United Therapeutics to Acquire Miromatrix Medical

SILVER SPRING, Md., RESEARCH TRIANGLE PARK, N.C., and EDEN PRAIRIE, Minn., October 30, 2023 -- United Therapeutics Corporation (Nasdaq: UTHR) and Miromatrix Medical Inc. (Nasdaq: MIRO) announced today a definitive agreement for United Therapeutics to acquire Miromatrix.

Miromatrix is a life sciences company focused on the development of bioengineered organs composed of human cells. United Therapeutics is a biotechnology company with six FDA-approved therapies to address rare, life-threatening conditions, and a pipeline that includes four ongoing registration-phase studies. The acquisition of Miromatrix will expand United Therapeutics’ existing complementary platform of organ manufacturing programs, which include ex-vivo lung perfusion, xenotransplantation, 3-D bioprinting, and regenerative medicine approaches with the objective of creating an unlimited supply of tolerable, transplantable organs.

“At United Therapeutics, we are determined to rectify the severe shortage of transplantable organs,” said Martine Rothblatt, Ph.D., Chairperson and Chief Executive Officer of United Therapeutics. “We expect that Miromatrix will help us in this mission, bringing a number of new approaches, highly-skilled personnel, and state of the art facilities as additional shots on goal to complement our existing organ manufacturing programs.”

“United Therapeutics’ dedication to solving the chronic shortage of transplantable organs is a vision we share at Miromatrix,” said Jeff Ross, Ph.D., Chief Executive Officer of Miromatrix. “This transaction provides our shareholders with a substantial premium and allows them to participate in the potential upside of our combination, while accelerating the development of our pipeline as we strive to make bioengineered organs a reality for the many patients in need.”

Terms of the Agreement

United Therapeutics will commence a tender offer to acquire all outstanding shares of Miromatrix for a purchase price of $3.25 per share in cash at closing (an aggregate of approximately $91 million) and an additional $1.75 per share in cash upon the achievement of a clinical development milestone related to Miromatrix’s development-stage, fully-implantable manufactured kidney product known as mirokidney™ by December 31, 2025.

This transaction is not subject to any financing condition and is expected to close in the fourth quarter of 2023, subject to customary closing conditions, including the tender of a majority of the outstanding shares of Miromatrix’s common stock. Following the successful closing of the tender offer, United Therapeutics will acquire any shares of Miromatrix that are not tendered in the tender offer through a second-step merger at the same consideration as paid in the tender offer.

The purchase price payable at closing represents a premium of approximately 170% to the 30-day volume-weighted average trading price of Miromatrix’s common stock ending on October 27, 2023, the last trading day before the announcement of the transaction. Miromatrix’s Board of Directors unanimously recommends that Miromatrix’s stockholders tender their shares in the tender offer.
For United Therapeutics, Gibson, Dunn & Crutcher LLP is acting as legal counsel. For Miromatrix, Piper Sandler is acting as lead financial advisor and Faegre Drinker Biddle & Reath LLP as legal counsel. Craig-Hallum Capital Group LLC also acted as financial advisor to Miromatrix.

About United Therapeutics

At United Therapeutics, our vision and mission are one. We use our enthusiasm, creativity, and persistence to innovate for the unmet medical needs of our patients and to benefit our other stakeholders. We are bold and unconventional. We have fun; we do good. We are the first publicly traded biotech or pharmaceutical company to take the form of a public benefit corporation. Our public benefit purpose is to provide a brighter future for patients through the development of novel pharmaceutical therapies; and technologies that expand the availability of transplantable organs.
