Virtus Investment Partners, Inc.
Notes to Condensed Consolidated Financial Statements
(Unaudited)

1. Organization and Business

Virtus Investment Partners, Inc. (the "Company," "we," "us," "our" or "Virtus"), a Delaware corporation, operates in the investment management industry through its subsidiaries.

The Company provides investment management and related services to individuals and institutions. The Company's retail investment management services are provided to individuals through products consisting of U.S. 1940 Act mutual funds and Undertaking for Collective Investment in Transferable Securities ("UCITS" or "offshore funds" and collectively, with U.S. 1940 Act mutual funds, "open-end funds"), exchange traded funds ("ETFs"), closed-end funds (collectively, with open-end funds and ETFs, "funds") and retail separate accounts. Institutional investment management services are offered through separate accounts and pooled or commingled structures to a variety of institutional clients. The Company also provides subadvisory services to other investment advisers and serves as the collateral manager for structured products.

2. Basis of Presentation and Significant Accounting Policies

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information. Accordingly, they do not include all of the information and notes required by GAAP for complete financial statements. In the opinion of management, these financial statements contain all adjustments, consisting only of normal recurring adjustments, necessary for a fair statement of the Company's financial condition and results of operations. Operating results for the six months ended June 30, 2020 are not necessarily indicative of the results that may be expected for the year ending December 31, 2020.

These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2019 ("2019 Annual Report on Form 10-K") filed with the Securities and Exchange Commission (the "SEC"). The Company's significant accounting policies, which have been consistently applied, are summarized in its 2019 Annual Report on Form 10-K.

New Accounting Standards Implemented

In August 2018, the Financial Accounting Standards Board (the "FASB") issued Accounting Standards Update ("ASU") 2018-15, *Intangibles-Goodwill and Other-Internal-Use Software (Subtopic 350-40)*. This standard aligns the requirements for capitalizing implementation costs incurred in a hosting arrangement that is a service contract with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software, including an internal-use software license. The Company adopted this standard on January 1, 2020. The adoption of this standard did not have a material impact on the Company's condensed consolidated financial statements.

In August 2018, the FASB issued ASU 2018-13, *Fair Value Measurement (Topic 820)*. This standard modifies the disclosure requirements on fair value measurements. The Company adopted this standard on January 1, 2020. The adoption of this standard did not have a material impact on the Company's condensed consolidated financial statements.

New Accounting Standards Not Yet Implemented

In January 2020, the FASB issued ASU 2020-01, *Investments-Equity Securities (Topic 321), Investments-Equity Method and Joint Ventures (Topic 323), and Derivatives and Hedging (Topic 815)*. This standard clarifies the interaction of the accounting for equity securities under Topic 321, the accounting for equity method investments in Topic 323, and the accounting for certain forward contracts and purchased options in Topic 815. This standard is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2020. Early adoption is permitted, with the amendments to be applied on a prospective basis. The Company is currently evaluating the impact of adopting this standard on its condensed consolidated financial statements.

In December 2019, the FASB issued ASU 2019-12, *Income Taxes (Topic 740): Simplifying the Accounting for Income Taxes*. This standard simplifies the accounting for income taxes by removing certain exceptions to the general principles of Topic 740, *Income Taxes*, and also improves consistent application by clarifying and amending existing guidance. This standard is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2020. Early adoption is permitted, with the amendments to be applied on a retrospective, modified retrospective or prospective basis, depending on the specific amendment. The Company is currently evaluating the impact of adopting this standard on its condensed consolidated financial statements.

3. Revenues

The Company's revenues are recognized when a performance obligation is satisfied, which occurs when control of the services is transferred to customers. Investment management fees, distribution and service fees, and administration and shareholder service fees are generally calculated as a percentage of average net assets of the investment portfolios managed. The net asset values from which investment management, distribution and service, and administration and shareholder service fees are calculated are variable in nature and subject to factors outside of the Company's control such as additional investments, withdrawals and market performance. Because of this, these fees are considered constrained until the end of the contractual measurement period (monthly or quarterly), which is when asset values are generally determinable.

Total investments	\$ 61,301	\$ 83,206

(1) The Company's equity method investments are valued on a three-month lag based upon the availability of financial information.

Investment Securities - fair value

Investment securities - fair value consist of investments in the Company's sponsored funds, separately managed accounts and trading debt securities. The composition of the Company's investment securities - fair value was as follows:

(in thousands)	June 30, 2020		December 31, 2019	
	Cost	Fair Value	Cost	Fair Value
Investment Securities - fair value

Debt securities	7	4	44	16
Total investment securities - fair value	\$ 34,560	\$ 40,024	\$ 55,882	\$ 60,990

For the three and six months ended June 30, 2020, the Company recognized realized gains of less than \$0.1 million

and realized losses of \$0.3 million, respectively, on the sale of its investment securities - fair value. For the three and six months ended June 30, 2019, the Company recognized a realized gain of \$0.2 million and a realized loss of \$0.6 million, respectively, on the sale of its investment securities - fair value.

6. Fair Value Measurements

The Company's assets and liabilities measured at fair value on a recurring basis, excluding the assets and liabilities of CIP discussed in Note 15, as of June 30, 2020 and December 31, 2019 by fair value hierarchy level were as follows:

June 30, 2020

<i>(in thousands)</i>	Level 1	Level 2	Level 3	Total

Nonqualified retirement plan assets	8,724	—	—	8,724
Total assets measured at fair value	\$ 256,953	\$ 16	\$ —	\$ 256,969

The following is a discussion of the valuation methodologies used for the Company's assets measured at fair value:

Cash equivalents represent investments in money market funds. Cash investments in money market funds are valued using published net asset values and are classified as Level 1.

Sponsored funds represent investments in open-end funds, closed-end funds and ETFs for which the Company acts as the investment manager. The fair value of open-end funds is determined based on their published net asset values and are categorized as Level 1. The fair value of closed-end funds and ETFs is determined based on the official closing price on the exchange on which they are traded and are categorized as Level 1.

Equity securities represent securities traded on active markets and are valued at the official closing price (typically the last sale or bid) on the exchange on which the securities are primarily traded and are categorized as Level 1.

Debt securities represent investments in senior secured bank loans and are based on evaluated quotations received from independent pricing services and are categorized as Level 2.

Nonqualified retirement plan assets represent mutual funds within a nonqualified retirement plan whose fair value is determined based on their published net asset value and are categorized as Level 1.

Cash, accounts receivable, accounts payable and accrued liabilities equal or approximate fair value based on the short-term nature of these instruments.

The Company had no Level 3 investments for the three and six-month periods ended June 30, 2020. The following table is a reconciliation of assets for Level 3 investments for which significant unobservable inputs were used to determine fair value for the three and six-months ended June 30, 2019:

<i>(in thousands)</i>	Three Months Ended June 30,	Six Months Ended June 30,
	2019	2019
Level 3 Investments (1)

Purchases (sales), net	(4,417)	(4,185)
Change in realized and unrealized gain (loss), net	—	63
Balance at end of period	\$ —	\$ —

(1) The investments that are categorized as Level 3 were valued utilizing third-party pricing information without adjustment.

7. Equity Transactions

Preferred Stock Conversion

On February 3, 2020, 1,150,000 shares of mandatory convertible preferred stock ("MCPS") converted to 912,870 shares of the Company's common stock. Each share of MCPS converted to 0.7938 shares of common stock at a conversion price of \$125.97 per share, subject to customary anti-dilution adjustments. The number of shares of common stock issued upon conversion was determined based on the volume-weighted average price per share of the Company's common stock over the 20 consecutive trading day period beginning on, and including, the 22nd scheduled trading day immediately preceding the mandatory conversion date.

Dividends Declared

On May 13, 2020, the Company declared a quarterly cash dividend of \$0.67 per common share to be paid on August 14, 2020 to stockholders of record at the close of business on July 31, 2020.

Common Stock Repurchases

During the three and six months ended June 30, 2020, the Company repurchased 74,897 and 185,853 common shares, respectively, at a weighted average price of \$100.11 and \$94.13 per share, respectively, for a total cost, including fees and expenses, of \$7.5 million and \$17.5 million, respectively, under its share repurchase program. In May 2020, the Company's Board of Directors authorized an additional 750,000 shares to be repurchased under the share repurchase program. As of June 30, 2020, 816,585 shares remained available for repurchase. Under the terms of the program, the Company may repurchase shares of its common stock from time to time at its discretion through open market repurchases, privately negotiated transactions and/or other mechanisms, depending on price and prevailing market and business conditions. The program, which has no specified term, may be suspended or terminated at any time.

8. Accumulated Other Comprehensive Income (Loss)

The changes in accumulated other comprehensive income (loss) by component for the six months ended June 30, 2020 and 2019 were as follows:

<i>(in thousands)</i>	Unrealized Gains (Losses) on Securities Available-for-Sale	Foreign Currency Translation Adjustments
Balance at December 31, 2019	\$ —	\$ 9
Foreign currency translation adjustments, net of tax of \$9	—	(26)

Amounts reclassified from accumulated other comprehensive income (loss), net of tax of \$(254)	726	—
Net current-period other comprehensive income (loss)	726	(2)
Balance at June 30, 2019	\$ —	\$ (7)

9. Stock-Based Compensation

Pursuant to the Company's Omnibus Incentive and Equity Plan (the "Plan"), officers, employees and directors may be granted equity-based awards, including restricted stock units ("RSUs"), performance stock units ("PSUs"), stock options and unrestricted shares of common stock. At June 30, 2020, 337,091 shares of common stock remained available for issuance of the 2,820,000 shares that are authorized for issuance under the Plan.

Stock based compensation expense is summarized as follows:

<i>(in thousands)</i>	Three Months Ended June 30,		Six Months Ended June 30,	
	2020	2019	2020	2019
Stock-based compensation expense	\$ 6,492	\$ 5,755	\$ 10,113	\$ 11,384

Restricted Stock Units

Each RSU entitles the holder to one share of common stock when the restriction expires. RSUs may be time-vested or performance-contingent (PSUs) and generally vest in one to three years. Shares that are issued upon vesting are newly issued shares from the Plan and are not issued from treasury stock.

RSU activity for the six months ended June 30, 2020 is summarized as follows:

	Number of Shares	Weighted Average Grant Date Fair Value
Outstanding at December 31, 2019	528,376	\$ 115.74
Granted	210,264	\$ 86.36
Forfeited	(3,263)	\$ 121.03
Settled	(178,859)	\$ 110.77
Outstanding at June 30, 2020	556,518	\$ 106.21

For the six months ended June 30, 2020 and 2019, a total of 62,899 and 57,411 RSUs, respectively, were withheld by the Company as a result of net share settlements to settle minimum employee tax withholding obligations. The Company paid \$5.5 million and \$5.8 million for the six months ended June 30, 2020 and 2019, respectively, in minimum employee tax withholding obligations related to RSUs withheld for net share settlements. These net share settlements had the effect of share repurchases by the Company as they reduced the number of shares that would have been otherwise issued as a result of the vesting.

During the six months ended June 30, 2020, the Company granted 68,371 PSUs, included in the table above, that contain performance-based metrics in addition to a service condition. Compensation expense for PSUs is generally recognized over a three-year service period based upon the value determined using a combination of (i) the intrinsic value method, for awards that contain a performance metric that represents a "performance condition" in accordance with ASC 718 and (ii) the Monte Carlo simulation valuation model for awards that contain a "market condition" performance metric under ASC 718. Compensation expense for PSU awards that contain a market condition is fixed at the date of grant and will not be adjusted in

future periods based upon the achievement of the market condition. Compensation expense for PSU awards with a performance condition is recorded each period based upon a probability assessment of the expected outcome of the performance metric with a final adjustment upon measurement at the end of the performance period.

As of June 30, 2020, unamortized stock-based compensation expense for unvested RSUs and PSUs was \$30.0 million, with a weighted-average remaining amortization period of 1.6 years.

10. Earnings (Loss) Per Share

Basic earnings (loss) per share ("EPS") is computed by dividing net income (loss) attributable to common stockholders by the weighted-average number of common shares outstanding for the period, excluding dilution for potential common stock issuances. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock, including: (i) shares issuable upon the vesting of RSUs and stock option exercises using the treasury stock method and (ii) shares issuable upon the conversion of the MCPS, as determined under the if-converted method. For purposes of calculating diluted EPS, preferred stock dividends have been subtracted from net income (loss) in periods in which utilizing the if-converted method would be anti-dilutive.

The computation of basic and diluted EPS is as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2020	2019	2020	2019
<i>(in thousands, except per share amounts)</i>				
Net Income (Loss)	\$ 16,209	\$ 27,899	\$ 17,215	\$ 50,367
Noncontrolling interests	(4,930)	(973)	(10,221)	(1,695)
Net Income (Loss) Attributable to Stockholders	11,279	26,926	6,994	48,672
Preferred stock dividends	—	(2,084)	—	(4,168)
Net Income (Loss) Attributable to Common Stockholders	\$ 11,279	\$ 24,842	\$ 6,994	\$ 44,504
Shares:				
Basic: Weighted-average number of shares outstanding	7,720	6,999	7,572	7,010
Plus: Incremental shares from assumed conversion of dilutive instruments	175	1,253	364	1,280
Diluted: Weighted-average number of shares outstanding	7,895	8,252	7,936	8,290
Earnings (Loss) per Share—Basic	\$ 1.46	\$ 3.55	\$ 0.92	\$ 6.35
Earnings (Loss) per Share—Diluted	\$ 1.43	\$ 3.26	\$ 0.88	\$ 5.87

The following table details the securities that have been excluded from the above computation of weighted-average number of shares for diluted EPS, because the effect would be anti-dilutive:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2020	2019	2020	2019
<i>(in thousands)</i>				
Restricted stock units and options	35	27	1	24
Total anti-dilutive securities	35	27	1	24

11. Income Taxes

In calculating the provision for income taxes, the Company uses an estimate of the annual effective tax rate based upon the facts and circumstances at each interim period. On a quarterly basis, the estimated annual effective tax rate is adjusted, as appropriate, based upon changes in facts and circumstances, if any, as compared to those forecasted at the beginning of the fiscal year and at each interim period thereafter.

The provision for income taxes reflected U.S. federal, state and local taxes at an estimated effective tax rate of 50.9% and 20.5% for the six months ended June 30, 2020 and 2019, respectively. The comparatively higher estimated effective tax rate for the six months ended June 30, 2020 was primarily due to unrealized losses on certain Company investments for which a valuation allowance was recorded.

12. Debt

Credit Agreement

The Company's credit agreement, as amended (the "Credit Agreement"), is comprised of (i) \$365.0 million of seven-year term debt (the "Term Loan") expiring in June 2024 and (ii) a \$100.0 million five-year revolving credit facility (the "Credit Facility") expiring in June 2022. During the six months ended June 30, 2020, the Company reduced its Term Loan by \$45.0 million, including the retirement of \$10.0 million of principal for \$8.9 million from certain debt holders in accordance with the prepayment provisions in the Credit Agreement. At June 30, 2020, \$240.7 million was outstanding under the Term Loan, and the Company had no outstanding borrowings under its Credit Facility. In accordance with ASC 835, *Interest*, the amounts outstanding under the Company's Term Loan are presented on the Condensed Consolidated Balance Sheet net of related debt issuance costs, which were \$5.9 million as of June 30, 2020.

13. Commitments and Contingencies

Legal Matters

The Company is involved from time to time in litigation and arbitration, as well as examinations, inquiries and investigations by various regulatory bodies, including the SEC, involving its compliance with, among other things, securities laws, client investment guidelines, laws governing the activities of broker-dealers and other laws and regulations affecting its products and other activities. Legal and regulatory matters of this nature involve or may involve but are not limited to the Company's activities as an employer, issuer of securities, investor, investment adviser, broker-dealer or taxpayer. In addition, in the normal course of business, the Company discusses matters with its regulators raised during regulatory examinations or is otherwise subject to their inquiry. These matters could result in censures, fines, penalties or other sanctions.

The Company accrues for a liability when it is both probable that a liability has been incurred and the amount of the liability can be reasonably estimated. Significant judgment is required in both the determination of probability and the determination as to whether a loss is reasonably estimable. In addition, in the event the Company determines that a loss is not probable, but is reasonably possible, and it becomes possible to develop what the Company believes to be a reasonable range of possible loss, then the Company will include disclosures related to such matter as appropriate and in compliance with ASC 450, *Contingencies*. The disclosures, accruals or estimates, if any, resulting from the foregoing analysis are reviewed at least quarterly and adjusted to reflect the impact of negotiations, settlements, rulings, advice of legal counsel and other information and events pertaining to a particular matter. Based on information currently available, available insurance coverage, indemnities and established reserves, the Company believes that the outcomes of its legal and regulatory proceedings are not likely, either individually or in the aggregate, to have a material adverse effect on the Company's results of operations, cash flows or its consolidated financial condition. However, in the event of unexpected subsequent developments and given the inherent unpredictability of these legal and regulatory matters, the Company can provide no assurance that its assessment of any claim, dispute, regulatory examination or investigation or other legal matter will reflect the ultimate outcome, and an adverse outcome in certain matters could, from time to time, have a material adverse effect on the Company's results of operations or cash flows in particular quarterly or annual periods.

14. Redeemable Noncontrolling Interests

Redeemable noncontrolling interests represent third-party investments in the Company's CIP and minority interests held in a consolidated affiliate. Minority interests held in an affiliate are subject to holder put rights and Company call rights at established multiples of earnings before interest, taxes, depreciation and amortization and, as such, are considered redeemable at other than fair value. The rights are exercisable at pre-established intervals (between four and seven years from their issuance) or upon certain conditions such as retirement. The put and call rights are not legally detachable or separately exercisable and are deemed to be embedded in the related noncontrolling interests. The Company, in purchasing affiliate equity, has the option to settle in cash or shares of the Company's common stock and is entitled to the cash flow associated with any purchased equity. Minority interests in an affiliate are recorded at estimated redemption value within redeemable noncontrolling interests on the Company's Condensed Consolidated Balance Sheets, and changes in estimated redemption value of these interests are recorded in the Company's Condensed Consolidated Statements of Operations within noncontrolling interests.

Redeemable noncontrolling interests for the six months ended June 30, 2020 included the following amounts:

<i>(in thousands)</i>	CIP	Affiliate Noncontrolling Interests	Total
Balances at December 31, 2019	\$ 5,429	\$ 58,416	\$ 63,845
Net income (loss) attributable to noncontrolling interests	(780)	1,885	1,105
Changes in redemption value (1)	—	10,239	10,239
Total net income (loss) attributable to noncontrolling interests	(780)	12,124	11,344
Net subscriptions (redemptions) and other	19,696	(4,198)	15,498
Balances at June 30, 2020	<u>\$ 24,345</u>	<u>\$ 66,342</u>	<u>\$ 90,687</u>

(1) Relates to noncontrolling interests redeemable at other than fair value.

15. Consolidation

The condensed consolidated financial statements include the accounts of the Company, its subsidiaries and investment products that are consolidated. Voting interest entities ("VOEs") are consolidated when the Company is considered to have a controlling financial interest, which is typically present when the Company owns a majority of the voting interest in an entity or otherwise has the power to govern the financial and operating policies of the entity.

The Company evaluates any variable interest entities ("VIEs") in which the Company has a variable interest for consolidation. A VIE is an entity in which either (i) the equity investment at risk is not sufficient to permit the entity to finance its own activities without additional financial support or (ii) where as a group, the holders of the equity investment at risk do not possess (x) the power through voting or similar rights to direct the activities that most significantly impact the entity's economic performance; (y) the obligation to absorb expected losses or the right to receive expected residual returns of the entity; or (z) proportionate voting and economic interests and where substantially all of the entity's activities either involve or are conducted on behalf of an investor with disproportionately fewer voting rights. If an entity has any of these characteristics, it is considered a VIE and is required to be consolidated by its primary beneficiary. The primary beneficiary is the entity that has both the power to direct the activities that most significantly impact the VIE's economic performance and has the obligation to absorb losses of, or the right to receive benefits from, the VIE that could potentially be significant to the VIE.

In the normal course of its business, the Company sponsors various investment products, some of which are consolidated by the Company. CIP includes both VOEs, made up primarily of open-end funds in which the Company holds a controlling financial interest, and VIEs, which primarily consist of CLOs of which the Company is considered the primary beneficiary. The consolidation and deconsolidation of these investment products have no impact on net income (loss) attributable to stockholders. The Company's risk with respect to these investment products is limited to its beneficial interests in these products. The Company has no right to the benefits from, and does not bear the risks associated with, these investment products beyond the Company's investments in, and fees generated from, these products.

The following table presents the balances of CIP that, after intercompany eliminations, were reflected in the Condensed Consolidated Balance Sheets as of June 30, 2020 and December 31, 2019:

Consolidated CLOs

The majority of the Company's CIP that are VIEs are CLOs. At June 30, 2020, the Company consolidated six CLOs. The financial information of certain CLOs is included in the Company's condensed consolidated financial statements on a one-month lag based upon the availability of the fund financial information. A majority-owned consolidated private fund, whose primary purpose is to invest in CLOs for which the Company serves as the collateral manager, is also included.

Investments of CLOs

The CLOs held investments of \$2.2 billion at June 30, 2020 consisting of bank loan investments, which comprise the majority of the CLOs' portfolio asset collateral and are senior secured corporate loans across a variety of industries. These bank loan investments mature at various dates between 2020 and 2028 and pay interest at LIBOR plus a spread of up to 8.50%. The CLOs may elect to reinvest any prepayments received on bank loan investments up until the periods between October 2019 and March 2025, depending on the CLO. Generally, subsequent prepayments received after the reinvestment period must be used to pay down the note obligations. At June 30, 2020, the fair value of the senior bank loans was less than the unpaid principal balance by \$219.3 million. At June 30, 2020, there were no material collateral assets in default.

Notes Payable of CLOs

The CLOs held notes payable with a total value, at par, of \$2.5 billion at March 31, 2020, consisting of senior secured floating rate notes payable with a par value of \$2.3 billion and subordinated notes with a par value of \$225.9 million. These note obligations bear interest at variable rates based on LIBOR plus a pre-defined spread ranging from 0.8% to 8.7%. The principal amounts outstanding of these note obligations mature on dates ranging from October 2027 to January 2033.

The Company's beneficial interests and maximum exposure to loss related to these consolidated CLOs is limited to (i) ownership in the subordinated notes and (ii) accrued management fees. The secured notes of the consolidated CLOs have contractual recourse only to the related assets of the CLO and are classified as financial liabilities. Although these beneficial interests are eliminated upon consolidation, the application of the measurement alternative prescribed by ASU 2014-13, *Consolidation (Topic 810)* ("ASU 2014-13") results in the net assets of the consolidated CLOs shown above to be equivalent to the beneficial interests retained by the Company at June 30, 2020, as shown in the table below:

<i>(in thousands)</i>		
Subordinated notes	\$	57,524
Accrued investment management fees		1,663
Total beneficial interests	\$	59,187

The following table represents income and expenses of the consolidated CLOs included in the Company's Condensed Consolidated Statements of Operations for the period indicated:

<i>(in thousands)</i>		Six Months Ended June 30, 2020
Income:		
Realized and unrealized gain (loss), net	\$	(11,516)

Interest expense		52,636
Total expense		61,312
Noncontrolling interests		1,123
Net Income (loss) attributable to CIP	\$	(14,763)

As summarized in the table below, the application of the measurement alternative as prescribed by ASU 2014-13 results in the consolidated net income summarized above to be equivalent to the Company's own economic interests in the consolidated CLOs, which are eliminated upon consolidation:

<i>(in thousands)</i>	Six Months Ended June 30, 2020
Distributions received and unrealized gains (losses) on the subordinated notes held by the Company	\$ (19,376)

The following is a discussion of the valuation methodologies used for the assets and liabilities of the Company's CIP measured at fair value:

Cash equivalents represent investments in money market funds. Cash investments in money market funds are valued using published net asset values and are classified as Level 1.

Debt and equity investments represent the underlying debt, equity and other securities held in CIP. Equity investments are valued at the official closing price on the exchange on which the securities are traded and are generally categorized within Level 1. Level 2 investments represent most debt securities, including bank loans and certain equity securities (including non-U.S. securities), for which closing prices are not readily available or are deemed to not reflect readily available market prices,

and are valued using an independent pricing service. Debt investments are valued based on quotations received from independent pricing services or from dealers who make markets in such securities. Bank loan investments, which are included as debt investments, are generally priced at the average mid-point of bid and ask quotations obtained from a third-party pricing service. Fair value may also be based upon valuations obtained from independent third-party brokers or dealers utilizing matrix pricing models that consider information regarding securities with similar characteristics. In certain instances, fair value has been determined utilizing discounted cash flow analyses or single broker non-binding quotes. Depending on the nature of the inputs, these assets are classified as Level 1, 2 or 3 within the fair value measurement hierarchy. Level 3 investments include debt and equity securities that are not widely traded, are illiquid or are priced by dealers based on pricing models used by market makers in the security.

Derivative assets and liabilities represent futures contracts, swaps contracts, option contracts and forward contracts held in CIP. Derivative instruments in an asset position are classified as other assets of CIP in the Condensed Consolidated Balance Sheets. Derivative instruments in a liability position are classified as liabilities of CIP within the Condensed Consolidated Balance Sheets. The change in fair value of such derivatives is recorded in realized and unrealized gain (loss) on investments of CIP, net, in the Condensed Consolidated Statements of Operations. Depending on the nature of the inputs, these derivative assets and liabilities are classified as Level 1, 2 or 3 within the fair value measurement hierarchy. In connection with entering into these derivative contracts, these CIP may be required to pledge an amount of cash equal to the appropriate "initial margin" requirements. The cash pledged or on deposit is recorded in the Condensed Consolidated Balance Sheets of the Company as Cash pledged or on deposit of CIP. The fair value of such derivatives at June 30, 2020 was immaterial.

Notes payable represent notes issued by CIP CLOs and are measured using the measurement alternative in ASU 2014-13. Accordingly, the fair value of CLO liabilities was measured as the fair value of CLO assets less the sum of (i) the fair value of the beneficial interests held by the Company, and (ii) the carrying value of any beneficial interests that represent compensation for services. The fair value of the beneficial interests held by the Company is based on third-party pricing information without adjustment.

Short sales are transactions in which a security is sold that is not owned or is owned but there is no intention to deliver, in anticipation that the price of the security will decline. Short sales are recorded in the Condensed Consolidated Balance Sheets within other liabilities of CIP and are classified as Level 1 based on the underlying equity security.

The securities purchase payable at June 30, 2020 and December 31, 2019 approximated fair value due to the short-term nature of the instruments.

The following table is a reconciliation of assets of CIP for Level 3 investments for which significant unobservable inputs were used to determine fair value:

<i>(in thousands)</i>	Six Months Ended June 30,	
	2020	2019
Level 3 Investments of CIP (1)		
Balance at beginning of period	\$ 40,422	\$ 6,848
Realized gains (losses), net	4	(114)
Change in unrealized gains (losses), net	(920)	563
Purchases	56	2,157
Amortization	6	—
Sales	(1,195)	(2,457)
Transfers to Level 2	(38,607)	(21,891)
Transfers from Level 2	12,106	40,032
Balance at end of period	\$ 11,872	\$ 25,138

- (1) The investments that are categorized as Level 3 were valued utilizing third-party pricing information without adjustment. Transfers between Level 2 and Level 3 were due to trading activities at period end.

Nonconsolidated VIEs

The Company serves as the collateral manager for other collateralized loan and collateralized bond obligations (collectively, "CDOs") that are not consolidated. The assets and liabilities of these CDOs reside in bankruptcy remote, special

purpose entities in which the Company has no ownership of, nor holds any notes issued by, the CDOs, and provides neither recourse nor guarantees. The Company has determined that the investment management fees it receives for serving as collateral manager for these CDOs did not represent a variable interest since (i) the fees the Company earns are compensation for services provided and are commensurate with the level of effort required to provide the investment management services, (ii) the Company does not hold other interests in the CDOs that individually, or in the aggregate, would absorb more than an insignificant amount of the CDOs' expected losses or receive more than an insignificant amount of the CDOs' expected residual return, and (iii) the investment management arrangement only includes terms, conditions and amounts that are customarily present in arrangements for similar services negotiated at arm's length.

The Company has interests in certain other entities that are VIEs that the Company does not consolidate as it is not the primary beneficiary of those entities. The Company is not the primary beneficiary as its interest in these entities does not provide the Company with the power to direct the activities that most significantly impact the entities' economic performance.

At June 30, 2020, the carrying value and maximum risk of loss related to the Company's interest in these VIEs was \$14.6 million.

16. Subsequent Events

On July 4, 2020, two wholly-owned subsidiaries of the Company entered into an agreement with Allianz Global Investors U.S. LLC and Allianz Global Investors Distributors LLC (collectively, "AllianzGI") allowing the Company to be the investment adviser, distributor and/or administrator of certain AllianzGI's open-end, closed-end and retail separate account assets. The agreement is subject to the approval of the AllianzGI U.S. Funds Board and fund shareholders and is expected to close near year-end 2020.

Cautionary Statement Regarding Forward Looking Statements

This Quarterly Report on Form 10-Q contains statements that are, or may be considered to be, forward-looking statements within the meaning of The Private Securities Litigation Reform Act of 1995, as amended, Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). All statements that are not historical facts, including statements about our beliefs or expectations, are "forward-looking statements." These statements may be identified by such forward-looking terminology as "expect," "estimate," "intent," "plan," "intend," "believe," "anticipate," "may," "will," "should," "could," "continue," "project," "opportunity," "predict," "would," "potential," "future," "forecast," "guarantee," "assume," "likely," "target" or similar statements or variations of such terms.

Our forward-looking statements are based on a series of expectations, assumptions and projections about the Company and the markets in which we operate, are not guarantees of future results or performance, and involve substantial risks and uncertainty, including assumptions and projections concerning our assets under management, net asset inflows and outflows, operating cash flows, business plans and ability to borrow, for all future periods. All forward-looking statements contained in this Quarterly Report on Form 10-Q are as of the date of this Quarterly Report on Form 10-Q only.

We can give no assurance that such expectations or forward-looking statements will prove to be correct. Actual results may differ materially. We do not undertake or plan to update or revise any such forward-looking statements to reflect actual results, changes in plans, assumptions, estimates or projections, or other circumstances occurring after the date of this Quarterly Report on Form 10-Q, even if such results, changes or circumstances make it clear that any forward-looking information will not be realized. If there are any future public statements or disclosures by us that modify or impact any of the forward-looking statements contained in or accompanying this Quarterly Report on Form 10-Q, such statements or disclosures will be deemed to modify or supersede such statements in this Quarterly Report on Form 10-Q.

Our business and our forward-looking statements involve substantial known and unknown risks and uncertainties, including those discussed under "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our 2019 Annual Report on Form 10-K and our Quarterly Report on Form 10-Q for the quarter ended March 31, 2020, as well as the following risks and uncertainties resulting from: (i) the on-going effects of the COVID-19 pandemic and associated global economic disruption; (ii) any reduction in our assets under management; (iii) withdrawal, renegotiation or termination of investment advisory agreements; (iv) damage to our reputation; (v) failure to comply with investment guidelines or other contractual requirements; (vi) inability to satisfy financial covenants and payments related to our indebtedness; (vii) inability to attract and retain key personnel; (viii) challenges from the competition we face in our business; (ix) adverse regulatory and legal developments; (x) unfavorable changes in tax laws or limitations; (xi) adverse developments related to unaffiliated subadvisers; (xii) negative implications of changes in key distribution relationships; (xiii) interruptions in or failure to provide critical technological service by us or third parties; (xiv) volatility associated with our common stock; (xv) adverse civil litigation and government investigations or proceedings; (xvi) risk of loss on our investments; (xvii) inability to make quarterly common stock dividends; (xviii) lack of sufficient capital on satisfactory terms; (xix) losses or costs not covered by insurance; (xx) impairment of goodwill or intangible assets; (xxi) inability to achieve expected acquisition-related benefits; and other risks and uncertainties. Any occurrence of, or any material adverse change in, one or more risk factors or risks and uncertainties referred to above, in our 2019 Annual Report on Form 10-K, our Quarterly Report on Form 10-Q for the quarter ended March 31, 2020 and our other periodic reports filed with the Securities and Exchange Commission (the "SEC") could materially and adversely affect our operations, financial results, cash flows, prospects and liquidity.

Certain other factors that may impact our continuing operations, prospects, financial results and liquidity, or that may cause actual results to differ from such forward-looking statements, are discussed or included in the Company's periodic reports filed with the SEC and are available on our website at www.virtus.com under "Investor Relations." You are urged to carefully consider all such factors.

Overview

Our Business

We provide investment management and related services to individuals and institutions. We use a multi-manager, multi-style approach, offering investment strategies from affiliated managers, each having its own distinct investment style, autonomous investment process and individual brand. By offering a broad array of products, we believe we can appeal to a greater number of investors and have offerings across market cycles and through changes in investor preferences. Our earnings

are primarily driven by asset-based fees charged for services relating to these various products, including investment management, fund administration, distribution and shareholder services.

We offer investment strategies for individual and institutional investors in different product structures and through multiple distribution channels. Our investment strategies are available in a diverse range of styles and disciplines, managed by a collection of differentiated investment managers. We have offerings in various asset classes (equity, fixed income and alternative), geographies (domestic, international and emerging), market capitalizations (large, mid and small), styles (growth, core and value) and investment approaches (fundamental, quantitative and thematic). Our retail products include open-end funds and exchange traded funds ("ETFs") as well as closed-end funds and retail separate accounts. Our institutional products are offered through separate accounts and pooled or commingled structures to a variety of institutional clients. We also provide subadvisory services to other investment advisers and serve as the collateral manager for structured products.

We distribute our open-end funds and ETFs principally through financial intermediaries. We have broad distribution access in the retail market, with distribution partners that include national and regional broker-dealers, independent broker-dealers and registered investment advisers, banks and insurance companies. In many of these firms, we have a number of products that are on preferred "recommended" lists and on fee-based advisory programs. Our sales efforts are supported by regional sales professionals, a national account relationship group, and separate teams for ETFs and the retirement and insurance channels. We leverage third-party distributors for off-shore products and in certain international jurisdictions. Our retail separate accounts are distributed through financial intermediaries and directly to private clients by teams at an affiliated manager.

Our institutional services are marketed through relationships with consultants as well as directly to clients. We target key market segments, including foundations and endowments, corporate, public and private pension plans, and subadvisory relationships.

Recent Market Developments

During the first half of 2020, the novel coronavirus global pandemic ("COVID-19") significantly impacted the global economy and financial markets, creating uncertainty, market volatility and dislocation. Financial markets experienced significant declines during the first quarter of 2020 and in the second quarter, certain markets, including domestic equity securities, experienced recoveries erasing much of the first quarter decline. In an effort to contain COVID-19 in the U.S., or slow its spread, the federal government and nearly every state enacted varying degrees of social containment measures, restricting business and related activities, closing borders, and restricting travel. Governments around the world have responded to COVID-19 with economic stimulus measures. These measures are intended to support businesses, employees and consumers until economic activities recover. Although financial markets, particularly domestic equity securities, have largely recovered in the second quarter, the economy has been slower to recover. The timing and magnitude of the economic recovery, as well as the sustainability of the financial markets second quarter recovery, is uncertain.

Impact of COVID-19 to our Business

As a result of the challenging and volatile capital, equity and credit markets our assets under management experienced significant market volatility during the first six months of 2020 with market depreciation of \$16.6 billion and market appreciation of \$15.2 billion during the first and second quarters of 2020, respectively. In addition, the fair market value of our seed capital and other investments experienced similar volatility. To the extent that financial markets continue to be impacted, we may experience further volatility in our assets under management and the fair market value of our seed capital and other investments.

Financial Highlights

- Net income per diluted share was \$1.43 in the second quarter of 2020, as compared to net income per diluted share of \$3.26 in the second quarter of 2019.
- Total sales were \$9.1 billion in the second quarter of 2020, an increase of \$4.0 billion, or 77.5%, from \$5.1 billion in the second quarter of 2019. Net flows were \$2.5 billion in the second quarter of 2020 compared to \$0.1 billion in the second quarter of 2019.
- Assets under management were \$108.5 billion at June 30, 2020, an increase of \$3.5 billion, or 3.3%, from June 30, 2019.

Assets Under Management

At June 30, 2020, total assets under management were \$108.5 billion, representing an increase of \$3.5 billion, or 3.3%, from June 30, 2019, and a decrease of \$0.4 billion, or 0.4%, from December 31, 2019. The change in total assets under management from June 30, 2019 included \$4.6 billion of positive market performance and \$0.5 billion of positive flows. The change in total assets under management from December 31, 2019 was due to \$1.3 billion of negative market performance partially offset by \$1.3 billion of positive net flows.

Average long-term assets under management, which represent the majority of our fee-earning asset levels, were \$100.8 billion for the six months ended June 30, 2020, an increase of \$3.2 billion, or 3.3%, from \$97.6 billion for the six months ended June 30, 2019. The increase in average long-term assets under management compared to the prior year period was primarily due to market performance and positive net flows.

Operating Results

In the second quarter of 2020, total revenues decreased 5.4% to \$132.9 million from \$140.5 million in the second quarter of 2019, primarily as a result of lower average assets under management in our open-end funds. Operating income decreased \$3.5 million to \$26.6 million in the second quarter of 2020 compared to \$30.1 million in the second quarter of 2019, primarily due to decreased revenue partially offset by lower operating expenses.

(1) Represents assets under management of U.S. retail funds, offshore funds and variable insurance funds.

(2) Averages are calculated as follows:

- Funds - average daily or weekly balances
- Retail Separate Accounts - prior-quarter ending balances
- Institutional Accounts and Structured Products - average of month-end balances

(3) Represents assets under management in liquidity strategies, including in certain open-end funds and institutional accounts.

Average fees earned represent investment management fees before the impact of consolidation of investment products ("CIP") divided by average net assets. Fund fees are calculated based on average daily or weekly net assets. Retail separate account fees are calculated based on the end of the preceding or current quarter's asset values or on an average of month-end balances. Institutional account fees are calculated based on an average of month-end balances or current quarter's asset values. Structured product fees are calculated based on a combination of the underlying cash flows and the principal value of the product. Average fees earned will vary based on several factors, including the asset mix and expense reimbursements to funds.

The average fee rate earned on long-term products for the three and six months ended June 30, 2020 increased by 0.5 and 0.7 basis points, respectively, compared to the same periods in the prior year. The primary reason for the increase during the three and six months ended June 30, 2020 was due to changes in the underlying asset mix to higher fee earning strategies in open-end funds and retail separate accounts during the current year.

Investment Management Fees

Investment management fees are earned based on a percentage of assets under management and are paid pursuant to the terms of the respective investment management contracts, which generally require monthly or quarterly payments. Investment management fees decreased by \$4.0 million, or 3.5%, and increased \$10.3 million, or 4.7%, for the three and six months ended June 30, 2020, respectively, compared to the same periods in the prior year. The decrease in investment management fees during the three-month period was due to a decrease in average assets under management of \$4.1 billion, or 4.0%, partially offset by an increase in the total average fee rate of 0.6 basis points. The increase in investment management fees during the six-month period was due to an increase in average assets under management of \$2.7 billion and an increase in

the total average fee rate of 0.9 basis points.

Distribution and Service Fees

Distribution and service fees are sales- and asset-based fees earned from open-end funds for marketing and distribution services. Distribution and service fees decreased by \$1.7 million, or 16.3%, and \$2.3 million, or 11.3%, for the three and six months ended June 30, 2020, respectively, compared to the same period in the prior year, primarily due to lower sales and average assets for open-end funds in share classes that have distribution and service fees.

Administration and Shareholder Service Fees

Administration and shareholder service fees represent fees earned for fund administration and shareholder services from our open-end mutual funds and certain of our closed-end funds. Fund administration and shareholder service fees decreased by \$1.8 million, or 11.7%, and \$1.5 million, or 5.2%, for the three and six months ended June 30, 2020, respectively, compared to the same periods in the prior year primarily due to the decrease in average assets under management for open-end funds.

Other Income and Fees

Other income and fees primarily represent contingent sales charges earned from investor redemptions of certain shares sold without a front-end sales charge. Other income and fees remained generally consistent for the three and six months ended June 30, 2020, compared to the same periods in the prior year.

Employment Expenses

Employment expenses consist of fixed and variable compensation and related employee benefit costs. Employment expenses for the three and six months ended June 30, 2020 were \$60.2 million and \$126.3 million, respectively, which represented an increase of \$2.0 million, or 3.5%, and \$7.3 million, or 6.2%, compared to the same periods in the prior year. The increase for the three months ended June 30, 2020 was primarily due to increased sales-based compensation partially offset by lower profit-based compensation. The increase for the six months ended June 30, 2020 was primarily due to increased profit- and sales-based compensation partially offset by lower stock-based compensation.

Distribution and Other Asset-Based Expenses

Distribution and other asset-based expenses consist primarily of payments to third-party client intermediaries for providing services to investors in sponsored investment products. These payments are primarily based on percentages of sales, assets under management or revenues. These expenses also include the amortization of deferred sales commissions related to up-front commissions on shares sold without a front-end sales charge to shareholders. The deferred sales commissions are amortized on a straight-line basis over the periods in which commissions are generally recovered from distribution fee revenues.

and contingent sales charges received from shareholders of the funds upon redemption of their shares. Distribution and other asset-based expenses decreased by \$4.0 million, or 18.7%, and \$4.3 million, or 10.5%, for the three and six months ended June 30, 2020, respectively, as compared to the same periods in the prior year, primarily due to a lower percentage of sales and assets under management in share classes that have distribution and other asset-based expenses.

Other Operating Expenses

Other operating expenses primarily consist of investment research and technology costs, professional fees, travel and distribution related costs, rent and occupancy expenses, and other business costs. Other operating expenses for the three and six months ended June 30, 2020 decreased by \$1.7 million, or 9.1%, and \$1.6 million, or 4.2%, respectively, as compared to the same periods in the prior year, due to decreased travel expenses primarily as a result of the impact of COVID-19 on the current operating environment.

Other Operating Expenses of CIP

Other operating expenses of CIP decreased \$0.4 million, or 15.1% to \$2.2 million for the three months ended June 30, 2020 and increased \$5.9 million, or 195.7%, to \$8.9 million, for the six months ended June 30, 2020, compared to the same periods in the prior year. The decrease during the three-month period was primarily due to costs associated with the issuance of a CLO in the prior-year period. The increase in the six-month period was primarily due to costs associated with the issuance of an additional CLO as well as the refinancing of debt for two CLOs in the current year period.

Restructuring and Severance

During the three and six months ended June 30, 2020, we incurred \$0.4 million in restructuring and severance costs. During the three and six months ended June 30, 2019, we incurred \$0.3 million and \$1.5 million, respectively in restructuring and severance costs. The costs primarily related to severance costs in all periods.

Depreciation Expense

Depreciation expense consists primarily of the straight-line depreciation of furniture, equipment and leasehold improvements. Depreciation expense remained generally consistent for the three and six months ended June 30, 2020, compared to the same periods in the prior year.

Amortization Expense

Amortization expense consists of the amortization of definite-lived intangible assets over their estimated useful lives. Amortization expense remained generally consistent for the three and six months ended June 30, 2020 compared to the same periods in the prior year.

The realized and unrealized gains and losses during the three and six months ended June 30, 2020 reflected changes in overall market conditions experienced during the periods.

Realized and unrealized gain (loss) of CIP, net

Realized and unrealized gain (loss) of CIP, net changed \$(16.5) million, or (169.4)%, and \$(23.2) million, or (297.6)%, respectively, during the three and six months ended June 30, 2020, compared to the same periods in the prior year. The change consisted primarily of an increase in net realized and unrealized losses of \$81.7 million and \$171.9 million for the three- and six-month periods ended June 30, 2020, respectively, primarily due to changes in market values of leveraged loans, partially offset by an increase of \$65.2 million and \$148.7 million in the three- and six-month periods, respectively, in unrealized gains on notes payable.

Other income (expense), net

Other income (expense), net decreased \$1.5 million, or (215.7)%, and \$1.3 million, or (116.8)%, respectively, for the three and six months ended June 30, 2020 compared to the same periods in the prior year due to losses from equity method investments during the current year periods.

Interest Expense

Interest expense decreased \$2.0 million, or 39.3%, and \$4.0 million, or 38.7%, respectively, for the three and six months ended June 30, 2020 compared to the same periods in the prior year. The decreases were due to a decrease in the average levels of debt outstanding, including a gain on the early extinguishment of debt in the current six-month period, and a lower average interest rate compared to the same periods in the prior year.

Interest and Dividend Income

Interest and dividend income is earned on cash equivalents and our marketable securities. Interest and dividend income decreased \$0.7 million, or 74.9%, and \$1.2 million, or 53.9%, respectively, for the three and six months ended June 30, 2020, compared to the same periods in the prior year. The decreases were primarily due to lower interest rates earned on cash and lower investment balances as compared to the corresponding periods in the prior year.

Interest and Dividend Income of Investments of CIP

Interest and dividend income of investments of CIP decreased \$0.7 million, or 2.5%, and increased \$1.1 million, or 1.9%, respectively, for the three and six months ended June 30, 2020, compared to the same periods in the prior year. The decrease during the three-month period was primarily due to a decrease in interest rates partially offset by increased investments of CIP. The increase during the six-months ended June 30, 2020 compared to the same period in the prior year was due to increased investments of CIP during the current year period.

Interest Expense of CIP

Interest expense of CIP represents interest expense on the notes payable of CIP. Interest expense of CIP decreased by \$2.9 million, or 9.4%, and increased by \$1.9 million, or 3.7%, respectively, for the three and six months ended June 30, 2020, compared to the same periods in the prior year. The decrease during the three months ended June 30, 2020 was primarily due to \$4.5 million of amortization of discounts on notes payable in the prior year partially offset by higher average debt balances of CIP during the current year period. The increase during the six-month period was primarily due to higher average debt balances of CIP during the current year period.

Income Tax Expense (Benefit)

The provision for income taxes reflected U.S. federal, state and local taxes at an estimated effective tax rate of 50.9% and 20.5% for the six months ended June 30, 2020 and 2019, respectively. The increase in the estimated effective tax rate for the six months ended June 30, 2020 was primarily due to unrealized losses on various Company investments for which a valuation allowance was recorded.

On March 27, 2020, the United States enacted the Coronavirus Aid, Relief, and Economic Security Act, referred to herein as the CARES Act, which contains several income tax provisions. Some of these tax provisions are expected to be effective retroactively for years ending before the date of enactment. The Company has evaluated the current legislation and, at this time, does not anticipate the CARES Act to have a material impact on its condensed consolidated financial statements.

Overview

At June 30, 2020, we had \$168.3 million of cash and cash equivalents and \$61.3 million of investments, which included \$40.0 million of investment securities, compared to \$221.8 million of cash and cash equivalents and \$83.2 million of investments, which included \$61.0 million of investment securities, at December 31, 2019.

At June 30, 2020, we had \$240.7 million of principal outstanding under our term loan maturing June 1, 2024 and no outstanding borrowings under our \$100.0 million revolving credit facility. The Company's liquidity and capital resources were not materially impacted by the economic conditions during the first six months of 2020 as a result of the COVID-19 pandemic.

Uses of Capital

Our main uses of capital related to operating activities include payments of annual incentive compensation, interest on our indebtedness, income taxes and other operating expenses, which primarily consist of investment research, technology costs, professional fees and distribution and occupancy costs. Annual incentive compensation, which is one of the largest annual operating cash expenditures, is typically paid in the first quarter of the year. In the first quarter of 2020 and 2019, we paid \$84.7 million and \$76.2 million, respectively, in incentive compensation earned during the years ended December 31, 2019 and 2018, respectively.

In addition to operating activities, other uses of cash could include: (i) investments in organic growth, including expanding our distribution efforts; (ii) seeding or launching new products, including seeding funds or sponsoring CLO issuances; (iii) principal payments on debt outstanding through scheduled amortization, excess cash flow payment requirements or additional paydowns; (iv) dividend payments to common stockholders; (v) repurchases of our common stock; (vi) investments in our infrastructure; (vii) investments in inorganic growth opportunities as they arise where the purchase price can take the form of upfront payments and/or contingent consideration; (viii) integration costs, including restructuring and severance, related to potential acquisitions, if any; and (ix) purchases of affiliate noncontrolling interests.

Capital and Reserve Requirements

We operate a broker-dealer subsidiary registered with the SEC that is subject to certain rules regarding minimum net capital. The broker-dealer is required to maintain a ratio of "aggregate indebtedness" to "net capital," as defined, which may not exceed 15 to 1 and must also maintain a minimum amount of net capital. Failure to meet these requirements could result in adverse consequences to us, including additional reporting requirements, a lower required ratio of aggregate indebtedness to net capital or interruption of our business. At June 30, 2020, the ratio of aggregate indebtedness to net capital of our broker-dealer was below the maximum allowed, and net capital was significantly greater than the required minimum.

Balance Sheet

Cash and cash equivalents consist of cash in banks and money market fund investments. Investments consist primarily of investments in our sponsored funds. CIP represent investment products for which we provide investment management services and where we have either a controlling financial interest or we are considered the primary beneficiary of an investment product that is considered a variable interest entity.

Operating Cash Flow

Net cash used in operating activities of \$449.7 million for the six months ended June 30, 2020 increased by \$306.0 million from net cash used in operating activities of \$143.7 million for the same period in the prior year primarily due to increased net purchases of investments by CIP of \$294.0 million in the current year period compared to the prior year period.

Investing Cash Flow

Cash flows from investing activities consist primarily of capital expenditures and other investing activities related to our business operations. Net cash provided by investing activities was \$9.2 million for the six months ended June 30, 2020 compared to net cash used in investing activities of \$5.6 million in the same period for the prior year. The primary investing activities for the six months ended June 30, 2020 were related increases in cash of CIP due to the consolidation of additional investment products. The primary investing activities for the six months ended June 30, 2019 were capital expenditures and other asset purchases of \$6.1 million partially offset by the sale of investments in unconsolidated CLOs of \$2.0 million.

Financing Cash Flow

Cash flows from financing activities consist primarily of the issuance of common stock, return of capital through repurchases of common shares, dividends, withholding obligations for the net share settlement of employee share transactions, issuance of and repayment of debt by us, our CIP and contributions to noncontrolling interests related to CIP. Net cash provided by financing activities increased by \$224.6 million to \$370.6 million for the six months ended June 30, 2020 as compared to net cash provided by financing activities of \$145.9 million for the six months ended June 30, 2019. Net cash provided by financing activities increased during the period primarily due to an increase of \$249.9 million in net borrowings of CIP during the six months ended June 30, 2020 compared to the prior year period, partially offset by an increase of \$19.2 million on the repayment of debt during the six months ended June 30, 2020 compared to the prior year period.

Credit Agreement

The Company's credit agreement, as amended (the "Credit Agreement"), is comprised of (i) \$365.0 million of seven-year term debt (the "Term Loan") expiring in June 2024 and (ii) a \$100.0 million five-year revolving credit facility (the "Credit Facility") expiring in June 2022. At June 30, 2020, \$240.7 million was outstanding under the Term Loan, and there were no outstanding borrowings under the Credit Facility. In accordance with Accounting Standards Codification 835, *Interest*, the amounts outstanding under the Term Loan are presented in the Condensed Consolidated Balance Sheet net of related debt issuance costs, which were \$5.9 million as of June 30, 2020.

Contractual Obligations

Our contractual obligations are summarized in our 2019 Annual Report on Form 10-K. As of June 30, 2020, there have been no material changes outside of the ordinary course of business in our contractual obligations since December 31, 2019.

Critical Accounting Policies and Estimates

Our financial statements and the accompanying notes are prepared in accordance with accounting principles generally accepted in the United States of America, which require the use of estimates. Actual results will vary from these estimates. A discussion of our critical accounting policies and estimates is included in Management's Discussion and Analysis of Financial Condition and Results of Operations in our 2019 Annual Report on Form 10-K. A complete description of our significant accounting policies is included in our 2019 Annual Report on Form 10-K. There were no material changes in our critical accounting policies in the three months ended June 30, 2020.

Recently Issued Accounting Pronouncements

For a discussion of accounting standards, see Note 2 in our condensed consolidated financial statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company is primarily exposed to market risk associated with unfavorable movements in interest rates and securities prices. Except for the broad effects of COVID-19 on the global economy and major financial markets, during the three and six months ended June 30, 2020, there were no material changes to the information contained in Part II, Item 7A of the Company's 2019 Annual Report on Form 10-K.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures designed to ensure that information required to be disclosed in reports filed or submitted under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that such information is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. Any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

Our management, with the participation of our Chief Executive Officer and our Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act) as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on their evaluation, our Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective at the reasonable assurance level as of June 30, 2020, the end of the period covered by this Quarterly Report on Form 10-Q.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) or 15d-15(f) under the Exchange Act) that occurred during the period covered by this Quarterly Report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

Legal Matters

The Company is involved from time to time in litigation and arbitration, as well as examinations, inquiries and investigations by various regulatory bodies, including the SEC, involving its compliance with, among other things, securities laws, client investment guidelines, laws governing the activities of broker-dealers and other laws and regulations affecting its products and other activities. Legal and regulatory matters of this nature involve or may involve but are not limited to the Company's activities as an employer, issuer of securities, investor, investment adviser, broker-dealer or taxpayer. In addition, in the normal course of business, the Company discusses matters with its regulators raised during regulatory examinations or is otherwise subject to their inquiry. These matters could result in censures, fines, penalties or other sanctions.

The Company accrues for a liability when it is both probable that a liability has been incurred and the amount of the liability can be reasonably estimated. Significant judgment is required in both the determination of probability and the determination as to whether a loss is reasonably estimable. In addition, in the event the Company determines that a loss is not probable, but is reasonably possible, and it becomes possible to develop what the Company believes to be a reasonable range of possible loss, then the Company will include disclosures related to such matter as appropriate and in compliance with ASC 450, *Contingencies*. The disclosures, accruals or estimates, if any, resulting from the foregoing analysis are reviewed at least quarterly and adjusted to reflect the impact of negotiations, settlements, rulings, advice of legal counsel and other information and events pertaining to a particular matter. Based on information currently available, available insurance coverage, indemnities and established reserves, the Company believes that the outcomes of its legal and regulatory proceedings are not likely, either individually or in the aggregate, to have a material adverse effect on the Company's results of operations, cash flows or its consolidated financial condition. However, in the event of unexpected subsequent developments and given the inherent unpredictability of these legal and regulatory matters, the Company can provide no assurance that its assessment of any claim, dispute, regulatory examination or investigation or other legal matter will reflect the ultimate outcome, and an adverse outcome in certain matters could, from time to time, have a material adverse effect on the Company's results of operations or cash flows in particular quarterly or annual periods.

Item 1A. Risk Factors

There have been no significant changes to the Company's risk factors from those previously reported in our 2019 Annual Report on Form 10-K, other than as noted below.

The ongoing effects of the COVID-19 pandemic and associated global economic disruption and uncertainty have affected, and may further affect, our business, results of operations and financial condition.

As previously indicated in our 2019 Annual Report on Form 10-K, our results of operations are affected by certain economic factors, including the condition of the securities markets. The global financial markets, including the capital, equity and credit markets, have been challenged in reaction to the COVID-19 pandemic and its related economic impact. The broader implications of the COVID-19 pandemic on our results of operations and overall financial performance remain uncertain and, to the extent the financial markets continue to experience challenges, we may experience further declines in our assets under management, which will adversely affect our revenues and earnings, and the fair value of our investments. Although we believe we have sufficient liquidity and capital resources to effectively continue operations for the foreseeable future, continued deterioration of worldwide credit and financial markets may limit our ability to raise capital and financing may not be available to us in sufficient amounts, on acceptable terms, or at all. If we are unable to access sufficient capital on acceptable terms, our business could be adversely impacted.

In an effort to protect the health and safety of our employees, we implemented various measures to reduce the impact of COVID-19 across our organization, while also maintaining business continuity. Consistent with government guidelines and mandates, these initiatives included the adoption of social distancing policies, work-at-home arrangements, and suspending employee travel. Currently, nearly all of our employees are working remotely from home in an effort to reduce the spread of the virus and maintain the health and safety of our employees. While our work from home efforts have been successful to date, operating remotely for an extended period could result in operational challenges, strain our technology resources and/or expose us to an increased number of cybersecurity threats. A decline in the health and safety of our employees, including key employees, or material disruptions to their ability to work remotely, including power or Internet outages or electronic systems failures, could negatively affect our ability to operate our business normally and have a material adverse impact on our results

of operations or financial condition.

Additionally, many of the key service providers and vendors upon which we rely also have transitioned to remote work environments pursuant to business continuity plans. While, to date, the effects of COVID-19 have not had a material negative impact on the services they provide to us, or, we believe, their business operations or service levels, to the extent that the COVID-19 virus continues to spread and affect the employee base or operations of our service providers, disruptions in or the inability to provide services to us could negatively impact our business operations.

Please see additional discussion in Part I, Item 2. “Management Discussion and Analysis of Financial Condition and Results of Operations.”

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

As of June 30, 2020, 4,930,045 shares of our common stock had been authorized to be repurchased under the share repurchase program approved by our Board of Directors, and 816,585 shares remained available for repurchase. Under the terms of the program, we may repurchase shares of our common stock from time to time at our discretion through open market repurchases, privately negotiated transactions and/or other mechanisms, depending on price and prevailing market and business conditions. The program, which has no specified term, may be suspended or terminated at any time.

The following table sets forth information regarding our share repurchases in each month during the quarter ended June 30, 2020:

Period	Total number of shares purchased	Average price paid per share (1)	Total number of shares purchased as part of publicly announced plans or programs (2)	Maximum number of shares that may yet be purchased under the plans or programs (2)
April 1-30, 2020	—	\$ —	—	141,482
May 1-31, 2020	38,705	\$ 89.46	38,705	852,777
June 1-30, 2020	36,192	\$ 111.49	36,192	816,585
Total	74,897		74,897	

(1) Average price paid per share is calculated on a settlement basis and excludes commissions.

(2) The share repurchases above were completed pursuant to a program announced in the fourth quarter of 2010 and most recently expanded in May 2020. This repurchase program is not subject to an expiration date.

There were no unregistered sales of equity securities during the period covered by this Quarterly Report. Shares of our common stock purchased by participants in our Employee Stock Purchase Plan were delivered to participant accounts via open market purchases at fair value by the third-party administrator under the plan. We do not reserve shares for this plan or discount the purchase price of the shares.
