

STEELTON

About Steelton: 2020 data

Steelton, one of only three rail producers in the Americas, is located along the Susquehanna River in Steelton, Pennsylvania, four miles south of Harrisburg. The eastern Pennsylvania location provides convenient and economical access to customers through an excellent network of highways and railroads, as well as easy access to several deep water ports. The plant operates an electric arc furnace with ladle refining and vacuum degassing, a three-strand continuous jumbo bloom caster and an ingot-teeming facility. Operations also include various rolling and finishing mills. Steelton produces railroad rails, forging quality ingots and blooms, as well as various bar products for use in railroad, open-die forging, and industrial applications.

Facility facts

Plant leadership	Kurt Slacik, general manager
Union representation	Raymond Napoli, president, USW 1688
Employees	405
Acreage	251
Building space	1.7 million sq. ft.
Steelmaking capacity	Approximately 1 million tons
Site founded	1867
Products	Railroad rails, specialty blooms, flat bars
Markets served	Forging, railroad
Services provided	Produces railroad rails, specialty blooms and flat bars for use in railroad and ingots for forging markets
Principal production facilities	150 ton DC electric-arc furnace with ladle refining and vacuum degassing, a three-strand continuous jumbo bloom caster and an ingot-teeming facility
Certifications	AAR Certificate, ISO 9001 Certificate, ISO 14001 Certificate, OHSAS 18001 Certificate, PED Certificate

About Cleveland-Cliffs

Cleveland-Cliffs is the largest flat-rolled steel producer in North America. Founded in 1847 as a mine operator, Cliffs also is the largest supplier of iron ore pellets in North America. In 2020, Cliffs acquired two major steelmakers, AK Steel and ArcelorMittal USA, vertically integrating its legacy iron ore business with quality-focused steel production and emphasis on the automotive end market. Cliffs' fully integrated portfolio includes custom-made pellets and Hot Briquetted Iron (HBI); flat-rolled carbon steel, stainless, electrical, plate, tin and long steel products; as well as carbon and stainless steel tubing, hot and cold stamping and tooling. Headquartered in Cleveland, Ohio, Cliffs employs approximately 25,000 people across its mining, steel and downstream manufacturing operations in the United States and Canada.
