FORWARD-LOOKING STATEMENTS

This presentation includes forward-looking statements within the meaning of the U.S. federal securities laws, including, without limitation, statements regarding: our go-to-market strategy and growth opportunities, our ability to deliver sustained growth, and global expansion. These statements are subject to risks and uncertainties that may cause actual results and events to differ materially, including without limitation: if our product offerings, marketing activities and investment prioritization decisions do not result in the sales, profitability or profitability growth we expect, or when we expect it; if we fail to innovate and develop new products in a timely and cost-effective manner for our new and existing product categories; if we do not successfully execute on our growth opportunities or our growth opportunities are more limited than we expect; the effect of pricing, product, marketing and other initiatives by our competitors, and our reaction to them, on our sales, gross margins and profitability; if our products and marketing strategies fail to separate our products from competitors’ products; if we are not able to maintain and enhance our brands; the COVID-19 pandemic and its potential impact; if we do not fully realize our goals to lower our costs and improve our operating leverage; if there is a deterioration of business and economic conditions in one or more of our sales regions or product categories, or significant fluctuations in exchange rates; changes in trade policies and agreements and the imposition of tariffs that affect our products or operations and our ability to mitigate; risks associated with acquisitions; the effect of changes to our effective income tax rates. These and other risks and uncertainties are detailed in Logitech’s filings with the Securities and Exchange Commission, including its Annual Report on Form 10-K for the fiscal year ended March 31, 2020 and its Quarterly Report on Form 10-Q for the fiscal quarter ended December 31, 2020, available at www.sec.gov, under the caption Risk Factors and elsewhere. Logitech does not undertake any obligation to update any forward-looking statements to reflect new information or events or circumstances occurring after the date of this presentation.
NEW JOURNEY

MOVE from Push to Pull
WIN in multi-categories
EXCEL in multi-channels
