VISA INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2016
(UNAUDITED)

Note 1—Summary of Significant Accounting Policies

Organization. Visa Inc. ("Visa" or the "Company") is a global payments technology company that connects consumers, merchants, financial institutions, businesses, strategic partners and governments in more than 200 countries and territories to fast, secure and reliable electronic payments. Visa and its wholly-owned consolidated subsidiaries, including Visa U.S.A. Inc. ("Visa U.S.A."), Visa International Service Association ("Visa International"), Visa Worldwide Pte. Limited, Visa Europe Limited ("Visa Europe"), Visa Canada Corporation, Inovant LLC and CyberSource Corporation ("CyberSource"), operate one of the world's largest retail electronic payments networks — VisaNet — which facilitates authorization, clearing and settlement of payment transactions and enables us to provide our financial institution and merchant clients a wide range of products, platforms and value-added services. VisaNet also offers fraud protection for account holders and assured payment for merchants. Visa is not a bank and does not issue cards, extend credit or set rates and fees for account holders on Visa products. In most cases, account holder and merchant relationships belong to, and are managed by, Visa's financial institution clients.

Consolidation and basis of presentation. The accompanying unaudited consolidated financial statements include the accounts of Visa and its consolidated entities and are presented in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The Company consolidates its majority-owned and controlled entities, including variable interest entities ("VIEs") for which the Company is the primary beneficiary. The Company's investments in VIEs have not been material to its consolidated financial statements as of and for the periods presented. All significant intercompany accounts and transactions are eliminated in consolidation.

The accompanying unaudited consolidated financial statements are presented in accordance with the U.S. Securities and Exchange Commission ("SEC") requirements for Quarterly Reports on Form 10-Q and, consequently, do not include all of the annual disclosures required by U.S. GAAP. Reference should be made to the Visa Annual Report on Form 10-K for the year ended September 30, 2016 for additional disclosures, including a summary of the Company's significant accounting policies.

In the opinion of management, the accompanying unaudited consolidated financial statements include all normal recurring adjustments necessary for a fair presentation of the Company's financial position, results of operations and cash flows for the interim periods presented.

Recently Issued and Adopted Accounting Pronouncements.

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-09, which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of goods or services to customers. The ASU will replace existing revenue recognition guidance in U.S. GAAP when it becomes effective. Subsequently, the FASB also issued a series of amendments to the new revenue standard. The Company will adopt the standard effective October 1, 2018. The standard permits the use of either the retrospective or cumulative effect transition method. The Company has not yet selected a transition method and is evaluating the full effect that ASU 2014-09 and all of its related subsequent updates will have on its consolidated financial statements and related disclosures.

In March 2016, the FASB issued ASU 2016-09, which simplifies several aspects of the accounting for share-based payments, including the accounting for excess tax benefits and deficiencies, forfeitures, and statutory tax withholding requirements, as well as classification on the statement of cash flows related to excess tax benefits and employee taxes paid when an employer withholds shares for tax-withholding purposes. The Company elected to early adopt this guidance effective October 1, 2016. The adoption had the following impact on the consolidated financial statements:

VISA INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

- The Company recorded excess tax benefits of \$26 million in our provision for income taxes rather than as an increase to additional paid-in capital for the three months ended December 31, 2016 on a prospective basis. Therefore, the prior period presented has not been adjusted.
- The Company excluded the excess tax benefits from the assumed proceeds available to repurchase shares in the computation of diluted earnings per share for the quarter ended December 31, 2016, which increased diluted weighted average common shares outstanding by 1 million, which did not have a material impact on our diluted earnings per share.
- The Company elected to apply the presentation requirement for cash flows related to excess tax benefits prospectively, and thus, the prior period presented has not been adjusted. This adoption resulted in an increase to both net cash provided by operating activities and net cash used in financing of \$26 million for the three months ended December 31, 2016.

In October 2016, the FASB issued ASU 2016-16, which requires that entities recognize the income tax consequences of an intra-entity transfer of an asset, other than inventory, when the transfer occurs. The Company is evaluating the effect that ASU 2016-16 will have on its consolidated financial statements and is considering early adoption of the standard.

In November 2016, the FASB issued ASU 2016-18, which requires that a statement of cash flows should include the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents when reconciling the beginning-of-period and end-of-period total amounts. The Company is evaluating the effect that ASU 2016-18 will have on its consolidated financial statements and is considering early adoption of the standard.

In January 2017, the FASB issued ASU 2017-04, which eliminates Step 2 from the goodwill impairment test. Instead, an entity should perform its annual or interim goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount and recognize an impairment charge for the amount by which the carrying amount exceeds the reporting unit's fair value, not to exceed the total amount of goodwill allocated to the reporting unit. The Company will adopt the standard effective October 1, 2020. The adoption is not expected to have a material impact on the consolidated financial statements.

Note 2—Visa Europe

On June 21, 2016, the Company acquired 100% of the share capital of Visa Europe, a payments technology business. The acquisition positions Visa to create additional value through increased scale, efficiencies realized by the integration of both businesses, and benefits related to Visa Europe's transition from an association to a for-profit enterprise. At the closing of the transaction (the "Closing"), the Company:

- paid up-front cash consideration of € 12.2 billion (\$13.9 billion);
- issued preferred stock of the Company convertible upon certain conditions into approximately 79 million shares of class A common stock of the Company, as described below, equivalent to a value of € 5.3 billion (\$6.1 billion) at the closing stock price of \$77.33 on June 21, 2016; and
- agreed to pay an additional € 1.0 billion, plus 4% compound annual interest, on the third anniversary of the Closing.

Preferred stock . In connection with the transaction, three new series of preferred stock of the Company were created:

- series A convertible participating preferred stock, par value \$0.0001 per share, which is generally designed to be economically equivalent to the Company's class A common stock (the "class A equivalent preferred stock");
- series B convertible participating preferred stock, par value \$0.0001 per share (the "U.K.&I preferred stock"); and
- series C convertible participating preferred stock, par value \$0.0001 per share (the "Europe preferred stock").

The Company issued 2,480,466 shares of U.K.&I preferred stock to Visa Europe's member financial institutions in the United Kingdom and Ireland entitled to receive preferred stock at the Closing, and 3,156,823 shares of Europe preferred stock to Visa Europe's other member financial institutions entitled to receive preferred stock at the Closing. Under certain conditions described below, the U.K.&I and Europe preferred stock is convertible into shares of class A common stock or class A equivalent preferred stock, at an initial conversion rate of 13.952 shares of class A common stock for each share of U.K.&I preferred stock and Europe preferred stock. The conversion rates may be reduced from time to time to offset certain liabilities, which may be incurred by the Company, Visa Europe or their affiliates as a result

VISA INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

of certain existing and potential litigation relating to the setting of multilateral interchange fee rates in the Visa Europe territory, where, generally, the relevant claims (and resultant liabilities and losses) relate to the period before the Closing. See *Note 3—U.S. and Europe Retrospective Responsibility Plans*.

Actual and pro forma impact of acquisition.

The following table presents unaudited supplemental pro forma information for the three months ended December 31, 2015, as if the acquisition and related issuance of senior notes had occurred on October 1, 2014. The pro forma financial information is not necessarily indicative of the Company's consolidated results of operations that would have been realized had the acquisition been completed on October 1, 2014, nor does it purport to project the future results of operations of the combined company or reflect any reorganizations, or cost or other operating synergies that may occur subsequent to the Closing. The actual results of operations of the combined company may differ significantly from the pro forma results presented here due to many factors.

	Consolidated Actual Results		Unaudited Pro Forma Consolidated Results	
	Three Months Ended December 31,			
	2016		2015	
	(in millions, except per share data)			
Net operating revenues	\$	4,461	\$	3,964
Net income	\$	2,070	\$	1,776
Diluted earnings per share	\$	0.86	\$	0.71

The unaudited pro forma financial information for the three months ended December 31, 2015 reflects the following material pro forma adjustments:

- conversion of Visa Europe's historical results of operations from euro to U.S. dollar, and from International Financial Reporting Standards to U.S. GAAP;
- elimination of transactions between Visa and Visa Europe upon consolidation, primarily related to annual license and various other fees paid by Visa Europe to Visa in accordance with the Framework Agreement;
- an increase in non-operating expense for the three months ended December 31, 2015 for additional interest expense and amortization of debt issuance costs resulting from the issuance of the \$16.0 billion senior notes;
- exclusion of a \$255 million gain related to the revaluation of the Visa Europe put option ⁽¹⁾; and
- elimination of acquisition-related costs incurred by Visa Europe.

⁽¹⁾ For purposes of preparing this pro forma financial information, the fair value of the Visa Europe put option is presumed to have been reduced to zero prior to October 1, 2014. Therefore, the Company did not include any gains associated with a write-down in the fair value of the Visa Europe put option liability in the unaudited pro forma net income for the three months ended December 31, 2015.

The pro forma results also reflect the applicable tax impact of the pro forma adjustments. The taxes associated with the adjustments reflect the statutory tax rate in effect during the respective periods.

Goodwill and intangible assets.

Upon the Closing, the Company recorded goodwill and indefinite-lived intangible assets as a result of the acquisition. The decrease in goodwill and intangible assets at December 31, 2016 from September 30, 2016 is primarily due to foreign currency translation, which is recorded as a component of accumulated other comprehensive loss in the consolidated balance sheet.

Note 3—U.S. and Europe Retrospective Responsibility Plans

U.S. Retrospective Responsibility Plan

Under the terms of the U.S. retrospective responsibility plan, the Company maintains an escrow account from which settlements of, or judgments in, the U.S. covered litigation are paid. The escrow funds are held in money market investments along with interest income earned, less applicable taxes, and are classified as restricted cash on the consolidated balance sheets. The balance of the escrow account was \$1.0 billion at December 31, 2016 and September 30, 2016. The Company did not make any payments to opt-out merchants from the litigation escrow account during the three months ended December 31, 2016. See *Note 12—Legal Matters*.

VISA INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

The accrual related to the covered litigation could be either higher or lower than the litigation escrow account balance. The Company did not record an additional accrual for the covered litigation during the three months ended December 31, 2016. See *Note 12—Legal Matters*.

Europe Retrospective Responsibility Plan

Under the terms of the Europe retrospective responsibility plan, the Company is entitled to recover VE territory covered losses through a periodic adjustment to the class A common stock conversion rates applicable to the U.K.&I. and Europe preferred stock. VE territory covered losses may be recorded in "right to recover for covered losses" within equity before the corresponding adjustment to the applicable conversion rate is effected. Adjustments to the conversion rate may be executed once in any six-month period unless a single, individual loss greater than € 20 million is incurred, in which case, the six-month limitation does not apply. When the adjustment to the conversion rate is made, the amount previously recorded in "right to recover for covered losses" as contra-equity will then be recorded against the book value of the preferred stock within stockholders' equity. As of December 31, 2016, the Company had recorded \$128 million in the "right to recover for covered losses" related to VE territory covered losses compared to \$34 million at September 30, 2016 as a result of additional losses incurred, including settlements with several merchants and additional legal costs. See *Note 12—Legal Matters*. There were no adjustments to the conversion rates in the three months ended December 31, 2016.

The following table sets forth the as-converted value of the preferred stock available to recover VE territory covered losses compared to the book value of preferred shares recorded in stockholders' equity within the Company's unaudited consolidated balance sheet as of December 31, 2016. ⁽¹⁾

	December 31, 2016	
	As-Converted Value of Preferred Stock ⁽²⁾	Book Value of Preferred Stock

There were no transfers between Level 1 and Level 2 assets during the three months ended December 31, 2016 .

Level 1 assets measured at fair value on a recurring basis. Money market funds, publicly-traded equity securities and U.S. Treasury securities are classified as Level 1 within the fair value hierarchy, as fair value is based on quoted prices in active markets.

Level 2 assets and liabilities measured at fair value on a recurring basis. The fair value of U.S. government-sponsored debt securities and corporate debt securities, as provided by third-party pricing vendors, is based on quoted prices in active markets for similar, not identical, assets. The pricing data obtained from outside sources is reviewed internally for reasonableness, compared against benchmark quotes from independent pricing sources, then confirmed or revised accordingly. Foreign exchange derivative instruments are valued using inputs that are observable in the market or can be derived principally from or corroborated by observable market data. There were no substantive changes to the valuation techniques and related inputs used to measure fair value during the three months ended December 31, 2016 .

Assets Measured at Fair Value on a Non-recurring Basis

Non-marketable equity investments and investments accounted for under the equity method . These investments are classified as Level 3 due to the absence of quoted market prices, the inherent lack of liquidity, and the fact that inputs used to measure fair value are unobservable and require management's judgment. When certain events or

VISA INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

circumstances indicate that impairment may exist, the Company revalues the investments using various assumptions, including the financial metrics and ratios of comparable public companies. There were no significant impairments during the three months ended December 31, 2016 or 2015. These investments totaled \$48 million and \$46 million at December 31, 2016 and September 30, 2016, respectively, and are classified in other assets on the consolidated balance sheets.

Non-financial assets and liabilities. Long-lived assets such as goodwill, indefinite-lived intangible assets, finite-lived intangible assets, and property, equipment and technology are considered non-financial assets. The Company does not have any non-financial liabilities measured at fair value on a non-recurring basis. Finite-lived intangible assets primarily consist of customer relationships, trade names and reseller relationships, all of which were obtained through acquisitions.

If the Company were required to perform a quantitative assessment for impairment testing of goodwill and indefinite-lived intangible assets, the fair values would generally be estimated using an income approach. As the assumptions employed to measure these assets on a non-recurring basis are based on management's judgment using internal and external data, these fair value determinations are classified as Level 3 in the fair value hierarchy. There were no events or changes in circumstances that indicate impairment at December 31, 2016.

Other Fair Value Disclosures

Long-term debt. Debt instruments are measured at amortized cost on the Company's unaudited consolidated balance sheet at December 31, 2016. The fair value of the debt instruments, as provided by third-party pricing vendors, is based on quoted prices in active markets for similar, not identical, assets. The pricing data obtained from outside sources is reviewed internally for reasonableness, compared against benchmark quotes from independent pricing sources, then confirmed or revised accordingly. If measured at fair value in the financial statements, these instruments would be classified as Level 2 in the fair value hierarchy.

The following table presents the carrying amount and estimated fair value of the Company's debt in order of maturity.

	December 31, 2016		September 30, 2016	
	Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value

1.20% Senior Notes due December 2017	\$ 1,747	\$ 1,750	\$ 1,746	\$ 1,754

Total	\$ 15,885	\$ 16,304	\$ 15,882	\$ 17,158

Other financial instruments not measured at fair value. The following financial instruments are not measured at fair value on the Company's unaudited consolidated balance sheet at December 31, 2016, but disclosure of their fair values is required: time deposits recorded in prepaid expenses and other current assets, settlement receivable and payable, commercial paper, and customer collateral. The estimated fair value of such instruments at December 31, 2016 approximates their carrying value due to their generally short maturities. If measured at fair value in the financial statements, these financial instruments would be classified as Level 2 in the fair value hierarchy.

Investments

Available-for-sale investment securities. The Company had \$59 million in gross unrealized gains and \$7 million in gross unrealized losses at December 31, 2016. There were \$55 million gross unrealized gains and no gross unrealized losses at September 30, 2016. A majority of the Company's available-for-sale investment securities with stated maturities are due within one to two years.

Senior Notes

The Company recognized interest expense for the senior notes, which were issued in December 2015, of \$125 million and \$24 million for the three months ended December 31, 2016 and 2015, respectively, as non-operating expense. The Company paid \$244 million in interest on the senior notes during the three months ended December 31, 2016.

Commercial Paper Program

The Company maintains a commercial paper program to support its working capital requirements and for other general corporate purposes. The carrying amount outstanding at December 31, 2016 was \$566 million, with a weighted-average interest rate of 0.79% and remaining maturities ranging from 37 days to 66 days. As of September 30, 2016, the Company had no outstanding obligations under the program.

VISA INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
Credit Facility Extension

On January 27, 2017, the Company extended the term of the \$4.0 billion credit facility that was entered into on January 27, 2016. The credit facility will now expire on January 27, 2022. No other terms were materially changed. A brief description of the material terms and conditions of the credit facility are described in the Company's Form 10-K, as filed with the SEC on November 15, 2016. A copy of the credit facility is filed as Exhibit 10.1 to the Company's Form 10-Q, as filed with the SEC on April 30, 2016 and is hereby incorporated by reference.

Note 6—Settlement Guarantee Management

The Company indemnifies its clients for settlement losses suffered due to failure of any other clients to fund its settlement obligations in accordance with the Visa Rules. This indemnification creates settlement risk for the Company due to the difference in timing between the date of a payment transaction and the date of subsequent settlement. The exposure to settlement losses through Visa's settlement indemnification is accounted for as a settlement risk guarantee. The Company's settlement exposure is limited to the amount of unsettled Visa payment transactions at any point in time. The Company requires certain clients that do not meet its credit standards to post collateral to offset potential loss from their estimated unsettled transactions. The Company's estimated maximum settlement exposure was \$68.7 billion for the quarter ended December 31, 2016, compared to \$67.8 billion for the quarter ended September 30, 2016. Of these amounts, \$3.0 billion and \$2.9 billion were covered by collateral at December 31, 2016 and September 30, 2016, respectively.

The Company maintained collateral as follows:

	December 31, 2016	September 30, 2016
	(in millions)	
Cash equivalents ⁽¹⁾	\$ 1,283	\$ 1,295
Pledged securities at market value	166	170
Letters of credit	1,328	1,311
Guarantees	1,443	1,418
Total	\$ 4,220	\$ 4,194

⁽¹⁾ Cash collateral held by Visa Europe is not included on the Company's consolidated balance sheets as its clients retain beneficial ownership and the cash is only accessible to the Company in the event of default by the client on its settlement obligations.

The total available collateral balances presented in the table above were greater than the settlement exposure covered by customer collateral held due to instances in which the available collateral exceeded the total settlement exposure for certain financial institutions at each date presented.

The fair value of the settlement risk guarantee is estimated based on a proprietary probability-weighted model and was approximately \$2 million at December 31, 2016 and September 30, 2016. These amounts are reflected in accrued liabilities on the Company's consolidated balance sheets.

Note 7—Pension and Other Postretirement Benefits

The Company sponsors various qualified and non-qualified defined benefit pension and other postretirement benefit plans that provide for retirement and medical benefits for substantially all employees residing in the U.S. The Company also sponsors other pension benefit plans that provide benefits for internationally-based employees at certain non-U.S. locations. The components of net periodic benefit cost presented below include the U.S. pension plans and the non-U.S. plans, which represent Visa Europe funded and unfunded pension plans. Disclosures relating to other non-U.S. pension benefit plans are not included as they are immaterial, individually and in aggregate.

In October 2015, the U.S. qualified defined benefit pension plan was amended such that the Company discontinued employer provided credits after December 31, 2015, and that plan participants continue to earn interest credits on existing balances at the time of the freeze. The Visa Europe pension plans had been closed to new entrants prior to the Visa Europe acquisition.

preferred stock on an as-converted basis). The cash dividend will be paid on March 7, 2017, to all holders of record of the Company's common and preferred stock as of February 17, 2017. The Company declared and paid \$399 million in dividends to holders of the Company's common stock during the three months ended December 31, 2016.

Note 9—Earnings Per Share

Basic earnings per share is computed by dividing net income available to each class by the weighted-average number of shares of common stock outstanding and participating securities during the period. Net income is allocated to each class of common stock and participating securities based on its proportional ownership on an as-converted basis. The weighted-average number of shares of each class of common stock outstanding reflects changes in ownership over the periods presented. See *Note 8—Stockholders' Equity*.

Diluted earnings per share is computed by dividing net income available by the weighted-average number of shares of common stock outstanding, participating securities and, if dilutive, potential class A common stock equivalent shares outstanding during the period. Dilutive class A common stock equivalents may consist of: (1) shares of class A common stock issuable upon the conversion of U.K.&I and Europe preferred stock and class B and C common stock based on the conversion rate in effect through the period, and (2) incremental shares of class A common stock calculated by applying the treasury stock method to the assumed exercise of employee stock options, the assumed purchase of stock under the Employee Stock Purchase Plan and the assumed vesting of unearned performance shares.

The following table presents earnings per share for the three months ended December 31, 2016. ⁽¹⁾

	Basic Earnings Per Share			Diluted Earnings Per Share

⁽¹⁾ Figures in the table may not recalculate exactly due to rounding. Earnings per share is calculated based on unrounded numbers.

⁽²⁾ Net income is allocated based on proportional ownership on an as-converted basis. The weighted-average number of shares of as-converted class B common stock used in the income allocation was 405 million for the three months ended December 31, 2016 and 2015. The weighted-average number of shares of as-converted class C common stock used in the income allocation was 67 million and 78 million for the three months ended December 31, 2016 and 2015, respectively. The weighted-average number of shares of as-converted U.K.&I and Europe preferred stock, included within participating securities, used in the income allocation was 35 million and 44 million, respectively, for the three months ended December 31, 2016.

⁽³⁾ Weighted-average diluted shares outstanding are calculated on an as-converted basis, and include incremental common stock equivalents, as calculated under the treasury stock method. The computation includes approximately 5 million common stock equivalents for the three months ended December 31, 2016 and 2015 because their effect would be dilutive. The computation excludes 3 million and 1 million of common stock equivalents for the three months ended December 31, 2016 and 2015, respectively, because their effect would have been anti-dilutive.

VISA INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

⁽⁴⁾ Participating securities include preferred stock outstanding and unvested share-based payment awards that contain non-forfeitable rights to dividends or dividend equivalents, such as the Company's U.K.&I and Europe preferred stock, restricted stock awards, restricted stock units and earned performance-based shares. Participating securities' income is allocated based on the weighted-average number of shares of as-converted stock.

Note 10—Share-based Compensation

The Company granted the following equity awards to employees and non-employee directors under the 2007 Equity Incentive Compensation Plan during the three months ended December 31, 2016 :

	Granted	Weighted-Average Grant Date Fair Value	Weighted-Average Exercise Price
Non-qualified stock options	1,671,344	\$ 13.90	\$ 80.82
Restricted stock units ("RSUs")	2,952,720	\$ 80.82	
Performance-based shares ⁽¹⁾	634,651	\$ 86.37	

⁽¹⁾ Represents the maximum number of performance-based shares which could be earned.

The Company's non-qualified stock options and RSUs are equity awards with service-only conditions and are accordingly expensed on a straight-line basis over the vesting period. The Company's performance-based shares are equity awards with service, market and performance conditions that are accounted for using the graded-vesting method. The Company recorded share-based compensation cost of \$45 million for the three months ended December 31, 2016 , net of estimated forfeitures, which are adjusted as appropriate.

Note 11—Income Taxes

The effective income tax rates were 31% and 26% for the three months ended December 31, 2016 and 2015 , respectively. The effective tax rate for the three months ended December 31, 2016 differs from the effective tax rate in the same period in the prior fiscal year primarily due to:

- \$26 million of excess tax benefits related to share-based payments recorded during the quarter ended December 31, 2016 as a result of early adoption of new Accounting Standards Update 2016-09. See *Note 1—Summary of Significant Accounting Policies* ;
- the restrictions on U.S. foreign tax credits that can be claimed on Visa Europe's foreign taxes under the current tax structure;
- the absence of the non-taxable \$255 million revaluation of the Visa Europe put option recorded in the quarter ended December 31, 2015; and
- the absence of foreign tax credit benefits related to prior fiscal years recognized during the quarter ended December 31, 2015.

During the three months ended December 31, 2016 , the Company's gross unrecognized tax benefits increased by \$33 million , of which \$28 million would favorably impact the effective tax rate if recognized. The increase in gross unrecognized tax benefits is primarily related to various tax positions across several jurisdictions. During the three months ended December 31, 2016 and 2015, respectively, there were no significant changes in interest and penalties related to uncertain tax positions.

The Company's tax filings are subject to examination by the U.S. federal, state and foreign taxing authorities. The timing and outcome of the final resolutions of the various ongoing income tax examinations are highly uncertain. It is not reasonably possible to estimate the increase or decrease in unrecognized tax benefits within the next twelve months.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Note 12—Legal Matters

The Company is party to various legal and regulatory proceedings. Some of these proceedings involve complex claims that are subject to substantial uncertainties and unascertainable damages. Accordingly, except as disclosed, the Company has not established reserves or ranges of possible loss related to these proceedings, as at this time in the proceedings, the matters do not relate to a probable loss and/or the amount or range of losses are not reasonably estimable. Although the Company believes that it has strong defenses for the litigation and regulatory proceedings described below, it could, in the future, incur judgments or fines or enter into settlements of claims that could have a material adverse effect on the Company's financial position, results of operations or cash flows. From time to time, the Company may engage in settlement discussions or mediations with respect to one or more of its outstanding litigation matters, either on its own behalf or collectively with other parties.

The litigation accrual is an estimate and is based on management's understanding of its litigation profile, the specifics of each case, advice of counsel to the extent appropriate and management's best estimate of incurred loss as of the balance sheet date.

The following table summarizes the activity related to accrued litigation.

Accrual Summary—U.S. Covered Litigation

Visa Inc., Visa U.S.A. and Visa International are parties to certain legal proceedings that are covered by the U.S. retrospective responsibility plan, which the Company refers to as the U.S. covered litigation. See *Note 3—U.S. and Europe Retrospective Responsibility Plans*. An accrual for the U.S. covered litigation and a charge to the litigation provision are recorded when loss is deemed to be probable and reasonably estimable. In making this determination, the Company evaluates available information, including but not limited to actions taken by the litigation committee. The total accrual related to the U.S. covered litigation could be either higher or lower than the escrow account balance.

The following table summarizes the activity related to U.S. covered litigation.

Accrual Summary—VE Territory Covered Litigation

Visa Inc., Visa International and Visa Europe are parties to certain legal proceedings that are covered by the Europe retrospective responsibility plan. Unlike the U.S. retrospective responsibility plan, the Europe retrospective responsibility plan does not have an escrow account that is used to fund settlements or judgments. The Company is entitled to recover VE territory covered losses through a periodic adjustment to the conversion rates applicable to the U.K.&I preferred stock and Europe preferred stock. An accrual for the VE territory covered losses and a reduction to stockholders' equity will be recorded when the loss is deemed to be probable and reasonably estimable. See further discussion below under *VE Territory Covered Litigation* and *Note 3—U.S. and Europe Retrospective Responsibility Plans*. VE Territory Covered Litigation
U.K. Merchant Litigation

Since July 2013, in excess of 100 Merchants (the capitalized term "Merchant," when used in this section, means a merchant together with subsidiary/affiliate companies who have issued claims jointly) have commenced proceedings against Visa Europe, Visa Inc. and Visa International relating to interchange rates in Europe, and seek damages for alleged anti-competitive conduct primarily in relation to U.K. domestic and/or Irish domestic and/or intra-EEA interchange fees for credit and debit cards. As of the filing date, Visa Europe, Visa Inc. and Visa International have settled the claims asserted by four Merchants.

The trial in relation to claims filed by a number of Merchants in 2013 commenced in November 2016 and is expected to continue until February 2017.

In addition, over 30 additional Merchants have threatened to commence similar proceedings. Standstill agreements have been entered into with respect to some of those Merchants' claims.

Other Litigation
"Indirect Purchaser" Actions

On January 12, 2017, the appeals court affirmed the trial court's order denying the objector's motion for attorneys' fees and costs.

Data Pass Litigation

On December 20, 2016, the U.S. Court of Appeals for the Second Circuit affirmed the dismissal as to certain claims against Gamestop Corporation, Webloyalty.com, Inc. and Visa, vacated the dismissal as to certain claims against Webloyalty and Gamestop, and remanded the case to the district court for further proceedings on the remaining claims.

U.S. ATM Access Fee Litigation

On November 17, 2016, the U.S. Supreme Court ordered that the writs of certiorari be dismissed as improvidently granted.

Korea Fair Trade Commission

Following complaints lodged by certain financial institutions in Korea, in November 2016, the Korea Fair Trade Commission (KFTC) initiated an investigation into certain pricing changes applicable to Visa financial institutions in Korea. Visa is cooperating with the KFTC.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This management's discussion and analysis provides a review of the results of operations, financial condition and the liquidity and capital resources of Visa Inc. and its subsidiaries ("Visa," "we," "our" or the "Company") on a historical basis and outlines the factors that have affected recent earnings, as well as those factors that may affect future earnings. The following discussion and analysis should be read in conjunction with our unaudited consolidated financial statements and related notes included elsewhere in this report.

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995 that relate to, among other things, our future operations, prospects, developments, strategies, growth of our business, expectations regarding client incentives, anticipated expansion of our products in certain countries, industry developments, expectations regarding litigation, timing and amount of stock repurchases, sufficiency of sources of liquidity and funding, effectiveness of our risk management programs and expectations regarding the impact of recent accounting pronouncements on our consolidated financial statements. Forward-looking statements generally are identified by words such as "believes," "estimates," "expects," "intends," "may," "projects," "could," "should," "will," "continue" and other similar expressions. All statements other than statements of historical fact could be forward-looking statements, which speak only as of the date they are made, are not guarantees of future performance and are subject to certain risks, uncertainties and other factors, many of which are beyond our control and are difficult to predict. We describe risks and uncertainties that could cause actual results to differ materially from those expressed in, or implied by, any of these forward-looking statements in our SEC filings, including our Annual Report on Form 10-K for the year ended September 30, 2016, and our subsequent reports on Forms 10-Q and 8-K. Except as required by law, we do not intend to update or revise any forward-looking statements as a result of new information, future events or otherwise.

Overview

Visa is a global payments technology company that connects consumers, merchants, financial institutions, businesses, strategic partners and government entities in more than 200 countries and territories to fast, secure and reliable electronic payments. We enable global commerce through the transfer of value and information among these participants. Our advanced transaction processing network facilitates authorization, clearing and settlement of payment transactions and enables us to provide our financial institution and merchant clients a wide range of products, platforms and value-added services.

Overall economic conditions. Our business is affected by overall economic conditions and consumer spending. Our business performance during the three months ended December 31, 2016 reflects continued uneven economic growth around the world.

Financial highlights. During the three months ended December 31, 2016, we recorded net income of \$2.1 billion or diluted class A earnings per share of \$0.86, increases of 7% over the prior year comparable period. Our net income and diluted earnings per share for the three months ended December 31, 2016 compared to our non-GAAP adjusted net income and diluted earnings per share for the three months ended December 31, 2015 are as follows:

(in millions, except percentages and per share data)	Three Months Ended December 31,		% Change ⁽¹⁾
	2016	2015	
Net income, as adjusted	\$ 2,070	\$ 1,686	23%
Diluted earnings per share, as adjusted	\$ 0.86	\$ 0.69	23%

⁽¹⁾ Figures in the table may not recalculate exactly due to rounding. Percentage changes are calculated based on unrounded numbers.

Adjusted net income, effective income tax rate and diluted earnings per share are non-GAAP financial measures and should not be relied upon as substitutes for measures calculated in accordance with U.S. GAAP. During the three months ended December 31, 2015, we recorded a decrease of \$255 million in the fair value of the Visa Europe put option, resulting in the recognition of non-cash, non-operating income that we do not believe is indicative of our operating performance. As such, we believe the presentation of adjusted financial results provides a clearer understanding of our operating performance for the prior period presented. This amount is not subject to income tax and therefore has no impact on our reported income tax provision. There was no comparable adjustment recorded for the three months ended December 31, 2016. The following table reconciles our as-reported net income, effective income tax rate and diluted earnings per share, which are calculated in accordance with U.S. GAAP, to our respective non-GAAP adjusted financial measures for the three months ended December 31, 2015:

(in millions, except percentages and per share data)	Three Months Ended December 31, 2015		
	Net Income	Effective Income Tax Rate ⁽¹⁾	Diluted Earnings Per Share ⁽¹⁾

Diluted weighted-average shares outstanding, as reported			2,430

⁽¹⁾ Figures in the table may not recalculate exactly due to rounding. Effective income tax rate and diluted earnings per share figures are calculated based on unrounded numbers.

We recorded net operating revenues of \$4.5 billion for the three months ended December 31, 2016, an increase of 25% over the prior year comparable period, reflecting the operating revenues of Visa Europe and continued growth in processed transactions and nominal payments volume. The effect of exchange rate movements in the three months ended December 31, 2016, as partially mitigated by our hedging program, resulted in a negative three percentage point impact to our net operating revenue growth.

Total operating expenses for the three months ended December 31, 2016 were \$1.4 billion, a 16% increase over prior year comparable period, resulting mainly from the inclusion of Visa Europe's operating expenses following the acquisition.

Common stock repurchases. During the three months ended December 31, 2016, we repurchased 24 million shares of our class A common stock in the open market using \$1.9 billion of cash on hand. As of December 31, 2016, we had remaining authorized funds of \$3.9 billion for share repurchase. See *Note 8—Stockholders' Equity* to our unaudited consolidated financial statements.

Nominal payments volume and transaction counts. Payments volume is the primary driver for our service revenues, and the number of processed transactions is the primary driver for our data processing revenues. Nominal payments volume over the prior year posted double-digit growth in the U.S., driven mainly by consumer credit. Nominal international payments volume growth was positively impacted due to the inclusion of nominal payments volume related to Visa Europe for the three months ended September 30, 2016 ⁽¹⁾. Growth on a constant-dollar basis, which excludes the impact of exchange rate movements, was not significantly different from growth on a nominal-dollar basis for the three months ended September 30, 2016 ⁽¹⁾. Growth in processed transactions reflects the inclusion of Visa Europe's processed transactions for the three months ended December 31, 2016.

The following table presents nominal payments volume. ⁽²⁾

	United States			International			Visa Inc.

⁽¹⁾ Service revenues in a given quarter are assessed based on nominal payments volume in the prior quarter. Therefore, service revenues reported for the three months ended December 31, 2016 and 2015 were based on nominal payments volume reported by our financial institution clients for the three months ended September 30, 2016 and 2015, respectively.

⁽²⁾ Figures in the table may not recalculate exactly due to rounding. Percentage changes are calculated based on unrounded numbers.

⁽³⁾ Includes consumer prepaid volume and Interlink volume.

⁽⁴⁾ Includes large, middle and small business credit and debit, as well as commercial prepaid volume.

⁽⁵⁾ Total nominal volume is the sum of total nominal payments volume and cash volume. Total nominal payments volume is the total monetary value of transactions for goods and services that are purchased on cards carrying the Visa, Visa Electron, Interlink and V PAY brands. Cash volume generally consists of cash access transactions, balance access transactions, balance transfers and convenience checks. Total nominal volume is provided by our financial institution clients, subject to review by Visa. On occasion, previously presented volume information may be updated. Prior period updates are not material.

⁽⁶⁾ Growth on a constant-dollar basis excludes the impact of foreign currency fluctuations against U.S. dollar.

The following table provides the number of transactions processed by our VisaNet system, including transactions involving Visa, Visa Electron, Interlink, V PAY and PLUS cards processed on Visa's networks. ⁽¹⁾

Results of Operations

Operating Revenues

The following table sets forth our operating revenues earned in the U.S., internationally and in accordance with the Framework Agreement prior to the Visa Europe acquisition on June 21, 2016. Visa Europe revenue earned for the three months ended December 31, 2016 is included in International.

	Three Months Ended December 31,		2016 vs. 2015	
	2016	2015	\$ Change	% Change ⁽¹⁾
(in millions, except percentages)				
U.S.	\$ 2,121	\$ 1,941	\$ 180	9 %
International	2,340	1,559	781	50 %
Revenues earned under the Framework Agreement ⁽²⁾	—	65	(65)	(100)%
Net operating revenues	\$ 4,461	\$ 3,565	\$ 896	25 %

⁽¹⁾ Figures in the table may not recalculate exactly due to rounding. Percentage changes are calculated based on unrounded numbers.

⁽²⁾ Reflects revenues earned from Visa Europe prior to the acquisition, in accordance with the Framework Agreement that provided for trademark and technology licenses and bilateral services. The Framework Agreement was effectively settled upon the closing of the acquisition. See Note 2—*Visa Europe* to our unaudited consolidated financial statements.

The increase in operating revenues reflects the operating revenues of Visa Europe and continued growth in processed transactions and nominal payments volume. These benefits were partially offset by increases in client incentives.

Our operating revenues, primarily service revenues, international transaction revenues, and client incentives, are impacted by the overall strengthening or weakening of the U.S. dollar as payments volume and related revenues denominated in local currencies are converted to U.S. dollars. The effect of exchange rate movements in the three months ended December 31, 2016, as partially mitigated by our hedging program, resulted in a negative three percentage point impact to our net operating revenue growth.

The following table sets forth the components of our net operating revenues, including operating revenues earned by Visa Europe for the three months ended December 31, 2016. Other revenues for the three months ended December 31, 2015 also includes revenue earned from Visa Europe in accordance with the Framework Agreement prior to its acquisition on June 21, 2016.

	Three Months Ended December 31,		2016 vs. 2015	
	2016	2015	\$ Change	% Change ⁽¹⁾
	(in millions, except percentages)			
Service revenues	\$ 1,918	\$ 1,645	\$ 273	17%
Data processing revenues	1,892	1,479	413	28%
International transaction revenues	1,489	1,031	458	44%
Other revenues	203	198	5	2%
Client incentives	(1,041)	(788)	(253)	32%
Net operating revenues	<u>\$ 4,461</u>	<u>\$ 3,565</u>	<u>\$ 896</u>	25%

⁽¹⁾ Figures in the table may not recalculate exactly due to rounding. Percentage changes are calculated based on unrounded numbers.

- *Service revenues*, which include revenues earned by Visa Europe in the three months ended December 31, 2016, increased primarily due to 47% growth in nominal payments volume during the three month comparable period. The growth in the first quarter of fiscal 2017 service revenues was slower than the growth in payments volume reflecting the inclusion of Visa Europe revenue and the resulting impact on our service revenue yield.
- *Data processing revenues* increased mainly due to overall growth in processed transactions of 44% during the three month comparable period, which includes data processing revenues earned by Visa Europe in the first quarter of fiscal 2017, and the resulting impact on our data processing revenue yield.
- *International transaction revenues* increased in the first quarter of fiscal 2017 primarily due to nominal cross-border volume growth of 135%, which includes revenues earned by Visa Europe during the three months ended December 31, 2016. International transaction revenue growth also reflects the resulting impact of Visa Europe revenues on our corresponding yield.
- *Client incentives* increased during the three month comparable period mainly due to Visa Europe's incentives for the three months ended December 31, 2016, overall growth in payments volume and incentives recognized on long-term customer contracts that were initiated or renewed after the first quarter of fiscal 2016. The amount of client incentives we record in future periods will vary based on changes in performance expectations, actual client performance, amendments to existing contracts or the execution of new contracts.

Operating Expenses

The following table sets forth components of our total operating expenses.

Total operating expenses	<u>\$ 1,361</u>	<u>\$ 1,169</u>	<u>\$ 192</u>	16%

NM — not meaningful

⁽¹⁾ Figures in the table may not recalculate exactly due to rounding. Percentage changes are calculated based on unrounded numbers.

Our overall operating expenses increased primarily due to the inclusion of Visa Europe expenses for the first quarter of fiscal 2017. Additional factors impacting our operating expenses for the three months ended December 31, 2016 are discussed below.

- *Personnel expenses* increased driven by higher employee compensation costs.
- *Marketing expenses* increased to support our growth strategies and new product initiatives.
- *General and administrative expenses* reflected an increase in expenses to provide product benefits to our cardholders as a result of business growth, offset by a decrease in net foreign exchange impacts incurred as a result of changes in the U.S. dollar exchange rate against other currencies in which we transact.

Non-operating (Expense) Income

The following table sets forth components of our non-operating (expense) income.

	Three Months Ended December 31,		2016 vs. 2015	
	2016	2015	\$ Change	% Change ⁽¹⁾
(in millions, except percentages)				
Interest expense	\$ (140)	\$ (29)	\$ (111)	NM
Other	19	272	(253)	(93)%
Non-operating (expense) income	\$ (121)	\$ 243	\$ (364)	NM

NM — not meaningful

⁽¹⁾ Figures in the table may not recalculate exactly due to rounding. Percentage changes are calculated based on unrounded numbers.

- *Interest expense* increased primarily due to the issuance of \$16.0 billion fixed-rate senior notes in December 2015. See *Note 5—Debt* to our unaudited consolidated financial statements.
- *Other non-operating income* in the first fiscal quarter of 2016 reflected a non-cash adjustment to the fair value of the Visa Europe put option of \$255 million, reducing the fair value of the liability to zero. See *Note 2—Visa Europe* to our unaudited consolidated financial statements.

Effective Income Tax Rate

The effective income tax rates were 31% and 26% for the three months ended December 31, 2016 and 2015, respectively. The effective tax rate for the three months ended December 31, 2016 differs from the effective tax rate in the same period in the prior fiscal year primarily due to:

- \$26 million of excess tax benefits related to share-based payments recorded during the quarter ended December 31, 2016 as a result of early adoption of new Accounting Standards Update 2016-09;
- the restrictions on U.S. foreign tax credits that can be claimed on Visa Europe's foreign taxes under the current tax structure;
- the absence of the non-taxable \$255 million revaluation of the Visa Europe put option recorded in the quarter ended December 31, 2015; and
- the absence of foreign tax credit benefits related to prior fiscal years recognized during the quarter ended December 31, 2015.

Excluding the non-cash, non-taxable \$255 million gain recognized as non-operating income upon the revaluation of the Visa Europe put option, the adjusted non-GAAP effective income tax rate was 29% for the three months ended December 31, 2015. We believe the adjusted effective income tax rate provides a clearer understanding of our operating performance for the period in the prior fiscal year.

During the three months ended December 31, 2016, our gross unrecognized tax benefits increased by \$33 million, of which \$28 million would favorably impact our effective tax rate if recognized. The increase in gross unrecognized tax benefits is primarily related to various tax positions across several jurisdictions.

Our tax filings are subject to examination by the U.S. federal, state and foreign taxing authorities. The timing and outcome of the final resolutions of the various ongoing income tax examinations are highly uncertain. It is not reasonably possible to estimate the increase or decrease in unrecognized tax benefits within the next twelve months.

Liquidity and Capital Resources

Cash Flow Data

The following table summarizes our cash flow activity for the periods presented:

	Three Months Ended December 31,	
	2016	2015
	(in millions)	
Total cash provided by (used in):		
Operating activities	\$ 2,508	\$ 1,979
Investing activities	(417)	(6,194)
Financing activities	(1,730)	13,534
Effect of exchange rate changes on cash and cash equivalents	(156)	—
Increase in cash and cash equivalents	\$ 205	\$ 9,319

Operating activities. Cash provided by operating activities for the three months ended December 31, 2016 was higher than prior year comparable period, reflecting continued growth in our underlying business, including Visa Europe.

Investing activities. Cash used in investing activities was lower compared to the prior year comparable period as purchases of available-for-sale investment securities during the three months ended December 31, 2015 reflected additional investment of proceeds received from the issuance of our Senior Notes. See *Note 5—Debt* and *Note 4—Fair Value Measurements and Investments* to our unaudited consolidated financial statements.

Financing activities. Financing activities for the three months ended December 31, 2016 reflect net aggregate proceeds of \$566 million received from our commercial paper program in December 2016 and \$1.9 billion used to repurchase class A common stock in the open market. Activity in the prior year comparable period primarily reflected \$15.9 billion net aggregate proceeds received from our debt issuance completed in December 2015 and \$2.0 billion of cash used to repurchase class A common stock in the open market. See *Note 5—Debt* and *Note 8—Stockholders' Equity* to our unaudited consolidated financial statements.

Sources of Liquidity

Our primary sources of liquidity are cash on hand, cash flow from operations, our investment portfolio and access to various equity and borrowing arrangements. Funds from operations are maintained in cash and cash equivalents and short-term or long-term available-for-sale investment securities based upon our funding requirements, access to liquidity from these holdings, and the returns that these holdings provide. We believe that cash flow generated from operations, in conjunction with access to our other sources of liquidity, will be more than sufficient to meet our ongoing operational needs.

Cash and cash equivalents and short-term and long-term available-for-sale investment securities held by our foreign subsidiaries, primarily attributable to undistributed earnings, totaled \$9.0 billion at December 31, 2016. If it were necessary to repatriate these undistributed earnings for use in the U.S., we would be required to pay U.S. income taxes on most of this amount. The amount of income taxes that would have resulted had these undistributed earnings been repatriated is not practicably determinable. It is our intent to indefinitely reinvest the majority of these undistributed earnings outside of the U.S. As such, we have not accrued any U.S. income tax provision in our financial results related to the majority of these funds.

Commercial Paper Program. We maintain a commercial paper program to support our working capital requirements and for other general corporate purposes. The carrying amount outstanding at December 31, 2016 was \$566 million, with a weighted-average interest rate of 0.79% and remaining maturities ranging from 37 days to 66 days. See *Note 5—Debt* to our unaudited consolidated financial statements.

Credit Facility Extension. On January 27, 2017, we extended the term of the \$4.0 billion credit facility that was entered into on January 27, 2016. The credit facility will now expire on January 27, 2022. No other material terms were changed. See *Note 5—Debt* to our unaudited consolidated financial statements.

Uses of Liquidity

There has been no significant change to our primary uses of liquidity since September 30, 2016, except as discussed below. Based on our current cash flow budgets and forecasts of our short-term and long-term liquidity needs, we believe that our projected sources of liquidity will be sufficient to meet our projected liquidity needs for more than the next 12 months. We will continue to assess our liquidity position and potential sources of supplemental liquidity in view of our operating performance, current economic and capital market conditions and other relevant circumstances.

Senior Notes. In December 2015, we issued fixed-rate senior notes in an aggregate principal amount of \$16.0 billion, with maturities ranging between 2 and 30 years. Our first principal payment of \$1.8 billion is due on December 14, 2017. However, we intend to refinance this current portion of debt prior to its maturity, market conditions permitting. An interest payment of \$244 million was made on December 14, 2016. See *Note 5—Debt* to our unaudited consolidated financial statements.

Common stock repurchases. During the three months ended December 31, 2016, we repurchased 24 million shares of our class A common stock using \$1.9 billion of cash on hand. As of December 31, 2016, the July 2016 program had remaining authorized funds of \$3.9 billion for share repurchase. All share repurchase programs authorized prior to July 2016 have been completed. See *Note 8—Stockholders' Equity* to our unaudited consolidated financial statements.

Dividends. During the three months ended December 31, 2016, we declared and paid \$399 million in dividends to holders of our common stock. In January 2017, our board of directors declared a cash dividend in the amount of \$0.165 per share of class A common stock (determined in the case of class B and C common stock and U.K.&I and Europe preferred stock on an as-converted basis), which will be paid on March 7, 2017, to all holders of record of our common and preferred stock as of February 17, 2017. See *Note 8—Stockholders' Equity* to our unaudited consolidated financial statements. We expect to continue paying quarterly dividends in cash, subject to approval by the board of directors. All three series of preferred stock and class B and C common stock will share ratably on an as-converted basis in such future dividends.

Fair Value Measurements—Financial Instruments

As of December 31, 2016, our financial instruments measured at fair value on a recurring basis included \$12.4 billion of assets and \$84 million of liabilities. See *Note 4—Fair Value Measurements and Investments* to our unaudited consolidated financial statements.

ITEM 3. Quantitative and Qualitative Disclosures about Market Risk

There have been no significant changes to our market risks during the three months ended December 31, 2016, compared to September 30, 2016.

ITEM 4. Controls and Procedures

Disclosure controls and procedures. Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15(d)-15(f)) of Visa Inc. at the end of the period covered by this report. Based on such evaluation, our Chief Executive Officer and Chief Financial Officer concluded that the disclosure controls and procedures of Visa Inc. were effective at the reasonable assurance level as of the end of the period covered by this report.

Changes in internal control over financial reporting. There has been no change in the internal control over financial reporting of Visa Inc. that occurred during the fiscal period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. Legal Proceedings.

Refer to *Note 12—Legal Matters* to the unaudited consolidated financial statements included in this Form 10-Q for a description of the Company's current material legal proceedings.

ITEM 1A. Risk Factors.

For a discussion of the Company's risk factors, see the information under the heading "Risk Factors" in the Company's Annual Report on Form 10-K for the year ended September 30, 2016, filed with the SEC on November 15, 2016.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds.

⁽¹⁾ Includes 325,200 shares of class A common stock withheld at an average price of \$80.82 per share (per the terms of grants under our 2007 Equity Incentive Compensation Plan) to offset tax withholding obligations that occur upon vesting and release of restricted shares.

⁽²⁾ The figures in the table reflect transactions according to trade dates. For purposes of our unaudited consolidated financial statements included in this Form 10-Q, the impact of these repurchases is recorded according to settlement dates.

⁽³⁾ Our board of directors from time to time authorizes the repurchase of shares of our common stock up to a certain monetary limit. In October 2015 and July 2016, our board of directors authorized share repurchase programs for \$5.0 billion each. These authorizations have no expiration date. All share repurchase programs authorized prior to July 2016 have been completed.

CERTIFICATION OF CHIEF EXECUTIVE OFFICER PURSUANT TO
EXCHANGE ACT RULES 13A-14(A)/15D-14(A),
AS ADOPTED PURSUANT TO SECTION 302
OF THE SARBANES-OXLEY ACT OF 2002

I, Alfred F. Kelly, Jr., certify that:

1. I have reviewed this quarterly report on Form 10-Q of Visa Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation;
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
