

Rexnord Reports June Quarter 2020 Financial Results

7/28/2020

Call scheduled for Wednesday, July 29, 2020 at 8:00 a.m. Eastern Time

MILWAUKEE--(BUSINESS WIRE)-- Rexnord Corporation (NYSE:RXN):

June Quarter Highlights

- Net sales were \$449 million and 12% below (-12% core sales(1), +1% acquisitions, -1% foreign currency translation) our sales in last year's June quarter.
- Net income from continuing operations was \$36 million (diluted EPS of \$0.29), compared with \$49 million (diluted EPS of \$0.39) in the year-ago quarter.
- Net income(2) was \$36 million (diluted EPS of \$0.29), compared with \$41 million (diluted EPS of \$0.38) in the year-ago quarter.
- Adjusted EPS(1) was \$0.36 compared with \$0.48 in the year-ago quarter.
- Adjusted EBITDA(1) was \$103 million (23.0% of net sales) compared with \$111 million (21.8% of net sales) in last year's June quarter.
- Net debt leverage ratio unchanged at 1.9x. Repaid all outstanding revolver borrowings in June.

Todd Adams, President and Chief Executive Officer, commented, "Our second quarter results demonstrate our ability to nimbly execute amid the unprecedented social and economic challenges created by COVID-19. It also highlights the benefits of the significant changes we've made to our business to drive above-market growth, strong margins and higher levels of free cash flow over the course of a business cycle, including one as extreme as the last six months. The trajectory of overall demand levels improved over the course of the quarter, but we continue to be cautious about the remainder of the year based on the current realities and potential range of outcomes due to the pandemic. Our focus over the next six months will be to relentlessly execute against our highest strategic priorities,

including the third phase of our Supply Chain Optimization and Footprint Repositioning (“SCOFR”) initiatives, and to drive growth from the sustainable competitive advantages we’ve developed around hygienic solutions within our Water Management platform.”

“The impact of the pandemic on demand was most significant in our Process & Motion Control (“PMC”) platform, reflecting customer plant shutdowns, broadly lower production rates in our customers’ facilities and the overall uncertainty we’ve all experienced over the course of the quarter. We saw relatively stronger sales comparisons in our general industrial, power generation and consumer-facing end markets, mitigating the larger and anticipated declines with aerospace and process industry customers. Solid execution of our cost management strategies along with our prior SCOFR and simplification initiatives enabled us to hold PMC’s decremental Adjusted EBITDA margin to 26%.”

“Our Water Management (“WM”) platform delivered a terrific quarter with sales down only 2%, or \$4 million dollars. Despite the decline in sales, we were able to grow Adjusted EBITDA by \$4 million dollars year over year as margins improved by 270 basis points to 29.1%. Core growth was impacted by construction site shutdowns across our commercial and institutional verticals early in the quarter, but accelerated over the course of the quarter as we saw strong demand for our hygienic solutions, across essentially all end market verticals and largely in retrofit applications. We’re excited about the market share growth opportunity in front of us based on the differentiated hygienic solutions we’ve developed that can fundamentally enhance the safety of customers, patients, students and employees.”

September Quarter Outlook

Adams continued, “As we’ve done for years and only amplified due to the persistent uncertainties created by the COVID-19 pandemic and its unknown duration, we want to provide an outlook that encompasses our best view with the information we have and for a duration that we believe is appropriate. For now, that means we will be limiting our outlook to the September quarter. Based on the cost reduction initiatives we have implemented, our order backlogs heading into the quarter, July results and anticipated demand patterns through September, we expect our sales to decline between 12% and 17% in the September quarter, our total segment (before corporate expenses) Adjusted EBITDA margin to range between 22% and 24% and our corporate expenses to approximate \$8 million.”

Change in Fiscal Year

As previously announced, Rexnord is transitioning to a December 31 fiscal year end. The Company will continue to report its quarterly results and will file a transition report for the nine-month period from April 1, 2020, to December 31, 2020. Fiscal year 2020 was the period from April 1, 2019, through March 31, 2020.

June Quarter 2020 Segment Highlights

Process & Motion Control

PMC net sales were \$274.4 million and \$330.1 million during the three months ended June 30, 2020 and 2019, respectively. Excluding a 2% unfavorable impact from foreign currency translation, core sales decreased 15% year over year as a result of a reduction in market demand across the majority of our end markets and geographies as customers reacted to and changed buying patterns given the current COVID-19 pandemic.

PMC income from operations for the three months ended June 30, 2020 was \$39.6 million, or 14.4% of net sales. Income from operations as a percentage of net sales decreased by 230 basis points year over year primarily as a result of the lower sales volume, partially offset by benefits obtained from cost reduction initiatives and footprint repositioning actions.

Adjusted EBITDA(1) for the three months ended June 30, 2020, was \$59.4 million. Adjusted EBITDA as a percentage of net sales decreased by 80 basis points year over year to 21.6%.

Water Management

WM net sales were \$174.7 million during the three months ended June 30, 2020, which was 2% less than in the year-ago quarter. Excluding a 3% year-over-year increase in net sales resulting from our prior year acquisitions of **Stainlessdrains.com** and Just Manufacturing, core sales decreased 5% during the three months ended June 30, 2020, as increased demand for our touchless and hygienic solutions was more than offset by reduced overall market demand resulting from the current COVID-19 pandemic.

WM income from operations was \$40.1 million for the three months ended June 30, 2020, or 23.0% of net sales. Income from operations as a percentage of net sales increased by 60 basis points year over year as the benefits obtained from our cost reduction and productivity initiatives more than offset the profit impact of lower sales year over year.

Adjusted EBITDA(1) for the three months ended June 30, 2020, was \$50.9 million or 29.1% of net sales. Adjusted EBITDA as a percentage of net sales increased by 270 basis points year over year.

(1) Refer to "Non-GAAP Measures" for a definition of this non-GAAP metric, as well as the accompanying reconciliations to GAAP.

(2) Reflects net income/loss attributable to Rexnord common stockholders.

Non-GAAP Financial Measures

The following non-GAAP financial measures are utilized by management in comparing our operating performance on a consistent basis. We believe that these financial measures are appropriate to enhance an overall understanding of our underlying operating performance trends compared to historical and prospective periods and our peers. Management also believes that these measures are useful to investors in their analysis of our results of operations and provide improved comparability between fiscal periods as well as insight into the compliance with our debt covenants. Non-GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information calculated in accordance with GAAP. Investors are encouraged to review the reconciliation of these non-GAAP measures to their most directly comparable GAAP financial measures. A reconciliation of non-GAAP financial measures presented above to our GAAP results has been provided in the financial tables included in this press release.

Core Sales

Core sales excludes the impact of acquisitions (such as the Just Manufacturing and **StainlessDrains.com**), divestitures and foreign currency translation. Management believes that core sales facilitates easier and more meaningful comparison of our net sales performance with prior and future periods and to our peers. We exclude the effect of acquisitions and divestitures because the nature, size and number of acquisitions and divestitures can vary dramatically from period to period and between us and our peers, and can also obscure underlying business trends and make comparisons of long-term performance difficult. We exclude the effect of foreign currency translation from this measure because the volatility of currency translation is not under management's control.

Adjusted Net Income and Adjusted Earnings Per Share

Adjusted net income and adjusted earnings per share (calculated on a diluted basis) exclude actuarial gains and losses on pension and postretirement benefit obligations, restructuring and other similar charges, gains or losses on divestitures, discontinued operations, gains or losses on extinguishment of debt, the impact of acquisition-related fair value adjustments in connection with purchase accounting, amortization of intangible assets, and other non-operational, non-cash or non-recurring losses, net of their income tax impact. The tax rates used to calculate adjusted net income and adjusted earnings per share are based on a transaction specific basis. We believe that adjusted net income and adjusted earnings per share are useful in assessing our financial performance by excluding items that are not indicative of our core operating performance or that may obscure trends useful in evaluating our continuing results of operations. All references to Net Income and EPS within this earnings release refer to net income attributable to Rexnord common stockholders and net income per diluted share attributable to Rexnord common stockholders, respectively.

EBITDA

EBITDA represents earnings from continuing operations before interest and other debt related activities, taxes, depreciation and amortization. EBITDA is presented because it is an important supplemental measure of performance and it is frequently used by analysts, investors and other interested parties in the evaluation of companies in our industry. EBITDA is also presented and compared by analysts and investors in evaluating our ability to meet debt service obligations. Other companies in our industry may calculate EBITDA differently. EBITDA is not a measurement of financial performance under GAAP and should not be considered as an alternative to cash flow from operating activities or as a measure of liquidity or an alternative to net income as indicators of operating performance or any other measures of performance derived in accordance with GAAP. Because EBITDA is calculated before recurring cash charges, including interest expense and taxes, and is not adjusted for capital expenditures or other recurring cash requirements of the business, it should not be considered as a measure of discretionary cash available to invest in the growth of the business.

Adjusted EBITDA

“Adjusted EBITDA” is the term we use to describe EBITDA as defined and adjusted in our credit agreement, which is net income, adjusted for the items summarized in the Reconciliation of GAAP to Non-GAAP Financial Measures table below. Adjusted EBITDA is intended to show our unleveraged, pre-tax operating results and therefore reflects our financial performance based on operational factors, excluding non-operational, non-cash or non-recurring losses or gains. In view of our debt level, it is also provided to aid investors in understanding our compliance with our debt covenants. Adjusted EBITDA is not a presentation made in accordance with GAAP, and our use of the term Adjusted EBITDA varies from others in our industry. This measure should not be considered as an alternative to net income, income from operations (as it relates to our two reportable segments, we adjust from income from operations because “non-operating” expenses such as interest and income taxes are not allocated to our segments and therefore net income is not presented at the segment level) or any other performance measures derived in accordance with GAAP. Adjusted EBITDA has important limitations as an analytical tool, and you should not consider it in isolation, or as a substitute for, analysis of our results as reported under GAAP. For example, Adjusted EBITDA does not reflect: (a) our capital expenditures, future requirements for capital expenditures or contractual commitments; (b) changes in, or cash requirements for, our working capital needs; (c) the significant interest expenses, or the cash requirements necessary to service interest or principal payments, on our debt; (d) tax payments that represent a reduction in cash available to us; (e) any cash requirements for the assets being depreciated and amortized that may have to be replaced in the future; or (f) the impact of earnings or charges resulting from matters that we and the lenders under our credit agreement may not consider indicative of our ongoing operations. In particular, our definition of Adjusted EBITDA allows us to add back certain non-cash, non-operating or non-recurring charges that are deducted in calculating net income, even though these are expenses

that may recur, vary greatly and are difficult to predict and can represent the effect of long-term strategies as opposed to short-term results.

In addition, certain of these expenses can represent the reduction of cash that could be used for other corporate purposes. Further, although not included in the calculation of Adjusted EBITDA below, the measure may at times allow us to add estimated cost savings and operating synergies related to operational changes ranging from acquisitions to dispositions to restructurings and/or exclude one-time transition expenditures that we anticipate we will need to incur to realize cost savings before such savings have occurred. Further, management and various investors use the ratio of total debt less cash to Adjusted EBITDA (which includes a full pro-forma last-twelve-month impact of acquisitions), or "net debt leverage", as a measure of our financial strength and ability to incur incremental indebtedness when making key investment decisions and evaluating us against peers. Lastly, management and various investors use the ratio of the change in Adjusted EBITDA divided by the change in net sales (referred to as "incremental margin" in the case of an increase in net sales or "decremental margin" in the case of a decrease in net sales) as an additional measure of our financial performance and is utilized when making key investment decisions and evaluating us against peers.

Free Cash Flow

We define Free Cash Flow as cash flow from operations less capital expenditures, and we use this metric in analyzing our ability to service and repay our debt and to forecast future periods. However, this measure does not represent funds available for investment or other discretionary uses since it does not deduct cash used to service our debt.

Return on Invested Capital ("ROIC")

ROIC is used because we believe it is an important supplemental measure of financial performance and it is also currently a performance measure under our long-term incentive plan. ROIC is frequently used by analysts, investors and other interested parties in the evaluation of companies in our industry. ROIC is also used by investors and analysts to evaluate management's deployment of capital to create shareholder value. We define ROIC as tax-effected net operating income for the last 12 months divided by average total invested capital over a rolling four-quarter period. Total invested capital is defined as shareholders equity plus debt, less cash and cash equivalents. Other companies may not define or calculate ROIC in the same way. We may also periodically refer to "underlying ROIC" which adjusts total invested capital by reversing the effects on our current capital structure of the 2006 leveraged buyout of the then privately-held Company by a separate private owner.

About Rexnord

Headquartered in Milwaukee, Wisconsin, Rexnord is comprised of two strategic platforms, Process & Motion Control and Water Management, with approximately 6,700 employees worldwide. The Process & Motion Control platform designs, manufactures, markets and services specified, highly-engineered mechanical components used within complex systems. The Water Management platform designs, procures, manufactures and markets products that provide and enhance water quality, safety, flow control and conservation. Additional information about the Company can be found at www.rexnordcorporation.com.

Conference Call Details

Rexnord will hold a conference call on Wednesday, July 29, 2020 at 8:00 a.m. Eastern Time to discuss its June quarter 2020 results, provide a general business update and respond to investor questions. Rexnord Chairman and CEO, Todd Adams, and Senior Vice President and CFO, Mark Peterson, will co-host the call. Investors and participants can register for the call in advance by visiting <http://www.directeventreg.com/registration/event/9998456>. If online registration is not available, registration in advance of the call can also be accomplished by calling 888-869-1189 and providing the conference ID number: 9998456. After registering, instructions will be shared on how to join the call.

A live webcast of the call will also be available on the Company's investor relations website. Please go to the website (investors.rexnordcorporation.com) at least 15 minutes prior to the start of the call to register, download and install any necessary audio software.

If you are unable to participate during the live teleconference, a replay of the conference call will be available from 11:00 a.m. Eastern Time on July 29, 2020, until 11:59 p.m. Eastern Time on August 12, 2020. To access the replay, please dial 855-859-2056 (domestic) or 404-537-3406 (international). The conference ID for the replay is: 9998456. The replay will also be available as a webcast on Rexnord's investor relations website.

Cautionary Statement on Forward-Looking Statements

Information in this release may involve outlook, expectations, beliefs, plans, intentions, strategies or other statements regarding the future, which are forward-looking statements. These forward-looking statements involve risks and uncertainties. All forward-looking statements included in this release are based upon information available to Rexnord Corporation as of the date of the release, and Rexnord Corporation assumes no obligation to update any such forward-looking statements. The statements in this release are not guarantees of future performance and actions, and actual results could differ materially from current expectations. Numerous factors could cause or contribute to such differences. Please refer to "Risk Factors" and "Cautionary Notice Regarding Forward-Looking Statements" in the Company's Form 10-K for the fiscal year ended March 31, 2020, as well as the Company's annual, quarterly and current reports filed on Forms 10-K, 10-Q and 8-K from time to time with the

Securities and Exchange Commission for a further discussion of the factors and risks associated with the business. In addition, the effects of the ongoing COVID-19 pandemic on our employees, customers and supply chain, including those related to governmental actions, all of which are uncertain at this time, may, among other impacts, heighten the effects on our business, results of operations and financial condition of the risk factors identified in our Form 10-K.
