

Logitech Introduces Case With Built-In Keyboard for iPad 2

Company Teams Up with ZAGG to Deliver First iPad 2 Case

FREMONT, Calif.--(BUSINESS WIRE)-- Logitech (SIX:LOGN) (NASDAQ:LOGI) today unveiled the [Logitech® Keyboard Case](#), delivering type-and-go convenience for your iPad® 2. Smart and sleek, Logitech's first offering designed especially for tablets provides an extra measure of convenience and style, wherever you take your iPad 2.

The Logitech Keyboard Case is made of precision-cut aircraft-grade aluminum and features military-grade, high-density padding. The protective case wraps around the iPad 2 to cover the screen and sides. So you can go from Face Time® to e-mail in no time, the Logitech Keyboard Case offers a flexible, folding hinge, which makes it easy to place your iPad 2 in either portrait or landscape mode.

And for your convenience, the Logitech Keyboard Case uses Bluetooth® connectivity to pair the included wireless keyboard quickly and easily and the keyboard charges over USB, so you never need to worry about replacing batteries.

Offered in Collaboration with ZAGG

The Logitech Keyboard Case has been developed in partnership with ZAGG (NASDAQ: ZAGG), a market leader in providing innovative mobile device accessories. The two companies have entered into an agreement that provides Logitech with exclusive worldwide distribution rights to the ZAGGmate™ case design for the iPad2 and other tablets.

"The Logitech Keyboard Case combines style and function in one great package," said Azmat Ali, Logitech senior director for tablet products. "This is the first of several products we plan to introduce this year designed specifically to enhance the way people create, consume and communicate using their tablet."

Pricing and Availability

The Logitech Keyboard Case is expected to be available in the U.S. in April 2011 for a suggested retail price of \$99.99 (U.S.). Visit www.logitech.com for more information.

About Logitech

Logitech is a world leader in products that connect people to the digital experiences they care about. Spanning multiple computing, communication and entertainment platforms, Logitech's combined hardware and software enable or enhance digital navigation, music and video entertainment, gaming, social networking, audio and video communication over the Internet, video security and home-entertainment control. Founded in 1981, Logitech International is a Swiss public company listed on the SIX Swiss Exchange (LOGN) and on the Nasdaq Global Select Market (LOGI).

Logitech, the Logitech logo, and other Logitech marks are registered in Switzerland and other countries. All other trademarks are the property of their respective owners. For more information about Logitech and its products, visit the company's Web site at www.logitech.com.
