

MONESSEN

About Monessen: 2020 data

Monessen is a conventional coke plant producing very high quality coke and related carbon by-products. This facility is located in Monessen, Pennsylvania, along the Monongahela River in the southwest region of the state. The facility's proximity to the river and Monessen's central location to numerous blast furnaces provides enhanced distribution options and freight cost savings in comparison to the facility's foreign and domestic competition.

Facility facts

Plant leadership	Randy Shelton, plant manager
Union representation	Joe Como, president, USW 3403
Employees	177
Acreage	45
Building space	3.5 million sq. ft.
Steelmaking capacity	Approximately 370,000 tons
Products	Coke
Markets served	Cleveland furnaces
Services provided	Produces coking coal
Principal production facilities	Two coke batteries, by-products recovery process plant, boiler operations plant, biological wastewater treatment facility, barge unloading facility

About Cleveland-Cliffs

Cleveland-Cliffs is the largest flat-rolled steel producer in North America. Founded in 1847 as a mine operator, Cliffs also is the largest supplier of iron ore pellets in North America. In 2020, Cliffs acquired two major steelmakers, AK Steel and ArcelorMittal USA, vertically integrating its legacy iron ore business with quality-focused steel production and emphasis on the automotive end market. Cliffs' fully integrated portfolio includes custom-made pellets and Hot Briquetted Iron (HBI); flat-rolled carbon steel, stainless, electrical, plate, tin and long steel products; as well as carbon and stainless steel tubing, hot and cold stamping and tooling. Headquartered in Cleveland, Ohio, Cliffs employs approximately 25,000 people across its mining, steel and downstream manufacturing operations in the United States and Canada.
