment revenue streams, including its franchise arrangements with non-consolidated stores. IFRS 15 impacted the allocation of revenue that is deferred in relation to the Company's customer loyalty award programs. Under IAS 18 and related interpretations, revenue was allocated to the customer loyalty awards using the residual fair value method. Under this method, a portion of the consideration equaling the fair value of the points was allocated to the loyalty awards and deferred until the points were ultimately redeemed. The residual consideration was allocated to the goods and services sold and recognized as revenue. Under IFRS 15, consideration will be allocated between the loyalty awards and the goods and services on which the awards were earned, based on their relative stand-alone selling prices. Using this relative fair value approach, the amount allocated to the loyalty points and recorded as deferred revenue will be, on average, lower than the amounts allocated under the residual value method. The majority of the Company's loyalty liability, which is a contract liability, is expected to be redeemed and recognized as revenue within one year of issuance.

In addition, in the fourth quarter of 2017, the Company recorded a charge of \$189 million under IAS 18 and related interpretations, related to the revaluation of the existing loyalty liability for outstanding points to reflect a higher anticipated redemption rate under the new *PC Optimum* program. Under IFRS 15, using the relative fair value approach, this revaluation of the loyalty liability decreases by \$24 million, resulting in a charge before income taxes of \$165 million.

The impact of the above changes on retained earnings as at January 1, 2017 and December 30, 2017 is as follows:

Consolidated Balance Sheets

Increase (Decrease) (millions of Canadian dollars)	As at January 1, 2017	As at December 30, 2017
Loyalty liability	\$ (43)	\$ (64)
Income taxes payable	12	11
Deferred income tax liabilities	—	7
Retained earnings	31	46

The impact of this change on the comparative periods as at June 17, 2017, and for 12 weeks and 24 weeks ended June 17, 2017 is as follows:

Condensed Consolidated Balance Sheets

Increase (Decrease) (millions of Canadian dollars)	As at June 17, 2017
Loyalty liability	\$ (47)
Income taxes payable	13
Retained earnings	34

The implementation of IFRS 15 had a nominal impact on earnings per share for the comparative periods.

The quarterly and annual impacts of this change in 2017 are as follows:

Summary of Condensed Consolidated Quarterly Statement of Earnings

Increase (Decrease) (millions of Canadian dollars)	March 25, 2017 (12 weeks)	June 17, 2017 (12 weeks)	October 7, 2017 (16 weeks)	December 30, 2017 (12 weeks)	December 30, 2017 (52 weeks)

IFRS 9 In 2014, the IASB issued IFRS 9, "Financial Instruments", replacing IAS 39, "Financial Instruments: Recognition and Measurement" ("IAS 39"), and related interpretations. IFRS 9 includes revised guidance on the classification and measurement of financial assets, including impairment and a new general hedge accounting model. IFRS 9 is effective for annual periods beginning on or after January 1, 2018. The Company implemented the new requirements for classification and measurement, impairment and general hedging on December 31, 2017 by applying the requirements for classification and measurement, including impairment, retrospectively with the cumulative effects of initial application recorded in opening retained earnings as at December 31, 2017 with no restatement of comparative periods. The Company also applied related amendments to IFRS 7, "Financial Instruments: Disclosures".

Classification and measurement IFRS 9 contains a new classification and measurement approach for financial assets that reflects the business model in which assets are managed and their cash flow characteristics. Financial assets are classified and measured based on these categories: amortized cost, fair value through other comprehensive income, and fair value through profit and loss. Financial liabilities are classified and measured based on two categories: amortized cost or fair value through profit and loss. Under IFRS 9, derivatives embedded in contracts where the host is a financial asset in the scope of the standard are not separated, but the hybrid financial instrument as a whole is assessed for classification.

The following table summarizes the classification impacts upon adoption of IFRS 9. The adoption of the new classification requirements under IFRS 9 did not result in significant changes in measurement or the carrying amount of financial assets and liabilities, with the exception of credit card receivables as noted below.

Asset/Liability	Classification under IAS 39	Classification under IFRS 9
Cash and cash equivalents	Fair value through profit and loss ⁽ⁱ⁾	Amortized cost
Short term investments	Fair value through profit and loss ⁽ⁱ⁾	Amortized cost
Accounts receivable	Loans and receivables	Amortized cost
Credit card receivables	Loans and receivables	Amortized cost
Security deposits	Fair value through profit and loss ⁽ⁱ⁾	Fair value through profit and loss
Franchise loans receivable	Loans and receivables	Amortized cost
Certain other assets ⁽ⁱⁱ⁾	Loans and receivables	Amortized cost/ fair value through profit and loss
Certain long term investments	Available-for-sale	Fair value through other comprehensive income
Bank indebtedness	Other liabilities	Amortized cost
Trade payables and other liabilities	Other liabilities	Amortized cost
Short term debt	Other liabilities	Amortized cost
Long term debt	Other liabilities	Amortized cost
Trust Unit Liability	Fair value through profit and loss ⁽ⁱⁱⁱ⁾	Fair value through profit and loss
Certain other liabilities	Other liabilities	Amortized cost
Derivatives	Fair value through profit and loss ⁽ⁱⁱⁱ⁾	Fair value through profit and loss

(i) Financial instruments designated at fair value through profit and loss.

(ii) Certain other assets includes mortgages, notes and loans receivable which are classified as either amortized cost or fair value through profit and loss.

(iii) Financial instruments required to be classified at fair value through profit and loss.

Financial assets are not reclassified subsequent to their initial recognition, unless the Company identifies changes in its business model in managing financial assets.

Impairment IFRS 9 replaces the 'incurred loss' model in IAS 39 with a forward-looking 'expected credit loss' ("ECL") model. The ECL model requires considerable judgment, including consideration of how changes in economic factors affect ECLs, which will be determined on a probability-weighted basis. The new impairment model is applied, at each balance sheet date, to financial assets measured at amortized cost or those measured at fair value through other comprehensive income, except for investments in equity instruments.

IFRS 9 outlines a three-stage approach to recognizing ECL which is intended to reflect the increase in credit risks of a financial instrument. The Company applies the ECL model to assess for impairment on its financial assets at each balance sheet date. The Company, through PC Bank, recognizes loss allowances based on ECL on credit card receivables, which are measured at amortized cost. Credit card receivables are assessed collectively for impairment, applying the three-stage approach on assessing the impairment on credit card receivables as described below.

- Stage 1 is comprised of all financial instruments that have not had a significant increase in credit risks since initial recognition or that have low credit risk at the reporting date. PC Bank is required to recognize impairment for Stage 1 financial instruments based on the expected losses over the expected life of the instrument arising from loss events that could occur during the 12 months following the reporting date.
- Stage 2 is comprised of all financial instruments that have had a significant increase in credit risks since initial recognition but that do not have objective evidence of a credit loss event. For Stage 2 financial instruments the impairment is recognized based on the expected losses over the expected life of the instrument arising from loss events that could occur over the expected life. PC Bank is required to recognize a lifetime ECL for Stage 2 financial instruments.
- Stage 3 is comprised of all financial instruments that have objective evidence of impairment at the reporting date. PC Bank is required to recognize impairment based on a lifetime ECL for Stage 3 financial instruments.

In each stage of the impairment model, impairment is determined based on the probability of default, loss given default, and expected exposures at default on drawn and undrawn exposures on credit card receivables, discounted using an average portfolio yield rate. The application of the ECL model required PC Bank to apply the following significant judgments, assumptions and estimations:

- Movement of impairment measurement between the three stages of the ECL model, based on the assessment of increase in credit risks on credit card receivables. The assessment of changes in credit risks includes qualitative and quantitative factors of the accounts, such as historical credit loss experience and external credit scores;
- Thresholds for significant increase in credit risks based on changes in probability of default over the expected life of the instrument relative to initial recognition; and
- Forecasts of future economic conditions.

The ECL model had a significant impact on PC Bank's impairment of credit card receivables. The Company revised certain inputs of the ECL model since the implementation of IFRS 9 in the first quarter of 2018 and has retrospectively applied the impact of these revisions with no impact to earnings in the first quarter of 2018. As a result of the refinements, the cumulative impact arising from the ECL model on the impairment of credit card receivables as at December 31, 2017 was as follows:

Consolidated Balance Sheets	
Increase (Decrease) (millions of Canadian dollars)	As at December 31, 2017
Credit card receivables	\$ (98)
Deferred income tax assets	26
Income taxes payable	4
Deferred income tax liabilities	(4)
Retained earnings	(72)

The Company also applied ECL models to the assessment of impairment on trade receivables and other financial assets of the Company. The Company adopted the practical expedient to determine ECL on trade receivables using a provision matrix based on historical credit loss experiences to estimate lifetime ECL. The ECL models applied to other financial assets also required judgment, assumptions and estimations on changes in credit risks, forecasts of future economic conditions and historical information on the credit quality of the financial asset. The provision matrix and ECL models applied do not have a material impact on trade receivables and other financial assets of the Company.

Impairment losses are recorded in SG&A in the consolidated statement of earnings with the carrying amount of the financial asset or group of financial assets reduced through the use of impairment allowance accounts. In periods subsequent to the impairment where the impairment loss has decreased, and such decrease can be related objectively to conditions and changes in factors occurring after the impairment was initially recognized, the previously recognized impairment loss is reversed through the consolidated statement of earnings. The impairment reversal is limited to the lesser of the decrease in impairment or the extent that the carrying amount of the financial asset at the date the impairment is reversed does not exceed what the amortized cost would have been had the impairment not been recognized, after the reversal.

General hedging IFRS 9 requires the Company to ensure that hedge accounting relationships are aligned with the Company's risk management objectives and strategy and to apply a more qualitative and forward-looking approach to assessing hedge effectiveness. The Company's risk management strategy and hedging activities are disclosed in the Company's 2017 Annual Report, Note 30 "Financial Risk Management" and in this Quarterly Report, Note 17 "Financial Instruments".

Changes to Significant Accounting Policies

The following significant accounting policies reflect certain impacts to the presentation and measurement of the Company's unaudited interim period condensed consolidated financial statements, resulting from the acquisition of CREIT. Upon closing the acquisition, the significant accounting policies of CREIT were aligned to those of the Company.

Investment Properties Investment properties are properties owned by the Company that are held to either earn rental income, for capital appreciation, or both. The Company's investment properties include single tenant properties held to earn rental income and certain multiple tenant properties.

In conjunction with the acquisition of CREIT, the Company elected to change the measurement of investment properties from the cost model to the fair value model retrospectively with restatement. Prior to the second quarter of 2018, the Company recognized investment properties at cost less accumulated depreciation and any accumulated impairment losses.

Under the fair value model, investment properties are initially measured at cost and subsequently measured at fair value. Fair value is determined based on available market evidence. If market evidence is not readily available in less active markets, the Company uses alternative valuation methods such as discounted cash flow projections or recent transaction prices. Under the discounted cash flow methodology, discount rates are applied to the projected annual operating cash flows, generally over a minimum term of ten years, including a terminal value of the investment properties based on a capitalization rate applied to the estimated net operating income, a non-GAAP measure, in the terminal year. Gains and losses on fair value are recognized in operating income in the period in which they are incurred. Gains and losses from disposal of investment properties are determined by comparing the fair value of disposal proceeds and the carrying amount and are recognized in operating income.

The Company applied this change in accounting policy retrospectively in the second quarter of 2018. The impacts to the Company's comparative consolidated balance sheets are as follows:

Consolidated Balance Sheets

Increase (Decrease) (millions of Canadian dollars)	As at June 17, 2017	As at December 30, 2017	As at January 1, 2017
Investment properties	\$ 41	\$ 41	\$ 41
Deferred income tax liabilities	5	5	5
Retained earnings	36	36	36

The change in accounting policy had no impact on net earnings for the comparative periods.

Joint Arrangements The Company, through Choice Properties, owns investments under joint arrangements. Joint arrangements are arrangements of which two or more parties have joint control. Joint control is the contractual sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control. Joint arrangements are classified as either joint operations or joint ventures depending on Choice Properties' rights and obligations in the arrangement based on factors such as the structure, legal form and contractual terms of the arrangement.

Joint Ventures A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement.

Choice Properties' investment in a joint venture is recorded using the equity method and is initially recognized in the consolidated balance sheet at cost and adjusted thereafter to recognize Choice Properties' share of the profit or loss and other comprehensive income of the joint venture. The Company's share of the joint venture's profit or loss is recognized in the Company's operating income and other comprehensive income.

The financial statements of the equity-accounted investment are prepared for the same reporting period as Choice Properties. Where necessary, adjustments are made to bring the accounting policies in line with those of the Company's.

A joint venture is considered to be impaired if there is objective evidence of impairment, as a result of one or more events that occurred after initial recognition of the joint venture, and that event has a negative impact on the future cash flows of the joint venture that can be reliably estimated.

Joint Operations A joint operation is a joint arrangement whereby the parties that have joint control have rights to the assets and obligations for the liabilities relating to the arrangement. The financial statements of the joint operations are prepared for the same reporting period as Choice Properties. Where necessary, adjustments are made to bring the accounting policies in line with those of the Company's. The Company recognizes its proportionate share of assets, liabilities, revenues and expenses of the joint operations.

Cash-Settled Equity-Based Compensation Transferred Restricted Units ("TRUs") represent the unvested restricted unit plan acquired in connection with the acquisition of CREIT and are accounted for as cash-settled awards. TRUs entitle certain employees to receive the value of the TRU award in Units at the end of the applicable vesting period, which is usually three years in length. The TRUs are subject to vesting conditions and disposition restrictions. The TRUs remain subject to forfeiture until the employee has remained employed with Choice Properties for a specified period of time. Depending on the nature of the grant, the TRUs are subject to a six- or seven-year holding period during which the TRUs cannot be disposed.

The fair value of each unvested TRU is measured based on the market value of a Unit, less a discount to account for the vesting and holding period restriction placed on the TRUs, while taking into account expected forfeitures.

Critical Accounting Estimates and Judgments

The following critical accounting estimate and judgment reflects the Company's election to change the measurement of investment properties from the cost model to the fair value model.

Investment Properties

Judgments Made in Relation to Accounting Policies Applied Judgment is applied in determining whether certain costs are additions to the carrying value of investment properties, identifying the point at which substantial completion of the property occurs, and identifying the directly attributable borrowing costs to be included in the carrying value of the development property.

The Company, through Choice Properties, also applies judgment in determining whether the properties it acquires are considered to be asset acquisitions or business combinations.

Key Sources of Estimation The fair value of investment properties is dependent on available comparable transactions, future cash flows over the holding period, discount rates and capitalization rates applicable to those assets. The review of anticipated cash flows involves assumptions relating to occupancy, rental rates and residual value. In addition to reviewing anticipated cash flows, management assesses changes in the business climate and other factors, which may affect the ultimate value of the property. These assumptions may not ultimately be achieved.

11. Outlook⁽³⁾

Loblaw is focused on its strategic framework, delivering best in food and health and beauty, using data driven insights underpinned by process and efficiency excellence. This framework is supported by the Company's financial plan of maintaining a stable trading environment that targets positive same-store sales and stable gross margin, creating efficiencies to deliver operating leverage, investing for the future and returning capital to shareholders.

Headwinds from minimum wage increases and healthcare reform will negatively impact the Company's financial performance in 2018. The first half of the year was characterized by incremental cost headwinds and a very competitive retail market. In the second half, management expects cost pressures to increase, including from the newly imposed surtax on certain US imports. Management continues to focus on overcoming these headwinds.

In 2018, on a full-year comparative basis, normalized for the disposition of the gas bar business and the impact of the CREIT acquisition, the Company expects to:

- deliver positive same-store sales and stable gross margin in its Retail segment in a highly competitive market;
- deliver essentially flat adjusted net earnings growth with positive adjusted earnings per share growth based on our share buyback program;
- invest approximately \$1.3 billion in capital expenditures, including \$1.0 billion in its Retail segment; and
- return capital to shareholders by allocating a significant portion of free cash flow to share repurchases.

12. Non-GAAP Financial Measures

The Company uses the following non-GAAP financial measures: Retail segment gross profit; Retail segment adjusted gross profit; Retail segment adjusted gross profit percentage; adjusted earnings before income taxes, net interest expense and other financing charges and depreciation and amortization ("adjusted EBITDA"); adjusted EBITDA margin; adjusted operating income; adjusted net interest expense and other financing charges; adjusted income taxes; adjusted income tax rate; adjusted net earnings available to common shareholders; adjusted diluted net earnings per common share, free cash flow; retail debt to rolling year retail adjusted EBITDA; rolling year adjusted return on equity; rolling year adjusted return on capital and with respect to Choice Properties: funds from operations. The Company believes these non-GAAP financial measures provide useful information to both management and investors in measuring the financial performance and financial condition of the Company for the reasons outlined below.

Management uses these and other non-GAAP financial measures to exclude the impact of certain expenses and income that must be recognized under GAAP when analyzing underlying consolidated and segment operating performance, as the excluded items are not necessarily reflective of the Company's underlying operating performance and make comparisons of underlying financial performance between periods difficult. The Company excludes additional items if it believes doing so would result in a more effective analysis of underlying operating performance. The exclusion of certain items does not imply that they are non-recurring.

These measures do not have a standardized meaning prescribed by GAAP and therefore they may not be comparable to similarly titled measures presented by other publicly traded companies and should not be construed as an alternative to other financial measures determined in accordance with GAAP.

Retail Segment Gross Profit, Retail Segment Adjusted Gross Profit and Retail Segment Adjusted Gross Profit Percentage The following tables reconcile adjusted gross profit by segment to gross profit by segment, which is reconciled to revenue and cost of merchandise inventories sold measures as reported in the condensed consolidated statements of earnings for the periods ended as indicated. The Company believes that Retail segment gross profit and Retail segment adjusted gross profit are useful in assessing the Retail segment's underlying operating performance and in making decisions regarding the ongoing operations of the business.

Retail segment adjusted gross profit percentage is calculated as Retail segment adjusted gross profit divided by Retail segment revenue.

Impact of healthcare reform on inventory balances In the first quarter of 2018, the Company recorded an inventory provision for the write-down of inventories below cost to net realizable value, related to its generic drug inventory, as a result of healthcare reform announced in the first quarter of 2018, effective April 1, 2018.

Adjusted Operating Income, Adjusted EBITDA and Adjusted EBITDA Margin The following tables reconcile adjusted operating income and adjusted EBITDA to operating income, which is reconciled to net earnings attributable to shareholders of the Company as reported in the condensed consolidated statements of earnings for the periods ended as indicated. The Company believes that adjusted EBITDA is useful in assessing the performance of its ongoing operations and its ability to generate cash flows to fund its cash requirements, including the Company's capital investment program.

Adjusted EBITDA margin is calculated as adjusted EBITDA divided by revenue.

In addition to the items described in the Retail segment adjusted gross profit section above, adjusted EBITDA was impacted by the following:

Amortization of intangible assets acquired with Shoppers Drug Mart The acquisition of Shoppers Drug Mart in 2014 included approximately \$6,050 million of definite life intangible assets, which are being amortized over their estimated useful lives. Annual amortization associated with the acquired intangibles will be approximately \$525 million until 2024, and will decrease thereafter.

CREIT acquisition and other related costs In the first half of 2018, the Company recorded acquisition and other related costs in connection with the acquisition of CREIT.

Fair value adjustment to investment properties In conjunction with the acquisition of CREIT, the Company elected to change the measurement of investment properties from cost model to fair value model. Prior to the second quarter of 2018, the Company recognized investment properties at cost less accumulated depreciation and any accumulated impairment losses. Under the fair value model, investment properties are initially measured at cost and subsequently measured at fair value. Fair value is determined based on available market evidence. If market evidence is not readily available in less active markets, the Company uses alternative valuation methods such as discounted cash flow projections or recent transaction prices. Gains and losses on fair value are recognized in operating income in the period in which they are incurred. Gains and losses from disposal of investment properties are determined by comparing the fair value of disposal proceeds and the carrying amount and are recognized in operating income.

Pension annuities and buy-outs The Company is undertaking annuity purchases and pension buy-outs in respect of former employees designed to reduce its defined benefit pension plan obligation and decrease future pension volatility and risks.

Wind-down of PC Financial banking services In the third quarter of 2017, PC Bank entered into an agreement to end its business relationship with a major Canadian chartered bank which represented the personal banking services offered under the *PC Financial* brand. As a result of this agreement, PC Bank received payments of approximately \$44 million, net of related costs, which was recognized between the third quarter of 2017 and the second quarter of 2018.

Restructuring and other related costs The Company continuously evaluates strategic and cost reduction initiatives related to its store infrastructure, distribution networks and administrative infrastructure with the objective of ensuring a low cost operating structure. Restructuring activities related to these initiatives are ongoing.

Fair value adjustment on fuel and foreign currency contracts The Company is exposed to commodity price and U.S. dollar exchange rate fluctuations. In accordance with the Company's commodity risk management policy, the Company enters into exchange traded futures contracts and forward contracts to minimize cost volatility relating to fuel prices and the U.S. dollar exchange rate. These derivatives are not acquired for trading or speculative purposes. Pursuant to the Company's derivative instruments accounting policy, changes in the fair value of these instruments, which include realized and unrealized gains and losses, are recorded in operating income. Despite the impact of accounting for these commodity and foreign currency derivatives on the Company's reported results, the derivatives have the economic impact of largely mitigating the associated risks arising from price and exchange rate fluctuations in the underlying commodities and U.S. dollar commitments.

Loblaw Card Program In the fourth quarter of 2017, the Company and George Weston Limited acknowledged their involvement in an industry wide price-fixing arrangement. In connection with the arrangement, the Company offered customers a \$25 Loblaw Card, which can be used to purchase items sold in Loblaw grocery stores across Canada. The Company recorded a charge of \$107 million associated with the Loblaw Card Program in the fourth quarter of 2017. In the first quarter of 2018, the Company recorded an additional charge of \$19 million, and in the second quarter of 2018, the Company recorded a reversal of \$11 million.

Adjusted Net Interest Expense and Other Financing Charges The following table reconciles adjusted net interest expense and other financing charges to net interest expense and other financing charges as reported in the condensed consolidated statements of earnings for the periods ended as indicated. The Company believes that adjusted net interest expense and other financing charges is useful in assessing the Company's underlying financial performance and in making decisions regarding the financial operations of the business.

Adjusted net interest expense and other financing charges	\$ 178	\$ 128	\$ 315	\$ 253

Fair value adjustment to the Trust Unit Liability The Company is exposed to market price fluctuations as a result of the Units held by unitholders other than the Company. These Units are presented as a liability on the Company's condensed consolidated balance sheets as they are redeemable for cash at the option of the holder, subject to certain restrictions. This liability is recorded at fair value at each reporting date based on the market price of Units at the end of each period. An increase (decrease) in the market price of Units results in a charge (reduction) to net interest expense and other financing charges.

Adjusted Income Taxes and Adjusted Income Tax Rate The following table reconciles adjusted income taxes to income taxes as reported in the condensed consolidated statements of earnings for the periods ended as indicated. The Company believes that adjusted income taxes is useful in assessing the Company's underlying operating performance and in making decisions regarding the ongoing operations of its business.

Adjusted income tax rate is calculated as adjusted income taxes divided by the sum of adjusted operating income less adjusted net interest expense and other financing charges.

Retail Debt to Rolling Year Retail Adjusted EBITDA, Rolling Year Adjusted Return on Equity and Rolling Year Adjusted Return on Capital The Company uses the following metrics to measure its leverage and profitability. The definitions of these ratios are presented below.

- **Retail Debt to Rolling Year Retail Adjusted EBITDA** Retail segment total debt divided by Retail segment adjusted EBITDA for the last four quarters.
- **Rolling Year Adjusted Return on Equity** Adjusted net earnings available to common shareholders of the Company for the last four quarters divided by average total equity attributable to common shareholders of the Company.
- **Rolling Year Adjusted Return on Capital** Tax-effected adjusted operating income for the last four quarters divided by average capital where capital is defined as total debt, plus equity attributable to shareholders of the Company, less cash and cash equivalents, and short term investments.

Choice Properties' Funds from Operations The following table reconciles Choice Properties' Funds from Operations to net income (loss) for the periods ended as indicated. Choice Properties considers Funds from Operations to be a useful measure of operating performance as it adjusts for items included in net income (loss) that do not arise from operating activities or do not necessarily provide an accurate depiction of the Trust's performance.

Notes to the Unaudited Interim Period Condensed Consolidated Financial Statements

For the periods ended June 16, 2018 and June 17, 2017 (millions of Canadian dollars except where otherwise indicated)

Note 1. Nature and Description of the Reporting Entity

Loblaw Companies Limited is a Canadian public company incorporated in 1956 and is Canada's food and pharmacy leader, the nation's largest retailer and the majority unitholder of Choice Properties Real Estate Investment Trust ("Choice Properties"). Loblaw Companies Limited provides Canadians with grocery, pharmacy, health and beauty, apparel, general merchandise, financial services, and wireless mobile products and services. Its registered office is located at 22 St. Clair Avenue East, Toronto, Canada M4T 2S7. Loblaw Companies Limited and its subsidiaries are together referred to, in these unaudited interim period condensed consolidated financial statements, as the "Company" or "Loblaw".

The Company's controlling shareholder is George Weston Limited ("Weston"), which owns approximately 50.1% of the Company's outstanding common shares. The Company's ultimate parent is Wittington Investments, Limited ("Wittington"). The remaining common shares are widely held.

The Company has three reportable operating segments: Retail, Financial Services and Choice Properties (see note 19). As at June 16, 2018, the Company held an effective interest in Choice Properties of approximately 61.7% (2017 – 82.5%). During the second quarter of 2018, Choice Properties completed the acquisition of Canadian Real Estate Investment Trust ("CREIT") as described in Note 3 "Business Acquisitions". The Company's effective interest reflects the issuance of 182,836,481 new Trust units to Trust Unitholders other than the Company in connection with the acquisition of CREIT.

The Company's business is affected by seasonality and timing of holidays, relative to the Company's interim periods. Accordingly, quarterly performance is not necessarily indicative of annual performance. Historically, the Company has earned more revenue in the fourth quarter relative to the preceding quarters in the Company's fiscal year.

Note 2. Significant Accounting Policies

The significant accounting policies and critical accounting estimates and judgments as disclosed in the Company's 2017 audited annual consolidated financial statements have been applied consistently in the preparation of these unaudited interim period condensed consolidated financial statements, with the exception of the accounting standards implemented in 2018 and other changes to significant accounting policies described below. These unaudited interim period condensed consolidated financial statements are presented in Canadian dollars.

Statement of Compliance These unaudited interim period condensed consolidated financial statements are prepared in accordance with International Financial Reporting Standards ("IFRS" or "GAAP") and International Accounting Standard ("IAS") 34, "Interim Financial Reporting", as issued by the International Accounting Standards Board ("IASB"). These unaudited interim period condensed consolidated financial statements should be read in conjunction with the Company's 2017 audited annual consolidated financial statements and accompanying notes.

These unaudited interim period condensed consolidated financial statements were approved for issuance by the Company's Board of Directors ("Board") on July 24, 2018.

Accounting Standards Implemented in 2018

On December 31, 2017, the Company implemented IFRS 15, "Revenue from Contracts with Customers" ("IFRS 15") and IFRS 9, "Financial Instruments" ("IFRS 9"), in accordance with IAS 8, "Accounting Policies, Changes in Accounting Estimates and Errors". The impacts on implementation of IFRS 15 and IFRS 9 on the Company's consolidated financial statements are described below.

IFRS 15 In 2014, the IASB issued IFRS 15, "Revenue from Contracts with Customers", replacing IAS 18, "Revenue" ("IAS 18"), IAS 11, "Construction Contracts", and related interpretations. IFRS 15 provides a comprehensive framework for the recognition, measurement and disclosure of revenue from contracts with customers, excluding contracts within the scope of the accounting standards on leases, insurance contracts and financial instruments. IFRS 15 is effective for annual periods beginning on or after January 1, 2018.

The Company adopted the standard on December 31, 2017 and applied the requirements of the standard retrospectively with the cumulative effects of initial application recorded in opening retained earnings on January 1, 2017 and with the restatement of comparative periods. IFRS 15 permits the use of exemptions and practical expedients. The Company applied the practical expedient in which contracts that began and were completed within the same annual reporting period before December 30, 2017 or were completed on or before January 1, 2017 do not require restatement.

Under IFRS 15, the Company recognizes revenue when control of the goods or services has been transferred. Revenue is measured at the amount of consideration to which the Company expects to be entitled to, including variable consideration to the extent that it is highly probable that a significant reversal will not occur.

Retail segment revenue includes the sale of goods and services to customers through corporate stores and consolidated franchise stores and Shoppers Drug Mart licensees (“Associates”), and sales to non-consolidated franchise stores and independent wholesale account customers. Revenue is measured at the amount of consideration to which the Company expects to be entitled to, net of estimated returns and sales incentives. The Company recognizes revenue at the time the sale is made or service is delivered to its customers and at the time of delivery of inventory to non-consolidated franchises. Revenue also includes service fees from non-consolidated franchises and independent wholesale account customers, which are recognized when services are rendered.

On the initial sale of franchising arrangements, the Company offered products and services as part of an arrangement with multiple performance obligations. Prior to the implementation of the new, simplified franchise agreement (“Franchise Agreement”) implemented in 2015, the initial sale to non-consolidated franchise stores were recorded using a relative fair value approach.

For certain sale of goods in which the Company earns commissions, the Company records net revenue as an agent on the basis that the Company does not control pricing or bear inventory risk.

Financial Services segment revenue includes interest income on credit card loans, service fees, commissions, and other revenue related to financial services. Interest income is recognized using the effective interest method. Service fees are recognized when services are rendered. Commission revenue is recorded on a net basis. Other revenue is recognized periodically or according to contractual provisions.

Choice Properties segment revenue includes rental revenue on base rents earned from tenants under lease agreements, realty tax and operating cost recoveries and other incidental income, including intersegment revenue earned from the Retail segment. The rental revenue is recognized on a straight-line basis over the terms of the respective leases. Property tax and operating cost recoveries are recognized in the period that recoverable costs are chargeable to tenants. Percentage participation rents are recognized when tenants’ specified sales targets have been met as set out in the lease agreements.

The implementation of IFRS 15 did not have a significant impact on the Company’s Retail, Financial Services or Choice Properties segment revenue streams, including its franchise arrangements with non-consolidated stores. IFRS 15 impacted the allocation of revenue that is deferred in relation to the Company’s customer loyalty award programs. Under IAS 18 and related interpretations, revenue was allocated to the customer loyalty awards using the residual fair value method. Under this method, a portion of the consideration equaling the fair value of the points was allocated to the loyalty awards and deferred until the points were ultimately redeemed. The residual consideration was allocated to the goods and services sold and recognized as revenue. Under IFRS 15, consideration will be allocated between the loyalty awards and the goods and services on which the awards were earned, based on their relative stand-alone selling prices. Using this relative fair value approach, the amount allocated to the loyalty points and recorded as deferred revenue will be, on average, lower than the amounts allocated under the residual value method. The majority of the Company’s loyalty liability, which is a contract liability, is expected to be redeemed and recognized as revenue within one year of issuance.

In addition, in the fourth quarter of 2017, the Company recorded a charge of \$189 million under IAS 18 and related interpretations, related to the revaluation of the existing loyalty liability for outstanding points to reflect a higher anticipated redemption rate under the new *PC Optimum* program. Under IFRS 15, using the relative fair value approach, this revaluation of the loyalty liability decreases by \$24 million, resulting in a charge before income taxes of \$165 million.

The impact of the above changes on retained earnings as at January 1, 2017 and December 30, 2017 is as follows:

Consolidated Balance Sheets		As at	
Increase (Decrease)	January 1, 2017	December 30, 2017	As at

Retained earnings	31	46	

The impact of this change on the comparative periods as at June 17, 2017, and for 12 weeks and 24 weeks ended June 17, 2017 is as follows:

Condensed Consolidated Balance Sheets		As at	
Increase (Decrease)		June 17, 2017	As at

The implementation of IFRS 15 had a nominal impact on earnings per share for the comparative periods.

IFRS 9 In 2014, the IASB issued IFRS 9, “Financial Instruments”, replacing IAS 39, “Financial Instruments: Recognition and Measurement” (“IAS 39”), and related interpretations. IFRS 9 includes revised guidance on the classification and measurement of financial assets, including impairment and a new general hedge accounting model. IFRS 9 is effective for annual periods beginning on or after January 1, 2018. The Company implemented the new requirements for classification and measurement, impairment and general hedging on December 31, 2017 by applying the requirements for classification and measurement, including impairment, retrospectively with the cumulative effects of initial application recorded in opening retained earnings as at December 31, 2017 with no restatement of comparative periods. The Company also applied related amendments to IFRS 7, “Financial Instruments: Disclosures”.

Classification and measurement IFRS 9 contains a new classification and measurement approach for financial assets that reflects the business model in which assets are managed and their cash flow characteristics. Financial assets are classified and measured based on these categories: amortized cost, fair value through other comprehensive income, and fair value through profit and loss. Financial liabilities are classified and measured based on two categories: amortized cost or fair value through profit and loss. Under IFRS 9, derivatives embedded in contracts where the host is a financial asset in the scope of the standard are not separated, but the hybrid financial instrument as a whole is assessed for classification.

The following table summarizes the classification impacts upon adoption of IFRS 9. The adoption of the new classification requirements under IFRS 9 did not result in significant changes in measurement or the carrying amount of financial assets and liabilities, with the exception of credit card receivables as noted below.

Asset/Liability	Classification under IAS 39	Classification under IFRS 9
Cash and cash equivalents	Fair value through profit and loss ⁽ⁱ⁾	Amortized cost

(i) Financial instruments designated at fair value through profit and loss.

(ii) Certain other assets includes mortgages, notes and loans receivable which are classified as either amortized cost or fair value through profit and loss.

(iii) Financial instruments required to be classified at fair value through profit and loss.

Financial assets are not reclassified subsequent to their initial recognition, unless the Company identifies changes in its business model in managing financial assets.

Impairment IFRS 9 replaces the ‘incurred loss’ model in IAS 39 with a forward-looking ‘expected credit loss’ (“ECL”) model. The ECL model requires considerable judgment, including consideration of how changes in economic factors affect ECLs, which will be determined on a probability-weighted basis. The new impairment model is applied, at each balance sheet date, to financial assets measured at amortized cost or those measured at fair value through other comprehensive income, except for investments in equity instruments.

IFRS 9 outlines a three-stage approach to recognizing ECL which is intended to reflect the increase in credit risks of a financial instrument. The Company applies the ECL model to assess for impairment on its financial assets at each balance sheet date. The Company, through President’s Choice Bank (“PC Bank”), recognizes loss allowances based on ECL on credit card receivables, which are measured at amortized cost. Credit card receivables are assessed collectively for impairment, applying the three-stage approach on assessing the impairment on credit card receivables as described below.

- Stage 1 is comprised of all financial instruments that have not had a significant increase in credit risks since initial recognition or that have low credit risk at the reporting date. PC Bank is required to recognize impairment for Stage 1 financial instruments based on the expected losses over the expected life of the instrument arising from loss events that could occur during the 12 months following the reporting date.
- Stage 2 is comprised of all financial instruments that have had a significant increase in credit risks since initial recognition but that do not have objective evidence of a credit loss event. For Stage 2 financial instruments the impairment is recognized based on the expected losses over the expected life of the instrument arising from loss events that could occur over the expected life. PC Bank is required to recognize a lifetime ECL for Stage 2 financial instruments.
- Stage 3 is comprised of all financial instruments that have objective evidence of impairment at the reporting date. PC Bank is required to recognize impairment based on a lifetime ECL for Stage 3 financial instruments.

In each stage of the impairment model, impairment is determined based on the probability of default, loss given default, and expected exposures at default on drawn and undrawn exposures on credit card receivables, discounted using an average portfolio yield rate. The application of the ECL model required PC Bank to apply the following significant judgments, assumptions and estimations:

- Movement of impairment measurement between the three stages of the ECL model, based on the assessment of increase in credit risks on credit card receivables. The assessment of changes in credit risks includes qualitative and quantitative factors of the accounts, such as historical credit loss experience and external credit scores;
- Thresholds for significant increase in credit risks based on changes in probability of default over the expected life of the instrument relative to initial recognition; and
- Forecasts of future economic conditions.

The ECL model had a significant impact on PC Bank’s impairment of credit card receivables. The Company revised certain inputs of the ECL model since the implementation of IFRS 9 in the first quarter of 2018 and has retrospectively applied the impact of these revisions with no impact to earnings in the first quarter of 2018. As a result of the refinements, the cumulative impact arising from the ECL model on the impairment of credit card receivables as at December 31, 2017 was as follows:

Consolidated Balance Sheets

Increase (Decrease) (millions of Canadian dollars)	As at December 31, 2017
Credit card receivables	\$ (98)
Deferred income tax assets	26
Income taxes payable	4
Deferred income tax liabilities	(4)
Retained earnings	(72)

The Company also applied ECL models to the assessment of impairment on trade receivables and other financial assets of the Company. The Company adopted the practical expedient to determine ECL on trade receivables using a provision matrix based on historical credit loss experiences to estimate lifetime ECL. The ECL models applied to other financial assets also required judgment, assumptions and estimations on changes in credit risks, forecasts of future economic conditions and historical information on the credit quality of the financial asset. The provision matrix and ECL models applied do not have a material impact on trade receivables and other financial assets of the Company.

Impairment losses are recorded in selling, general and administrative expenses (“SG&A”) in the consolidated statement of earnings with the carrying amount of the financial asset or group of financial assets reduced through the use of impairment allowance accounts. In periods subsequent to the impairment where the impairment loss has decreased, and such decrease can be related objectively to conditions and changes in factors occurring after the impairment was initially recognized, the previously recognized impairment loss is reversed through the consolidated statement of earnings. The impairment reversal is limited to the lesser of the decrease in impairment or the extent that the carrying amount of the financial asset at the date the impairment is reversed does not exceed what the amortized cost would have been had the impairment not been recognized, after the reversal.

General hedging IFRS 9 requires the Company to ensure that hedge accounting relationships are aligned with the Company’s risk management objectives and strategy and to apply a more qualitative and forward-looking approach to assessing hedge effectiveness. The Company’s risk management strategy and hedging activities are disclosed in the Company’s 2017 Annual Report – Financial Review, Note 30 “Financial Risk Management” and in this Quarterly Report, Note 17 “Financial Instruments”.

Changes to Significant Accounting Policies

The following significant accounting policies reflect certain impacts to the presentation and measurement of the Company’s unaudited interim period condensed consolidated financial statements, resulting from the acquisition of CREIT. Upon closing the acquisition, the significant accounting policies of CREIT were aligned to those of the Company.

Investment Properties Investment properties are properties owned by the Company that are held to either earn rental income, for capital appreciation, or both. The Company’s investment properties include single tenant properties held to earn rental income and certain multiple tenant properties.

In conjunction with the acquisition of CREIT, the Company elected to change the measurement of investment properties from the cost model to the fair value model retrospectively with restatement. Prior to the second quarter of 2018, the Company recognized investment properties at cost less accumulated depreciation and any accumulated impairment losses.

Under the fair value model, investment properties are initially measured at cost and subsequently measured at fair value. Fair value is determined based on available market evidence. If market evidence is not readily available in less active markets, the Company uses alternative valuation methods such as discounted cash flow projections or recent transaction prices. Under the discounted cash flow methodology, discount rates are applied to the projected annual operating cash flows, generally over a minimum term of ten years, including a terminal value of the investment properties based on a capitalization rate applied to the estimated net operating income, a non-GAAP measure, in the terminal year. Gains and losses on fair value are recognized in operating income in the period in which they are incurred. Gains and losses from disposal of investment properties are determined by comparing the fair value of disposal proceeds and the carrying amount and are recognized in operating income.

The Company applied this change in accounting policy retrospectively in the second quarter of 2018. The impacts to the Company’s comparative consolidated balance sheets are as follows:

Increase (Decrease) (millions of Canadian dollars)	As at June 17, 2017	As at December 30, 2017	As at January 1, 2017
Investment properties	\$ 41	\$ 41	\$ 41
Deferred income tax liabilities	5	5	5
Retained earnings	36	36	36

The change in accounting policy had no impact on net earnings for the comparative periods.

Joint Arrangements The Company, through Choice Properties, owns investments under joint arrangements. Joint arrangements are arrangements of which two or more parties have joint control. Joint control is the contractual sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control. Joint arrangements are classified as either joint operations or joint ventures depending on Choice Properties' rights and obligations in the arrangement based on factors such as the structure, legal form and contractual terms of the arrangement.

Joint Ventures A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement.

Choice Properties' investment in a joint venture is recorded using the equity method and is initially recognized in the consolidated balance sheet at cost and adjusted thereafter to recognize Choice Properties' share of the profit or loss and other comprehensive income of the joint venture. The Company's share of the joint venture's profit or loss is recognized in the Company's operating income and other comprehensive income.

The financial statements of the equity-accounted investment are prepared for the same reporting period as Choice Properties. Where necessary, adjustments are made to bring the accounting policies in line with those of the Company's.

A joint venture is considered to be impaired if there is objective evidence of impairment, as a result of one or more events that occurred after initial recognition of the joint venture, and that event has a negative impact on the future cash flows of the joint venture that can be reliably estimated.

Joint Operations A joint operation is a joint arrangement whereby the parties that have joint control have rights to the assets and obligations for the liabilities relating to the arrangement. The financial statements of the joint operations are prepared for the same reporting period as Choice Properties. Where necessary, adjustments are made to bring the accounting policies in line with those of the Company's. The Company recognizes its proportionate share of assets, liabilities, revenues and expenses of the joint operations.

Cash-Settled Equity-Based Compensation Transferred Restricted Units ("TRUs") represent the unvested restricted unit plan acquired in connection with the acquisition of CREIT and are accounted for as cash-settled awards. TRUs entitle certain employees to receive the value of the TRU award in Choice Properties' Trust Units ("Units") at the end of the applicable vesting period, which is usually three years in length. The TRUs are subject to vesting conditions and disposition restrictions. The TRUs remain subject to forfeiture until the employee has remained employed with Choice Properties for a specified period of time. Depending on the nature of the grant, the TRUs are subject to a six- or seven-year holding period during which the TRUs cannot be disposed.

The fair value of each unvested TRU is measured based on the market value of a Unit, less a discount to account for the vesting and holding period restriction placed on the TRUs, while taking into account expected forfeitures.

Critical Accounting Estimates and Judgments

The following critical accounting estimate and judgment reflects the Company's election to change the measurement of investment properties from the cost model to the fair value model.

Investment Properties

Judgments Made in Relation to Accounting Policies Applied Judgment is applied in determining whether certain costs are additions to the carrying value of investment properties, identifying the point at which substantial completion of the property occurs, and identifying the directly attributable borrowing costs to be included in the carrying value of the development property.

The Company, through Choice Properties, also applies judgment in determining whether the properties it acquires are considered to be asset acquisitions or business combinations.

Key Sources of Estimation The fair value of investment properties is dependent on available comparable transactions, future cash flows over the holding period, discount rates and capitalization rates applicable to those assets. The review of anticipated cash flows involves assumptions relating to occupancy, rental rates and residual value. In addition to reviewing anticipated cash flows, management assesses changes in the business climate and other factors, which may affect the ultimate value of the property. These assumptions may not ultimately be achieved.

Note 3. Business Acquisitions

Consolidation of Franchises The Company accounts for the consolidation of existing franchises as business acquisitions and consolidates its franchises as of the date the franchisee enters into a Franchise Agreement with the Company. The assets acquired and liabilities assumed through the consolidation are valued at the acquisition date using fair values, which approximate the franchise carrying values at the date of acquisition. The results of operations of the acquired franchises are included in the Company's results of operations from the date of acquisition.

The following table summarizes the amounts recognized for the assets acquired, the liabilities assumed and the non-controlling interests recognized at the acquisition dates:

(millions of Canadian dollars)	June 16, 2018 (12 weeks)	June 17, 2017 (12 weeks)	June 16, 2018 (24 weeks)	June 17, 2017 (24 weeks)
Net Assets Acquired:

(i) On consolidation, Trade payables and other liabilities and Other Liabilities eliminate against existing Accounts receivable, Franchise Loans Receivable and franchise investments held by the Company.

Choice Properties' Acquisition of Canadian Real Estate Investment Trust

On May 4, 2018, Choice Properties acquired all the assets and assumed all the liabilities, including outstanding debt, of CREIT for total consideration of \$3,708 million. The consideration was comprised of \$1,652 million of cash and the issuance of 182,836,481 Trust Units.

In anticipation of the acquisition, Choice Properties arranged a new \$1,500 million committed revolving credit facility. Concurrent with closing of the acquisition of CREIT, Choice Properties repaid and cancelled its existing credit facilities prior to the acquisition and those acquired from CREIT (note 12).

Also, concurrent with the closing of the acquisition, the Company, Choice Properties' controlling unitholder, converted all of its outstanding Class C LP Units with the face value of \$925 million into Class B LP Units of Choice Properties Limited Partnership. Choice Properties issued to the Company 70,881,226 Class B LP Units upon the conversion and the shortfall in value of approximately \$99 million was paid in cash. In connection with this conversion, the Company recognized capital gains income tax expense of \$8 million in contributed surplus.

The cash portion of the acquisition and other transactions in relation to CREIT was financed as follows:

- \$1,300 million of proceeds from the issuance of senior unsecured debentures Series K and L (note 12); and
- \$800 million unsecured term loan facilities (note 12).

The preliminary purchase equation is based on management's best estimate of fair value. The actual amount allocated to certain identifiable net assets could vary as the purchase equation is finalized. The preliminary purchase price allocation at the acquisition date is as follows:

(millions of Canadian dollars)	As at May 4, 2018
Net Assets Acquired:	
Cash and cash equivalents	\$ 28
Accounts receivable and other assets	45
Mortgages, loans and notes receivable ⁽ⁱ⁾	204
Equity accounted joint ventures	683
Investment properties	4,730
Intangible assets	30
Goodwill	355
Trade payables and other liabilities	(171)
Long term debt	(1,841)
Deferred income tax liabilities	(355)
Total Net Assets Acquired	\$ 3,708

(i) Included in Other Assets on the unaudited interim period condensed consolidated balance sheets.

Choice Properties has one year to finalize the fair value of the assets acquired and the liabilities assumed.

The goodwill is generated on consolidation of Choice Properties and is attributable to deferred income tax recorded on temporary differences arising between the fair value of the investment properties acquired and their respective income tax bases for the Company's effective ownership interest in Choice Properties. The goodwill arising from this acquisition is not deductible for tax purposes. Management has preliminarily allocated this goodwill to the Retail segment.

As at June 16, 2018, on a year-to-date basis, the Company, through Choice Properties incurred costs totaling \$120 million related to the acquisition of CREIT which were recorded in SG&A. Of this amount, \$108 million was recognized during the second quarter of 2018.

Included in the unaudited interim period condensed consolidated financial statements for the second quarter of 2018 is approximately \$69 million in revenue and \$48 million of operating income related to CREIT since the date of acquisition, excluding the impact of acquisition transaction costs and any adjustment to the fair value of the investment properties acquired.

On a year-to-date pro forma basis, the impact of the CREIT acquisition on the Company's revenue and net income in the first half of 2018 would have amounted to approximately \$207 million and \$10 million, respectively, excluding the impact of acquisition transaction costs and any adjustment to the fair value of the investment properties acquired. This pro forma information incorporates the effect of the preliminary purchase equation as if the acquisition had been effective December 31, 2017.

Investment Properties As part of the acquisition of CREIT, the Company acquired investment properties of \$4.7 billion, of which a sample of 78 investment properties and equity accounted investments, representing \$2.7 billion of the value, were independently appraised. In addition, Choice Properties has engaged independent nationally-recognized valuation firms to appraise the investment properties such that substantially all of the portfolio will be independently appraised at least once over a five-year period. During the second quarter of 2018, the Company recognized a fair value loss of \$9 million, related to these investment properties.

Joint Ventures Choice Properties accounts for its investments in joint ventures using the equity method. These investments hold development properties and some income-producing properties. As part of the acquisition of CREIT, Choice Properties acquired 23 equity accounted joint ventures.

Co-Ownership Property Interests Choice Properties acquired 45 co-owned property interests, joint operations, as of part of the acquisition of CREIT. The Company's proportionate share of the related assets, liabilities, revenue and expenses of these properties are included in the unaudited interim period condensed consolidated financial statements.

Note 4. Net Interest Expense and Other Financing Charges

The components of net interest expense and other financing charges were as follows:

(millions of Canadian dollars)	June 16, 2018 (12 weeks)	June 17, 2017 (12 weeks)	June 16, 2018 (24 weeks)	June 17, 2017 (24 weeks)

Net interest expense and other financing charges	\$ 370	\$ 127	\$ 383	\$ 288

(i) Includes interest on debt assumed from the acquisition of CREIT.

(ii) Choice Properties issued 182,836,481 new Trust units to Trust Unitholders other than the Company in connection with the acquisition of CREIT (notes 3 and 17).

Note 5. Income Taxes

Income tax expense in the second quarter of 2018 was \$126 million (2017 – \$135 million) and the effective income tax rate was 66.0% (2017 – 27.0%). Year-to-date income tax expense was \$218 million (2017 – \$235 million) and the effective income tax rate was 33.1% (2017 – 28.2%). The increase in the effective tax rate in the second quarter of 2018 and year-to-date was primarily attributable to the impact of non-deductible items including costs related to the acquisition of CREIT and an increase in the non-deductible fair value adjustment to the Trust Unit Liability.

In the first quarter of 2018, voting control of the Company was acquired by a related group, which included Weston and Wittington, and resulted in certain adjustments for tax purposes during the quarter.

Diluted net earnings per common share (\$)	\$ 0.13	\$ 0.90	\$ 1.12	\$ 1.47

(i) Certain comparative figures have been restated (note 2).

In the second quarter of 2018 and year-to-date, 4,029,968 (2017 – 1,390,338 and 2,603,398, respectively) potentially dilutive instruments were excluded from the computation of diluted net earnings per common share as they were anti-dilutive.

Note 7. Cash and Cash Equivalents and Short Term Investments

The components of cash and cash equivalents and short term investments were as follows:

Cash and Cash Equivalents

(millions of Canadian dollars)	As at June 16, 2018	As at June 17, 2017	As at December 30, 2017

Securitized to Other Independent Securitization Trusts	590	560	640
Total securitized to independent securitization trusts	\$ 1,490	\$ 1,210	\$ 1,540

(i) Allowance on credit card receivables as at June 16, 2018 includes the impact of the implementation of IFRS 9 (see note 2).

The Company, through PC Bank, participates in various securitization programs that provide a source of funds for the operation of its credit card business. PC Bank maintains and monitors the co-ownership interest in credit card receivables with independent securitization trusts, including *Eagle Credit Card Trust* (“Eagle”) and Other Independent Securitization Trusts, in accordance with its financing requirements.

The associated liability of *Eagle* is recorded in long term debt (see note 12). The associated liabilities of credit card receivables securitized to the Other Independent Securitization Trusts are recorded in short term debt.

As at June 16, 2018, the aggregate gross potential liability under letters of credit for the benefit of the Other Independent Securitization Trusts was \$53 million (June 17, 2017 – \$62 million; December 30, 2017 – \$62 million), which represented 9% (June 17, 2017 – 11% and December 30, 2017 – 10%) of the securitized credit card receivables amount.

Under its securitization programs, PC Bank is required to maintain, at all times, a credit card receivable pool balance equal to a minimum of 107% of the outstanding securitized liability. PC Bank was in compliance with this requirement as at June 16, 2018 and throughout the first half of 2018.

Note 9. Inventories

For inventories recorded as at June 16, 2018, the Company recorded an inventory provision of \$33 million (June 17, 2017 – \$27 million; December 30, 2017 – \$39 million), for the write-down of inventories below cost to net realizable value. The write-down was included in cost of merchandise inventories sold. There were no reversals of previously recorded write-downs of inventories during the first half of 2018 and 2017.

Note 10. Assets Held for Sale

The Company classifies certain assets, primarily land and buildings, that it intends to dispose of in the next 12 months, as assets held for sale. These assets were previously used in the Company’s retail business segment. In the second quarter of 2018, the Company recorded a nominal loss (2017 – nil) from the sale of these assets. Nominal impairment charges were recognized on these assets during the second quarter of 2018 (2017 – nil).

As at June 17, 2017, the Company had included \$78 million of fixed assets and \$10 million of inventory, related to the gas bar operations, as assets held for sale. In addition, \$54 million of related accounts payable and accrued liabilities were classified as liabilities held for sale. No impairment or other charges were recognized on the net assets of the gas bar operations. The sale of the gas bar operations was completed in the third quarter of 2017.

Note 11. Other Assets

The components of other assets were as follows:

(millions of Canadian dollars)	As at June 16, 2018	As at June 17, 2017	As at December 30, 2017
Sundry investments and other receivables	\$ 62	\$ 70	\$ 56

Current portion of mortgages, loans and notes receivable ⁽ⁱⁱ⁾	69	26	26
Other Assets	\$ 615	\$ 413	\$ 383

(i) In connection with the acquisition of CREIT, the Company assumed Mortgages, loans and notes receivable of \$204 million (note 3).

(ii) Current portion of mortgages, loans and notes receivable are included in prepaid expenses and other assets in the unaudited interim period condensed consolidated balance sheets.

Note 12. Long Term Debt

The components of long term debt were as follows:

(millions of Canadian dollars)	As at June 16, 2018	As at June 17, 2017	As at December 30, 2017
Debentures and Medium Term Notes ⁽ⁱ⁾	\$ 9,120	\$ 7,380	\$ 7,387

Long Term Debt due within one year	2,623	581	1,635
Long Term Debt	\$ 12,003	\$ 10,338	\$ 9,542

(i) In connection with the acquisition of CREIT, on May 4, 2018 the Company assumed Mortgages of \$1.3 billion, Medium Term Notes of \$450 million and Construction loans of \$10 million. The Company also assumed a credit facility of \$70 million, which was repaid in the second quarter of 2018 (note 3).

The Company and Choice Properties are required to comply with certain financial covenants for various debt instruments. As at June 16, 2018 and throughout the first half of 2018, the Company and Choice Properties were in compliance with their respective covenants.

Debentures and Medium Term Notes The following table summarizes the debentures and Medium Term Notes (“MTNs”) issued or assumed in 2018. There were no MTNs issued in the comparative periods in 2017.

(millions of Canadian dollars except where otherwise indicated)	Interest Rate	Maturity Date	June 16, 2018	June 16, 2018

(i) Choice Properties Series A unsecured debentures were redeemed on February 12, 2018.

(ii) Choice Properties Series 6 unsecured debentures were redeemed on January 23, 2017.

Unsecured Term Loan Facilities In the second quarter of 2018, Choice Properties obtained \$800 million through two unsecured term loan facilities, one \$175 million 4-year unsecured term loan provided by a syndicate of lenders maturing May 4, 2022 and one \$625 million 5-year unsecured term loan provided by a syndicate of lenders maturing May 4, 2023. The term loans bear interest at variable rates of either Prime plus 0.45% or Bankers’ Acceptance rate plus 1.45%. The pricing of these term loans is contingent on Choice Properties credit ratings from DBRS and S&P remaining at “BBB”.

Guaranteed Investment Certificates The following table summarizes PC Bank's Guaranteed Investment Certificates activity, before commissions, during 2018 and 2017:

(millions of Canadian dollars)	June 16, 2018 (12 weeks)	June 17, 2017 (12 weeks)	June 16, 2018 (24 weeks)	June 17, 2017 (24 weeks)
Balance, beginning of period	\$ 840	\$ 923	\$ 852	\$ 928
Guaranteed Investment Certificates issued	151	6	152	7
Guaranteed Investment Certificates matured	(41)	(6)	(54)	(12)
Balance, end of period	\$ 950	\$ 923	\$ 950	\$ 923

Independent Securitization Trust The notes issued by *Eagle* are MTNs, which are collateralized by PC Bank's credit card receivables (see note 8). As at June 16, 2018, the aggregate gross potential liability under letters of credit for the benefit of *Eagle* was \$36 million (June 17, 2017 and December 30, 2017 – \$36 million), which represented 9% (June 17, 2017 and December 30, 2017 – 9%) of the outstanding *Eagle* notes issued prior to 2015.

Subsequent to the second quarter of 2018, *Eagle* issued \$250 million of senior and subordinated term notes with a maturity date of July 17, 2023 at a weighted average interest rate of 3.10%. In connection with this issuance, \$250 million of bond forward agreements were settled after the quarter, resulting in a realized fair value loss of \$1 million and a net effective interest rate of 3.15% on the *Eagle* notes issued.

Independent Funding Trusts The Company provides credit enhancement in the form of a standby letter of credit for the benefit of the independent funding trusts in the amount of \$64 million (June 17, 2017 and December 30, 2017 – \$64 million), representing not less than 10% (June 17, 2017 and December 30, 2017 – not less than 10%) of the principal amount of loans outstanding.

Committed Credit Facilities The components of the committed lines of credit as of June 16, 2018, June 17, 2017 and December 30, 2017 were as follows:

(millions of Canadian dollars)	Maturity Date	As at June 16, 2018		As at June 17, 2017		As at December 30, 2017	
		Available Credit	Drawn	Available Credit	Drawn	Available Credit	Drawn

Total Committed Lines of Credit		\$ 2,500	\$ 182	\$ 1,750	\$ 464	\$ 1,750	\$ 561

In the first half of 2018, Choice Properties repaid and cancelled the \$250 million Committed Bi-lateral Credit Facility and the \$500 million Committed Syndicated Credit Facility.

During the second quarter of 2018, Choice properties entered into a new syndicated \$1,500 million senior unsecured committed revolving credit facility maturing May 4, 2023. The credit facility bears interest at variable rates of either: Prime plus 0.45% or Bankers' Acceptance rate plus 1.45%. The pricing of this credit facility is contingent on Choice Properties credit ratings from DBRS and S&P remaining at "BBB".

Long Term Debt Due Within One Year The following table summarizes long term debt due within one year:

In the first quarter of 2018, the Company entered into and completed an automatic share purchase plan ("ASPP") with a broker in order to facilitate repurchases of the Company's common shares under its current NCIB. Under the Company's ASPP, the Company's broker purchased common shares at times when the Company ordinarily would not be active in the market.

In the second quarter of 2018, the Company renewed its NCIB to purchase on the Toronto Stock Exchange ("TSX") or through alternative trading systems up to 18,952,573 of the Company's common shares, representing approximately 5% of outstanding common shares. In accordance with the rules and by-laws of the TSX, the Company may purchase its common shares from time to time at the then market price of such shares. As at June 16, 2018, the Company has purchased 4,559,682 common shares under its current NCIB.

Note 15. Equity-Based Compensation

The Company's equity-based compensation expense, which includes Loblaw Stock Option, Restricted Share Unit ("RSU"), Performance Share Unit ("PSU"), Director Deferred Share Unit, Executive Deferred Share Unit plans, and the unit-based compensation plans of Choice Properties, was \$14 million for the second quarter of 2018 (2017 – \$14 million) and \$22 million year-to-date (2017 – \$30 million). The expense was recognized in operating income.

The carrying amount of the Company's equity-based compensation arrangements are recorded on the condensed consolidated balance sheets as follows:

(millions of Canadian dollars)	As at June 16, 2018	As at June 17, 2017	As at December 30, 2017
Trade payables and other liabilities	\$ 9	\$ 11	\$ 11

Outstanding options, end of period	7,917,849	8,131,926	7,917,849	8,131,926

During the second quarter of 2018, the Company granted stock options with a weighted average exercise price of \$65.59 (2017 – \$77.81) and \$66.19 year-to-date (2017 – \$70.19). In addition, the Company issued common shares on the exercise of stock options with a weighted average share price during the second quarter of 2018 of \$65.91 (2017 – \$76.27) and \$66.20 year-to-date (2017 – \$73.75) and received cash consideration of \$4 million (2017 – \$12 million) and \$38 million year-to-date (2017 – \$21 million).

The fair value of stock options granted during the second quarter of 2018 was nominal (2017 – nominal) and \$15 million year-to-date (2017 – \$14 million). The assumptions used to measure the fair value of options granted during 2018 and 2017 under the Black-Scholes valuation model at date of grant were as follows:

	June 16, 2018 (12 weeks)	June 17, 2017 (12 weeks)	June 16, 2018 (24 weeks)	June 17, 2017 (24 weeks)
Expected dividend yield	1.8%	1.4%	1.7%	1.4%
Expected share price volatility	15.3% – 17.2%	16.2% – 18.1%	15.2% – 17.2%	16.2% – 18.2%
Risk-free interest rate	2.1% – 2.2%	0.9% – 1.2%	1.9% – 2.2%	0.9% – 1.3%
Expected life of options	3.9 – 6.3 years	3.8 – 6.3 years	3.9 – 6.3 years	3.8 – 6.3 years

Estimated forfeiture rates are incorporated into the measurement of stock option plan expense. The forfeiture rate applied as at June 16, 2018 was 8.0% (June 17, 2017 – 10.0%).

Restricted Share Unit Plan The following is a summary of the Company's RSU plan activity:

(number of awards)	June 16, 2018 (12 weeks)	June 17, 2017 (12 weeks)	June 16, 2018 (24 weeks)	June 17, 2017 (24 weeks)
RSUs, beginning of period	890,926	1,095,989	824,705	858,106
Granted	23,517	18,676	300,086	265,851
Reinvested	2,488	886	2,488	886
Settled	(20,291)	(266,540)	(219,768)	(270,374)
Forfeited	(8,936)	(19,937)	(19,807)	(25,395)
RSUs, end of period	887,704	829,074	887,704	829,074

The fair value of RSUs granted during the second quarter of 2018 was \$2 million (2017 – \$2 million) and \$20 million year-to-date (2017 – \$19 million).

Performance Share Unit Plan The following is a summary of the Company's PSU plan activity:

(number of awards)	June 16, 2018 (12 weeks)	June 17, 2017 (12 weeks)	June 16, 2018 (24 weeks)	June 17, 2017 (24 weeks)
PSUs, beginning of period	661,127	1,165,871	631,528	965,863
Granted	7,384	181,230	309,188	387,734
Reinvested	1,779	739	1,779	739
Settled	(23,617)	(659,785)	(289,393)	(662,440)
Forfeited	(8,270)	(31,668)	(14,699)	(35,509)
PSUs, end of period	638,403	656,387	638,403	656,387

The fair value of PSUs granted during the second quarter of 2018 was nominal (2017 – nominal) and \$14 million year-to-date (2017 – \$14 million).

Settlement of Awards from Shares Held in Trust During the second quarter of 2018, the Company settled RSUs and PSUs totaling 43,908 (2017 – 926,325) and 509,161 year-to-date (2017 – 932,814) through the trusts established for settlement of each of the RSU and PSU plans (see note 14).

The settlements in the second quarter of 2018 and year-to-date resulted in a \$2 million and \$21 million increase to retained earnings, respectively (second quarter of 2017 and year-to-date – \$25 million) and a \$1 million and \$10 million increase to common share capital, respectively (second quarter 2017 and year-to-date – \$18 million).

Note 16. Post-Employment and Other Long Term Employee Benefits

The costs and actuarial gains and losses related to the Company's post-employment and other long term employee benefits during the periods were as follows:

(millions of Canadian dollars)	June 16, 2018 (12 weeks)	June 17, 2017 (12 weeks)	June 16, 2018 (24 weeks)	June 17, 2017 (24 weeks)
Post-employment benefit costs recognized in operating income ⁽ⁱ⁾	\$ 34	\$ 32	\$ 72	\$ 78
Other long term employee benefits costs recognized in operating income ⁽ⁱⁱ⁾	7	3	11	7
Net interest on net defined benefit obligation included in net interest expense and other financing charges (note 4)	3	2	5	4
Actuarial gains (losses) before income taxes recognized in other comprehensive income	43	(27)	19	(59)

(i) Includes costs related to the Company's defined benefit plans, defined contribution pension plans and the multi-employer pension plans in which it participates. Also includes settlement charges in the second quarter of 2018 of \$1 million (2017 – nil) and the year-to-date of \$1 million (2017 – \$7 million).

(ii) Includes costs related to the Company's long term disability plans.

The actuarial gains recognized in the second quarter of 2018 and year-to-date were primarily driven by higher than expected returns on assets. The actuarial losses recognized in the second quarter of 2017 and year-to-date were primarily driven by declines in discount rates, partially offset by higher than expected returns on assets.

The Company is undertaking annuity purchases and pension buy-outs in respect of former employees designed to reduce its defined benefit pension plan obligation and decrease future pension volatility and risks.

In the second quarter of 2018, the Company completed an annuity purchase and paid \$228 million from the impacted plans' assets to settle \$227 million of pension obligations and recorded settlement charges of \$1 million in SG&A.

In the first quarter of 2017, the Company completed an annuity purchase and paid \$110 million from the impacted plans' assets to settle \$103 million of pension obligations and recorded settlement charges of \$7 million in SG&A.

Note 17. Financial Instruments

The following table presents the fair value hierarchy of financial assets and financial liabilities, excluding those classified as amortized cost that are short term in nature. The carrying values of the Company's financial instruments approximate their fair values except for long term debt.

(i) Certain other assets, certain other long term investments, and certain other liabilities are included in the condensed consolidated balance sheets in Other Assets and Other Liabilities, respectively.

There were no transfers between levels of the fair value hierarchy during the periods presented.

During the second quarter of 2018, the Company recognized a gain of \$2 million (2017 – nominal gain) and a gain of \$4 million (2017 – nominal gain) year-to-date in operating income on financial instruments classified as amortized cost. In addition, during the second quarter of 2018, a net loss of \$182 million (2017 – gain of \$4 million) and a net loss of \$53 million (2017 – net loss of \$38 million) year-to-date was recorded in earnings before income taxes related to financial instruments classified as fair value through profit or loss. This amount was primarily related to the fair value loss on the Trust Unit Liability.

Franchise Loans Receivable and Franchise Investments The value of Loblaw franchise loans receivable of \$119 million (June 17, 2017 – \$176 million; December 30, 2017 – \$166 million) was recorded in the condensed consolidated balance sheet. In the second quarter of 2018 the Company recorded a gain of \$1 million (2017 – nil) and a gain of \$2 million (2017 – nil) year-to-date in operating income related to these loans receivable.

The value of Loblaw franchise investments of \$14 million (June 17, 2017 – \$27 million; December 30, 2017 – \$20 million) was recorded in other assets. During the second quarter of 2018, the Company recorded a nominal gain (2017 – loss of \$1 million) and a gain of \$1 million (2017 – loss of \$2 million) year-to-date in operating income related to these investments.

Embedded Derivatives The Company's level 3 financial instruments classified as fair value through profit or loss consist of embedded derivatives on purchase orders placed in neither Canadian dollars, nor the functional currency of the vendor. These derivatives are valued using a market approach based on the differential in exchange rates and timing of settlement. The significant unobservable input used in the fair value measurement is the cost of purchase orders. Significant increases (decreases) in any one of the inputs could result in a significantly higher (lower) fair value measurement.

During the second quarter of 2018, a gain of \$1 million (2017 – gain of \$4 million) and a loss of \$4 million (2017 – gain of \$5 million) year-to-date was recorded in operating income related to these derivatives. In addition, a corresponding liability of \$2 million was included in trade payable and other liabilities as at June 16, 2018 (June 17, 2017 – \$3 million asset included in prepaid expenses and other assets; December 30, 2017 – \$2 million asset included in prepaid expenses and other assets). As at June 16, 2018, a 1% increase (decrease) in foreign currency exchange rates would result in a \$1 million gain (loss) in fair value.

Trust Unit Liability During the second quarter of 2018, the Company recorded a fair value loss of \$192 million (2017 – gain of \$1 million) and a loss of \$68 million (2017 – loss of \$35 million) year-to-date in net interest expense and other financing charges related to Choice Properties' Trust Units (see note 4).

As at June 16, 2018, 255,763,195 Units were held by unitholders other than the Company (June 17, 2017 – 71,897,086; December 30, 2017 – 72,800,965). During the second quarter of 2018, Choice Properties issued 47,435 units (2017 – 427,918) and 125,749 units (2017 – 828,258) year-to-date, to eligible unitholders under its distribution reinvestment plan at an average price of \$11.37 (2017 – \$13.57) and \$11.82 (2017 – \$13.51) year-to-date. In addition, during the second quarter of 2018, Choice Properties issued 182,836,481 new Trust units to Trust unitholders other than the Company in connection with the acquisition of CREIT at an average price of \$11.25 (note 3).

Securities Investments PC Bank holds investments which are considered part of the liquid securities required to be held to meet its Liquidity Coverage Ratio. As at June 16, 2018, the fair value of these investments of \$60 million (June 17, 2017 – \$22 million; December 30, 2017 – \$20 million) was included in other assets. During the second quarter of 2018, PC Bank recorded a nominal unrealized fair value loss (2017 – nominal loss) and a nominal unrealized fair value gain (2017 – nominal loss) year-to-date in other comprehensive income related to these investments.

Other Derivatives The Company uses bond forwards and interest rate swaps, to manage its anticipated exposure to fluctuations in interest rates on future debt issuances. The Company also uses futures, options and forward contracts to manage its anticipated exposure to fluctuations in commodity prices and exchange rates in its underlying operations. The following is a summary of the fair values recognized in the condensed consolidated balance sheets and the net realized and unrealized gains (losses) before income taxes related to the Company's other derivatives:

Note 18. Contingent Liabilities

In the ordinary course of business, the Company is involved in and potentially subject to, legal actions and proceedings. In addition, the Company is subject to tax audits from various tax authorities on an ongoing basis. As a result, from time to time, tax authorities may disagree with the positions and conclusions taken by the Company in its tax filings or legislation could be amended or interpretations of current legislation could change, any of these events could lead to reassessments.

There are a number of uncertainties involved in such matters, individually or in aggregate, and as such, there is a possibility that the ultimate resolution of these matters may result in a material adverse effect on the Company's reputation, operations, financial condition or performance in future periods. It is not currently possible to predict the outcome of the Company's legal actions and proceedings with certainty. Management regularly assesses its position on the adequacy of such accruals or provisions and will make any necessary adjustments.

The following is a description of the Company's significant legal proceedings:

On August 26, 2015, the Company was served with a proposed class action, which was commenced in the Ontario Superior Court of Justice against the Company and certain subsidiaries, Weston and others in connection with the collapse of the Rana Plaza complex in Dhaka, Bangladesh in 2013. The claim seeks approximately \$2 billion in damages. The Company believes this proceeding is without merit and is vigorously defending it. The Company does not currently have any significant accruals or provisions for this matter recorded in the unaudited interim period condensed consolidated financial statements.

Shoppers Drug Mart Corporation ("Shoppers Drug Mart") has been served with an Amended Statement of Claim in a class action proceeding that has been filed in the Ontario Superior Court of Justice by two Associates, claiming various declarations and damages resulting from Shoppers Drug Mart's alleged breaches of the Associate Agreement, in the amount of \$500 million. The class action comprises all of Shoppers Drug Mart's current and former licensed Associates residing in Canada, other than in Québec, who are parties to Shoppers Drug Mart's 2002 and 2010 forms of the Associate Agreement. On July 9, 2013, the Ontario Superior Court of Justice certified as a class proceeding portions of the action. The Court imposed a class closing date based on the date of certification. New Associates after July 9, 2013 are not members of the class. The Company believes this claim is without merit and is vigorously defending it. The Company does not currently have any significant accruals or provisions for this matter recorded in the unaudited interim period condensed consolidated financial statements.

The Company has been reassessed by the Canada Revenue Agency and the Ontario Ministry of Finance on the basis that certain income earned by Glenhuron Bank Limited, a wholly owned Barbadian subsidiary, should be treated, and taxed, as income in Canada. The reassessments, which were received between 2015 and 2018, are for the 2000 to 2013 taxation years and total \$441 million of taxes, interest and penalties. The Company believes the reassessments are without merit and is vigorously defending them. The Company has filed a Notice of Appeal with the Tax Court of Canada for the 2000 to 2010 taxation years and a Notice of Objection for the 2011 and 2012 taxation years and intends to file a Notice of Objection for the 2013 taxation year. The Tax Court of Canada trial concluded in the third quarter of 2018. The decision of the Tax Court is under reserve. The Company does not currently have any significant accruals or provisions for this matter recorded in the unaudited interim period condensed consolidated financial statements.

In 2017, the Company and Weston announced actions taken to address their role in an industry-wide price-fixing arrangement involving certain packaged bread products. The arrangement involved the coordination of retail and wholesale prices of certain packaged bread products over a period extending from late 2001 to March 2015. Under the arrangement, the participants regularly increased prices on a coordinated basis.

Class action lawsuits have been commenced against the Company and Weston as well as a number of other major grocery retailers and another bread wholesaler. It is too early to predict the outcome of such legal proceedings. Neither the Company nor Weston believes that the ultimate resolution of such legal proceedings will have a material adverse impact on its financial condition or prospects. The Company's cash balances far exceed any realistic damages scenario and therefore it does not anticipate any impacts on its dividend, dividend policy or share buyback plan.

The Company has not recorded any amounts related to the potential civil liability associated with the class action lawsuits in the second quarter of 2018 on the basis that a reliable estimate of the liability cannot be determined at this time. The Company will continue to assess whether a provision for civil liability associated with the class action lawsuits can be reliably estimated and will record an amount in the period at the earlier of when a reliable estimate of liability can be determined or the matter is ultimately resolved.

In 2017, the Company and George Weston Limited acknowledged their involvement in an industry wide price-fixing arrangement. In connection with the arrangement, the Company offered customers a \$25 Loblaw Card, which can be used to purchase items sold in Loblaw grocery stores across Canada. The Company recorded a charge of \$107 million associated with the Loblaw Card Program in the fourth quarter of 2017. In the first quarter of 2018, the Company recorded an additional charge of \$19 million, and in the second quarter of 2018, the Company recorded a reversal of \$11 million. The Company expects that Loblaw Cards issued to customers will be an offset against civil liability. The charge recorded for the Loblaw Card Program should not be viewed as an estimate of damages.

As a result of admission of participation in the arrangement and cooperation in the Competition Bureau's investigation, the Company and Weston will not face criminal charges or penalties.

Indemnification Provisions The Company from time to time enters into agreements in the normal course of its business, such as service and outsourcing arrangements, lease agreements in connection with business or asset acquisitions or dispositions, and other types of commercial agreements. These agreements by their nature may provide for indemnification of counterparties. These indemnification provisions may be in connection with breaches of representations and warranties or in respect of future claims for certain liabilities, including liabilities related to tax and environmental matters. The terms of these indemnification provisions vary in duration and may extend for an unlimited period of time. In addition, the terms of these indemnification provisions vary in amount and certain indemnification provisions do not provide for a maximum potential indemnification amount. Indemnity amounts are dependent on the outcome of future contingent events, the nature and likelihood of which cannot be determined at this time. As a result, the Company is unable to reasonably estimate its total maximum potential liability in respect of indemnification provisions. Historically, the Company has not made any significant payments in connection with these indemnification provisions.

Note 19. Segment Information

The Company has three reportable operating segments with all material operations carried out in Canada:

- The Retail segment consists primarily of corporate and franchise-owned retail food and Associate-owned drug stores, which includes in-store pharmacies and other health and beauty products, apparel and other general merchandise, and provides the *PC Optimum* program. This segment is comprised of several operating segments that are aggregated primarily due to similarities in the nature of products and services offered for sale in the retail operations and the customer base. Prior to July 17, 2017, the Retail segment also included gas bar operations.
- The Financial Services segment provides credit card services, the *PC Optimum* program, insurance brokerage services, Guaranteed Investment Certificates and telecommunication services. As a result of the wind-down of *PC Financial* banking services, the Financial Services segment no longer offers personal banking services.
- Choice Properties owns, manages and develops a high quality portfolio of commercial retail, industrial, office and residential properties across Canada. The Choice Properties segment information presented below reflects the accounting policies of Choice Properties, which may differ from those of the consolidated Company. Differences in policies are eliminated in Consolidation and Eliminations. As of May 4, 2018, the Choice Properties segment includes the acquisition of CREIT.

Notes to the Unaudited Interim Period Condensed Consolidated Financial Statements

The Company's chief operating decision maker evaluates segment performance on the basis of adjusted EBITDA⁽²⁾ and adjusted operating income⁽²⁾, as reported to internal management, on a periodic basis.

Corporate Profile

Loblaw Companies Limited is Canada's food and pharmacy leader, the nation's largest retailer, and the majority unit holder of Choice Properties Real Estate Investment Trust. Loblaw provides Canadians with grocery, pharmacy, health and beauty, apparel, general merchandise, financial services, and wireless mobile products and services. With more than 2,400 corporate, franchised and Associate-owned locations, Loblaw, its franchisees, and Associate-owners employ approximately 200,000 full- and part-time employees, making it one of Canada's largest private sector employers.

Loblaw's purpose – *Live Life Well* – puts first the needs and well-being of Canadians who make one billion transactions annually in the companies' stores. Loblaw is positioned to meet and exceed those needs in many ways: convenient locations; more than 1,050 grocery stores that span the value spectrum from discount to specialty; full-service pharmacies at nearly 1,400 *Shoppers Drug Mart* and *Pharmaprix* locations and close to 500 Loblaw locations; *Presidents Choice Financial* services; affordable *Joe Fresh* fashion and family apparel; and three of Canada's top consumer brands – *President's Choice*, *noname* and *Life Brand*. Through the *PC Optimum* loyalty program, more than one in every three Canadians are rewarded for shopping with the Company.

Trademarks

Loblaw Companies Limited and its subsidiaries own a number of trademarks. Several subsidiaries are licensees of additional trademarks. These trademarks are the exclusive property of Loblaw Companies Limited or the licensor and where used in this report, are in italics.
