Investor Presentation

Forward-Looking Statements

The Broadridge February 2016 Investor Presentation and other written or oral statements made from time to time by representatives of Broadridge may contain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Statements that are not historical in nature, and which may be identified by the use of words such as "expects," "assumes," "projects," "anticipates," "estimates," "we believe," "could be" and other words of similar meaning, are forward-looking statements. In particular, information about our future performance objectives are forward-looking statements. These statements are based on management's expectations and assumptions and are subject to risks and uncertainties that may cause actual results to differ materially from those expressed. These risks and uncertainties include those risk factors discussed in Part I, "Item 1A. Risk Factors" of our Annual Report on Form 10-K for the fiscal year ended June 30, 2015 (the "2015 Annual Report"), as they may be updated in any future reports filed with the Securities and Exchange Commission. All forward-looking statements speak only as of the date of the presentations and are expressly qualified in their entirety by reference to the factors discussed in the 2015 Annual Report.

These risks include: the success of Broadridge in retaining and selling additional services to its existing clients and in obtaining new clients; Broadridge's reliance on a relatively small number of clients, the continued financial health of those clients, and the continued use by such clients of Broadridge's services with favorable pricing terms; changes in laws and regulations affecting Broadridge's clients or the services provided by Broadridge; declines in participation and activity in the securities markets; any material breach of Broadridge security affecting its clients' customer information; the failure of Broadridge's outsourced data center services provider to provide the anticipated levels of service; a disaster or other significant slowdown or failure of Broadridge's systems or error in the performance of Broadridge's services; overall market and economic conditions and their impact on the securities markets; Broadridge's failure to keep pace with changes in technology and demands of its clients; Broadridge's ability to attract and retain key personnel; the impact of new acquisitions and divestitures; and competitive conditions. Broadridge disclaims any obligation to update or revise forward-looking statements that may be made to reflect events or circumstances that arise after the date made or to reflect the occurrence of unanticipated events, other than as required by law.

Explanation of the Company's Use of Non-GAAP Financial Measures and Definitions of Terms

In certain circumstances, results have been presented that are not generally accepted accounting principles measures ("Non-GAAP") and should be viewed in addition to, and not as a substitute for, the Company's reported results. These Non-GAAP measures are indicators that management uses to provide additional meaningful comparisons between current results and prior reported results, and as a basis for planning and forecasting for future periods. In addition, Broadridge believes this Non-GAAP information helps investors understand the effect of these items on reported results and provides a better representation of the Company's performance. Our Non-GAAP historical and projected earnings results are adjusted to exclude the impact of certain significant events from our GAAP results such as Acquisition Amortization and Other Costs.

Please see the Appendix provided at the end of this presentation entitled "Reconciliation of Non-GAAP to GAAP Measures" for reconciliations of our historical Non-GAAP measures to the comparable GAAP measures and the definitions of terms used in the presentation.

Reconciliation of Non-GAAP to GAAP Measures – FY16 Guidance

(Unaudited)

Earnings Per Share Growth Rate (1)	FY16 Guidance
Adjusted Diluted earnings per share (Non-GAAP)	8% - 12% growth
Diluted earnings per share (GAAP)	7% - 12% growth

Operating Income Margin (2)	FY16 Guidance
Adjusted Operating income margin % (Non-GAAP)	~18.4%
Operating income margin % (GAAP)	~17.3%

(1) Adjusted Diluted EPS growth (Non-GAAP) is adjusted to exclude the projected impact of Acquisition Amortization and Other Costs. Fiscal year 2016 Non-GAAP Adjusted Diluted EPS guidance estimates exclude estimated Acquisition Amortization and Other Costs, net of taxes, of \$0.18 per share.

(2) Adjusted Operating income margin % (Non-GAAP) is adjusted to exclude the projected impact of Acquisition Amortization and Other Costs. Fiscal year 2016 Non-GAAP Adjusted Operating income margin % guidance estimates exclude estimated Acquisition Amortization and Other Costs of \$34 million.

Note: Guidance does not take into consideration the effect of any future acquisitions, additional debt, and/or share repurchases.

Definitions

Acquisition Amortization and Other Costs represent amortization charges associated with acquired intangible asset values as well as other deal costs associated with the Company's acquisition activity.

Adjusted Debt/EBITDAR Ratio is calculated as $(\text{Debt} + 8x \text{ Rent Expense}) / (\text{EBITDA} + \text{Rent Expense})$.

Adjusted Operating Income is a Non-GAAP measure and is defined as operating income adjusted to exclude the impact of Acquisition Amortization and Other Costs.

Closed Sales represent the expected recurring annual revenues for new client contracts that were signed by Broadridge during the periods referenced. The amount of the closed sale is generally a reasonable estimate of annual revenues based on client volumes or activity, excluding pass-through revenues such as distribution revenues. These types of sales were previously described as recurring revenue closed sales.

Distribution revenues consist primarily of postage-related expenses incurred in connection with our Investor Communication Solutions segment.

Earnings results and related metrics that are provided on a consolidated basis are Non-GAAP measures as they are adjusted to exclude the impact of certain significant events from our GAAP results such as the impact of Acquisition Amortization and Other Costs.

Event-Driven revenues are based on the number of special events and corporate transactions we process. Event-driven activity is impacted by financial market conditions and changes in regulatory compliance requirements, resulting in fluctuations in the timing and levels of event-driven fee revenues. As such, the timing and level of event-driven activity and its potential impact on revenues and earnings is difficult to forecast.

Free Cash Flows (FCF) is a Non-GAAP measure and is defined by Broadridge as net cash flows provided by operating activities, less capital expenditures, software purchases and capitalized internal use software.

IBM Migration Costs are the costs incurred by Broadridge in connection with the migration of its data centers to IBM.

Net New Business refers to recurring revenue from closed sales less recurring revenue from client losses.
