

# SASKATCHEWAN METALS PROCESSING PLANT CONTRACTING OPPORTUNITIES

There are many other opportunities that are associated with the mining and processing industry. A lot of companies contract different parts of the process. You can create your own opportunities by providing goods and services to the industry. Some examples related to mining and processing are: site maintenance, construction (buildings, roads, reclamation etc.), engineering services, environmental monitoring and surveying, metals fabrication (i.e. various steel products), medical services (nursing, first aid), supplies (equipment and goods), security, equipment rental and transportation (air and ground).

## POTENTIAL CONTRACTS AND SERVICES OPPORTUNITIES

### CONSTRUCTION PHASE (~18 MONTHS)

- Health Services (Safety Training)
- Health Services (First Aid)
- Fire safety systems
- Fuel Provider
- Transportation (General Delivery)
- Transportation (Equip. Delivery)
- Transportation (Labor Shuttle)
- Mobile Equip. Provider
- On site food services
- Waste Management
- Earth works
- Warehousing & Storage (including laydown)
- Plant road construction & parking lots
- Aggregate plant
- Construction Materials
- Construction supplies
- Communication systems & (IT)
- Engineering services
- Supplies & Services

### OPERATION PHASE (~20 YEAR PLANT LIFE)

- Health Services (Safety Training)
- Health Services (First Aid)
- Fuel Provider
- Transportation (Delivery of reagents and consumables)
- Cross docking operation
- Mobile Equip. Provider
- Waste Management
- Operational supplies
- Communication systems & (IT)
- HVAC (service)
- Mobile Equipment servicing
- Supplies & Services
- Environmental Monitoring

### CLOSURE PHASE (~TBD)

- Environmental Monitoring
- Transportation (General Delivery)
- Transportation (Equip. removal)
- De-mob Operations
- Reclamation

# SASKATCHEWAN METALS PROCESSING PLANT CONTRACTING OPPORTUNITIES

## COMMUNITY IMPACT

During each phase of the Saskatoon Metals Processing Plant considerable investment will be realized in the surrounding communities through the awarding of business contracts and opportunities.

Project Phase	CapEx.	OPEX.	Total: 22/yr. life
Construction	~\$76M	—	~\$76M
Operations	—	~\$25M	~\$557M
<b>Total</b>			<b>~\$663M</b>
Closure			TBD via closure bond

*This document contains forward-looking information. This forward-looking information includes statements with respect to, among other things, the proposed development of the NICO project and the SMPP, the permitting process for the NICO project and the SMPP, the anticipated capital and maintenance costs of the SMPP, the anticipated production from the SMPP, the number of employees expected to be employed at the SMPP and the wages expected to be paid to such employees, the possibility that the SMPP may be able to source materials from other projects, the anticipated impact of the SMPP on the environment and the measures expected to be taken by the Company to mitigate such impact. Forward-looking information is based on the opinions and estimates of management as well as certain assumptions at the date the information is given (including, in respect of the forward-looking information contained in this press release, assumptions regarding the Company's ability to arrange necessary financing for the NICO project and the SMPP, obtain all necessary permits for the NICO project and the SMPP and negotiate an Impact and Benefit Agreement with the Tłı̄cho Government and assumptions regarding the capital and maintenance costs of the SMPP, the production from the SMPP, the number of employees to be employed at the SMPP and the wages expected to be paid to such employees and the impact of the SMPP on the environment. However, such forward-looking information is subject to a variety of risks and uncertainties and other factors that could cause actual events or results to differ materially from those projected in the forward-looking information. These factors include the inherent risks involved in the exploration and development of mineral properties, the risk that the Company may not be able to arrange the necessary financing to construct and operate the NICO mine or the SMPP, uncertainties with respect to the receipt or timing of required permits for the development of the NICO project or the SMPP, the risk that the Company may not be able to negotiate an Impact and Benefit Agreement with the Tłı̄cho Government, the possibility of delays in the commencement of production from the NICO project or construction of the SMPP, the risk of capital or maintenance cost overruns, the risk that the Company may not be able to source materials for the SMPP from other projects, the risk that the environmental impact of the SMPP may be greater than anticipated and other factors. Readers are cautioned to not place undue reliance on forward-looking information because it is possible that predictions, forecasts, projections and other forms of forward-looking information will not be achieved by the Company. The forward-looking information contained herein is made as of the date hereof and the Company assumes no responsibility to update or revise it to reflect new events or circumstances, except as required by law. The disclosure of scientific and technical information contained in this document has been approved by Robin Goad, M.Sc., P.Geo., President and CEO of the Company, who is a "qualified person" under National Instrument 43-101.*

*All Possible Contracts, Labor positions, and equipment purchased are estimated opportunities identified in feasibility studies and executions plans by Fortune Minerals Limited. They are to be considered as example opportunities. Fortune Minerals Limited retains the right to identify, source, and award all opportunities at its own discretion.*
