Forward-Looking Statements

This release contains "forward-looking statements" related to future events. Forward-looking statements address our expectations or beliefs concerning future events, including, without limitation, our outlook with respect to future operating and financial performance, expected results from our implementation of strategic and cost savings initiatives, and our ability to comply with the covenants in the agreements governing our indebtedness and other matters. These statements are made on the basis of management's views and assumptions, as of the time the statements are made, regarding future events and performance and contain words such as "expect", "anticipate", "intend", "plan", "believe", "seek", "see", "may", "will", "would", or "target." Forward-looking statements by their nature address matters that are, to different degrees, uncertain. A wide range of factors could materially affect future developments and performance, including but not limited to: our significant indebtedness, our ability to incur substantially more debt in the future, and covenants in the agreements governing our current indebtedness that may reduce our operating and financial flexibility; declines in Adjusted EBITDA relative to historical levels that we are unable to offset; our ability to successfully implement strategic initiatives, including our fiber buildout and other initiatives to enhance revenue and realize productivity and service improvements; our ability to secure necessary construction resources, materials and permits for our fiber buildout initiative in a timely and cost effective manner; potential disruptions in our supply chain and the effects of inflation resulting from the COVID-19 pandemic, the global microchip shortage, or otherwise, which could adversely impact our business and hinder our fiber expansion plans; our ability to effectively manage our operations, operating expenses, capital expenditures, debt service requirement and cash paid for income taxes and liquidity; competition from cable, wireless and wireline carriers, satellite, fiber “overbuilders” and OTT companies, and the risk that we will not respond on a timely or profitable basis; our ability to successfully adjust to changes in the communications industry, including the effects of technological changes and competition on our capital expenditures, products and service offerings; risks related to disruption in our networks, infrastructure and information technology that result in customer loss and/or incurrence of additional expenses; the impact of potential information technology or data security breaches or other cyber-attacks or other disruptions; our ability to retain or attract new customers and to maintain relationships with customers; our reliance on a limited number of key supplies and vendors; declines in revenue from our voice services, switched and nonswitched access and video and data services that we cannot stabilize or offset with increases in revenue from other products and services; our ability to secure, continue to use or renew intellectual property and other licenses used in our business; our ability to hire or retain key personnel; our ability to dispose of certain assets or asset groups or to make acquisition of certain assets on terms that are attractive to us, or at all; the effects of changes in the availability of federal and state universal service funding or other subsidies to us and our competitors and our ability to obtain future subsidies, including participation in the proposed RDOF program; our ability to comply with the applicable CAF II and RDOF requirements and the risk of penalties or obligations to return certain CAF II and RDOF funds; our ability to defend against litigation and potentially unfavorable results from current pending and future litigation; our ability to comply with applicable federal and state consumer protection requirements; the effects of governmental legislation and regulation on our business, including costs, disruptions, possible limitations on operating flexibility and changes to the competitive landscape resulting from such legislation or regulation; the impact of regulatory, investigative and legal proceedings and legal compliance risks; our ability to effectively manage service quality in the states in which we operate and meet mandated service quality metrics; the effects of changes in income tax rates, tax laws, regulations or rulings, or federal or state tax assessments; the effects of changes in accounting policies or practices; our ability to successfully renegotiate union contracts; the effects of increased medical expenses and pension and postemployment expenses, changes in pension plan assumptions, interest rates, discount rates, regulatory rules and/or the value of our pension plan assets; the likelihood that our historical financial information may no longer be indicative of our future performance and our implementation of fresh start accounting; the impact of adverse changes in economic, political and market conditions in the areas that we serve, the U.S. and globally, including, but not limited to: disruption in our supply chain, inflation in pricing for key materials or labor, or other adverse changes resulting from epidemics, pandemics and outbreaks of contagious diseases, including the COVID-19 pandemic, natural disasters, economic or political instability or other adverse public health developments; potential adverse impacts of the COVID-19 pandemic on our business and operations, including potential disruptions to the work of our employees arising from health and safety measures such as social distancing, working remotely and recent applicable federal, state, and local mandates, and prohibitions, our ability to effectively manage increased demand on our network, our ability to maintain relationships with our current or prospective customers and vendors as well as their abilities to perform under current or proposed arrangements with us; risks associated with our emergence from the Chapter 11 Cases, including, but not limited to, the continuing effects of the Chapter 11 Cases on us and our relationships with our suppliers, customers, service providers or employees and changes in the composition of our board of directors and senior management; volatility in the trading price of our common stock, which has a limited trading history; substantial market overhang from the common stock issued in the Chapter 11 reorganization; certain provisions of Delaware law and our certificate of incorporation that may prevent efforts by our stockholders to change the direction or management of our company; and certain other factors set forth in our other filings with the SEC. This list of factors that may affect future performance and the accuracy of forward-looking statements is illustrative and is not intended to be exhaustive. You should consider these important factors, as well as the risks and other factors contained in Frontier’s filings with the U.S. Securities and Exchange Commission, including our most recent reports on Form 10-K and Form 10-Q. These risks and uncertainties may cause actual future results to be materially different than those expressed in such forward-looking statements. We do not intend, nor do we undertake any duty, to update any forward-looking statements.

Non-GAAP Financial Measures

Certain financial measures included herein, including Adjusted EBITDA, Adjusted EBITDA Margin, Adjusted Operating Expenses and Operating Free Cash Flow, are not made in accordance with U.S. GAAP, and use of such terms varies from others in the same industry. Non-GAAP financial measures should not be considered as alternatives to net income (loss), net income margin or any other performance measures derived in accordance with U.S. GAAP as measures of operating performance or cash flows as measures of liquidity. Non-GAAP financial measures have important limitations as analytical tools, and you should not consider them in isolation or as substitutes for results as reported under U.S. GAAP. This presentation includes a reconciliation of certain non-GAAP financial measures to the most directly comparable financial measures calculated in accordance with U.S. GAAP. Projected GAAP financial measures and reconciliations of projected non-GAAP financial measures are not provided herein because such GAAP financial measures are not available on a forward-looking basis and such reconciliations could not be derived without unreasonable effort.

This presentation uses the term "Implied Enterprise Value", "Implied EV" and other similar terms, which is calculated using a trend line implied by our peers and certain assumed levels of broadband penetration. This term does not necessarily represent our actual enterprise value.
JOHN STRATTON
Executive Chairman of the Board

1. All metrics reflect Last Twelve Months' as of 03/31/22, and have been normalized to reflect the impact of fresh start accounting. EBITDA and Adjusted EBITDA are non-GAAP measures. See Appendix slides for reconciliations to the closest GAAP measure. See Frontier’s supplemental trending schedules, available at www.frontier.com/ir, for information regarding certain GAAP and non-GAAP measures, including the impact of fresh start accounting.

2. Including consumer and business broadband subscribers
FTTH: Next opportunity for US infrastructure investment

Explosive 3x growth in data consumption by 2025

Data Usage¹ (GB / Mo)

- 2020A: 537 GB
- 2025E: 1,521 GB
- 23% CAGR

Fiber is the best product to meet the demand

- Faster symmetrical speeds
- Low-cost path to 10+ Gig speeds
- Powerful economics as data consumption scales

Attractive returns supported by:
- Favorable industry structure
- High operating leverage
- Dependable, long-term growth

¹ Combines North America Mobile Network Traffic & Consumer Internet Traffic, Credit Suisse Report 2021
Frontier is the largest pure play fiber provider

**2nd** Largest announced fiber build at 6.0M passings from 2022–2025

**Frontier has unique advantages...**

- Early mover head-start
- Incumbent position provides significant speed and cost advantages to building fiber
- Poised to benefit from government broadband stimulus spending

...and our fiber build plan would create significant value for stakeholders

Transparent path to achieving our goals, with clear catalysts on the horizon

**Seven Key Inflection Points**

- **2023**  
  Year-over-year Revenue and EBITDA Growth

- **4Q22**  
  Sequential EBITDA Growth

- **2Q22 / 3Q22**  
  Further accelerate the fiber build

- **4Q21**  
  Total broadband net adds turn positive

- **3Q21**  
  Fiber EBITDA > copper EBITDA

- **3Q21**  
  Consumer fiber broadband customer base > consumer copper broadband customer base

- **3Q21**  
  Scale fiber broadband net add production

**Wave 2 Steady State**

- **10M+**  
  Fiber passings

- **4.5M+**  
  Fiber customers

- **$4B+**  
  Adjusted EBITDA

**Mid-to-High 40s**  
Adjusted EBITDA margin
We are making rapid progress on our four levers of value creation

1. Fiber Deployment
   Accelerate our fiber build

2. Fiber Penetration
   Win customers in our fiber footprint

3. Customer Experience
   Deliver an exceptional end-to-end customer journey

4. Operational Efficiency
   Simplify and digitize operations
We continued to build on our operating momentum with several key milestones in Q1

- Built a record 211,000 new fiber locations
- Added a record 54k fiber broadband customer net additions, ~20% higher than prior record set in Q4 2021
- Added a record 20k total broadband customer additions, ~2x higher than prior record set in Q4 2021

- Gaining momentum in Business and Wholesale, with key inflection point in SMB performance
- Significant improvement in employee engagement
- Reinvented brand in April 2022
Fiber deployment: Our build scaled to another record quarter of new fiber passings in Q1

1. Consumer and business locations with less than 5 units per location included in expansion passings.
Consumer fiber penetration: We have achieved three straight quarters of record consumer fiber broadband growth

Consumer Fiber Broadband Net Adds
‘000 customers

Consumer Fiber Broadband Customers
‘000 customers

We added a record number of fiber broadband customers, roughly 4X the previous Q1...

...driving fiber broadband customer growth of 11% in the past 12 months
Fiber penetration: Base fiber penetration improved to 42.4%; expansion fiber penetration is exceeding targets

Base Fiber Penetration
% of passings

Expansion Fiber Penetration
% of passings

Base fiber penetration improved 110bps year-over-year to 42.4%

Expansion fiber penetration exceeding targets
Customer experience: Our Fiber NPS continues to rise, and our churn continues to improve

Key Success Indicators

- Fiber NPS up sequentially from December 2021, and continued to increase >30 points year-over-year
- 90-day Fiber churn down 16% since March 2021
- Call center volumes down 20% since March 2021
- Customer care call volumes down 23% since March 2021

Consumer Broadband Churn, %

- Fiber:
  - 1Q21: 1.41%
  - 1Q22: 1.19%
  - Decrease of 22 points
- Copper:
  - 1Q21: 1.62%
  - 1Q22: 1.53%
  - Decrease of 9 points

Fiber and copper churn both continue to fall to record lows
SMB: We reached a turning point in SMB this quarter

Key SMB Improvements

1. Strengthened product with 2G offering and RingCentral partnership
2. Robust demand generation and lead identification tactics
3. 4X channel capacity with best-in-class D2D and outbound vendors
4. Account management team focused on cross/up-sell
5. Analytically-driven retention efforts

We have rapidly introduced “The Frontier Way”...

The Frontier Way

We do what we say we will do
We earn customer loyalty
We create the future
We get it done together

Key Changes in First Year

Communication
• Company-wide “Listen Live” with CEO and Executive team every 2–3 weeks

Training
• Agile and Digital training
• Frontier Leadership Academy

Performance Management
• Creating a pay-for-performance culture; implemented objective setting and performance review process

Employee Engagement
• Frontier 20 program identified $50M+ of cost savings
• Eliminating “Dumb Policies”
• Patent incentive program
...and we made significant progress in rebuilding employee engagement and morale in the first year

Survey of all 15,000+ employees (60%+ participation rate)¹.

<table>
<thead>

**Findings**

| Growing, positive equity in Frontier name (Fiber and expansion markets) |
| Strongest customer sentiment among new Fiber customers |
| High employee affinity and loyalty |
We believe “a brand is what a brand does,” so we have focused on changing what we do

We’ve been focused on changing what we do...

- Product improvement
- Service delivery
- Customer value
- Customer care

...which has translated into improved metrics

- Accelerated penetration
- Improved loyalty
- Record NPS
We are keeping the Frontier name and reinventing the brand.
SCOTT

BEASLEY

Chief Financial Officer
Financial Highlights

- **$1.45B Revenue**, including higher sequential data revenue but lower voice, video, and subsidy revenue
- **$65M Net Income**
- **$509M of Adjusted EBITDA**, modestly higher sequentially across Fiber and Copper (excluding subsidies)
- **$274M of Adjusted EBITDA from Fiber Products**, up sequentially as higher Consumer Fiber performance offset lower voice and other
- **$528M of Net Cash from Operations**, driven by healthy operating performance and continued focus on working capital management
Fiber broadband revenue growth remained strong, offsetting voice and video declines

Revenue from Fiber\(^1\), $M

1 Excluding subsidy and other revenue. See the supplemental trending schedules, available at www.frontier.com/ir, for information regarding certain GAAP and non-GAAP financial measures, including the impact of fresh start accounting.
Fiber represents the majority of Adjusted EBITDA, and should continue growing as we expand our fiber network.

**Q1 2022 Adjusted EBITDA, $M**

- **Fiber Products**: 274
- **Copper Products**: 230

**Adjusted EBITDA Commentary**

- Adjusted EBITDA from Fiber products grew 2% year-over-year, as strong consumer broadband growth and margin improvements were offset by declines in voice and other revenue.

- Adjusted EBITDA from Fiber products represents 54% of total EBITDA, up from 48% in Q1 2021.

- Adjusted EBITDA from Copper products was in-line with our expectations, and we expect year-over-year declines to moderate over the next several quarters.

---

1. EBITDA and Adjusted EBITDA are non-GAAP financial measures. See the supplemental trending schedules, available at www.frontier.com/ir, and the Appendix hereto for information regarding Adjusted EBITDA from Fiber and Copper products.
We are rigorously focused on simplifying our business and improving our return on capital

- We exited >20 office locations in the quarter; impairment of $44M with reduction in annual cost structure
- “Fit for the Future” cost program has realized $139M of gross annualized cost savings, and remains on track to exceed $250M savings goal by 2023
- We generated $528M of net cash from operating activities in the first quarter
- Committed to disciplined balance sheet management, with net leverage in “mid-threes”
- Fiber build will be primary focus of capital allocation; dynamic model to target highest IRR opportunities for revenue growth and cost reduction
We have $2.7B of liquidity to fund fiber build, with no significant debt maturities before 2027

Liquidity
$M, as of March 31, 2022

- Available Revolver Capacity: 2,692
  - 492

- Cash & Short-term Investments: 2,200

Maturity Profile¹
$M, as of March 31, 2022

- 2.5x²
  - 1Q22 Leverage Ratio

- 5.7%
  - Weighted Average Cost of Debt

- 7.4 Years
  - Weighted Average Life of Debt

- 81%
  - Share of Debt at Fixed Interest Rates

Wave 2 Build

1. Excludes amortization payments of ~$15 million per year on Term Loan.
2. Leverage ratio is a non-GAAP measure. See supplemental trending schedules available at www.frontier.com/ir.

© Frontier Communications.
We are well positioned to withstand a range of macroeconomic scenarios

- **Products that are critical for connecting to the digital society**
  - Provide a wide range of products and services with unmatched value
  - Bringing more value to customers is at the core of everything we do

- **Cost structure to endure inflationary environment**
  - Expanded pool of suppliers for both labor and materials
  - Multi-year agreements in place with key material and labor partners
  - Fit for the Future cost reduction program ahead of plan, will help offset inflationary pressures

- **Balance sheet insulated from rising interest rates**
  - 81% of debt is at fixed interest rates (as of 03/31/22)
  - No significant maturities until 2027
  - 100 basis point increase in interest rates results in incremental annual cash interest expense of ~$15M
Reiterating 2022 Financial Guidance

$2.40-2.50B
Capital Expenditures
