JOB POSTING

This position will initially assist in the design, development, and implementation of the UNITE ERP Project as it impacts UGI Holding Company. Position will be responsible to define business processes and procedures for the respective functional area as required by UGI Corporation Holding Company. In the initial SAP implementation phase, position will serve as the liaison between end users of UGI's legacy system at UGI Holdco and information technology staff responsible for enhancements or development. In addition, daily interaction and working side by side with project consultants assigned to the project. ***This position will focus on UGI Corporation's functionality and during the ERP implementation phase will include time dedicated onsite with the UNITE ERP project team in Reading, PA and with UGI Headquarters' staff in Valley Forge, PA.***

After the initial implementation phase of approximately 1 year, this position will oversee the UGI Holding Company ERP function and be responsible for coordinating and participating in the monthly closing and reporting activities of the UGI Holding Company and other Delaware holding company

entities accounted for at UGI headquarters. In this capacity, this position will work out of UGI Corporation's headquarters.

Responsibilities include:

UNITE ERP Rollout Project Lead (Phase 1):

- Define business processes and procedures which include validating and confirming those processes through blueprint design and realization. This includes preparation of materials for design and functional workshops, notes, action item follow ups, inputs to process flow and process design documents configuration and working with the UNITE Change Management team to build training materials for end users at UGI Corporate HQ.
- Work with IT staff and other team members during system development life cycle, participating in design, data mapping, data modeling, testing (Functional specification, user acceptance and integration testing), and program specific walk-throughs. Plan and document test scenarios, errors, and written functional specifications. Provide support for the development of the cutover plan.
- Serve as liaison between end users of UGI's Legacy System and IT team responsible for enhancements or development. Coordinate communications with super users and subject matter advisors that are not part of the team which includes performing analysis of law or policy changes thereby determining business requirements.
- Attend all project meetings and training classes on an as required basis. Support the Team Lead for both UGI and assigned project consultant.

UGI Holdco ERP System Function Lead and Holdco Reporting Responsibilities (Phase 2):

- Oversee the UGI Holding Company ERP functions including participating in ongoing improvements and changes in ERP functionality, process controls and design. Serve as local subject matter expert (SME) to UGI Headquarters' employees who use the UNITE ERP system at UGI Holding Company.
- Maintain the general ledger system for UGI Corporation (Holding Company) in UNITE ERP. Supervise and maintain the accounts payable function including employee expense reporting. Maintain and supervise the use of the project accounting system. Oversee the UGI Headquarters' monthly closing and reporting activities.
- Create and record journal entries for UGI Holding Company and UGI Utilities. Review UGI Holding Company's general ledger and responsibility accounting systems for accuracy, including budget and actual information.
- Oversee the closing of other Delaware holding company entities accounted for at UGI headquarters.
- Participate as lead to the annual UGI Holdco budgeting process.
- Maintain and coordinate any updates to the UNITE ERP ledger system proposed by the Information Systems department at UGI Utilities.
- Review the monthly analysis of account balances and prepare and review special analysis when required by management. Calculate the allocation of corporate expenses to subsidiaries annually and provide allocations monthly for recording by the subsidiary entities.
- Complete tax package for UGI Holding Company and certain incentive compensation sections for other subsidiaries.
- Supervise accounts payable function and intercompany billings.
