Sec.gov, under the caption Risk Factors and elsewhere. Logitech does not undertake any obligation to update any forward-looking statements to reflect new information or events or circumstances occurring after the date of this presentation.
To facilitate comparisons to Logitech's historical results, we have included non-GAAP adjusted measures in this presentation, which exclude primarily share-based compensation expense, amortization of intangible assets, purchase accounting effect on inventory, acquisition-related costs, change in fair value of contingent consideration for business acquisition, restructuring charges (credits), loss (gain) on investments, non-GAAP income tax adjustment, and other items detailed under "Supplemental Financial Information" in our quarterly earnings press release and posted to our website at http://ir.logitech.com. Historical GAAP and corresponding non-GAAP measures are provided with our earnings releases and presentations in the Investors section of our website. We also present percentage sales growth in constant currency ("CC") to show performance unaffected by fluctuations in currency exchange rates. Percentage sales growth in constant currency is calculated by translating prior period sales in each local currency at the current period's average exchange rate for that currency and comparing that to current period sales. Logitech believes this information wili help investors to evaiuate its current period performance, outlook and trends in its business. For historical financials provided in this presentation, reconciliation between non-GAAP amounts and GAAP amounts is provided on the Investors page of our website, together with this presentation and with our earnings releases. With respect to financial outlook, most of the excluded amounts pertain to events that have not yet occurred and are not currently possible to estimate with a reasonable degree of accuracy. Therefore, no reconciliation to GAAP amounts has been provided for non-GAAP outlook.
(A) Non-GAAP Financial Measures

To supplement our condensed consolidated financial results prepared in accordance with GAAP, we use a number of financial measures, both GAAP and non-GAAP, in analyzing and assessing our overall business performance, for making operating decisions and for forecasting and planning future periods. We consider the use of non-GAAP financial measures helpful in assessing our current financial performance, ongoing operations and prospects for the future as well as understanding financial and business trends relating to our financial condition and results of operations. For full GAAP to non-GAAP reconciliation information and cautionary information regarding the use of nonGAAP measures, please refer to "Supplemental Financial Information" in our earnings press release or "Financial Statements only" posted to our website under "Quarterly Results" at http://ir.logitech.com.
