Management's Discussion and Analysis

The following Management's Discussion and Analysis ("MD&A") for Loblaw Companies Limited and its subsidiaries (collectively, the "Company" or "Loblaw") should be read in conjunction with the Company's second quarter 2016 unaudited interim period condensed consolidated financial statements and the accompanying notes included in this Quarterly Report, the audited annual consolidated financial statements and the accompanying notes for the year ended January 2, 2016 and the related annual MD&A included in the Company's 2015 Annual Report – Financial Review ("2015 Annual Report").

The Company's second quarter 2016 unaudited interim period condensed consolidated financial statements and the accompanying notes have been prepared in accordance with International Financial Reporting Standards ("IFRS" or "GAAP"). These unaudited interim period condensed consolidated financial statements include the accounts of the Company and other entities that the Company controls and are reported in Canadian dollars.

Management uses non-GAAP financial measures to exclude the impact of certain expenses and income that must be recognized under GAAP when analyzing consolidated and segment underlying operating performance, as the excluded items are not necessarily reflective of the Company's underlying operating performance and make comparisons of underlying financial performance between periods difficult. The Company excludes additional items if it believes doing so would result in a more effective analysis of underlying operating performance. The exclusion of certain items does not imply that they are non-recurring. See Section 12 "Non-GAAP Financial Measures" for more information on the Company's non-GAAP financial measures.

A glossary of terms used throughout this Quarterly Report can be found at the back of the Company's 2015 Annual Report.

The information in this MD&A is current to July 26, 2016, unless otherwise noted.

Additional risks and uncertainties are discussed in the Company's materials filed with the Canadian securities regulatory authorities ("securities regulators") from time to time, including, without limitation, the section entitled "Risks" in the Company's 2015 AIF (for the year ended January 2, 2016). The Company did not enter into any significant bond forwards or interest rate swaps in the first half of 2016.

The Company also uses futures, options and forward contracts to manage its anticipated exposure to fluctuations in commodity prices and exchange rates in its underlying operations. 7. Results by Quarter

The 52-week reporting cycle is divided into four quarters of 12 weeks each except for the third quarter, which is 16 weeks in duration.

8. Internal Control over Financial Reporting

Management is responsible for establishing and maintaining a system of disclosure controls and procedures to provide reasonable assurance that all material information relating to the Company and its subsidiaries is gathered and reported to senior management on a timely basis so that appropriate decisions can be made regarding public disclosure.

Management is also responsible for establishing and maintaining adequate internal controls over financial reporting to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial reports for external purposes in accordance with IFRS.

In designing such controls, it should be recognized that due to inherent limitations, any controls, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives and may not prevent or detect misstatements. Additionally, management is required to use judgment in evaluating controls and procedures.

Changes in Internal Control over Financial Reporting There were no changes in the Company's internal control over financial reporting in the second quarter of 2016 that materially affected, or are reasonably likely to materially affect the Company's internal control over financial reporting.

9. Enterprise Risks and Risk Management

A detailed full set of risks inherent in the Company's business are included in the Company's AIF for the year ended January 2, 2016 and the Company's MD&A in the Company's 2015 Annual Report, which are hereby incorporated by reference. The Company's 2015 Annual Report and AIF are available online on www.sedar.com. Those risks and risk management strategies remain unchanged.

10. Accounting Standards

The Company implemented the amendments to International Accounting Standard 1, "Presentation of Financial Statements", in the first quarter of 2016, with no significant impact on the Company's unaudited interim period condensed consolidated financial statements.

10.1 Significant Accounting Policies

Fixed Assets The Company has reassessed and revised the useful life of certain classes of equipment and fixtures from eight to ten years. This revision represents a change in estimate which will result in a current year reduction of depreciation and amortization expense, related to these assets, of approximately $66 million compared to 2015.

11. Outlook[3]

Loblaw remains focused on its strategic framework, delivering the best in food, best in health and beauty, operational excellence and growth. This strategic framework is supported by a financial strategy of maintaining a stable trading environment that targets positive same-store sales and stable gross margin; surfacing efficiencies; delivering synergies as a result of its acquisition of Shoppers Drug Mart; and returning capital to shareholders. In 2016, the Company expects to:

- deliver positive same-store sales and stable gross margin in its Retail segment in a highly competitive grocery market and with continued negative pressure from healthcare reform;
- grow adjusted net earnings;
- invest approximately $1.3 billion in capital expenditures, including $1.0 billion in its Retail segment; and
- return capital to shareholders by allocating a significant portion of free cash flow to share repurchases.

12. Non-GAAP Financial Measures

The Company uses the following non-GAAP financial measures: Retail segment adjusted gross profit, Retail segment adjusted gross profit percentage, EBITDA, adjusted EBITDA, adjusted EBITDA margin, adjusted net interest expense and other financing charges, adjusted income taxes, adjusted income tax rate, adjusted net earnings, adjusted diluted net earnings per common share, free cash flow, retail debt to rolling year retail adjusted EBITDA, rolling year adjusted return on equity, rolling year adjusted return on capital and with respect to Choice Properties: adjusted funds from operations. The Company believes these non-GAAP financial measures provide useful information to both management and investors in measuring the financial performance and financial condition of the Company for the reasons outlined below.

Management uses these and other non-GAAP financial measures to exclude the impact of certain expenses and income that must be recognized under GAAP when analyzing underlying consolidated and segment operating performance, as the excluded items are not necessarily reflective of the Company's underlying operating performance and make comparisons of underlying financial performance between periods difficult. The Company excludes additional items if it believes doing so would result in a more effective analysis of underlying operating performance. The exclusion of certain items does not imply that they are non-recurring.

These measures do not have a standardized meaning prescribed by GAAP and therefore they may not be comparable to similarly titled measures presented by other publicly traded companies and should not be construed as an alternative to other financial measures determined in accordance with GAAP.

Retail Segment Adjusted Gross Profit and Retail Segment Adjusted Gross Profit Percentage The following table reconciles the Retail segment adjusted gross profit to Retail segment gross profit. Retail segment adjusted gross profit percentage is calculated as adjusted Retail segment gross profit divided by Retail segment sales. The Company believes that Retail segment adjusted gross profit is useful in assessing the Retail segment's underlying operating performance and in making decisions regarding the ongoing operations of the business.

Amortization of intangible assets acquired with Shoppers Drug Mart The acquisition of Shoppers Drug Mart in 2014 included approximately $6,050 million of definite life intangible assets, which are being amortized over their estimated useful lives and were recognized in SG&A. Annual amortization associated with the acquired intangibles will be approximately $550 million until 2024, and will decrease thereafter.

Fair value adjustment on fuel and foreign currency contracts The Company is exposed to commodity price and U.S. dollar exchange rate fluctuations. In accordance with the Company's commodity risk management policy, the Company enters into exchange traded futures contracts and forward contracts to minimize cost volatility relating to fuel prices and the U.S. dollar exchange rate. These derivatives are not acquired for trading or speculative purposes. Pursuant to the Company's derivative instruments accounting policy, changes in the fair value of these instruments, which include realized and unrealized gains and losses, are recorded in operating income. Despite the impact of accounting for these commodity and foreign currency derivatives on the Company's reported results, the derivatives have the economic impact of largely mitigating the associated risks arising from price and exchange rate fluctuations in the underlying commodities and U.S. dollar commitments.

Prior year tax assessment During the first quarter of 2016, the province of Ontario enacted retroactive amendments to the Land Transfer Tax Act. The amendments were applicable to land transfer activities between related parties that occurred on or after July 19, 1989. The amendments impacted certain land transfers between the Company and Choice Properties at the time of the initial public offering, resulting in the first quarter of 2016 and year-to-date charge of $10 million to SG&A in the Retail segment.

Fixed asset and other related impairments, net of recoveries At each balance sheet date, the Company assesses and, when required, records impairments and recoveries of previous impairments related to the carrying value of its fixed assets, investment properties and intangible assets.

Pension annuities and buy-outs The Company is undertaking several annuity purchases and pension buy-outs in respect of former employees designed to reduce its defined benefit pension plan obligation and decrease future pension volatility and risks.

Shoppers Drug Mart acquisition-related costs, net of impact from divestitures In the first quarter of 2015, the Company completed all remaining divestitures required by the Competition Bureau and recorded a divestiture loss of $2 million.

Adjusted Net Interest Expense and Other Financing Charges The following table reconciles adjusted net interest expense and other financing charges to net interest expense and other financing charges in the unaudited interim period condensed consolidated statements of earnings for the periods ended June 18, 2016 and June 20, 2015. The Company believes that adjusted net interest expense and other financing charges is useful in assessing the Company's underlying financial performance and in making decisions regarding the financial operations of the business.

Accelerated amortization of deferred financing costs	**—**	(8)	**—**	(11)
Adjusted net interest expense and other financing charges	**$ 128**	$ 131	**$ 253**	$ 262

Fair value adjustment to the Trust Unit Liability The Company is exposed to market price fluctuations as a result of the Units held by unitholders other than the Company. These Units are presented as a liability on the Company's unaudited interim period condensed consolidated balance sheet as they are redeemable for cash at the option of the holder, subject to certain restrictions. This liability is recorded at fair value at each reporting date based on the market price of Units at the end of each period. An increase (decrease) in market price of Units results in a charge (reduction) to net interest expense and other financing charges.

Accelerated amortization of deferred financing costs The Company records charges related to accelerated amortization of deferred financing costs due to early repayments of debt.

Adjusted Income Taxes and Adjusted Income Tax Rate The Company believes adjusted income taxes is useful in assessing the underlying operating performance and in making decisions regarding the ongoing operations of its business.

(i) See reconciliations of adjusted operating income and adjusted net interest expense and other financing charges above.
(ii) See the EBITDA, adjusted EBITDA and adjusted EBITDA margin table and the adjusted net interest expense and other financing charges table above for a complete list of items included in adjusted earnings before taxes.

Adjusted income tax rate is calculated as adjusted income taxes divided by the sum of adjusted operating income less adjusted net interest expense and other financing charges.

Statutory corporate income tax rate change The Company's deferred income tax assets and liabilities are impacted by changes to provincial and federal statutory corporate income tax rates resulting in a charge or benefit to earnings. The Company implements changes in the statutory corporate income tax rate in the same period the change is substantively enacted by the legislative body.

In the first quarter of 2016, the government of New Brunswick announced an increase to the statutory corporate income tax rate from 12% to 14% effective April 1, 2016 that was enacted in the first quarter. As a result, Loblaw recorded a charge related to the remeasurement of deferred tax assets and liabilities.

Note 1. Nature and Description of the Reporting Entity

Loblaw Companies Limited is a Canadian public company incorporated in 1956 and is Canada's food and pharmacy leader, the nation's largest retailer and the majority unitholder of Choice Properties Real Estate Investment Trust ("Choice Properties"). Loblaw provides Canadians with grocery, pharmacy, health and beauty, apparel, general merchandise, retail banking, credit card services, insurance and wireless mobile products and services. Its registered office is located at 22 St. Clair Avenue East, Toronto, Canada M4T 2S7. Loblaw Companies Limited and its subsidiaries are together referred to, in these consolidated financial statements, as the "Company" or "Loblaw".

The Company's controlling shareholder is George Weston Limited ("Weston") which owns approximately 46% of the Company's outstanding common shares. The Company's ultimate parent is Wittington Investments, Limited. The remaining common shares are widely held.

The Company has three reportable operating segments: Retail, Financial Services and Choice Properties (see note 20). As at the end of the second quarter of 2016, Loblaw held an effective interest in Choice Properties of 82.8% (2015 – 83.1%).

The Company's business is affected by seasonality and timing of holidays, relative to the Company's interim periods. Accordingly, quarterly performance is not necessarily indicative of annual performance. Historically, the Company has earned more revenue in the fourth quarter relative to the preceding quarters in the Company's fiscal year.

Note 2. Significant Accounting Policies

The significant accounting policies and critical accounting estimates and judgments as disclosed in the Company's 2015 audited annual consolidated financial statements have been applied consistently in the preparation of these unaudited interim period condensed consolidated financial statements. These unaudited interim period condensed consolidated financial statements are presented in Canadian dollars.

Statement of Compliance

The unaudited interim period condensed consolidated financial statements are prepared in accordance with International Financial Reporting Standards and International Accounting Standard 34, "Interim Financial Reporting" as issued by the International Accounting Standards Board. The unaudited interim period condensed consolidated financial statements should be read in conjunction with the Company's 2015 audited annual consolidated financial statements and accompanying notes.

These unaudited interim period condensed consolidated financial statements were authorized for issuance by the Company's Board of Directors ("Board") on July 26, 2016.

Accounting Standards Implemented in 2016

The Company implemented the amendments to International Accounting Standard 1, "Presentation of Financial Statements", in the first quarter of 2016, with no significant impact on the Company's unaudited interim period condensed consolidated financial statements.

Changes in Accounting Estimates

Fixed Assets The Company has reassessed and revised the useful life of certain classes of equipment and fixtures from eight to ten years. This revision represents a change in estimate which will result in a current year reduction of depreciation and amortization expense, related to these assets, of approximately $66 million compared to 2015.

Note 3. Business Acquisitions

Consolidation of Franchises The Company consolidates certain of its franchisees as of the date the franchisee entered into a new franchise agreement with the Company. The assets acquired and liabilities assumed through the consolidation were valued at the acquisition date using fair values, which approximate the franchise carrying values at the date of acquisition. The results of operations of the acquired franchises were included in the Company's results of operations from the date of acquisition.

The following table summarizes the amounts recognized for the assets acquired, the liabilities assumed and the non-controlling interests recognized at the acquisition date during the periods:

(millions of Canadian dollars)	**June 18, 2016 (12 weeks)**	June 20, 2015 (12 weeks)	**June 18, 2016 (24 weeks)**	June 20, 2015 (24 weeks)

(millions of Canadian dollars)	
Net Assets Acquired:	
Fixed assets	$ 16
Inventories	1

Goodwill	21
Total Net Assets Acquired	$ 41

Goodwill is attributable to synergies expected from integrating the store into the Company's existing franchise network. The goodwill is deductible for tax purposes.

Note 5. Income Taxes

Income tax expense for the second quarter of 2016 was $125 million (2015 – $121 million) and the effective income tax rate was 44.5% (2015 – 39.4%). Year-to-date income tax expense was $217 million (2015 – $197 million) and the effective tax rate was 38.8% (2015 – 37.2%).The increase in the effective tax rate was primarily attributable to an increase in the non-deductible fair value adjustment to the Trust Unit Liability, an increase in current tax as a result of an increase in the Alberta statutory corporate income tax rate from 10.0% to 12.0% enacted in the second quarter of 2015 and an increase in certain other non-deductible items, partially offset by a decrease in deferred tax expense related to the re-measurement in the second quarter of 2015 of the Company's deferred tax liabilities resulting from the increase in the Alberta statutory corporate income tax rate. The year-to-date effective income tax rate also included the increase in deferred tax expense as a result of the increase in the New Brunswick statutory corporate income tax rate.

In the first quarter of 2016, the government of New Brunswick announced an increase to the statutory corporate income tax rate from 12.0% to 14.0%. As a result, the Company recorded a charge of $3 million in the first quarter of 2016 and year-to-date related to the re-measurement of its deferred tax liabilities.

There were no transfers between levels of the fair value hierarchy during the period presented.

During the second quarter of 2016, the Company recognized a loss of $4 million (2015 – loss of $2 million) and a loss of $9 million year-to-date (2015 – gain of $1 million) in operating income on financial instruments designated as fair value through profit or loss. In addition, during the second quarter of 2016, a net loss of $116 million (2015 – gain of $30 million) and a net loss of $148 million year-to-date (2015 – loss of $8 million) was recorded in earnings before income taxes related to financial instruments required to be classified as fair value through profit or loss.

Level 3 Financial Instruments

Franchise Loans Receivable and Franchise Investments The value of Loblaw franchise loans receivable of $300 million (June 20, 2015 – $384 million; January 2, 2016 – $329 million) was recorded on the condensed consolidated balance sheet. In the second quarter of 2016 and year-to-date, the Company recorded a nominal loss (2015 – nominal loss) in operating income related to these loans receivable.

The value of Loblaw franchise investments of $49 million (June 20, 2015 – $61 million; January 2, 2016 – $54 million) was recorded in other assets. During the second quarter of 2016, the Company recorded a gain of $3 million (2015 – loss of $2 million) and a gain of $3 million year-to-date (2015 – loss of $4 million) in operating income related to these investments.

Embedded Derivatives The Company's level 3 financial instruments classified as fair value through profit or loss consist of embedded derivatives on purchase orders placed in neither Canadian dollars, nor the functional currency of the vendor. These derivatives are valued using a market approach based on the differential in exchange rates and timing of settlement. The significant unobservable input used in the fair value measurement is the cost of purchase orders. Significant increases (decreases) in any one of the inputs could result in a significantly higher (lower) fair value measurement.

During the second quarter of 2016, a nominal loss (2015 – gain of $4 million) and a gain of $11 million year-to-date (2015 – gain of $4 million) was recorded in operating income. As at June 18, 2016, a 1% increase (decrease) in foreign currency exchange rates would result in a $1 million gain (loss) in fair value.

Trust Unit Liability During the second quarter of 2016, the Company recorded a fair value loss of $108 million (2015 – gain of $33 million) and a loss of $140 million year-to-date (2015 – loss of $25 million) in net interest expense and other financing charges related to Choice Properties' Trust Units ("Units") (note 4).

Other Derivatives The Company uses bond forwards and interest rate swaps, to manage its anticipated exposure to fluctuations in interest rates on future debt issuances. The Company also uses futures, options and forward contracts to manage its anticipated exposure to fluctuations in commodity prices and exchange rates in its underlying operations. The following is a summary of the fair values recognized in the consolidated balance sheet and the net realized and unrealized gains (losses) before income taxes related to the Company's other derivatives:

Note 18. Contingent Liabilities

The Company is involved in, and potentially subject to, various claims by third parties arising out of the normal course and conduct of its business including product liability, labour and employment, regulatory and environmental claims. In addition, the Company is involved in and potentially subject to regular audits from federal and provincial tax authorities relating to income, capital, commodity, property and other taxes and as a result of these audits may receive assessments and reassessments. Although such matters cannot be predicted with certainty, management currently considers the Company's exposure to such claims and litigation, tax assessments and reassessments, to the extent not covered by the Company's insurance policies or otherwise provided for, not to be material to the unaudited interim period condensed consolidated financial statements, but may have a material impact in future periods.

Legal Proceedings The Company is the subject of various legal proceedings and claims that arise in the ordinary course of business. The outcome of all of these proceedings and claims is uncertain. However, based on information currently available, these proceedings and claims, individually and in the aggregate, are not expected to have a material impact on the Company.

On August 26, 2015, the Company was served with a proposed class action, which was commenced in the Ontario Superior Court of Justice against the Company and certain subsidiaries, Weston and others in connection with the collapse of the Rana Plaza complex in Dhaka, Bangladesh in 2013. The claim seeks approximately $2 billion in damages. The Company believes the class action is without merit and intends to vigorously defend itself against any claims arising out of any such action.

Shoppers Drug Mart Corporation ("Shoppers Drug Mart") has been served with an Amended Statement of Claim in a class action proceeding that has been filed in the Ontario Superior Court of Justice by two licensed Associates, claiming various declarations and damages resulting from Shoppers Drug Mart's alleged breaches of the Associate Agreement, in the amount of $500 million. The class action comprises all of Shoppers Drug Mart's current and former licensed Associates residing in Canada, other than in Québec, who are parties to Shoppers Drug Mart's 2002 and 2010 forms of the Associate Agreement. On July 9, 2013, the Ontario Superior Court of Justice certified as a class proceeding portions of the action. The Court imposed a class closing date based on the date of certification. New Associates after July 9, 2013 are not members of the class. While Shoppers Drug Mart continues to believe that the claim is without merit and will vigorously defend the claim, the outcome of this matter cannot be predicted with certainty.

Tax The Company is subject to tax audits from various government and regulatory agencies on an ongoing basis. As a result, from time to time, taxing authorities may disagree with the positions and conclusions taken by the Company in its tax filings or legislation could be amended or interpretations of current legislation could change, any of which events could lead to reassessments. These reassessments could have a material impact on the Company in future periods.

The Company has been reassessed by the Canada Revenue Agency ("CRA") and the Ontario Ministry of Finance on the basis that certain income earned by Glenhuron Bank Limited, a wholly owned Barbadian subsidiary, should be treated, and taxed, as income in Canada. The reassessments are for the 2000 to 2011 taxation years and total $351 million including interest and penalties as at the time of reassessment. The Company believes it is likely that the CRA will issue reassessments for the 2012 and 2013 taxation years on the same or similar basis. The Company strongly disagrees with the CRA's position and has filed a Notice of Appeal for the 2000 to 2010 taxation years and intends to file a Notice of Objection for the 2011 taxation year. No amount for any reassessments has been provided for in the Company's consolidated financial statements.

Indemnification Provisions The Company from time to time enters into agreements in the normal course of its business, such as service and outsourcing arrangements, lease agreements in connection with business or asset acquisitions or dispositions, and other types of commercial agreements. These agreements by their nature may provide for indemnification of counterparties. These indemnification provisions may be in connection with breaches of representations and warranties or in respect of future claims for certain liabilities, including liabilities related to tax and environmental matters. The terms of these indemnification provisions vary in duration and may extend for an unlimited period of time. In addition, the terms of these indemnification provisions vary in amount and certain indemnification provisions do not provide for a maximum potential indemnification amount. Indemnity amounts are dependent on the outcome of future contingent events, the nature and likelihood of which cannot be determined at this time. As a result, the Company is unable to reasonably estimate its total maximum potential liability in respect of indemnification provisions. Historically, the Company has not made any significant payments in connection with these indemnification provisions.

Note 19. Restructuring and Other Related Costs

In the second quarter of 2016 and year-to-date, the Company recorded an additional charge related to store closures of approximately $43 million and $44 million, respectively, primarily related to the closure of the remaining Joe Fresh retail location in the U.S. In 2015, the Company finalized a plan that will, upon its completion, result in the closure of approximately 52 unprofitable retail locations across a range of banners and formats. As at June 18, 2016, the Company closed 50 stores and expects the closure of the remaining two stores to be completed in the second half of 2016.

In 2015, the Company began actively marketing the sale of certain assets of the Shoppers Drug Mart ancillary healthcare business and recorded asset impairments on these assets and other related restructuring charges. In the second quarter of 2016, the Company signed agreements for the sale of a portion of these assets. No further charges related to these assets were recorded in the second quarter of 2016 and year-to-date. In addition, the Company ceased actively marketing the remaining assets and restructured those assets as part of ongoing operations. As a result, the Company recorded a charge of $4 million related to inventory impairment and reversed $8 million of previous asset impairments and other related restructuring charges in the second quarter of 2016.

Note 20. Segment Information

The Company has three reportable operating segments with all material operations carried out in Canada:

- The Retail segment consists primarily of corporate and franchise-owned retail food and Associate-owned drug stores, and includes in-store pharmacies and other health and beauty products, gas bars and apparel and other general merchandise. This segment is comprised of several operating segments that are aggregated primarily due to similarities in the nature of products and services offered for sale in the retail operations and the customer base;
- The Financial Services segment provides credit card services, loyalty programs, insurance brokerage services, personal banking services provided by a major Canadian chartered bank, deposit taking services and telecommunication services; and
- The Choice Properties segment owns and leases income-producing commercial properties. The Choice Properties segment information presented below reflects the accounting policies of Choice Properties, which may differ from those of the consolidated Company. Differences in policies are eliminated in Consolidation and Eliminations.

The Company's chief operating decision maker evaluates segment performance on the basis of adjusted EBITDA(2) and adjusted operating income(2), as reported to internal management, on a periodic basis.
