Forward-Looking Statements

This presentation and other written or oral statements made from time to time by representatives of Broadridge Financial Solutions, Inc. ("Broadridge" or the "Company") may contain “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Statements that are not historical in nature, and which may be identified by the use of words such as “expects,” “assumes,” “projects,” “anticipates,” “estimates,” “we believe,” “could be” and other words of similar meaning, are forward-looking statements. In particular, information appearing in the “Fiscal Year 2017 Financial Guidance” section are forward-looking statements.

These statements are based on management’s expectations and assumptions and are subject to risks and uncertainties that may cause actual results to differ materially from those expressed. These risks and uncertainties include those risk factors discussed in Part I, “Item 1A. Risk Factors” of our Annual Report on Form 10-K for the fiscal year ended June 30, 2016 (the “2016 Annual Report”), as they may be updated in any future reports filed with the Securities and Exchange Commission. All forward-looking statements speak only as of the date of this presentation and are expressly qualified in their entirety by reference to the factors discussed in the 2016 Annual Report.

These risks include: the success of Broadridge in retaining and selling additional services to its existing clients and in obtaining new clients; Broadridge’s reliance on a relatively small number of clients, the continued financial health of those clients, and the continued use by such clients of Broadridge’s services with favorable pricing terms; changes in laws and regulations affecting Broadridge’s clients or the services provided by Broadridge; any material breach of Broadridge security affecting its clients’ customer information; declines in participation and activity in the securities markets; the failure of Broadridge’s outsourced data center services provider to provide the anticipated levels of service; a disaster or other significant slowdown or failure of Broadridge’s systems or error in the performance of Broadridge’s services; overall market and economic conditions and their impact on the securities markets; Broadridge’s failure to keep pace with changes in technology and demands of its clients; Broadridge’s ability to attract and retain key personnel; the impact of new acquisitions and divestitures; and competitive conditions. Broadridge disclaims any obligation to update or revise forward-looking statements that may be made to reflect events or circumstances that arise after the date made or to reflect the occurrence of unanticipated events, other than as required by law.

Use of Non-GAAP Financial Measures

Explanation and Reconciliation of the Company's Use of Non-GAAP Financial Measures

The Company's results in this presentation are presented in accordance with U.S. GAAP except where otherwise noted. In certain circumstances, results have been presented that are not generally accepted accounting principles measures ("Non-GAAP"). These Non-GAAP measures are Adjusted Operating income, Adjusted Operating income margin, Adjusted Net earnings, Adjusted earnings per share, and Free cash flow. These Non-GAAP financial measures should be viewed in addition to, and not as a substitute for, the Company's reported results.

The Company believes its Non-GAAP financial measures help investors understand how management plans, measures and evaluates the Company's business performance. Management believes that Non-GAAP measures provide consistency in its financial reporting and facilitates investors' understanding of the Company's operating results and trends by providing an additional basis for comparison. Management uses these Non-GAAP financial measures to, among other things, evaluate the Company's ongoing operations, for internal planning and forecasting purposes and in the calculation of performance-based compensation. In addition, and as a consequence of the importance of these Non-GAAP financial measures in managing its business, the Company's Compensation Committee of the Board of Directors incorporates Non-GAAP financial measures in the evaluation process for determining management compensation.

Adjusted Operating Income, Adjusted Operating Income Margin, Adjusted Net Earnings and Adjusted Earnings per Share

These Non-GAAP measures reflect Operating income, Operating income margin, Net earnings, and Diluted earnings per share, as adjusted to exclude the impact of certain costs, expenses, gains and losses and other specified items that management believes are not indicative of the Company's ongoing operating performance. These adjusted measures exclude the impact of Amortization of Acquired Intangibles and Purchased Intellectual Property, and Acquisition and Integration Costs. Amortization of Acquired Intangibles and Purchased Intellectual Property represents non-cash expenses associated with the Company's acquisition activities. Acquisition and Integration Costs represent certain transaction and integration costs associated with the Company's acquisition activities. The Company excludes Amortization of Acquired Intangibles and Purchased Intellectual Property, and Acquisition and Integration Costs from these measures because excluding such information provides the Company with an understanding of the results from the primary operations of its business and these items do not reflect ordinary operations or earnings. Management believes these measures may be useful to an investor in evaluating the underlying operating performance of the Company's business.

Free Cash Flow

In addition to the Non-GAAP financial measures discussed above, the Company provides Free cash flow information because it considers Free cash flow to be a liquidity measure that provides useful information to management and investors about the amount of cash generated that could be used for dividends, share repurchases, strategic acquisitions and other discretionary investments. Free cash flow is a Non-GAAP financial measure and is defined by the Company as Net cash flows provided by operating activities less Capital expenditures and Software purchases and capitalized internal use software.

Reconciliations of such Non-GAAP measures to the most directly comparable financial measures presented in accordance with GAAP can be found in the tables that are part of this presentation.

Note: Amounts may not sum due to rounding.

Reconciliation of Non-GAAP to GAAP Measures – Fiscal Year 2017 Guidance

(Unaudited)

Adjusted Earnings Per Share Growth Rate (1)	
Diluted earnings per share (GAAP)	9% - 14%
Adjusted earnings per share (Non-GAAP)	12% - 17%
Adjusted Operating Income Margin (2)	
Operating income margin % (GAAP)	~13.6%
Adjusted Operating income margin % (Non-GAAP)	~15%
Free Cash Flow	
Net cash flows provided by operating activities (GAAP)	\$470 - \$550
Capital expenditures and Software purchases and capitalized internal use software	(120) - (150)
Free cash flow (Non-GAAP)	\$350 - \$400

(1) Adjusted EPS growth (Non-GAAP) is adjusted to exclude the projected impact of Amortization of Acquired Intangibles and Purchased Intellectual Property and Acquisition and Integration Costs and is calculated using diluted shares outstanding. Fiscal year 2017 Non-GAAP Adjusted EPS guidance estimates exclude estimated Amortization of Acquired Intangibles and Purchased Intellectual Property, and Acquisition and Integration Costs, net of taxes, of approximately \$0.40 per share.

(2) Adjusted Operating income margin (Non-GAAP) is adjusted to exclude the projected impact of Acquired Intangibles and Purchased Intellectual Property and Acquisition and Integration Costs. Fiscal year 2017 Non-GAAP Adjusted Operating income margin guidance estimates exclude estimated Acquired Intangibles and Purchased Intellectual Property and Acquisition and Integration Costs of approximately \$74 million.
