Alfred F. Kelly, Jr., *Chairman and Chief Executive Officer, Visa Inc.*, commented on the results:

“As we find ourselves in unprecedented times, Visa is guided by our vision, mission and values. Our top focus has been the safety of our employees and we remain extremely driven to deliver for our clients and shareholders. In this past quarter, we have renewed several key relationships and formed some exciting new partnerships, all in support of the opportunities that we see in consumer payments, new flows and value added services. Although the road ahead will likely be challenging for a number of quarters, our business model is resilient and our strategy to enable the movement of money globally is more relevant than ever.”

## Fiscal Second Quarter 2020 — Financial Highlights

---

GAAP net income in the fiscal second quarter was \$3.08 billion or \$1.38 per share, increases of 4% and 6%, respectively, over prior year's results. Current and prior year's results included \$2 million of net losses and \$84 million of net gains from equity investments, respectively. Current year's results also included \$16 million related to the amortization of acquired intangible assets and non-recurring acquisition-related costs. Excluding these items, non-GAAP net income for the quarter was \$3.10 billion or \$1.39 per share, increases of 6% and 9%, respectively, over prior year's results (refer to the accompanying financial tables for further details and a reconciliation of the non-GAAP measures presented). Non-GAAP earnings per share growth was approximately 9% on a constant-dollar basis. All references to earnings per share assume fully-diluted class A share count.

Net revenues in the fiscal second quarter were \$5.9 billion, an increase of 7%, driven by the year-over-year changes in payments volume, cross-border volume and processed transactions, which were not significantly impacted by COVID-19 until the latter part of March. Net revenues growth was approximately 8% on a constant-dollar basis.

Payments volume for the three months ended December 31, 2019, on which fiscal second quarter service revenues are recognized, grew 8% over the prior year on a constant-dollar basis.

Payments volume for the three months ended March 31, 2020, grew 5% over the prior year on a constant-dollar basis.

Cross-border volume, on a constant-dollar basis, declined by 2% for the three months ended March 31, 2020. Excluding cross-border transactions within Europe, which have revenue yields similar to Europe's domestic volume, the decline on a constant-dollar basis was 5% in the quarter.

Total processed transactions, which represent transactions processed by Visa, for the three months ended March 31, 2020, were 34.9 billion, a 7% increase over the prior year.

Fiscal second quarter service revenues were \$2.6 billion, an increase of 9% over the prior year, and are recognized based on payments volume in the prior quarter. All other revenue categories are recognized based on current quarter activity. Data processing revenues rose 11% over the prior year to \$2.7 billion. International transaction revenues grew 2% over the prior year to \$1.8 billion. Other revenues of \$392 million rose 20% over the prior year. Client incentives, which are a contra-revenue item, were \$1.7 billion and represented 22.6% of gross revenues.

GAAP operating expenses were \$1.9 billion for the fiscal second quarter, a 4% increase over the prior year's results, including the amortization of acquired intangible assets and non-recurring acquisition-related costs. Excluding these operating expense items, non-GAAP operating expenses grew 3% over the prior year, primarily driven by personnel and depreciation and amortization costs.

GAAP non-operating expense was \$95 million for the fiscal second quarter, including \$2 million of net equity investment losses.

GAAP effective income tax rate was 19.4% for the quarter ended March 31, 2020, including the tax impacts from amortization of acquired intangible assets, non-recurring acquisition-related costs and net equity investment losses. Excluding the tax impacts from these items, the non-GAAP effective income tax rate was 19.5% for the quarter ended March 31, 2020.

Cash, cash equivalents and investment securities were \$13.2 billion as of March 31, 2020.

The weighted-average number of diluted shares of class A common stock outstanding was 2.23 billion for the quarter ended March 31, 2020.

## Other Notable Items

---

COVID-19 impacted both card present and card not present cross-border travel related spending, initially in Asia during February, and then globally and more significantly in March as the outbreak spread to the rest of the world. As countries imposed social distancing, shelter-in-place or total lock-down orders, domestic spending, most notably in travel, restaurants, entertainment and fuel, sharply declined week on week with significant deterioration in volume and transaction trends in the latter part of March.

On January 13, 2020, Visa announced it signed a definitive agreement to acquire Plaid, a network that makes it easy for people to securely connect their financial accounts to the apps they use to manage their financial lives. Visa will pay \$4.9 billion cash consideration and \$0.4 billion of retention equity and deferred equity consideration. This acquisition is subject to customary closing conditions, including ongoing regulatory reviews and approvals, which are expected to be completed by the end of 2020.

On March 31, 2020, Visa announced an offering of fixed-rate senior notes in an aggregate principal amount of \$4.0 billion, with maturities ranging between 7 and 20 years, and interest rates from 1.9% to 2.7%. The weighted average interest rate is 2.16%. The notes were issued on April 2, 2020 and the net proceeds will be used for general corporate purposes.

During the three months ended March 31, 2020, Visa repurchased 17.8 million shares of class A common stock, at an average price of \$180.10 per share, using \$3.2 billion of cash on hand. In the six months ended March 31, 2020, Visa repurchased a total of 30.9 million shares of class A common stock, at an average price of \$179.94 per share, using \$5.6 billion of cash on hand. The Company had \$7.9 billion of remaining authorized funds for share repurchase as of March 31, 2020.

On April 21, 2020, the board of directors declared a quarterly cash dividend of \$0.30 per share of class A common stock (determined in the case of class B and C common stock and series B and C convertible participating preferred stock on an as-converted basis) payable on June 2, 2020, to all holders of record as of May 14, 2020.

## Financial Outlook for Fiscal Full-Year 2020

---

The worldwide spread of COVID-19 has created significant uncertainty in the global economy and the extent to which COVID-19 will impact the Company's future results is difficult to reasonably estimate at this time; therefore we are not providing a fiscal full-year 2020 outlook.

# Forward-Looking Statements

---

This press release contains forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995 that relate to, among other things, the impact on our underlying business drivers and other volume and transaction trends as a result of COVID-19, our future operations, prospects, developments, strategies and business growth. Forward-looking statements generally are identified by words such as “believes,” “estimates,” “expects,” “intends,” “may,” “projects,” “outlook,” “could,” “should,” “will,” “continue” and other similar expressions. All statements other than statements of historical fact could be forward-looking statements, which speak only as of the date they are made, are not guarantees of future performance and are subject to certain risks, uncertainties and other factors, many of which are beyond our control and are difficult to predict.

Actual results could differ materially from those expressed in, or implied by, our forward-looking statements due to a variety of factors, including, but not limited to:

- impact of global economic, political, market, health and social events or conditions, including the impact of COVID-19;
- increased oversight and regulation of the global payments industry and our business;
- impact of government-imposed restrictions on international payment systems;
- outcome of tax, litigation and governmental investigation matters;
- increasingly intense competition in the payments industry, including competition for our clients and merchants;
- proliferation and continuous evolution of new technologies and business models;
- our ability to maintain relationships with our clients, merchants and other third parties;
- brand or reputational damage;
- management changes;
- exposure to loss or illiquidity due to settlement guarantees;
- uncertainty surrounding the impact of the United Kingdom’s withdrawal from the European Union;
- a disruption, failure, breach or cyber-attack of our networks or systems;
- risks, uncertainties and the failure to achieve the anticipated benefits with respect to our acquisitions and other strategic investments; and
- other factors described in our filings with the U.S. Securities and Exchange Commission, including our Annual Report on Form 10-K for the year ended September 30, 2019, and our subsequent reports on Forms 10-Q and 8-K.

Except as required by law, we do not intend to update or revise any forward-looking statements as a result of new information, future events or otherwise.

## Visa Inc. Reconciliation of Non-GAAP Financial Results (unaudited)

---

We use non-GAAP financial measures of our performance which exclude certain items which we believe are not representative of our continuing operations and may distort our longer-term operating trends. We consider non-GAAP measures useful to investors because they provide greater transparency into management's view and assessment of our ongoing operating performance. Starting in fiscal 2020, we revised our non-GAAP methodology to exclude the impact of gains and losses on our equity investments, amortization of acquired intangible assets and acquisition-related costs for acquisitions that closed in fiscal 2019 and subsequent periods. Prior year amounts have been restated to conform to our current presentation.

- *Gains and losses on equity investments.* Gains and losses on equity investments include periodic non-cash fair value adjustments and gains and losses upon sale of an investment. These long-term investments are strategic in nature and are primarily private company investments. Gains and losses and the related tax impacts associated with these investments are tied to the performance of the companies that we invest in and therefore do not correlate to the underlying performance of our business. During the three months ended March 31, 2020, we recorded net realized and unrealized losses of \$2 million. During the six months ended March 31, 2020, we recorded net realized and unrealized gains of \$11 million and related tax expense of \$3 million. For the same prior-year comparable periods, we recorded net realized and unrealized gains of \$84 million and \$80 million, respectively, and related tax expense of \$19 million and \$18 million, respectively.
- *Amortization of acquired intangible assets.* Amortization of acquired intangible assets consists of amortization of intangible assets such as developed technology, customer relationships and brands acquired in connection with business combinations executed beginning in fiscal 2019. Amortization charges for our acquired intangible assets are non-cash and are significantly affected by the timing, frequency and size of our acquisitions, rather than our core operations. As such, we have excluded this amount and the related tax impact to facilitate an evaluation of our current operating performance and comparison to our past operating performance. During the three and six months ended March 31, 2020, we recorded amortization of acquired intangible assets of \$11 million and \$22 million, respectively, and related tax benefit of \$2 million and \$5 million, respectively. There were no comparable amounts during the three and six months ended March 31, 2019 since we are only adjusting for transactions that closed in fiscal 2019 and subsequent periods.
- *Acquisition-related costs.* Acquisition-related costs consist primarily of one-time transaction and integration costs associated with our business combinations. These costs include professional fees, technology integration fees, restructuring activities and other direct costs related to the purchase and integration of acquired entities. It also includes retention equity and deferred equity compensation when they are agreed upon as part of the purchase price of the transaction but are required to be recognized as expense post-combination. We have excluded these amounts and the related tax impacts as the expenses are recognized for a limited duration and do not reflect the underlying performance of our business. During the three and six months ended March 31, 2020, we recorded acquisition-related costs of \$5 million and \$7 million, respectively, and related tax benefit of \$2 million during both the three and six months ended March 31, 2020. There were no comparable amounts during the three and six months ended March 31, 2019 since we are only adjusting for transactions that closed in fiscal 2019 and subsequent periods.

## Visa Inc. Reconciliation of Non-GAAP Financial Results - continued (unaudited)

Non-GAAP operating expense, non-operating income (expense), income tax provision, effective income tax rate, net income and diluted earnings per share should not be relied upon as substitutes for, or considered in isolation from, measures calculated in accordance with U.S. GAAP. The following tables reconcile our as-reported financial measures, calculated in accordance with U.S. GAAP, to our respective non-GAAP financial measures for the three and six months ended March 31, 2020 and 2019.
