The Zweig Total Return Fund, Inc. Declares Distribution

NEW YORK, Feb. 1, 2013 /PRNewswire/ -- The Zweig Total Return Fund, Inc. (NYSE: ZTR) announced a monthly distribution of $0.084 per share, payable on February 19, 2013, to shareholders of record on February 11, 2013 (ex-date February 7, 2013).

The Fund has a Managed Distribution Plan ("Plan") to pay 7% of the Fund's net asset value on an annualized basis including all available investment income, consistent with its primary investment objectives and as required by the Internal Revenue Code of 1986, as amended. Distributions may represent earnings from net investment income, capital gains, excess gains taxable as ordinary income or, if necessary, return of capital. You should not draw any conclusions about the Fund's investment performance from the amount of this distribution or from the terms of the Fund's Plan.

The Fund estimates that it has distributed more than its income and net realized capital gains in the fiscal year to date; therefore, a portion of the distribution may be a return of capital. A return of capital may occur, for example, when some or all of the money that you invested in the Fund is paid back to you. A return of capital distribution does not necessarily reflect the Fund's investment performance and should not be confused with "yield" or "income."

The amounts and sources of distributions reported in Section 19(a) notices of the 1940 Act are only estimates and are not being provided for tax reporting purposes. The actual amounts and sources of the amounts for tax reporting purposes will depend upon the Fund's investment experience during the remainder of its fiscal year and may be subject to changes based on tax regulations. The Fund will send shareholders a Form 1099-DIV for the calendar year that will tell you how to report these distributions for federal income tax purposes.
