#### **Special Note Regarding Forward Looking Statements**

This report on Form 6-K includes statements that express our current opinions, expectations, beliefs, plans, objectives, assumptions or projections regarding future events or future results and therefore are, or may be deemed to be, "forward looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 (the "Act"). The following cautionary statements are being made pursuant to the provisions of the Act and with the intention of obtaining the benefits of the "safe harbor" provisions of the Act. These forward looking statements can generally be identified by the use of forward-looking terminology, including the terms "believe," "expect," "may," "will," "should," "seek," "project," "approximately," "intend," "plan," "estimate" or "anticipate," or, in each case, their negatives or other variations or comparable terminology. These forward-looking statements include all matters that are not historical facts. They appear in a number of places throughout this report and include statements regarding our intentions, beliefs or current expectations concerning among other things, anticipated school openings, our results of operations, financial condition, liquidity, growth prospects, strategies and the industry in which we operate.

By their nature, forward-looking statements relate to events that involve risks and uncertainties or that depend on circumstances that may or may not occur in the future. Factors or risks that could cause our actual results to differ materially from the results we anticipate include, but are not limited to: (1) the occurrence of any event, change or other circumstances that could give rise to the termination of the merger agreement; (2) the inability to complete the proposed merger due to the failure to obtain shareholder approval for the proposed merger or the failure to satisfy other conditions to completion of the proposed merger; and (3) the failure to obtain the necessary financing arrangements set forth in the debt and equity commitment letters delivered pursuant to the merger agreement. Additional risks and uncertainties include, but are not limited to, those under "Risk Factors" in our most recent annual report on Form 20-F filed with the SEC. These statements include, among other things, statements relating to:

- our future market opportunities;
- our goals and strategies;
- our competitive strengths;
- our future results of operations and financial condition;
- our future business developments; and
- our acquisition and expansion strategy.

Although we base these forward-looking statements on assumptions that we believe are reasonable when made, we caution you that forward-looking statements are not guarantees of future performance and that our actual results of operations, financial condition, liquidity, growth prospects, strategies and the development of the industry in which we operate may differ materially from those made in or suggested by the forward-looking statements contained in this quarterly report. In addition, even if our results of operations, financial condition, liquidity, growth prospects, strategies and the development of the industry in which we operate, are consistent with the forward-looking statements contained in this report, those results or developments may not be indicative of results or developments in subsequent periods.

Given these risks and uncertainties, you are cautioned not to place undue reliance on these forward-looking statements. Any forward-looking statement that we make in this report speaks only as of the date of such statement, and we undertake no obligation to update any forward-looking statements or to publicly announce the results of any revisions to any of those statements to reflect future events or developments.

<sup>(3)</sup> We calculate utilization during a period as a percentage equal to the ratio of average FTEs for the period divided by average capacity for the period.

<sup>(4)</sup> We calculate revenue per FTE by dividing our revenue from our schools for the period by the average FTEs for the period.

#### Overview

We believe we are the world's leading operator of premium international schools. We teach over 38,400 students, from kindergarten through the end of secondary school ("K-12"), at our 44 premium schools in China, Europe, the Middle East, South East Asia and North America. As of April 21, 2017, we had 38,402 FTEs and capacity of 56,057 seats, representing a utilization rate of 69%.

#### **Recent Developments**

On April 25, 2017, we entered into a definitive agreement and plan of merger with Bach Finance Limited and Bach Acquisitions Limited. For additional information, see our report on Form 6-K furnished to the SEC on April 25, 2017.

On March 3, 2017, we announced that we had entered into two separate agreements to acquire two international schools in Europe and the Middle East. On March 21, 2017, we completed the acquisition of the Prague British School ("PBS") in Prague, Czech Republic. The school was founded in 1992 and is now the largest premium British curriculum international school in Prague. As of April 21, 2017, PBS had 976 FTEs and 1,222 seats of capacity. The consideration of \$21.0 million for the school represents 6.3x expected fiscal 2017 EBITDA. The second acquisition that the group announced on March 3, 2017 is expected to close in the third quarter of fiscal 2017. It is subject to customary closing conditions and we note that there is no assurance that the closing conditions will be satisfied.

Three months ended February 28, 2017 compared to three months ended February 29, 2016

#### Revenue

Revenue increased \$16.3 million, or 6.7% (8.5% on a constant currency basis), from \$243.2 million for the three months ended February 29, 2016 to \$259.5 million for the three months ended February 28, 2017. The increase was primarily due to higher revenues from our premium schools, partly offset by the impact of the strengthening US dollar on our premium schools revenue.

Revenue from our premium schools increased 6.8% (8.5% on a constant currency basis) from \$242.1 million in the three months ended February 29, 2016 to \$258.6 million in the three months ended February 28, 2017. This increase was primarily due to increases in FTEs and tuition fees, including the impact of the new bilingual school we opened in Shanghai in September 2016.

Other revenue decreased from \$1.1 million in the three months ended February 29, 2016 to \$0.9 million in the three months ended February 28, 2017.

#### Cost of Sales

Cost of sales increased \$14.2 million, or 9.8% (11.4% on a constant currency basis), from \$144.9 million for the three months ended February 29, 2016 to \$159.1 million for the three months ended February 28, 2017. The increase was primarily due to direct costs associated with increased FTEs across our schools and the additional rent from the new campus opened in September 2016 for the British School of Houston, the new bilingual school opened in September 2016 in Shanghai and the impact of the additional rent following the sale and leaseback of three schools in North America in the third quarter of fiscal 2016.

#### Gross Profit

Gross profit increased \$2.1 million, or 2.1% (4.2% on a constant currency basis), from \$98.3 million for the three months ended February 29, 2016 to \$100.4 million for the three months ended February 28, 2017 resulting in a gross profit margin of 38.7% for the three months ended February 28, 2017 compared to 40.4% for the three months ended February 29, 2016. The reduction in gross profit margin for the three months ended February 28, 2017 was primarily due to the additional rent included in cost of sales from the sale and leaseback and the new school openings in September 2016, partially offset by tuition fee increases in excess of cost inflation and increased FTEs within our schools.

#### Selling, General and Administrative Expenses ("SGA")

SGA expenses increased \$4.1 million, or 9.0%, from \$46.4 million for the three months ended February 29, 2016 to \$50.5 million for the three months ended February 28, 2017. SGA expenses as a percentage of revenue increased from 19.1% for the three months ended February 29, 2016 to 19.5% for the three months ended February 28, 2017, mainly due to the new schools opened in September 2016, greenfield school pre-opening costs in Abu Dhabi, Bangkok and Hong Kong, Global Campus related costs and Sarbanes-Oxley project costs.

#### Depreciation & Amortization Expenses

Depreciation expense was \$0.2 million for the three months ended February 28, 2017, unchanged from the three months ended February 29, 2016.

In the three months ended February 29, 2016, other (losses)/gains included \$6.7 million of non-cash foreign exchange gains on intercompany balances and a \$1.3 million loss on embedded lease derivatives and other options.

#### Net Financing Expense

Net financing expense decreased by \$5.2 million from \$22.9 million for the three months ended February 29, 2016 to \$17.7 million for the three months ended February 28, 2017 due primarily to an unrealized loss of \$2.7 million for the three months ended February 28, 2017 compared to an unrealized loss of \$6.0 million for the three months ended February 29, 2016 on the revaluation of the CHF 200.0 million bonds.

SGA expenses as a percentage of revenue increased from 18.9% for the six months ended February 29, 2016 to 19.6% for the six months ended February 28, 2017, mainly due to the new school opened in September 2016, greenfield school pre-opening costs in Abu Dhabi, Bangkok and Hong Kong, Global Campus related costs, Sarbanes-Oxley project costs and an increase in non-cash charges of \$1.0 million associated with share based payments to members of management.

#### Liquidity and capital resources

Our on-going operations require the availability of cash to service debt, fund working capital needs, fund maintenance and capacity-expansion capital expenditure and expenses associated with the acquisition of schools (if any).

The following table sets forth certain information relating to our cash flows:

	Six Months	Six Months Ended	
\$ millions	February 28, 2017	February 29, 2016	
Net cash used in operating activities	(128.5)	(61.8)	
Net cash used in investing activities	(40.3)	(70.1)	
Net cash (used in)/generated from financing activities	(5.8)	67.3	
Cash and cash equivalents at the end of period (including overdrafts)	188.9	155.1	
Bank overdrafts	36.8	70.9	
Cash and cash equivalents at the end of period (excluding overdrafts)	225.7	226.0	

#### Net Cash used in Operating Activities

Cash used in operating activities was \$128.5 million for the six months ended February 28, 2017, compared to \$61.8 million for the six months ended February 29, 2016. Cash used in operations increased by \$75.2 million from \$12.6 million for the six months ended February 29, 2016 to \$87.8 million for the six months ended February 28, 2017 as a result of working capital changes, primarily a reduction in trade and other payables. The increased outflow is primary due to the impact of a bigger cost base as the business has grown, a one-off cash payment relating to our new bilingual school in China of \$11.3 million and the deferral of some payments in the prior fiscal year from the three months ended February 29, 2016 to the three months ended May 31, 2016. Interest paid decreased from \$12.4 million to \$10.0 million for the six months ended February 29, 2016 and February 28, 2017, respectively. The reduction in interest paid for the six months ended February 28, 2017 was primarily from our revolving credit facility remaining undrawn compared to a drawn balance of \$74.0 million in the six months ended February 29, 2016. The outflows were in line with expectations.

#### Net Cash used in Investing Activities

Cash used in investing activities was \$40.3 million for the six months ended February 28, 2017 compared to \$70.1 million used in investing activities for the six months ended February 29, 2016. The outflow for the six months ended February 28, 2017 includes \$13.5 million deferred consideration for our schools in Vietnam and Cambodia, \$36.7 million of capital expenditure in relation to the new Houston campus, the new China bilingual school in Shanghai and general maintenance capital expenditure, offset by sale proceeds of \$8.9 million in relation to the sale of the old Houston campus. The outflow for the six months ended February 29, 2016 was due primarily to the \$27.9 million final payment for the Meritas acquisition and \$43.0 million of capital expenditure.

#### Net Cash (used in)/generated from Financing Activities

Cash used in financing activities was \$5.8 million for the six months ended February 28, 2017 compared to cash generated from financing activities of \$67.3 million for the six months ended February 29, 2016. The outflow for the six months ended February 28, 2017 was due to repayment of borrowings of \$4.6 million and the payment of dividends related to non-controlling interests of \$1.3 million. The inflow for the six months ended February 29, 2016 was primarily due to net drawings on the revolving credit facility of \$74.0 million.

#### Debt

The following table sets forth our outstanding long-term debt as of the dates indicated.

§ millions	February 28, 2017	August 31, 2016
Bank Overdraft	36.8	_
Term Loan B	861.7	866.6
CHF Bond	191.4	195.2

In December 2016, we successfully repriced our term loan facility and revolving credit facility. The term loans under our amended and restated senior secured credit facilities bear interest based on LIBOR (subject to a 1.00% interest rate floor) plus a margin percentage of 3.50% per annum. Revolving loans bear interest at LIBOR plus a margin ranging from 2.25% to 3.25% per annum (currently 3.25%) depending on our total net leverage ratio as set forth below:

Total Net Leverage Ratio	Applicable Margin
> 4.50:1.00	3.25%
<pre> &lt;4.50:1.00 &gt; 3.50:1.00</pre>	3.00%
<pre> ≤3.50:1.00 &gt;3.00:1.00</pre>	2.75%
$\leq 3.00:1.00$ > 2.50:1.00	2.50%
<u>≤</u> 2.50:1.00	2.25%

In March 2016, we entered into six separate cross currency swaps totalling \$210.0 million notional value maturing on August 31, 2017, August 31, 2018 and August 31, 2019, each with an embedded FX option that limits the potential gains on final exchange. Under each contract, we swapped a USD floating rate liability under our term loans for a RMB or euro fixed interest rate liability with an obligation to pay a fixed rate on the RMB or euro equivalent amount. At maturity there is also the payment of principal amounts between currencies.

On June 25, 2015, we issued CHF200.0 million in aggregate principal amount of 5.750% senior secured notes due 2022. The issuer of the notes and the borrower under the senior secured credit facilities is a U.S. domestic limited liability company wholly owned by us. The notes and the borrowings under our senior secured credit facilities are guaranteed by us and certain of our subsidiaries and are secured by collateral primarily consisting of share pledges and security interests in assets of certain subsidiaries. The collateral is shared between holders of the notes and lenders under our senior secured credit facilities on an equal and ratable basis.

At any time prior to July 15, 2018, we may, subject to certain exceptions, on any one or more occasions, redeem up to 35% of the aggregate principal amount of the notes at a redemption price of 105.750 % of their principal amount, plus accrued and unpaid interest to the redemption date, with the net proceeds of certain equity offerings.

At any time prior to July 15, 2018, we may, on any one or more occasions, at our option redeem all or part of the notes, at a redemption price equal to 100% of the principal amount of the notes, plus an applicable redemption premium and accrued and unpaid interest to the redemption date.

At any time on or after July 15, 2018 and prior to maturity, we may on any one or more occasions at our option redeem all or part of the notes, subject to certain conditions, at the redemption prices set forth below, plus accrued and unpaid interest to the redemption date.

Year	Redemption Price
2 018	102.875%
2 019	101.438%
2 020 and thereafter	100.000%

We may redeem all, but not less than all, of the notes at a redemption price equal to 100% of the principal amount of the notes outstanding plus accrued and unpaid interest upon the occurrence of certain changes in applicable tax law.

For purposes of the indenture governing the notes, the below sets forth the calculations of our "Consolidated EBITDA" and "Consolidated Interest Expense" (each as defined in the indenture) for the four quarters ended February 28, 2017, after giving effect on a pro forma basis to acquisitions and related financings:

§ millions	Twelve Months Ended February 28, 2017
Adjusted EBITDA	206.5
Interest Income	2.5
Consolidated EBITDA	209.0
Full year impact of the sale and leaseback (1)	(2.5)
Consolidated EBITDA (adjusted for the full year impact of acquisitions and sale and leaseback)	206.5
Consolidated Interest Expense (on a pro forma basis)	67.6

(1) Incorporates the full twelve-month pro-forma impact of the sale and lease back transactions as though they had occurred on March 1, 2016.

Our senior secured credit facilities and the indenture governing the notes contain a number of covenants that, among other things and subject to certain exceptions, may restrict our ability to:

- incur additional debt;
- pay dividends or make other distributions or repurchase or redeem our shares;
- make investments; sell assets, including capital stock of subsidiaries;
- enter into agreements restricting our subsidiaries' ability to pay dividends;
- consolidate, merge, sell or otherwise dispose of all or substantially all of our assets;
- enter into sale and leaseback transactions;
- enter into transactions with our affiliates; and
- incur liens.

In addition, the credit agreement requires us to maintain a pro forma net leverage ratio of not greater than 5.25:1.00 if the sum of our (i) revolving loans and (ii) letter of credit/bank guarantee usage in excess of \$20.0 million exceeds 30% of our aggregate revolving commitments.

The credit agreement and indenture also contain customary events of default and the credit agreement contains customary affirmative covenants.
