Logitech Honored by CEA with Four 2015 CES Innovation Awards

Logitech Keyboard and Logitech G Mice and Keyboards Recognized as Stand Out Products for 12th year running

NEWARK, Calif.--(BUSINESS WIRE)-- Today Logitech (SIX: LOGN) (NASDAQ: LOGI) announced that four products have been named 2015 CES Innovation Awards Honorees. This year's recognition goes to the [Logitech® Bluetooth® Multi-Device Keyboard K480](#), the [Logitech® G502 Proteus Core Tunable Gaming Mouse](#), the [Logitech® G402 Hyperion Fury™ Ultra-Fast FPS Gaming Mouse](#) and the [Logitech® G910 Orion Spark RGB Mechanical Keyboard](#).

"Exceptional design is beautifully in-tune with people's lives and combines art and science in a way that's completely seamless for users," said Bracken Darrell, Logitech president and CEO. "Every product we create is focused on one powerful idea that is then reflected through every aspect of the experience. We strive not only to make beautiful products, but also to deliver an experience that sets them apart. Sometimes that manifests in obvious ways that permeate the entire product concept, and sometimes in a nuanced experience that users discovers over time. It is an honor that the Consumer Electronics Association has recognized our efforts with these awards."

This year, the Consumer Electronics Association (CEA)® recognized Logitech's products in the following categories:

Honoree in Computer Peripherals Category:

Logitech Bluetooth Multi-Device Keyboard K480:

The Logitech Bluetooth Multi-Device Keyboard K480 is the first desk keyboard that is designed for use with up to three devices, regardless of computing platform. Now, you can work on a report on your computer, and with the flick of the Easy-Switch™ dial, respond to a message on your smartphone or type a tweet on your tablet from one keyboard.

Honorees in Gaming Hardware & Accessories Category:

Logitech G502 Proteus Core Tunable Gaming Mouse:

The Logitech G502 Proteus Core Tunable Gaming Mouse is a fully customizable mouse. It combines the world's first 12,000 DPI sensor with advanced surface and weight tuning to help gamers achieve maximum accuracy, precision and responsiveness during gameplay. The Proteus Core features the Logitech G exclusive Delta Zero™ technology in the world's most powerful and accurate sensor. With this mouse, you can easily calibrate the gaming sensor to your specific environment, add up to five 3.6g weights for personalized mass and balance, set any command or macro to one of the 11 programmable buttons, and shift through up to five DPI settings.

Logitech G402 Hyperion Fury Ultra-Fast FPS Gaming Mouse:

The Logitech G402 Hyperion Fury Ultra-Fast FPS Gaming Mouse is the world's fastest gaming mouse, and best choice for high-speed FPS gameplay. The Hyperion Fury features Logitech's exclusive Fusion Engine™ sensor technology that can reliably track over 500 inches per second (IPS), and Logitech's exclusive Delta Zero sensor technology for unrivaled accuracy. It also features eight programmable buttons with onboard memory, four DPI settings that can be shifted on the fly, and a 1 millisecond report rate, ensures your commands will be communicated via USB without troublesome lag.

Logitech G910 Orion Spark RGB Mechanical Keyboard:

The Logitech G910 Orion Spark RGB Mechanical Keyboard is the world's fastest mechanical gaming keyboard. This mechanical gaming keyboard features exclusive new Romer-G™ mechanical switches, offering up to 25 percent faster actuation, intelligent RGB illumination and Arx Control integration. It combines lightning speed responsiveness, improved accuracy with superior RGB illumination in a performance-driven design.

The prestigious CES Innovation Awards are sponsored by the CEA, the producer of the International CES, the global gathering place for all who thrive on the business of consumer technology, and have been recognizing achievements in product design and engineering since 1976. Logitech's four honoree products will be displayed at the 2015 International CES, which runs Jan. 6-9, 2015, in Las Vegas, Nev. Honorees will also be displayed at CES Unveiled New York, which runs 4:30-7:30 p.m. Nov. 11 at the Metropolitan Pavilion in New York, N.Y.

About Logitech

Logitech is a world leader in products that connect people to the digital experiences they care about. Spanning multiple computing, communication and entertainment platforms, Logitech's combined hardware and software enable or enhance digital navigation, music and video entertainment, gaming, social networking, audio and video communication over the Internet, video security and home-entertainment control. Founded in 1981, Logitech International is a Swiss public company listed on the SIX Swiss Exchange (LOGN) and on the Nasdaq Global Select Market (LOGI).

Logitech, the Logitech logo, and other Logitech marks are registered in Switzerland and other countries. All other trademarks are the property of their respective owners. For more information about Logitech and its products, visit the company's website at www.logitech.com.
