

Wi-LAN Litigation Update

OTTAWA, Canada – June 5, 2009 – Wi-LAN Inc. (“Wi-LAN” or the “Company”) (TSX: WIN), a leading technology innovation and licensing company, today provided a litigation update pertaining to the claims filed on September 30, 2008 by Intel Corporation (“Intel”) in the Northern District of California requesting a declaratory judgment that 18 of Wi-LAN’s U.S. patents are invalid and have not been infringed. Wi-LAN brought a motion to dismiss or transfer this Intel lawsuit, which was argued before U.S. District Judge Ware on May 4, 2009.

In a ruling received by Wi-LAN today, Judge Ware granted Wi-LAN’s motion to transfer to the Eastern District of Texas all claims of Intel involving Wi-LAN’s U.S. patent 6,549,759. Judge Ware denied Wi-LAN’s motion to dismiss or transfer the claims relating to the other Wi-LAN patents named in Intel’s action in the Northern District of California. Judge Ware also scheduled a case management conference for this lawsuit which will be held on June 22, 2009.

About Wi-LAN

Wi-LAN, founded in 1992, is a leading technology innovation and licensing company. Wi-LAN has licensed its intellectual property to over 180 companies worldwide. Inventions in our portfolio have been licensed by companies that manufacture or sell a wide range of communication and consumer electronics products including 3G cellular handsets, Wi-Fi-enabled laptops, Wi-Fi/DSL routers, xDSL infrastructure equipment, WiMAX base stations and digital televisions. Wi-LAN has a large and growing portfolio of more than 550 issued or pending patents. For more information: www.wi-lan.com.

Forward-looking Information

Certain statements in this release, other than statements of historical fact, may include forward-looking information that involves various risks and uncertainties that face the Company; such statements may contain such words as “may”, “would”, “could”, “will”, “intend”, “plan”, “anticipate”, “believe”, “estimate”, “expect” and similar expressions, and may be based on management’s current assumptions and expectations related to all aspects of the wireless and wireline telecommunications industries and the global economy. Risks and uncertainties that may face the Company include, but are not restricted to: licensing of the Company’s patents can take an extremely long time and may be subject to variable cycles; the Company is currently reliant on licensees paying royalties under existing licensing agreements and additional licensing of its patent portfolio to generate future revenues and increased cash flows; the Company may be required to establish the enforceability of its patents in court in order to obtain material licensing revenues; changes in patent laws or in the interpretation or application of patent laws could materially adversely affect the Company; a court may determine that certain of the Company’s patents are not infringed by certain standards or products or may disagree with management with respect to whether one or more of the Company’s patents apply to certain standards or products, which could adversely affect the Company; the Company will need to acquire or develop new patents to continue and grow its business; fluctuations in foreign exchange rates impact and may continue to impact the Company’s revenues and operating expenses, potentially adversely affecting financial results; the Company has made and may make acquisitions of technologies or businesses which could materially adversely affect the Company; the Company may require investment to translate its intellectual property position into sustainable profit in the market; the generation of future V-chip revenues and the likelihood of the Company signing additional V-chip licenses could be negatively impacted by changes in government regulation; the Company is dependent on its key officers and employees; the price of the Company’s common shares is volatile and subject to market fluctuation; and the Company may be negatively affected by reduced consumer spending due to the uncertainty of economic and geopolitical conditions. These risks and uncertainties may cause actual results to

differ from information contained in this release, when estimates and assumptions have been used to measure and report results. There can be no assurance that any statements of forward-looking information contained in this release will prove to be accurate. Actual results and future events could differ materially from those anticipated in such statements. These and all subsequent written and oral statements containing forward-looking information are based on the estimates and opinions of management on the dates they are made and expressly qualified in their entirety by this notice. Except as required by applicable laws, the Company assumes no obligation to update forward-looking statements should circumstances or management's estimates or opinions change. Readers are cautioned not to place undue reliance on any statements of forward looking information that speak only as of the date of this release. Additional information identifying risks and uncertainties relating to the Company's business are contained under the heading "Risk Factors" in Wi-LAN's current Annual Information Form and its other filings with the various Canadian securities regulators which are available online at www.sedar.com.

This press release does not constitute an offer to sell or a solicitation of an offer to buy any securities in the United States
