## Footnote

Payments volume represents the aggregate dollar amount of purchases made with cards carrying the Visa, Visa Electron, V PAY and Interlink brands for the relevant period, and cash volume represents the aggregate dollar amount of cash disbursements obtained with these cards for the relevant period and includes the impact of balance transfers and convenience checks, but excludes proprietary PLUS volume. Total volume represents payments and cash volume.

Visa payment products are comprised of credit and debit programs, and data relating to each program is included in the tables. Debit programs include Visa's signature based and Interlink (PIN) debit programs.

The data presented is based on results reported quarterly by Visa's financial institution clients on their operating certificates. Estimates may be utilized if data is unavailable.

On occasion, previously presented information may be updated. Prior period updates, if any, are not material.

Europe is reported and included in Visa Inc. results effective with the 3 months ended September 2016. Visa's CEMEA region is comprised of countries in Central Europe, the Middle East and Africa. Several European Union countries in Central Europe, Israel and Turkey are not included in CEMEA. LAC is comprised of countries in Central and South America and the Caribbean. International includes Asia Pacific, Canada, CEMEA, Europe and LAC.

Information denominated in U.S. dollars is calculated by applying an established U.S. dollar/local currency exchange rate for each local currency in which Visa Inc. volumes are reported ("Nominal USD"). These exchange rates are calculated on a quarterly basis using the established exchange rate for each quarter. To eliminate the impact of foreign currency fluctuations against the U.S. dollar in measuring performance, Visa Inc. also reports year-over-year growth in total volume, payments volume and cash volume on the basis of local currency information ("Constant USD"). This presentation represents Visa's historical methodology which may be subject to review and refinement.

Effective June 9, 2016, Article 8 of the EU Interchange Fee Regulation states that payment card networks cannot impose reporting requirements or the obligation to pay fees on payment transactions where their payment brand is present but their network is not used. Prior to this regulation, Visa collected a small service fee in a few countries, particularly France, on domestic payment transactions where Visa cards are co-badged with a domestic network. Clients in Europe continued to report co-badged volume through the quarter ended September 2016; however, Europe co-badged volume and transactions have been excluded from all periods.
