# Table 1: PG&E Corporation Business Priorities 2010

- Improve reliability
- Improve safety and human performance
- Deliver on budget, on plan, and on purpose
- Drive customer satisfaction
- Champion effective regulatory and legislative policies

Table 2: Reconciliation of PG&E Corporation's Earnings from Operations to Consolidated Income Available for Common Shareholders in Accordance with Generally Accepted Accounting Principles (GAAP)
First Quarter, 2010 vs. 2009

(in millions, except per share amounts)

	Three months ended March 31,						
	Earning	S	Earnings per Con (Dilute				
	2010	2009	2010	2009			
PG&E Corporation Earnings from Operations (1)	\$ 303	\$ 246	\$ 0.79	\$ 0.66			
Items Impacting Comparability: (2)							
Statewide ballot initiative (3)	(25)	-	(0.07)	-			
Federal healthcare law (4)	(20)	-	(0.05)	-			
Accelerated work on gas system (5)		(5)	-	(0.01)			
PG&E Corporation Farnings on a GAAP basis	\$ 258	\$ 241	\$ 0.67	\$ 0.65			

- 1. "Earnings from operations" is not calculated in accordance with GAAP and excludes items impacting comparability as described in Note (2) below.
- 2. Items impacting comparability reconcile earnings from operations with Consolidated Income Available for Common Shareholders as reported in accordance with GAAP.
- 3. For the three-month period ended March 31, 2010, PG&E Corporation contributed \$25 million, after-tax, in support of Proposition 16 The Taxpayers Right to Vote Act.
- 4. For the three-month period ended March 31, 2010, PG&E Corporation recognized \$20 million, after-tax, for the reduction in the deferred tax asset corresponding to the loss of tax deductibility of Medicare Part D federal subsidies.
- 5. For the three-month period ended March 31, 2009, PG&E Corporation recognized \$5 million, after-tax, for costs to perform accelerated system-wide gas integrity surveys and associated remedial work.

Table 3: Reconciliation of Pacific Gas and Electric Company's Earnings from Operations to Consolidated Income Available for Common Stock in Accordance with GAAP First Quarter, 2010 vs. 2009 (in millions)

-	Three months ended March 31,  Earnings			
	2010	2009		
Pacific Gas and Electric Company Earnings from Operations (1)	\$ 306	\$ 241

Statewide ballot initiative (3)	(25)	-		
Federal healthcare law (4)	(20)	-		
Accelerated work on gas system (5)	<u> </u>	(5)		
Pacific Gas and Electric Company Earnings on a GAAP basis	\$ 261	\$ 236		

- 1. "Earnings from operations" is not calculated in accordance with GAAP and excludes items impacting comparability as described in Note (2) below.
- 2. Items impacting comparability reconcile earnings from operations with Consolidated Income Available for Common Shareholders as reported in accordance with GAAP.
- 3. For the three-month period ended March 31, 2010, PG&E Corporation contributed \$25 million, after-tax, in support of Proposition 16 The Taxpayers Right to Vote Act.
- 4. For the three-month period ended March 31, 2010, PG&E Corporation recognized \$20 million, after-tax, for the reduction in the deferred tax asset corresponding to the loss of tax deductibility of Medicare Part D federal subsidies.
- 5. For the three-month period ended March 31, 2009, Pacific Gas and Electric Company recognized \$5 million, after-tax, for costs to perform accelerated system-wide gas integrity surveys and associated remedial work.

Table 4: Key Drivers of PG&E Corporation Earnings per Common Share from Operations First Quarter, 2010 vs. 2009 (\$/Share, Diluted)

Q1 2009 EPS from Operations (1)	\$ 0.66
Nuclear refueling outage (2)	0.06
Increase in rate base revenues	0.05
Market gains in benefit investment trusts	0.02
Severance costs (2)	0.02
Miscellaneous items	0.03
Storm and outage expenses	(0.03)
Increase in shares outstanding	(0.02)
Q1 2010 EPS from Operations (1)	\$ 0.79

- 1. See Table 2 for a reconciliation of EPS from operations to EPS on a GAAP basis.
- 2. Costs incurred in 2009 with no similar costs in 2010.

Table 5: PG&E Corporation Share Statistics First Quarter, 2010 vs. 2009 (shares in millions, except per share amounts)

	First Quarter 2010	First Quarter 2009	% Change
Common Stock Data			
Book Value per share – end of period (1)	\$ 26.74	\$ 25.06	6.70 %
Weighted average common shares outstanding, basic	371	364	1.92 %
Employee share-based compensation	2	2	- %
Weighted average common shares outstanding, diluted	373	366	1.91 %
9.5% Convertible Subordinated Notes (participating securities)	16	17	(5.88 %)
Weighted average common shares outstanding and participating securities, diluted	389	383	1.57 %

1. Common shareholders' equity per common share outstanding at period end (includes the effect of participating securities).

Table 6: Operational Performance Metrics First Quarter Year-to-Date Actual 2010 vs. Targets 2010

			2010	
	Percentage Weight (1)	Q1 YTD Actual	Q1 YTD Target	EOY Target
1. Earnings From Operations (in millions)	50%	\$303	See note (2)	See note (2)
2. Customer Satisfaction & Brand Health Index	15%	75.3	77.7	77.7
3. Reliable Energy Delivery Index	15%	0.700	1.000	1.000
4. Safety Index	10%	1.000	1.000	1.000
5. Employee Engagement Premier Survey	5%	See note (3)	See note (3)	68.7%
6. Environmental Leadership Index	5%	1.45	1.00	1.00

- 1. Represents weighting used in calculating PG&E Corporation Short-Term Incentive Plan performance for management employees.
- 2. Internal target not publicly disclosed but is consistent with publicly disclosed guidance for 2010 EPS from operations of \$3.35-\$3.50.
- 3. The Employee Engagement Premier Survey will be administered in December 2010 with results available in February 2011.

#### DEFINITIONS OF 2010 OPERATIONAL PERFORMANCE METRICS FROM TABLE 6:

#### 1. Earnings from Operations:

Earnings from operations measures PG&E Corporation's earnings power from ongoing core operations. It allows investors to compare the underlying financial performance of the business from one period to another, exclusive of items that management believes do not reflect the normal course of operations (items impacting comparability). The measurement is not in accordance with GAAP. For a reconciliation of earnings from operations to earnings in accordance with GAAP, see Tables 2 and 3 above.

The 2010 target for earnings from operations is not publicly reported but is consistent with PG&E Corporation's publicly disclosed guidance range provided for 2010 EPS from operations of \$3.35-\$3.50. For a reconciliation of 2010 EPS guidance on an earnings from operations basis to a GAAP basis, see Table 8.

#### Customer Satisfaction & Brand Health Index:

The Customer Satisfaction & Brand Health Index is a combination of a Customer Satisfaction Score, which has a 75 percent weighting and a Brand Favorability Score, which has a 25 percent weighting in the composite. The Customer Satisfaction Score is a measure of overall satisfaction with PG&E's operational performance in delivering services such as reliability, pricing of services, and customer service experience. The Brand Favorability Score is a measure of the overall favorability towards the PG&E brand, and measures the emotional connection that customers have with the brand and is based on assessing perceptions regarding PG&E's images, such as trust, heritage, and social responsibility. The Customer Satisfaction & Brand Health Index measures residential, small business, and medium business customer perceptions with weightings of 60 percent for residential customers and 40 percent for business customers. A higher index score indicates better performance in customer satisfaction and brand health.

### Reliable Energy Delivery Index:

The Reliable Energy Delivery Index is a composite of three categories outlined below. Overall, these metrics provide a balanced view on the number and duration of electric system unplanned interruptions and performance improvement in the resurvey of the gas system. A higher index score indicates better performance in reliable energy delivery.

- System Average Interruption Frequency Index (SAIFI) 35% weight
   Customer Average Interruption Duration Index (CAIDI) 35% weight
- 3. Gas Leak Survey 30% weight

### Safety Index:

The Safety Index is a combination of the Occupational Safety & Health Administration (OSHA) Recordable Rate, which has a 75 percent weighting and the Motor Vehicle Incident (MVI) Rate, which has a 25 percent weighting in the composite. The OSHA Recordable Rate measures the number of OSHA Recordable injuries, illnesses, or exposures that (1) satisfy OSHA requirements for recordability, and (2) occur in the current year. In general, an injury must result in medical treatment beyond first aid or result in work restrictions, death, or loss of consciousness to be OSHA Recordable. The rate measures how frequently OSHA Recordable cases occur for every 200,000 hours worked, or for approximately every 100 employees. The MVI Rate measures the number of chargeable motor vehicle incidents per 1 million miles driven. A chargeable incident is one where the Company driver could have prevented an incident, but failed to take reasonable steps to do so. A higher index score indicates better safety performance.

#### Employee Engagement Premier Survey: 5.

The Employee Index is derived by averaging the percent favorable responses to 40 survey items. A higher index score indicates better performance in employee engagement.

### Environmental Leadership Index:

The Environmental Leadership Index is a combination of environmental compliance, which has a 50 percent weighting and operational footprint, which has a 50 percent weighting in the composite. The environmental compliance is determined by the Notice of Violation (NOV) Rate which is defined as the rate of NOVs per 100 agency inspections. The operational footprint is measured by reducing energy and water use, and increasing the diversion of solid waste at the Companies' facilities. A higher index score indicates better performance in environmental leadership.

Table 7: Pacific Gas and Electric Company Operating Statistics First Quarter, 2010 vs. 2009

# Three Months Ended March 31,

	2010	2009
Electric Sales (in millions kWh)		
Residential	7,704	7,670
Commercial	7,437	7,394

Renewable Resources, excluding QFs	1,557	1,192
Other Purchased Power	1,088	5,191
Spot Market Purchases/Sales, net	3,777	(98)
Total Purchased Power	10,117	10,226
Delivery from DWR	1,147	3,089
Delivery to Direct Access Customers	1,231	1,328
Other (includes energy loss)	(1,281)	(1,104)
Total Electric Energy Delivered	19,143	19,503
Diablo Canyon Performance		
Overall capacity factor (including refuelings)	98%	68%
Refueling outage period	None	1/25/09 - 3/24/09
Refueling outage duration during the period (days)	None	58.0

Table 8: PG&E Corporation EPS Guidance

2010 EPS Guidance	Low	High
EPS Guidance on an Earnings from Operations Basis	\$ 3.35	\$ 3.50
Estimated Items Impacting Comparability (1)		
Statewide ballot initiative (2)	(0.09)	(0.09)
Federal healthcare law <sup>(3)</sup>	(0.05)	(0.05)
Estimated EPS on a GAAP Basis	\$ 3.21	\$ 3.36
2011 EPS Guidance	Low	High
EPS Guidance on an Earnings from Operations Basis	\$ 3.65	\$ 3.85
Estimated Items Impacting Comparability	-	-
Estimated EPS on a GAAP Basis	\$ 3.65	\$ 3.85

- Items impacting comparability reconcile earnings from operations with Consolidated Income Available for Common Shareholders in Accordance with GAAP.
- 2. Costs related to Proposition 16 The Taxpayers' Right to Vote Act.
- 3. Reduction in the deferred tax asset corresponding to the loss of tax deductibility of Medicare Part D federal subsidies.

Management's statements regarding guidance for earnings from operations per common share for PG&E Corporation and general earnings sensitivities, constitute forward-looking statements that are based on current expectations and assumptions that management believes are reasonable, including that the Utility earns its authorized rate of return. These statements and assumptions are necessarily subject to various risks and uncertainties, the realization or resolution of which may be outside of management's control. Actual results may differ materially. Factors that could cause actual results to differ materially include:

- the Utility's ability to manage capital expenditures and its operating and maintenance expenses within authorized levels;
- the outcome of pending and future regulatory proceedings and whether the Utility is able to timely recover its costs through rates;
- the adequacy and price of electricity and natural gas supplies and whether the new day-ahead, hourahead, and real-time wholesale electricity markets established by the California Independent System Operator ("CAISO") will continue to function effectively, the extent to which the Utility can manage and respond to the volatility of electricity and natural gas prices, and the ability of the Utility and its counterparties to post or return collateral;

- explosions, fires, accidents, mechanical breakdowns, the disruption of information technology and
  systems, and similar events that may occur while operating and maintaining an electric and natural
  gas system in a large service territory with varying geographic conditions that can cause unplanned
  outages, reduce generating output, damage the Utility's assets or operations, subject the Utility to
  third-party claims for property damage or personal injury, or result in the imposition of civil,
  criminal, or regulatory fines or penalties on the Utility;
- the impact of storms, earthquakes, floods, drought, wildfires, disease, and similar natural disasters, or
  acts of terrorism or vandalism, that affect customer demand or that damage or disrupt the facilities,
  operations, or information technology and systems owned by the Utility, its customers, or third
  parties on which the Utility relies;
- the potential impacts of climate change on the Utility's electricity and natural gas businesses;
- changes in customer demand for electricity and natural gas resulting from unanticipated population
  growth or decline, general economic and financial market conditions, changes in technology that
  include the development of alternative technologies that enable customers to increase their reliance
  on self-generation, or other reasons;
- the occurrence of unplanned outages at the Utility's two nuclear generating units at the Diablo
  Canyon Power Plant ("Diablo Canyon"), the availability of nuclear fuel, the outcome of the Utility's
  application to renew the operating licenses for Diablo Canyon, and potential changes in laws or
  regulations promulgated by the NRC or environmental agencies with respect to the storage of spent
  nuclear fuel, security, safety, or other matters associated with the operations at Diablo Canyon;
- whether the Utility can operate efficiently to achieve cost savings and identify and successfully implement additional sustainable cost-saving measures;
- whether the Utility earns incentive revenues or incurs obligations under incentive ratemaking
  mechanisms, such as the California Public Utilities Commission's ("CPUC") incentive ratemaking
  mechanism relating to energy savings achieved through implementation of the utilities' customer
  energy efficiency programs;
- the impact of federal or state laws, or their interpretation, on energy policy and the regulation of utilities and their holding companies;
- whether the Utility can successfully implement its program to install advanced meters for its electric and natural gas customers and integrate the new meters with its customer billing and other systems, the outcome of the independent investigation ordered by the CPUC and the California Legislature into customer concerns about the new meters, and the ability of the Utility to implement various rate changes including "dynamic pricing" by offering electric rates that can vary with the customer's time of use and are more closely aligned with wholesale electricity prices;
- how the CPUC administers the conditions imposed on PG&E Corporation when it became the Utility's holding company;
- the outcome of litigation, including litigation involving the application of various California wage and hour laws, and the extent to which PG&E Corporation or the Utility incurs costs and liabilities in connection with litigation that are not recoverable through rates, from insurance, or from other third parties;
- the ability of PG&E Corporation, the Utility, and counterparties to access capital markets and other sources of credit in a timely manner on acceptable terms;
- the impact of environmental laws and regulations and the costs of compliance and remediation;

## Table 8 (continued): PG&E Corporation EPS Guidance

- the loss of customers due to various forms of bypass and competition, including municipalization of
  the Utility's electric distribution facilities, increasing levels of "direct access" by which consumers
  procure electricity from alternative energy providers, and implementation of "community choice
  aggregation," which permits cities and counties to purchase and sell electricity for their local
  residents and businesses;
- the outcome of federal or state tax audits and the impact of changes in federal or state tax laws, policies, or regulations; and
- other factors and risks discussed in PG&E Corporation and Pacific Gas and Electric Company's 2009 Annual Report on Form 10-K and other reports filed with the Securities and Exchange Commission.

Table 9: General Earnings Sensitivities PG&E Corporation and Pacific Gas and Electric Company

Variable	Description of Change	Estimated 2010 Earnings Impact	Estimated 2011 Earnings Impact
Rate base	+/- \$100 million change in rate base	+/- \$6 million	+/- \$6 million
Return on equity (ROE)	+/- 0.1% change in allowed ROE	+/- \$11 million	+/- \$13 million
Share count	+/- 1% change in average shares	+/- \$.03 per share	+/- \$.04 per share
Revenues	+/- \$7 million change in at-risk revenue (pre-tax), including Electric Transmission and California Gas Transmission	+/- \$.01 per share	+/- \$.01 per share

These general earnings sensitivities that may affect 2010 and 2011earnings are forward-looking statements that are based on various assumptions that may prove to be inaccurate. Actual results may differ materially. For a discussion of the factors that may affect future results, see Table 8.

<sup>(1)</sup> At March 31, 2010, interest rates on these bonds and the related loans ranged from 0.27% to 0.33%.

<sup>(2)</sup> Each series of these bonds is supported by a separate letter of credit that expires on February 26, 2012. Although the stated maturity date is 2026, each series will remain outstanding only if the Utility extends or replaces the letter of credit related to the series or otherwise obtains a consent from the issuer to the continuation of the series without a credit facility.

(3) These bonds bear interest at 3.75% per year through September 19, 2010, are subject to mandatory tender on September 20, 2010, and

may be remarketed in a fixed or variable rate mode.

(4) At March 31, 2010, interest rates on these bonds and the related loans ranged from 0.24% to 0.28%.

<sup>(5)</sup> Each series of these bonds is supported by a separate direct-pay letter of credit that expires on October 29, 2011. The Utility may choose to provide a substitute letter of credit for any series of these bonds, subject to a rating requirement.

Table 13: PG&E Corporation and Pacific Gas and Electric Company Repayment Schedule and Interest Rates - Long-Term Debt and Energy Recovery Bonds as of March 31, 2010 (in millions, except interest rates)

	2010	2011	2012	2013	2014	Thereafter	Total
LONG-TERM DEBT:							
PG&E Corporation							
Average fixed interest rate	9.50%	-	-	-	5.75%	-	7.30%
Fixed rate obligations	\$ 247	-	-	-	\$ 350	-	\$ 597
Utility							
Average fixed interest rate	3.75%	4.20%	-	6.25%	4.80%	6.13%	5.86%
Fixed rate obligations	\$ 95	\$ 500	-	\$ 400	\$ 1,000	\$ 7,245	\$ 9,240
Variable interest rate as of March 31, 2010	-	0.27%	0.29%	-	-	-	0.29%
Variable rate obligations	-	\$ 309 <sup>(1)</sup>	\$ 614 <sup>(2)</sup>	-	-	-	\$ 923
Less: current portion	(342)	(500)					(842)
Total consolidated long-term debt	\$ -	\$ 309	\$ 614	\$ 400	\$ 1,350	\$ 7,245	\$ 9,918

<sup>(1)</sup> These bonds, due from 2016 through 2026, are backed by a direct-pay letter of credit that expires on October 29, 2011. The bonds will be subject to a mandatory redemption unless the letter of credit is extended or replaced or the issuer consents to the continuation of these series without a credit facility. Accordingly, the bonds have been classified for repayment purposes in 2011.

Accordingly, the bonds have been classified for repayment purposes in 2011.

(2) The \$614 million pollution control bonds, due in 2026, are backed by letters of credit that expire on February 26, 2012. The bonds will be subject to a mandatory redemption unless the letters of credit are extended or replaced. Accordingly, the bonds have been classified for repayment purposes in 2012.

ENERGY RECOVERY BONDS (3):	2010	2011	2012	Total
Utility				
Average fixed interest rate	4.51%	4.59%	4.66%	4.60%
Energy recovery bonds	\$ 293	\$ 404	\$ 423	\$ 1,120

<sup>(3)</sup> These bonds were issued by PG&E Energy Recovery Funding LLC ("PERF"), a wholly owned consolidated subsidiary of Pacific Gas and Electric Company. The proceeds were used by PERF to purchase from Pacific Gas and Electric Company the right, known as "recovery property," to be paid a specified amount from a dedicated rate component to be collected from Pacific Gas and Electric Company's electricity customers. While PERF is a wholly owned subsidiary of Pacific Gas and Electric Company, it is legally separate from Pacific Gas and Electric Company. The assets, including the recovery property, of PERF are not available to creditors of PG&E Corporation or Pacific Gas and Electric Company, and the recovery property is not legally an asset of PG&E Corporation or Pacific Gas and Electric Company.

Table 14: Pacific Gas and Electric Company Docket Numbers of Selected Regulatory Cases

Name	Brief Description	Docket Number
Nuclear Relicensing	On January 29, 2010, the Utility filed an application with the CPUC to recover the costs associated with renewal of the Diablo Canyon Power Plant ("DCPP") operating licenses for Units 1 and 2. The application requests authority to recover in rates, starting January 1, 2015, an initial revenue requirement of \$21.6 million for costs associated with obtaining the federal and state approvals required to seek license renewal. DCPP's current federal operating licenses expire in 2024 and 2025 for the two units. The Utility requested that the Nuclear Regulatory Commission renew the current operating licenses for an additional 20 years to 2044 and 2045.	A.10-01-022
2011 General Rate Case ("GRC")	On December 21, 2009, the Utility filed its 2011 GRC to determine the amount of base revenues that the Utility may collect in rates to recover costs for the Utility's gas and electric distribution and electric generation operations for the period 2011 to 2013. The Utility has requested a final decision from the CPUC by the end of 2010. On March 22, 2010, the Utility filed its 2011 GRC Phase 2 application, proposing to revise its electric marginal costs, revenue allocation, and rate design. In addition, the Utility proposes to implement voluntary Real Time Pricing rates by May 2012.	A.09-12-020 A.10-03-014
SmartGrid Compressed Energy Storage Demonstration Project	On January 21, 2010, the CPUC approved the Utility's request to recover \$24.9 million in costs for the first phase of a 300-MW advanced compressed air energy storage system demonstration project. The Utility will receive amatching grant from the U.S. Department of Energy under the American Reinvestment and Recovery Act.	A.09-09-019 D.10-01-025
Manzana Wind Project	On December 3, 2009, the Utility requested that the CPUC approve: (1) a purchase and sale agreement to acquire the Manzana wind project from Iberdrola Renewables, Inc. and (2) a project completion agreement under which a subsidiary of Iberdrola will develop and construct the project. The Utility estimates that it would capital costs of approximately \$900 million for the project. The Utility has requested a final decision from the CPUC by September 2010.	A.09-12-002
Request for New Generation Offers and Potential New Utility-Owned Generation	Following the Utility's request for offers for long-term generation resources, the Utility executed several contracts that were submitted to the CPUC for approval in 2009. One of the contracts is a proposal for a third party to develop a 586-MW natural gas fired combined-cycle facility to be transferred to, and operated by, the Utility following expected completion in 2014. A final decision is expected in the third quarter of 2010.	R.06-02-013 A.09-04-001 A.09-09-021
2011 Gas Transmission and Storage Rate Case	On September 18, 2009, the Utility filed an application with the CPUC requesting that the CPUC determine the rates, terms, and conditions of the Utility's gas transmission and storage services beginning January 1, 2011. A final decision is expected in late 2010.	A.09-09-013

Table 14 (continued): Pacific Gas and Electric Company Docket Numbers of Selected Regulatory Cases

Name	Brief Description	Docket Number
Transmission Owner ("TO") 12 Rate Case	On July 30, 2009, the Utility filed its TO 12 rate case at the FERC, requesting a retail transmission revenue requirement of \$946 million. Rates became effective on March 1, 2010, subject to refund after the FERC issues a final decision. On March 31, the Utility requested that the FERC approve an uncontested all-party settlement agreement that proposes a retail transmission revenue requirement of \$875 million. A final decision is expected in the second or third quarter of 2010.	ER09-1521-000
Photovoltaic Program	On April 22, 2010, the CPUC approved the Utility's five-year program to (1) develop up to 250 MW of Utility-owned renewable generation resources based on solar photovoltaic ("PV") technology for an aggregate cost of up to \$1.5 billion and (2) execute power purchase agreements for up to 250 MW of PV projects to be developed by independent power producers. The Utility-owned portion of the PV facilities is subject to traditional rate base treatment.	A.09-02-019
Energy Efficiency Order Instituting Rulemaking Post-2005	This is a CPUC proceeding to establish incentive ratemaking mechanisms for implementation of the California utilities' energy efficiency programs and to resolve the utilities' claims for 2006-2008 shareholder incentives. In December 2009, the CPUC authorized the Utility's second interim claim and awarded the Utility \$33.4 million for energy savings achieved over the 2006-2008 program cycle. Any additional incentive award for the 2006-2008 cycle is subject to verification and the final true-up process expected to be completed in 2010. The CPUC has not yet determined the incentive mechanism that will apply to energy efficiency programs in 2009 and future years.	R.09-01-019 D.09-12-045
SmartGrid Order Instituting Rulemaking	This is a CPUC proceeding to consider the development of SmartGrid technologies in California. The CPUC issued an initial policy decision in December 2009 adopting procedures for SCE, PG&E and SDG&E to obtain CPUC approval for Smart Grid-related investments through general rate cases or individual applications. This rulemaking proceeding will have additional phases in 2010 and 2011.	R.08-12-009 D.09-12-046
Proposed Electric Distribution Reliability Program (Cornerstone Improvement Program)	The Utility requested the CPUC to authorize \$2.1 billion in capital expenditures and operating and maintenance expense associated with the Utility's proposed electric distribution reliability program over a six-year period beginning in 2010 through 2016. The requested amounts are incremental to amounts previously authorized for recovery in the 2007 GRC and are incremental to amounts the Utility has requested in its 2011 GRC. A final decision is expected in the second quarter of 2010.	A.08-05-023

Most of these regulatory cases are discussed in PG&E Corporation and Pacific Gas and Electric Company's combined Quarterly Report on Form 10-Q for the quarter ended March 31, 2010, or PG&E Corporation and Pacific Gas and Electric Company's combined Annual Report on Form 10-K for the year ended December 31, 2009.
