Forward-Looking Statements

This presentation and other written or oral statements made from time to time by representatives of Broadridge may contain “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Statements that are not historical in nature, and which may be identified by the use of words like “expects,” “assumes,” “projects,” “anticipates,” “estimates,” “we believe,” “could be” and other words of similar meaning, are forward-looking statements. In particular, statements regarding our “Fiscal Year 2013 Financial Guidance” are forward-looking statements. These statements are based on management’s expectations and assumptions and are subject to risks and uncertainties that may cause actual results to differ materially from those expressed. These risks and uncertainties include those risk factors discussed in Part I, “Item 1A. Risk Factors” of our Annual Report on Form 10-K for the fiscal year ended June 30, 2012 (the “2012 Annual Report”), as they may be updated in any future reports filed with the Securities and Exchange Commission. All forward-looking statements speak only as of the date of this presentation and are expressly qualified in their entirety by reference to the factors discussed in the 2012 Annual Report. These risks include: the success of Broadridge in retaining and selling additional services to its existing clients and in obtaining new clients; Broadridge’s reliance on a relatively small number of clients, the continued financial health of those clients, and the continued use by such clients of Broadridge’s services with favorable pricing terms; changes in laws and regulations affecting the investor communication services provided by Broadridge; declines in participation and activity in the securities markets; overall market and economic conditions and their impact on the securities markets; any material breach of Broadridge security affecting its clients’ customer information; the failure of Broadridge’s outsourced data center services provider to provide the anticipated levels of service; any significant slowdown or failure of Broadridge’s systems or error in the performance of Broadridge’s services; Broadridge’s failure to keep pace with changes in technology and demands of its clients; Broadridge’s ability to attract and retain key personnel; the impact of new acquisitions and divestitures; and competitive conditions. Broadridge disclaims any obligation to update or revise forward-looking statements that may be made to reflect events or circumstances that arise after the date made or to reflect the occurrence of unanticipated events, other than as required by law.

Non-GAAP Financial Measures

In certain circumstances, results have been presented that are not generally accepted accounting principles measures (“Non-GAAP”) and should be viewed in addition to, and not as a substitute for, the Company’s reported results. Net earnings, diluted earnings per share and pre-tax earnings margins excluding Acquisition Amortization and Other Costs and Restructuring and Impairment Charges are Non-GAAP measures. These measures are adjusted to exclude costs incurred by the Company in connection with amortization and other charges associated with the Company’s acquisitions, and the termination of the Penson outsourcing services agreement, as Broadridge believes this information helps investors understand the effect of these items on reported results and provides a better representation of our actual performance. Free cash flow is a Non-GAAP measure and is defined as cash flow from operating activities, less capital expenditures and purchases of intangibles. Management believes this Non-GAAP measure provides investors with a more complete understanding of Broadridge’s underlying operational results. These Non-GAAP measures are indicators that management uses to provide additional meaningful comparisons between current results and prior reported results, and as a basis for planning and forecasting for future periods. Accompanying this presentation is a reconciliation of Non-GAAP measures to the comparable GAAP measures.

Broadridge simplifies complex processes

Our financial strategy is a key part of our value creation strategy

Priority

- **~40% dividend payout, but expect no less than 72 cents per share annually subject to Board approval**
- **Organic growth with limited financial risk**
 - Avoid significant balance sheet risk
 - Invest in projects delivering at least 20% IRR
 - Recurring closed sales averaged ~\$120M in each of the last 3 years. This includes large transactions (>\$5M) which are lumpy and therefore impact quarter over quarter comparisons
- **Tuck-in acquisitions with clear growth profile and returns**
 - Accretive to growth, margins, and earnings
 - >20% IRR in conservative business case
 - On track to generate ~\$185M fee revenue (~\$250M in total revenue) with ~\$50M in EBITDA or >25% margins in FY13
- **Long-term investment-grade debt rating**
 - Adjusted Debt/EBITDAR ratio¹ target is 2:1
- **Excess cash used opportunistically to offset dilution and reduce share count through buybacks**

1. Adjusted Debt/EBITDAR ratio calculated as (Debt + 8x Rent Expense) / (EBITDA + Rent Expense)
