News Release

TORONTO, August 2, 2018

NOT FOR DISTRIBUTION TO U.S. NEWS WIRE SERVICES OR DISSEMINATION IN THE UNITED STATES

SECOND QUARTER FINANCIAL RESULTS

(Note: All dollar amounts in this news release are expressed in U.S. dollars except as otherwise noted. The financial results are prepared using the recognition and measurement requirements of International Financial Reporting Standards except as otherwise noted, and are unaudited.)

Fairfax India Holdings Corporation (TSX: FIH.U) announces a net loss of \$69.6 million in the second quarter of 2018 (\$0.45 net loss per diluted share) compared to net earnings of \$268.6 million in the second quarter of 2017 (\$1.74 net earnings per diluted share), reflecting net unrealized losses on investments.

Highlights in the second quarter of 2018 included the following:

- The second quarter of 2018 included a net change in unrealized losses on investments of \$39.5 million, principally from a decrease in the market price of the company's investment in the public company IIFL that depreciated by \$47.3 million, partially offset by an increase in the fair values in the company's investments in the private companies BIAL of \$8.2 million and Sanmar bonds of \$7.1 million.
- On June 28, 2018 the company amended its secured term loan, increasing the principal amount to \$550.0 million with a syndicate led by a Schedule 1 Canadian bank and extended the term to a 1 year secured term loan with an additional 1 year extension option.
- On May 16, 2018 the company acquired an additional 6.0% equity interest in Bangalore International Airport from Siemens Project Ventures for cash consideration of \$67.4 million (approximately 4.6 billion Indian rupees). Upon closing of this transaction, the company had invested aggregate cash consideration of \$653.0 million (approximately 42.7 billion Indian rupees) for a 54.0% equity interest in Bangalore International Airport. Bangalore International Airport, under a concession agreement with the Government of India until the year 2038 (with the right to extend the agreement for an additional 30 years), has the exclusive rights to carry out the development, design, financing, construction, commissioning, maintenance, operation and management of the Kempegowda International Airport Bengaluru ("KIAB") through a public-private partnership. KIAB is the first greenfield airport in India built through a public-private partnership.
- At June 30, 2018 common shareholders' equity was \$2,056.2 million, or \$13.26 per share, compared to \$2,132.5 million, or \$14.46 per share, at December 31, 2017, a decrease of 8.3% primarily related to unrealized foreign currency translation losses as a result of the weakening of the Indian rupee relative to the U.S. dollar.

There were 155.1 million and 147.4 million weighted average shares outstanding during the second quarters of 2018 and 2017 respectively. At June 30, 2018 there were 125,096,316 subordinate voting shares and 30,000,000 multiple voting shares outstanding.

Fairfax India's detailed second quarter report can be accessed at its website www.fairfaxindia.ca.

Fairfax India is an investment holding company whose objective is to achieve long-term capital appreciation, while preserving capital, by investing in public and private equity securities and debt instruments in India and Indian businesses or other businesses with customers, suppliers or business primarily conducted in, or dependent on, India.
