

## **Process Labourer**

Northern Sun Mining Corp. is currently accepting applications for the temporary, contract position of Process Labourer at the Redstone Mill. The duration of the position is estimated to be between 14 to 21 days, commencing late October to early November.

### **The successful candidate's primary responsibilities may include the following:**

- Assist the Crusher Operator in the crushing plant
- Maintain work environment by performing cleanup duties of work area, equipment, etc.
- Responsible for following all legislated policies and company procedures
- Ensures safety standards are met
  - Responsible for preparing mill samples for assaying on a daily basis:
    - Crushing samples
    - Pulverizing samples
    - Roll samples for proper mixing
    - Splitting samples for in-house assays and external assays
    - Weighing mill samples for digestion
    - Digestion of mill samples using the proper procedures
    - Using a Varian AA240 Atomic Absorption unit to read the metal concentrations
- Maintain accurate records of all samples in the logbook and the computer database:
  - Millrun samples on a daily basis
  - Copper concentrate on an on-demand basis
- Responsible for the quality and accuracy of all samples analyzed
  - Assays on mill samples need to be done using the proper standards
  - QA/QC standards need to be assayed at the same time for quality purposes
- Perform other related duties as required

### **Qualifications:**

- Minimum grade 12 education
- Previous experience in an industrial environment is an asset
- Ability to work safely and effectively in a labour intensive team environment as well as independently
- Effective communication and interpersonal skills
