Forward-Looking Statements

This presentation and other written or oral statements made from time to time by representatives of Broadridge Financial Solutions, Inc. ("Broadridge" or the "Company") may contain “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Statements that are not historical in nature, and which may be identified by the use of words such as “expects,” “assumes,” “projects,” “anticipates,” “estimates,” “we believe,” “could be” and other words of similar meaning, are forward-looking statements. In particular, information appearing in the “Fiscal Year 2020 Guidance” section are forward-looking statements.

These statements are based on management’s expectations and assumptions and are subject to risks and uncertainties that may cause actual results to differ materially from those expressed. These risks and uncertainties include those risk factors discussed in Part I, “Item 1A. Risk Factors” of our Annual Report on Form 10-K for the fiscal year ended June 30, 2019 (the “2019 Annual Report”), as they may be updated in any future reports filed with the Securities and Exchange Commission. All forward-looking statements speak only as of the date of this presentation and are expressly qualified in their entirety by reference to the factors discussed in the 2019 Annual Report.

These risks include:

- the success of Broadridge in retaining and selling additional services to its existing clients and in obtaining new clients;
- Broadridge’s reliance on a relatively small number of clients, the continued financial health of those clients, and the continued use by such clients of Broadridge’s services with favorable pricing terms;
- a material security breach or cybersecurity attack affecting the information of Broadridge’s clients;
- changes in laws and regulations affecting Broadridge’s clients or the services provided by Broadridge;
- declines in participation and activity in the securities markets;
- the failure of Broadridge’s key service providers to provide the anticipated levels of service;
- a disaster or other significant slowdown or failure of Broadridge’s systems or error in the performance of Broadridge’s services;
- overall market and economic conditions and their impact on the securities markets;
- Broadridge’s failure to keep pace with changes in technology and demands of its clients;
- Broadridge’s ability to attract and retain key personnel;
- the impact of new acquisitions and divestitures; and
- competitive conditions.

Broadridge disclaims any obligation to update or revise forward-looking statements that may be made to reflect events or circumstances that arise after the date made or to reflect the occurrence of unanticipated events, other than as required by law.

Use of Material Contained Herein

The information contained in this presentation is being provided for your convenience and information only. This information is accurate as of the date of its initial presentation. If you plan to use this information for any purpose, verification of its continued accuracy is your responsibility. Broadridge assumes no duty to update or revise the information contained in this presentation.
Use of Non-GAAP Financial Measures

Explanation and Reconciliation of the Company’s Use of Non-GAAP Financial Measures
The Company’s results in this presentation are presented in accordance with U.S. generally accepted accounting principles ("GAAP") except where otherwise noted. In certain circumstances, results have been presented that are not generally accepted accounting principles measures ("Non-GAAP"). These Non-GAAP measures are Adjusted Operating income, Adjusted Operating income margin, Adjusted Net earnings, Adjusted earnings per share, and Free cash flow. These Non-GAAP financial measures should be viewed in addition to, and not as a substitute for, the Company’s reported results.

The Company believes our Non-GAAP financial measures help investors understand how management plans, measures and evaluates the Company’s business performance. Management believes that Non-GAAP measures provide consistency in its financial reporting and facilitates investors’ understanding of the Company’s operating results and trends by providing an additional basis for comparison. Management uses these Non-GAAP financial measures to, among other things, evaluate our ongoing operations, for internal planning and forecasting purposes and in the calculation of performance-based compensation. In addition, and as a consequence of the importance of these Non-GAAP financial measures in managing our business, the Company’s Compensation Committee of the Board of Directors incorporates Non-GAAP financial measures in the evaluation process for determining management compensation.

Adjusted Operating Income, Adjusted Operating Income Margin, Adjusted Net Earnings and Adjusted Earnings Per Share
These Non-GAAP measures reflect Operating income, Operating income margin, Net earnings, and Diluted earnings per share, as adjusted to exclude the impact of certain costs, expenses, gains and losses and other specified items that management believes are not indicative of our ongoing operating performance. These adjusted measures exclude the impact of: (i) Amortization of Acquired Intangibles and Purchased Intellectual Property, (ii) Acquisition and Integration Costs, and (iii) IBM Private Cloud Charges. Amortization of Acquired Intangibles and Purchased Intellectual Property represents non-cash amortization expenses associated with the Company’s acquisition activities. Acquisition and Integration Costs represent certain transaction and integration costs associated with the Company’s acquisition activities. IBM Private Cloud Charges represent a charge on the hardware assets to be transferred to International Business Machines Corporation ("IBM") and other charges related to the information technology agreement for private cloud services the Company entered into with IBM.

We exclude IBM Private Cloud Charges from our Adjusted Operating income and other earnings measures because excluding such information provides us with an understanding of the results from the primary operations of our business and this item does not reflect ordinary operations or earnings. We also exclude the impact of Amortization of Acquired Intangibles and Purchased Intellectual Property, as these non-cash amounts are significantly impacted by the timing and size of individual acquisitions and do not factor into the Company’s capital allocation decisions, management compensation metrics or multi-year objectives. Furthermore, management believes that this adjustment enables better comparison of our results as Amortization of Acquired Intangibles and Purchased Intellectual Property will not recur in future periods once such intangible assets have been fully amortized. Although we exclude Amortization of Acquired Intangibles and Purchased Intellectual Property from our adjusted earnings measures, our management believes that it is important for investors to understand that these intangible assets contribute to revenue generation. Amortization of intangible assets that relate to past acquisitions will recur in future periods until such intangible assets have been fully amortized. Any future acquisitions may result in the amortization of additional intangible assets.

Free Cash Flow
In addition to the Non-GAAP financial measures discussed above, we provide Free cash flow information because we consider Free cash flow to be a liquidity measure that provides useful information to management and investors about the amount of cash generated that could be used for dividends, share repurchases, strategic acquisitions, other investments, as well as debt servicing. Free cash flow is a Non-GAAP financial measure and is defined by the Company as Net cash flows provided by operating activities less Capital expenditures as well as Software purchases and capitalized internal use software.

Reconciliations of such Non-GAAP measures to the most directly comparable financial measures presented in accordance with GAAP can be found in the tables that are part of this presentation.

ICS Record Growth and FY19 Revenues

**FY08-19 Record Growth**

1 Stock record growth and interim record growth measure the annual change in total positions eligible for equity proxies and mutual fund & ETF interims, respectively, for equities and mutual fund position data reported to Broadridge in both the current and prior year periods.

2 FY2019 revenues have been revised to reflect the Broadridge Advisor Solutions organizational change. This change had the effect of transferring revenues previously reported in the ICS segment to the GTO segment. In the aggregate, the Total revenues transferred in FY2019 were $42.8 million.

Regulatory Update

**Comments on modernization of mutual fund communications**

- SEC staff said in public forums they are considering options for shorter/more streamlined regulatory communications, and in November 2019, this issue was moved to the SEC’s short-term agenda.
- BR in favor of any step to ensure main street investors have easy and actionable access to the information they need to invest with confidence.

**SEC Approves Rule 30e-3 “Notice-and-access”**

- Allows mutual funds to opt-in shareholders to receive “notice-and-access” beginning 2021.
- BR is working with hundreds of fund families to prepare for 30e-3.
- Financial impact to BR: modestly net positive impact on gross profit (higher recurring fee revenues with lower distribution revenues).

**Comments on mutual fund interim fees**

- BR comment letter in October 2018 laid out the company’s strong track record of value ($400M+ annually) delivered to the mutual fund industry, and identified future savings.
- Since BR’s comment letter, interim fees were rolled into discussions for the proxy distribution working groups (meet periodically with no timeline for issuing a recommendation to the SEC).

**Proxy Roundtable**

- BR working closely with SIFMA and other stakeholders to develop an industry consensus around end-to-end vote confirmation, a key priority for the SEC.
- Little economic impact to BR, but the company believes any step that increases vote accuracy and confidence in the proxy voting process is a positive.

Reconciliation of GAAP to Non-GAAP Measures - FY20 Guidance

(Unaudited)

FY20 Adjusted Earnings Per Share Growth Rate (a)
Diluted earnings per share growth (GAAP) (4) - 0%
Adjusted earnings per share growth (Non-GAAP) 8% - 12%

FY20 Adjusted Operating Income Margin (b)
Operating income margin % (GAAP) ~14%
Adjusted Operating income margin % (Non-GAAP) ~18%

(a) Adjusted earnings per share growth (Non-GAAP) is adjusted to exclude the projected impact of Amortization of Acquired Intangibles and Purchased Intellectual Property, Acquisition and Integration Costs, and IBM Private Cloud Charges, and is calculated using diluted shares outstanding. Fiscal year 2020 Non-GAAP Adjusted earnings per share guidance estimates exclude Amortization of Acquired Intangibles and Purchased Intellectual Property, Acquisition and Integration Costs, and IBM Private Cloud Charges, net of taxes, of approximately $1.11 per share.

(b) Adjusted Operating income margin (Non-GAAP) is adjusted to exclude the projected impact of Amortization of Acquired Intangibles and Purchased Intellectual Property, Acquisition and Integration Costs, and IBM Private Cloud Charges. Fiscal year 2020 Non-GAAP Adjusted Operating income margin guidance estimates exclude Amortization of Acquired Intangibles and Purchased Intellectual Property, Acquisition and Integration Costs, and IBM Private Cloud Charges of approximately $170 million.
