

FOR IMMEDIATE RELEASE

LIVE NATION ENTERTAINMENT REPORTS THIRD OUARTER 2010 FINANCIAL RESULTS

LOS ANGELES – November 4, 2010 – Live Nation Entertainment (NYSE: LYV) released financial results for the three months ended September 30, 2010 today. Live Nation completed its merger with Ticketmaster in January 2010; consequently, third quarter 2010 reported results include the legacy Ticketmaster operations for the full quarter.

"During the third quarter we executed a number of revenue enhancement programs to drive attendance and reduce the impact of the economic slowdown on consumer spending," said Michael Rapino, President and Chief Executive Officer of Live Nation Entertainment. "We continued to drive results in our higher margin businesses, including our eCommerce and sponsorship assets. Given our direct access to over 200 million fans through our online storefront, we're focused on improving our digital offerings and participating in multiple revenue streams linked to the online ticket purchase. Looking ahead, the artist pipeline for 2011 appears solid and we are taking a more profit-driven and measured approach to securing and pricing our shows given the uncertain economy. We are also taking additional steps to reduce our operating costs and further improve efficiencies across our operations as we move toward 2011. As we execute our strategy, we remain confident in our ability to maximize the value of our end-to-end platform and improve the performance of our business."

"Clearly the adverse economic environment has negatively impacted our concert business during the 2010 year so far, and has had a similar impact on our ticketing and artist businesses as well," said Irving Azoff, Executive Chairman of Live Nation Entertainment. "We continue to grow our Artist Nation business with new signings and acquisitions. While our roster of superstar clients and tour schedules for 2011 remains strong, we need some improvement in the overall economic environment in order to optimize profits going forward."

The company will host a teleconference today, November 4th, 2010 at 5:00 p.m. Eastern Time, which can be accessed by dialing 888-603-6873 (U.S.) or 973-321-1019 (Int'l) and referencing passcode 16775958. To access the call via webcast, please visit the Investor Relations section of the company's website at www.livenation.com/investors. Please visit the website approximately ten minutes prior to the start time to ensure a connection. Additional statistical and financial information to be provided on the call, if any, will be posted supplementally under that same link. For those who are not available to listen to the live broadcast, a replay will be available shortly after the call on the Live Nation website through November 11, 2010.

Live Nation Combined Metrics

In order to give comparable information, metrics below include the results of the legacy Ticketmaster operations, as applicable, for the three months and from the date of the merger (January 25) through the nine months ended September 30 for each of 2010 and 2009.

Forward-Looking Statements, Non-GAAP Financial Measures and Reconciliations:

Certain statements in this press release constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements include, but are not limited to, statements regarding the potential health and growth of Live Nation's business; the company's anticipated artist pipeline for 2011; potential improvements in the company's digital offerings and the benefits expected to be derived therefrom; anticipated reduced operating costs and increased efficiencies; and the potential growth of the company's Artist Nation business. Live Nation wishes to caution you that there are some known and unknown factors that could cause actual results to differ materially from any future results, performance or achievements expressed or implied by such forward-looking statements, including but not limited to operational challenges in achieving strategic objectives and executing on the company's plans, the risk that the company's markets do not evolve as anticipated, challenges related to the post-merger integration of Live Nation and Ticketmaster, the potential impact of the economic slowdown and operational challenges associated with selling tickets and staging events.

Live Nation refers you to the documents it files from time to time with the U.S. Securities and Exchange Commission, or SEC, specifically the section titled "Item 1A. Risk Factors" of the company's most recent Annual Report filed on Form 10-K and Quarterly Reports on Form 10-Q and its Current Reports on Form 8-K, which contain and identify other important factors that could cause actual results to differ materially from those contained in the company's projections or forward-looking statements. You are cautioned not to place undue reliance on these forward-looking statements which speak only as of the date on which they are made. All subsequent written and oral forward-looking statements by or concerning Live Nation are expressly qualified in their entirety by the cautionary statements above. Live Nation does not undertake any obligation to publicly update or revise any forward-looking statements because of new information, future events or otherwise.

This press release contains certain non-GAAP financial measures as defined by SEC Regulation G. A reconciliation of each such measure to its most directly comparable GAAP financial measure, together with an explanation of why management believes that these non-GAAP financial measures provide useful information to investors, is provided below.

Adjusted Operating Income (Loss), or AOI, is a non-GAAP financial measure that the company defines as operating income (loss) before acquisition expenses (including transaction costs, changes in the fair value of accrued acquisition-related contingent consideration arrangements, merger bonuses, payments under the Azoff Trust note and merger-related severance), depreciation and amortization (including goodwill impairment), loss (gain) on sale of operating assets and non-cash and certain stock-based compensation expense (including expense associated with grants of certain stock-based awards which are classified as liabilities). The company uses AOI to evaluate the performance of its operating segments. The company believes that information about AOI assists investors by allowing them to evaluate changes in the operating results of the portfolio of the businesses separate from non-operational factors that affect net income, thus providing insights into both operations and the other factors that affect reported results. AOI is not calculated or presented in accordance with GAAP. A limitation of the use of AOI as a performance measure is that it does not reflect the periodic costs of certain amortizing assets used in generating revenue in the company's business. Accordingly, AOI should be considered in addition to, and not as a substitute for, operating income (loss), net income (loss), and other measures of financial performance reported in accordance with GAAP. Furthermore, this measure may vary among other companies; thus, AOI as presented herein may not be comparable to similarly titled measures of other companies.

<u>Free Cash Flow</u> is a non-GAAP financial measure that the company defines as Adjusted Operating Income (Loss) less maintenance capital expenditures, less net cash interest expense, less cash taxes, less net distributions to minority interest partners, plus distributions from investments in nonconsolidated affiliates net of contributions to investments in nonconsolidated affiliates. The company uses free cash flow, among other measures, to evaluate the ability of its operations to generate cash that is available for purposes other than maintenance capital expenditures. The company believes that information about free cash flow provides investors with an important perspective on the cash available to service debt and make acquisitions. Free cash flow is not calculated or presented in accordance with GAAP. A limitation of the use of free cash flow as a performance measure is that it does not necessarily represent funds available for operations and is not necessarily a measure of the company's ability to fund its cash needs. Accordingly, free cash flow should be considered in addition to, and not as a substitute for, operating income (loss) and other measures of financial performance reported in accordance with GAAP. Furthermore, this measure may vary among other companies; thus, free cash flow as presented herein may not be comparable to similarly titled measures of other companies.

<u>Free Cash</u> is a non-GAAP financial measure that the company defines as cash and cash equivalents less ticketing-related client funds, less event-related deferred revenue, less accrued expenses due to artists and for cash collected on behalf of others for ticket sales, plus event-related prepaids. The company uses free cash as a proxy for how much cash it has available to, among other things, optionally repay debt balances, make acquisitions and finance venue and other revenue generating expenditures. Free cash is not calculated or presented in accordance with GAAP. A limitation of the use of free cash as a performance measure is that it does not necessarily represent funds available from operations and it is not necessarily a measure of our ability to fund our cash needs. Accordingly, free cash should be considered in addition to, and not as a substitute for, cash and cash equivalents and other measures of financial performance reported in accordance with GAAP. Furthermore, this measure may vary among other companies; thus, free cash as presented herein may not be comparable to similarly titled measures of other companies.
