INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Harvest Gold Corporation:

We have audited the accompanying consolidated financial statements of Harvest Gold Corporation, which comprise the consolidated statements of financial position as at March 31, 2016 and 2015, and the consolidated statements of comprehensive income (loss), changes in equity and cash flows for the years then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence that we have obtained in our audits is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of Harvest Gold Corporation as at March 31, 2016 and 2015, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards.

Emphasis of Matter

Without qualifying our opinion, we draw attention to Note 1 in the consolidated financial statements which describes certain conditions that indicate the existence of a material uncertainty that may cast significant doubt about Harvest Gold Corporation's ability to continue as a going concern.

A handwritten signature in black ink that reads "DMCL".

1. NATURE AND CONTINUANCE OF OPERATIONS

Harvest Gold Corporation (the “Company” or “Harvest”) was incorporated on June 28, 2005, under the laws of the province of British Columbia, Canada, and its principal activity is the acquisition and exploration of mineral properties in North America. The Company is a Tier 2 Mining Issuer listed and trading on the TSX Venture Exchange (“TSX-V”).

The head office, principal address, records office and registered address of the Company are located at 750 West Pender Street, Suite 804, Vancouver, British Columbia, Canada, V6C 2T7.

The Company’s principal business activities is the exploration of natural resource properties. The recovery of the Company’s investment in resource properties and related deferred expenditures is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain necessary financing to develop the properties and establish future profitable production from the properties, or from the proceeds of their disposition. The Company has not earned any revenues to date and is considered to be in the exploration stage.

During the year ended March 31, 2016, the Company entered into a Letter of Intent (“LOI”) dated February 16, 2016 with Canasur Gold Ltd. (“Canasur”), a private arm’s length Nova Scotia company, whereby the Company and Canasur will amalgamate (Note 14).

These consolidated financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the ordinary course of operations. The ability of the Company to continue operations as a going concern is ultimately dependent upon achieving profitable operations. To date, the Company has not generated profitable operations from its resource activities and will need to invest additional funds in carrying out its planned exploration, development and operational activities. These uncertainties cast significant doubt about the Company’s ability to continue as a going concern.

The exploration and evaluation properties in which the Company currently has an interest in are in the exploration stage. As such, the Company is dependent on external financing to fund its activities. In order to carry out the planned exploration and cover administrative costs, the Company will use its existing working capital and raise additional amounts as needed. The Company will continue to assess new properties and seek to acquire interests in additional properties if there is sufficient geologic or economic potential and if adequate financial resources are available to do so.

These financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PRESENTATION

The financial statements were authorized for issue on July 27, 2016 by the Board of Directors of the Company.

Statement of compliance with International Financial Reporting Standards

The consolidated financial statements of the Company comply with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

Basis of preparation

These consolidated financial statements have been prepared on an accrual basis and are based on historical costs, modified where applicable. The consolidated financial statements are presented in Canadian dollars, which unless otherwise noted, is the Company's functional currency.

Basis of consolidation

These consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary, Harvest Gold Corporation (US), incorporated in the United States. All intercompany transactions and balances have been eliminated upon consolidation.

Significant estimates and assumptions

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. The preparation of the financial statements also requires management to exercise judgement in the process of applying the accounting policies.

On an on-going basis, management evaluates its estimates and assumptions in relation to assets, liabilities and expenses. Management uses historical experience and various other factors it believes to be reasonable under the given circumstances, as the basis for its estimates and assumptions. Revisions to accounting estimates are recognized prospectively from the period in which the estimates are revised. Actual outcomes may differ from those estimates under different assumptions and conditions.

Estimates and assumptions where there is significant risk of material adjustments to assets and liabilities in future accounting periods include stock-based awards and payments, the recoverability of the carrying value of exploration and evaluation assets, fair value measurements for financial instruments, the recoverability and measurement of deferred tax assets and provisions for restoration and environmental obligations.

Significant judgments

The preparation of financial statements in accordance with IFRS requires the Company to make judgments, apart from those involving estimates, in applying accounting policies. The most significant judgments in applying the Company's financial statements include:

- the assessment of the Company's ability to continue as a going concern and whether there are events or conditions that may give rise to significant uncertainty;
- the classification / allocation of expenditures as exploration and evaluation expenditures or operating expenses; and
- the determination of the functional currency of the Company and its subsidiary.

2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION (cont'd)

Foreign currency translation

The functional currency of each of the Company's entities is measured using the currency of the primary economic environment in which that entity operates. The consolidated financial statements are presented in Canadian dollars which is the parent company's functional and presentation currency. The functional currency of the Company's subsidiary is the Canadian dollar.

Transactions and balances:

Foreign currency transactions are translated into their functional currency using the exchange rates prevailing at the date of the transaction. Foreign currency monetary items are translated at the period-end exchange rate. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were determined.

Exchange differences arising on the translation of monetary items or on settlement of monetary items are recognized in profit or loss in the statement of comprehensive loss in the period in which they arise, except where deferred in equity as a qualifying cash flow or net investment hedge.

Exchange differences arising on the translation of non-monetary items are recognized in other comprehensive loss in the statement of comprehensive loss to the extent that gains and losses arising on those non-monetary items are also recognized in other comprehensive loss. Where the non-monetary gain or loss is recognized in profit or loss, the exchange component is also recognized in profit or loss.

Exploration and evaluation assets

The application of the Company's accounting policy for exploration and evaluation expenditures requires judgement in determining whether it is likely that future economic benefits will flow to the Company, which may be based on assumptions about future events or circumstances.

Management is required to assess impairment in respect of exploration and evaluation assets. The triggering events for exploration and evaluation asset impairment are defined in *IFRS 6 Exploration and evaluation of mineral resources* and are as follows:

- the period for which the entity has the right to explore in the specific area has expired during the period or will expire in the near future, and is not expected to be renewed;
- substantive expenditure on further exploration for and evaluation of mineral resources in the specific area is neither budgeted nor planned;
- exploration for and evaluation of mineral resources in the specific area have not led to the discovery of commercially viable quantities of mineral resources and the entity has decided to discontinue such activities in the specific area;
- sufficient data exist to indicate that, although a development in the specific area is likely to proceed, the carrying amount of the exploration and evaluation asset is unlikely to be recovered in full from successful development or by sale.

2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION (cont'd)

Exploration and evaluation assets (cont'd)

Assumptions made may change if new information becomes available. If, after the expenditure is capitalized, information becomes available suggesting that the recovery of the expenditure is unlikely, the amount capitalized is written off in the statement of comprehensive loss in the period the new information becomes available.

Restoration and environmental obligations

The Company recognizes liabilities for statutory, contractual, constructive or legal obligations associated with the retirement of long-term assets, when those obligations result from the acquisition, construction, development or normal operation of the assets. The net present value of future restoration cost estimates is capitalized to exploration and evaluation assets along with a corresponding increase in the restoration provision in the period incurred. Discount rates using a pre-tax rate that reflect the time value of money are used to calculate the net present value. The restoration asset will be depreciated on the same basis as other mining assets.

Changes are recorded directly to mining assets with a corresponding entry to the restoration provision. The Company's estimates are reviewed annually for changes in regulatory requirements, discount rates, effects of inflation and changes in estimates.

Changes in the net present value, excluding changes in the Company's estimates of reclamation costs, are charged to profit and loss for the period.

The net present value of restoration costs arising from subsequent site damage that is incurred on an ongoing basis during production are charged to profit or loss in the period incurred.

The costs of restoration projects included in the provision are recorded against the provision as incurred. The costs to prevent and control environmental impacts at specific properties are capitalized in accordance with the Company's accounting policy for exploration and evaluation assets.

Impairment of assets

Impairment tests on intangible assets with indefinite useful economic lives are undertaken annually at the financial year-end. Other non-financial assets, including exploration and evaluation assets are subject to impairment tests whenever events or changes in circumstances indicate that their carrying amount may not be recoverable. Where the carrying value of an asset exceeds its recoverable amount, which is the higher of value in use and fair value less costs to sell, the asset is written down accordingly.

Where it is not possible to estimate the recoverable amount of an individual asset, the impairment test is carried out on the asset's cash-generating unit, which is the lowest group of assets in which the asset belongs and for which there are separately identifiable cash inflows that are largely independent of the cash inflows from other assets.

An impairment loss is charged to the profit or loss, except to the extent they reverse gains previously recognized in other comprehensive loss/income.

2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION (cont'd)

Financial instruments

The Company classifies its financial instruments in the following categories: at fair value through profit or loss, loans and receivables, held-to-maturity investments, available-for-sale and financial liabilities. The classification depends on the purpose for which the financial instruments were acquired. Management determines the classification of its financial instruments at initial recognition.

Financial assets are classified at fair value through profit or loss when they are either held for trading for the purpose of short-term profit taking, derivatives not held for hedging purposes, or when they are designated as such to avoid an accounting mismatch or to enable performance evaluation where a group of financial assets is managed by key management personnel on a fair value basis in accordance with a documented risk management or investment strategy. Such assets are subsequently measured at fair value with changes in carrying value being included in profit or loss.

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortized cost. They are included in current assets, except for maturities greater than 12 months after the end of the reporting period. These are classified as non-current assets.

Held-to-maturity investments are non-derivative financial assets that have fixed maturities and fixed or determinable payments, and it is the Company's intention to hold these investments to maturity. They are subsequently measured at amortized cost. Held-to-maturity investments are included in non-current assets, except for those which are expected to mature within 12 months after the end of the reporting period.

Available-for-sale financial assets are non-derivative financial assets that are designated as available-for-sale or are not suitable to be classified as financial assets at fair value through profit or loss, loans and receivables or held-to-maturity investments and are subsequently measured at fair value. These are included in current assets. Unrealized gains and losses are recognized in other comprehensive income, except for impairment losses and foreign exchange gains and losses.

Non-derivative financial liabilities are subsequently measured at amortized cost.

Regular purchases and sales of financial assets are recognized on the trade-date – the date on which the Company commits to purchase the asset.

Financial assets are derecognized when the rights to receive cash flows from the investments have expired or have been transferred and the Company has transferred substantially all risks and rewards of ownership.

At each reporting date, the Company assesses whether there is objective evidence that a financial asset has been impaired. In the case of available-for-sale financial instruments, a significant and prolonged decline in the value of the instrument is considered to determine whether impairment has arisen.

2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION (cont'd)

Loss per share

Basic loss per share is computed by dividing the net income or loss applicable to common shares of the Company by the weighted average number of common shares outstanding for the relevant period.

Diluted earnings / loss per common share is computed by dividing the net income or loss applicable to common shares by the sum of the weighted average number of common shares issued and outstanding and all additional common shares that would have been outstanding if potentially dilutive instruments were converted. If the calculation results in an anti-dilutive effect then only basic income or loss per share is presented.

Income taxes

Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognized in net income except to the extent that it arises in a business combination, or from items recognized directly in equity or other comprehensive loss/income.

Current income tax assets and liabilities for the current period are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date, in the countries where the Company operates and generates taxable income.

Current income tax relating to items recognized directly in other comprehensive income or equity is recognized in other comprehensive income or equity and not in profit or loss. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred income tax is provided using the asset and liability method of temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

The carrying amount of deferred income tax assets is reviewed at the end of each reporting period and recognized only to the extent that it is probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period.

Deferred income tax assets and deferred income tax liabilities are offset, only if a legally enforceable right exists to set off current tax assets against current income tax liabilities and the deferred income taxes relate to the same taxable entity and the same taxation authority.

2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION (cont'd)

Share-based payments

Where equity-settled share options are awarded to employees, the fair value of the options at the date of grant is charged to the statement of comprehensive loss/income over the vesting period. Performance vesting conditions are taken into account by adjusting the number of equity instruments expected to vest at each reporting date so that, ultimately, the cumulative amount recognized over the vesting period is based on the number of options that eventually vest. Non-vesting conditions and market vesting conditions are factored into the fair value of the options granted. As long as all other vesting conditions are satisfied, a charge is made irrespective of whether these vesting conditions are satisfied. The cumulative expense is not adjusted for failure to achieve a market vesting condition or where a non-vesting condition is not satisfied.

Where the terms and conditions of options are modified before they vest, the increase in the fair value of the options, measured immediately before and after the modification, is also charged to the statement of comprehensive loss/income over the remaining vesting period.

Where equity instruments are granted to employees, they are recorded at the fair value of the equity instrument granted at the grant date. The grant date fair value is recognized in comprehensive loss/income over the vesting period, described as the period during which all the vesting conditions are to be satisfied.

Where equity instruments are granted to non-employees, they are recorded at the fair value of the goods or services received in the statement of comprehensive loss/income, unless they are related to the issuance of shares. Amounts related to the issuance of shares are recorded as a reduction of share capital.

When the value of goods and services received in exchange for the share-based payment cannot be reliably estimated, the fair value is measured by use of a valuation model. The expected life used in the model is adjusted, based on management's best estimate, for the effects of non-transferability, exercise restrictions, and behavioural considerations.

All equity-settled share based payments are reflected in share-based payments reserve, until exercised. Upon exercise shares are issued from treasury and the amount reflected in share-based payments reserve is credited to share capital along with any consideration paid.

Where a grant of options is cancelled or settled during the vesting period, excluding forfeitures when vesting conditions are not satisfied, the Company immediately accounts for the cancellation as an acceleration of vesting and recognizes the amount that otherwise would have been recognized for services received over the remainder of the vesting period. Any payment made to an employee on the cancellation is accounted for as the repurchase of an equity interest except to the extent the payment exceeds the fair value of the equity instrument granted, measured at the repurchase date. Any such excess is recognized as an expense.

2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION (cont'd)

Share capital

Financial instruments issued by the Company are classified as equity only to the extent that they do not meet the definition of a financial liability or financial asset. The Company's common shares and share warrants are classified as equity instruments.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction from the proceeds. Proceeds received on the issuance of units, consisting of common shares and warrants are allocated to share capital.

3. ACCOUNTING STANDARD ISSUED BUT NOT YET EFFECTIVE

IFRS 9, "Financial Instruments."

The Company has not early adopted this standard, however the Company is currently assessing what impact the application of this standard will have on the consolidated financial statements of the Company.

Other accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or not expected to have a significant impact on the Company's financial statements.

4. MARKETABLE SECURITIES

At March 31, 2016 and March 31, 2015, marketable securities consisted of the following:

| | March 31, 2015 | | |
|---------------------------|-----------------------|-------------------|----------------------|
| | Shares | Fair value | Original cost |
| Company: | | | |
| Grandview Gold Inc. | 50,000 | \$ 500 | \$ 23,500 |
| Gunpoint Exploration Ltd. | 1,800 | 288 | 9,180 |
| | 51,800 | \$ 788 | \$ 32,680 |
| | | | |
| | March 31, 2016 | | |
| | Shares | Fair value | Original cost |
| Company: | | | |
| Gunpoint Exploration Ltd. | 1,800 | \$ 333 | \$ 9,180 |
| | 1,800 | \$ 333 | \$ 9,180 |

During the year ended March 31, 2016, the Company recognized an unrealized gain of \$45 (2015 - \$142) on its marketable securities, which are classified as available-for-sale, which has been recorded in other comprehensive income (loss). During the year ended March 31, 2016, the Company sold marketable securities and recognized a gain of \$7,885.

5. RECEIVABLES

Harvest Gold Corporation
(An Exploration Stage Company)
Notes to the Consolidated Financial Statements
(Expressed in Canadian Dollars)
Year ended March 31, 2016

The Company's receivables consist of GST receivable due from the Government of Canada.

Rosebud Gold Mine Property, Nevada, USA

On November 16, 2006, the Company signed a letter of intent to acquire a 100% interest in certain mining claims comprising the Rosebud Gold Mine Property located in Nevada, USA.

Upon earning a 100% interest, on December 15, 2011, the Company was obligated on an annual basis to pay an advance royalty payment of US\$50,000 (the "Newmont Royalty") until the property is placed into production and is to be recovered from any actual future mineral production royalty payments. During the year ended March 31, 2015, the Company paid CDN \$62,795 towards the Newmont Royalty on the Rosebud Gold Mine Property.

The Rosebud Gold Mine Property is subject to a 3% Net Smelter Royalty ("NSR"), which the Company has the option to purchase 1.5% of the NSR for \$2,250,000.

Harvest Gold Corporation
(An Exploration Stage Company)
Notes to the Consolidated Financial Statements
(Expressed in Canadian Dollars)
Year ended March 31, 2016

On November 23, 2015, the Company entered into an option agreement with Rosebud Exploration LLC (“RE”), a private Nevada corporation, whereby RE was granted an option to acquire a 100% right to the Rosebud Gold Mine Property as follows:

6. EXPLORATION AND EVALUATION ASSETS (cont’d)

Rosebud Gold Mine Property, Nevada, USA (cont’d)

| Date | Payment |
|--|---|
| Upon execution of the agreement | US\$25,000 (CDN\$32,298 received) |
| Within 10 days of execution of the agreement | US\$50,000 towards the Newmont Royalty (paid) |
| On or before July 31, 2016 | All filing fees (paid) |

RE may exercise its option to purchase the Rosebud Gold Mine Property any time after January 1, 2016 up to November 23, 2017 (exercised subsequent to March 31, 2016) by paying the Company CDN\$100,000 (received subsequent to March 31, 2016). Accordingly, at March 31, 2016, the Company wrote-down the Rosebud Gold Mine Property to \$100,000 to reflect its net recoverable value.

As RE has exercised its option to purchase, it will also be committed to paying CDN\$1,000,000 to the Company within 30 days of RE receiving funding designed to commission and construct a mine on the Rosebud Gold Mine Property. Upon exercising its option, RE has assumed all obligations of the Company in respect of the Newmont Royalty, filing fees and the 3% NSR.

RW Claims, Nevada, USA

On November 19, 2010, the Company staked certain mining claims comprising the RW Claims located in Eureka County, Nevada.

On January 1, 2012, as amended on September 5, 2013, the Company entered into a mining lease and option to purchase agreement with Kinetic Gold (US) Inc. (“Kinetic”), whereby Kinetic agreed to lease the RW Claims for a period of 6 years.

On August 13, 2015, the agreement was further amended whereby Kinetic paid US\$5,000 (CDN\$6,475; received) (2015 - \$22,754 received) and will pay US\$15,000 thirty days after Kinetic assigns the property to a third party. Kinetic will then pay a further US\$30,000 on the first anniversary and US\$40,000 on the second anniversary of assigning the property to a third party.

Kinetic will also pay a 2% NSR to the Company from the production or sale of minerals from the RW Claims.

Hunt Property

By an option agreement effective June 28, 2005, the Company acquired a 40% interest in certain claims comprising the Hunt Property located in Manitoba, Canada.

During the year ended March 31, 2015, the Company sold its 40% interest in the Hunt Property to VMS Ventures Inc. (“VMS”) for consideration of \$140,457, payable as to settlement of its related party debt in the amount of \$90,307 and cash of \$50,150 (received). VMS will issue to the Company 100,000 common shares upon the earliest to occur of the completion by VMS of a Preliminary Economic Assessment, Pre-

Year ended March 31, 2016

Feasibility Study or a Feasibility Study. VMS will issue a further 100,000 common shares upon commencement of commercial production from a portion of the mineral claims.

7. RECLAMATION BOND

As March 31, 2016, the Company had a reclamation bond issued with the Nevada Division of Minerals in the amount of US\$12,322 (CDN - \$15,983) (2015 - US\$20,449 (CDN - \$21,859)) to guarantee reclamation of the environment of the Rosebud Gold Mine Property.

8. TRADE PAYABLES AND ACCRUED LIABILITIES

| | March 31, 2016 | March 31, 2015 |
|------------------------------|-----------------------|-----------------------|
| Trade payables (Note 9) | \$ 109,444 | \$ 49,590 |
| Accrued liabilities (Note 9) | 48,000 | 43,500 |
| | \$ 157,444 | \$ 93,090 |

9. RELATED PARTY TRANSACTIONS

a. Contractual commitment with related parties

On January 1, 2008, and as amended on September 1, 2009, the Company entered into a management agreement with an officer and director to fulfil the role as Chief Executive Officer for a period of 5 years for a monthly rate of \$4,000 per month. Effective April 1, 2013 no further fees, until further notice, will be accrued under this agreement. On January 1, 2015, the Company renewed this contract and commenced paying monthly fees.

b. Transactions with related parties

During the year ended March 31, 2016, the Company paid or accrued \$6,000 (March 31, 2015 - \$3,000) of professional fees and accrued \$48,000 (March 31, 2015 - \$12,000) of management fees to companies controlled by officers and directors of the Company. The Company also incurred \$Nil (March 31, 2015 - \$3,000) of property investigation costs to a former director of the Company.

As of March 31, 2016, included in trade payables and accrued liabilities was \$69,267 (2015 - \$50,083), owing for fees owing to certain officers and directors of the Company (Note 8).

These amounts are non-interest bearing, unsecured and have no fixed terms of repayment.

c. Transactions with key management personnel

| | Year ended | |
|----------------------------------|---------------------------|---------------------------|
| | March 31, 2016 | March 31, 2015 |
| Management and professional fees | \$ 54,000 | \$ 15,000 |

10. SHARE CAPITAL

Authorized share capital

Harvest Gold Corporation
(An Exploration Stage Company)
Notes to the Consolidated Financial Statements
(Expressed in Canadian Dollars)
Year ended March 31, 2016

Unlimited number of common shares without par value.

Issued share capital

At March 31, 2016 there were 8,111,325 issued and fully paid common shares (March 31, 2015 – 8,111,325).

10. SHARE CAPITAL (cont'd)

Stock options

The Company has adopted an incentive stock option plan, which provides that the Board of Directors of the Company may from time to time, in its discretion, and in accordance with the TSX-V requirements, grant to directors, officers, employees and technical consultants to the Company, non-transferable stock options to purchase common shares, provided that the number of common shares reserved for issuance will not exceed 10% of the Company's issued and outstanding common shares. Such options will be exercisable for a period of up to 5 years from the date of grant. Options may be exercised no later than 90 days following cessation of the optionee's position with the Company or 30 days following cessation of an optionee conducting investor relations activities' position. Vesting periods are determined by the Board of Directors.

The changes in options during the years ended March 31, 2016 and 2015 are as follows:

| | Year ended March 31, 2016 | | Year ended March 31, 2015 | |
|--|------------------------------|---------------------------------------|------------------------------|---------------------------------------|
| | Number of options | Weighted average exercise price | Number of options | Weighted average exercise price |
| Options outstanding, beginning of year | 205,433 | \$ 1.32 | 227,933 | \$ 1.32 |
| Options cancelled / expired | (205,433) | 1.50 | (22,500) | 1.20 |
| Options outstanding, end of year | - | \$ - | 205,433 | \$ 1.33 |

Warrants

The changes in warrants during the years ended March 31, 2016 and 2015 are as follows:

| | Year ended March 31, 2016 | | Year ended March 31, 2015 | |
|---|------------------------------|---------------------------------------|------------------------------|---------------------------------------|
| | Number of warrants | Weighted average exercise price | Number of warrants | Weighted average exercise price |
| Warrants outstanding, beginning of year | 1,130,000 | \$ 0.10 | 1,130,000 | \$ 0.10 |
| Warrants expired | (1,130,000) | 0.10 | - | - |
| Warrants outstanding, end of year | - | \$ - | 1,130,000 | \$ 0.10 |

Share-based payment reserve

The share-based payment reserve records items recognized as stock-based compensation expense and other share-based payments until such time that the stock options or warrants are exercised, at which time the corresponding amount will be transferred to share capital.

Investment revaluation reserve

The investment revaluation reserve records unrealized gains and losses arising on available-for-sale financial assets, except for impairment losses and foreign exchange gains and losses.

11. FINANCIAL RISK AND CAPITAL MANAGEMENT

The Company is exposed in varying degrees to a variety of financial instrument related risks. The Board of Directors approves and monitors the risk management processes, inclusive of documented investment policies, counterparty limits, and controlling and reporting structures. The type of risk exposure and the way in which such exposure is managed is provided as follows:

Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's primary exposure to credit risk is on its cash held in bank accounts. The majority of cash is deposited in bank accounts held with a major bank in Canada. As most of the Company's cash is held by one bank there is a concentration of credit risk. This risk is managed by using major banks that are high credit quality financial institutions as determined by rating agencies. The Company's secondary exposure to risk is on its GST receivable. This risk is minimal as GST receivable are refundable from the Government of Canada.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company has a planning and budgeting process in place to help determine the funds required to support the Company's normal operating requirements on an ongoing basis. The Company ensures that there are sufficient funds to meet its short-term business requirements, taking into account its anticipated cash flows from operations and its holdings of cash.

Historically, the Company's sole source of funding has been the issuance of equity securities for cash, primarily through private placements. The Company's access to financing is always uncertain. There can be no assurance of continued access to significant equity funding.

Foreign exchange risk

Foreign exchange risk is the risk that the fair values of future cash flows of a financial instrument will fluctuate because they are denominated in currencies that differ from the respective functional currency. The Company is exposed to currency risks as it incurs expenditures that are denominated in the United States dollar while its functional currency is the Canadian dollar. The Company does not hedge its exposure to fluctuations in foreign exchange rates. The Company's exposure to foreign currency risk is minimal.

Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. As at March 31, 2016, the Company did not have any cash equivalents or interest bearing debt and is not subject to interest rate risk.

Capital management

Harvest Gold Corporation
(An Exploration Stage Company)
Notes to the Consolidated Financial Statements
(Expressed in Canadian Dollars)
Year ended March 31, 2016

The Company's policy is to maintain a strong capital base so as to maintain investor and creditor confidence and to sustain future development of the business. The capital structure of the Company consists of equity and cash.

There were no changes in the Company's approach to capital management during the year.

The Company is not subject to any externally imposed capital requirements.

11. FINANCIAL RISK AND CAPITAL MANAGEMENT (cont'd)

Classification of financial instruments

Financial assets included in the consolidated statement of financial position are as follows:

| | March 31, 2016 | March 31, 2015 |
|--|-------------------|-------------------|
| Loans and receivables and available-for-sale financial assets: | | |
| Cash | \$ 15,559 | \$ 61,626 |
| Marketable securities | 333 | 788 |
| | \$ 15,892 | \$ 62,414 |

Financial liabilities included in the consolidated statement of financial position are as follows:

| | March 31, 2016 | March 31, 2015 |
|---------------------------------------|-------------------|-------------------|
| Non-derivative financial liabilities: | | |
| Trade payables | \$ 109,444 | \$ 49,590 |

12. SEGMENTED INFORMATION

Operating segments

The Company operates in a single reportable operating segment – the acquisition, exploration and development of mineral properties.

Geographic segments

| | March 31, 2016 | March 31, 2015 |
|-----------------------------------|-------------------|-------------------|
| Total assets | | |
| Canada | \$ 21,925 | \$ 63,730 |
| United States | 115,983 | 682,353 |

14. PROPOSED AMALGAMATION

The LOI (Note 1) provides for a proposed amalgamation of the Company with Canasur (the “Amalgamation”) by way of a three cornered amalgamation whereby Canasur will amalgamate with a newly formed subsidiary of the Company. In connection with the Amalgamation, the shareholders of Canasur would collectively receive 16,247,008 shares of Harvest, representing 2/3 of the issued and outstanding shares of Harvest prior to the completion of the concurrent equity financing.

In connection with the Amalgamation, the Company plans to complete an equity financing of up to \$1,000,000 (minimum \$650,000) by way of the issuance of units at \$0.05, with each unit to be made up of a share and a warrant entitling the holder to acquire a further share of Harvest at \$0.10 for a term of two years. Finder’s fees may be paid in connection with the financing.

The Amalgamation remains subject to completion of satisfactory due diligence, execution of a definitive agreement and receipt of all requisite regulatory approvals, including the acceptance of the TSX-V and approval of the shareholders of Canasur. A formal agreement was to be entered into by June 30, 2016. To date, the Company remains in negotiations with Canasur regarding the proposed Amalgamation.

15. SUBSEQUENT EVENT

Subsequent to March 31, 2016, RE exercised its option to purchase the Rosebud Gold Mine Property and paid the Company CDN\$100,000 (Note 6).
