

StoneMor Partners L.P. (NYSE:STON) is the second largest owner and operator of cemeteries in the United States. The Company operates 307 cemeteries and 103 funeral homes in 28 states and Puerto Rico. The cemetery products include burial lots, lawn and mausoleum crypts, burial vaults, caskets, memorials and services to provide for the installation of the cemetery merchandise. The Company is headquartered in Levittown, Pennsylvania, and was founded in 1999. StoneMor completed an IPO in September 2004 and is the only publicly traded deathcare company structured as a Master Limited Partnership. As an MLP, STON benefits from the favorable tax treatment provided by this structure, which in turn allows unit holders to enjoy a high current yield on their units and realize tax-deferred distributions for as long as they hold their investment. StoneMor's goal is to generate increasing distributable cash flow for its unit holders through acquisitions, pre-need and at-need sales of interment rights, cemetery merchandise and services, and income and gains from managed trusts.

CURRENT DISTRIBUTION

STON currently distributes an annual rate of \$2.64 per unit. Management has increased its distribution by more than 42% since the third quarter of 2005. The current yield of approximately 9.7% is based on the 2-25-16 unit price of \$27.20.

STRONG AND INCREASING CASH FLOW

StoneMor focuses on the sale of burial plots, services and associated merchandise through pre-need contracts, and acquisitions are made based on their ability to immediately generate cash flow from existing operations. Based on historical sales of burial rights, STON estimates that its cemeteries have a weighted average sales life of 237 years. Management believes its growth strategy will continue to generate increasing cash flow and distributions.

CEMETERY INDUSTRY AND DEMOGRAPHICS

The deathcare industry is a \$20 billion industry and approximately 20% of establishments are owned by consolidators. The industry is highly fragmented, offering ample acquisition opportunities. The deathcare market as a whole is growing at a predictable 2% annual rate and the 45-65 yr. old population, the target market for pre-need sales, is growing twice as fast.

SUCCESSFUL ACQUISITION STRATEGY

StoneMor's acquisition strategy focuses on accretion and immediate integration. STON has acquired 175 cemeteries and 105 funeral homes, has quickly integrated the acquired properties and has subsequently increased cash distributions. The publicly traded deathcare companies own less than 10% of cemeteries in the US and the primary acquisition focus of the companies besides StoneMor has been on funeral homes, not cemeteries. STON's focus on mid-sized cemeteries offers ample opportunities to acquire high value properties. Its success at growing distributable cash flow since the 2004 IPO is reflective of the company's success at executing this strategy.

HIGH BARRIERS TO ENTRY

The scarcity and cost of real estate near densely populated areas, combined with zoning restrictions and the administrative requirements for new entrants creates significantly high barriers to entry.

MANAGEMENT

Current management has extensive (28 years average) industry experience and has acquired more than 500 cemeteries while working together.
