December 31, 2023

(This page intentionally left blank.)

April 5, 2024

Dear Shareholders,

2023 was another record year for Redwood Capital Bancorp (“the Company”) and Redwood Capital Bank (“the Bank”). As we acknowledge the Bank’s seventeenth consecutive year of profitability, the Board of Directors and senior management remain encouraged by the Bank’s continued success. With shareholder value and community service as core values, the Company’s strong performance and financial position continue to increase our ability to serve all of our stakeholders.

On March 24, 2024, Redwood Capital Bank marked its 20-year milestone! We have certainly come a long way from where we began, with one main branch and 16 founding employees, to now, four, full-service branch locations and 80 employees strong. While much has changed over the past 20 years, we continue to take great pride in our relationship-focused business model and remain honored to serve our customers and shareholders as Humboldt County’s local choice for community banking.

Last year, the Bank garnered four prestigious awards for its financial performance and customer service. The Bank received the distinction of being one of California’s *Super Premier Performing Banks* by *The Findley Reports* and the *5-Star* designation from Bauer Financial, Inc. These are the highest ratings available from both well-known and respected bank rating firms. Locally, readers of the *Times-Standard* voted Redwood Capital Bank as the “Best Bank” in their annual *Best of the North Coast Reader’s Choice Awards*. In 2023, the Bank was named the #1 SBA Lender in Humboldt County for the 8<sup>th</sup> consecutive year. Additionally, the Bank received the following recognition from the Humboldt County Listeners’ Choice awards this past January: Gold Medal Best Bank, Gold Medal Best Commercial Lender, Gold Medal Best Mortgage Lending and Silver Medal Best Place to Work. We are grateful to be recognized by these reputable organizations and these distinctions are another demonstration of our financial strength and security.

At year-end 2023, the Company’s net income after taxes was \$7 million, or \$3.58 per common share, fully diluted. A strong balance sheet and expense control were key drivers for the Company’s earnings. Total loans grew by 2.38%. As a result of continued excellent credit quality, in 2023 the Loan Loss Reserves increased 2.44% to \$6 million. Loan Loss Reserves equal 1.58% of total loans as of year-end 2023. Deposits decreased 2.34% for the year, increasing the Bank’s Leverage Capital Ratio to 12.09% compared to 10.62% at year-end 2022, exceeding the regulatory benchmark for well-capitalized institutions of 5.00%. The balance sheet remains very strong and is well positioned.

Maximizing shareholder wealth continues to be a top priority for the Company. In June of 2012, the Company paid its first quarterly cash dividend of \$0.05 per share. As of third quarter 2023, the Company paid its 47<sup>th</sup> consecutive quarterly cash dividend, of \$0.08 per share. As of year-end 2023, the Company’s stock was trading at \$22.55 per share with a book value per share of \$23.57.

On behalf of our staff, senior management team and Board of Directors, thank you for the trust you have placed in us and the relationships we have developed over the past 20 years. Taking care of our shareholders and customers is paramount to how we do business. We look forward to seeing you in-person at our Annual Shareholder Meeting on Wednesday, May 15, 2024, at 6:00 p.m. at the Sequoia Conference Center, located at 901 Myrtle Avenue in Eureka.

Sincerely,

REDWOOD CAPITAL BANCORP

John E. Dalby

## INDEPENDENT AUDITOR'S REPORT

The Shareholders and  
Board of Directors  
Redwood Capital Bancorp and Subsidiary  
Eureka, California

### Opinion

We have audited the accompanying consolidated financial statements of Redwood Capital Bancorp and Subsidiary, which comprise the consolidated balance sheets as of December 31, 2023 and 2022, and the related consolidated statements of operations, comprehensive income, changes in shareholders' equity and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Redwood Capital Bancorp and Subsidiary, as of December 31, 2023 and 2022, and the results of their operations, comprehensive income and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

### Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Redwood Capital Bancorp and Subsidiary, and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Redwood Capital Bancorp and Subsidiary's ability to continue as a going concern within one year after the date that the consolidated financial statements are available to be issued.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

The Shareholders and  
Board of Directors  
Redwood Capital Bancorp and Subsidiary

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Redwood Capital Bancorp and Subsidiary's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about Redwood Capital Bancorp and Subsidiary's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2023 and 2022

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Business: Redwood Capital Bancorp (the Company), formed in 2007, is a bank holding company whose principal activity is the ownership and management of its wholly owned subsidiary, Redwood Capital Bank (the Bank). The Bank was incorporated on November 3, 2003, and commenced operations on March 24, 2004. The Bank is subject to regulation, supervision, and regular examination by the California Department of Financial Protection and Innovation (DFPI) and the Federal Deposit Insurance Corporation (FDIC). The regulations of these agencies govern most aspects of the Bank's business. The financial statements of the Company are prepared in conformity with generally accepted accounting principles and general practices within the banking industry. The following is a summary of the significant accounting and reporting policies used in preparing these financial statements.

Principles of Consolidation: The consolidated financial statements include the accounts of the Company and the Bank. All material intercompany accounts and transactions have been eliminated.

Nature of Operations: The Bank provides commercial, industrial, agricultural, residential and personal credit and other banking services through its branches located in Eureka, Fortuna, and Arcata, California.

Use of Estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The determination of the adequacy of the allowance for loan losses is based on estimates that are particularly susceptible to significant changes in the economic environment and market conditions. In connection with the determination of the estimated losses on loans, management obtains independent appraisals for significant collateral. The Company's loans are generally secured by specific items of collateral including real property, consumer assets, and business assets. Although the Company has a diversified loan portfolio, a substantial portion of its debtors' ability to honor their contracts is dependent on local economic conditions. While management uses available information to recognize losses on loans, further reductions in the carrying amounts of loans may be necessary based on changes in local economic conditions. Because of these factors, it is reasonably possible that the estimated losses on loans may change materially in the near term. However, the amount of the change that is reasonably possible cannot be estimated.

Debt Securities: Debt securities are classified as held-to-maturity and carried at amortized cost when the Company has both the positive intent and ability to hold those debt securities to maturity. Debt securities are classified as available-for-sale when they might be sold before maturity. Securities available-for-sale are carried at fair value, with unrealized holding gains and losses reported in other comprehensive income, net of tax.

Interest income includes amortization of purchase premium or discount. Premiums and discounts on securities are amortized on the level-yield without anticipated prepayments, except for mortgage-backed securities where prepayments are anticipated. Premiums on callable debt securities are amortized to their earliest call date. Gains and losses on sales are recorded on the trade date and determined using the specific identification method.

A debt security is placed on nonaccrual status at the time principal or interest becomes 90 days delinquent. Interest accrued but not received for a security placed on non-accrual is reversed against interest income.

Nearly all the mortgage-backed consist of residential securities held by the Company and issued by U.S. government entities and agencies. These securities are either explicitly or implicitly guaranteed by the U.S. government, are highly rated by major rating agencies, and have long history of no credit losses.

Allowance for Credit Losses – Available-For-Sale Securities: For available-for-sale debt securities in a unrealized loss position, the Company first assesses whether it intends to sell, or it is more likely than not that it will be required to sell the security before recovery of its amortized cost basis. If either of the criteria regarding intent or requirement to sell is met, the security's amortized cost basis is written down to fair value through income. For debt securities available-for-sale that do not meet the aforementioned criteria, the Company evaluates whether the decline

REDWOOD CAPITAL BANCORP AND SUBSIDIARY  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2023 and 2022

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

in fair value has resulted from credit losses or other factors. In making this assessment, management considers the extent to which fair value is less than amortized cost, any changes to the rating of the security by a rating agency, and adverse conditions specifically related to the security. If the present value of cash flows expected to be collected is less than the amortized cost basis, a credit loss exists and an allowance for credit losses is recorded for the credit loss, limited by the amount that the fair value is less than the amortized cost basis. Any impairment that has not been recorded through an allowance for credit losses is recognized in other comprehensive income.

Changes in the allowance for credit losses are recorded as a credit loss expense (or reversal). Losses are charged against the allowance when management believes the uncollectability of an available-for-sale security is confirmed or when either of the criteria regarding intent or requirement to sell is met.

Accrued interest receivable on available-for-sale debt securities totaled \$82,681 on December 31, 2023 and is excluded from the estimate of credit losses.

Mortgages Held for Sale: Mortgage loans originated and intended for sale in the secondary market are carried at the lower of aggregate cost or fair value, as determined by outstanding commitments from investors. Net unrealized losses, if any, are recorded as a valuation allowance and charged to earnings.

Mortgage loans held for sale are generally sold with servicing rights retained. The carrying value of mortgage loans sold is reduced by the amount allocated to the servicing right. Gains and losses on sales of mortgage loans are based on the difference between the selling price and the carrying value of the related loan sold.

Loans: Loans are stated at the amount of unpaid principal, including unamortized premiums, reduced by net deferred loan fees. Premiums are recognized over the estimated life of the loan as yield adjustments. Loan origination fees, net of direct origination costs, are deferred and recognized as an adjustment of the yield on the related loan. Amortization of net deferred loan fees is discontinued when the loan is placed on nonaccrual status. Interest on loans is accrued and credited to income based on the principal amount outstanding.

Loans are generally classified as nonaccrual if they are past due as to maturity or payment of principal or interest for a period of more than 90 days, unless such loans are well-secured and in the process of collection. If a loan or a portion of a loan is classified as doubtful or is partially charged off, the loan is classified as nonaccrual. Loans that are on a current payment status or past due less than 90 days may also be classified as nonaccrual if repayment in full of principal and/or interest is in doubt.

Loans may be returned to accrual status when all principal and interest amounts contractually due (including arrearages) are reasonably assured of repayment within an acceptable period of time, and there is a sustained period of repayment performance by the borrower, in accordance with the contractual terms of interest and principal.

While a loan is classified as nonaccrual and the future collectability of the recorded balance is doubtful, collections of interest and principal are generally applied as a reduction to the principal outstanding. When the future collectability of the recorded balance is expected, interest income may be recognized on a cash basis. In the case where a nonaccrual loan had been partially charged off, recognition of interest on a cash basis is limited to that which would have been recognized on the recorded balance at the contractual interest rate. Cash interest receipts in excess of that amount are recorded as recoveries to the allowance for loan losses until prior charge-offs have been fully recovered.

Allowance for Credit Losses - Loans: The allowance for credit losses is a valuation account that is deducted from or added to the loans' amortized cost basis to present the net amount expected to be collected on the loans. Loans are charged off against the allowance when management believes the uncollectability of a loan balance is confirmed. Expected recoveries do not exceed the aggregate of amounts previously charged-off and expected to be charged-off.

Management estimates the allowance balance using relevant available information, from internal and external sources, relating to past events, current conditions, and reasonable and supportable forecasts. Historical credit loss experience provides the basis for the estimation of expected credit losses. Adjustments to historical loss information

REDWOOD CAPITAL BANCORP AND SUBSIDIARY  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

are made for the differences in current loan-specific risk characteristics such as differences in underwriting standards, portfolio mix, delinquency level, or term as well as for changes in environmental conditions, such as changes in unemployment rate, property values, or other relevant factors.

The allowance for credit losses is measured on a collective (pool) basis when similar risk characteristics exist. The Company has identified portfolio segments and measures the allowance for credit losses using the regression method with analysis of historical loss rates and economic metrics, and qualified look forward.

Loans that do not share risk characteristics are evaluated on an individual basis. Loans evaluated individually are not also included in the collective evaluation. When management determines that foreclosure is probable, expected credit losses are based on the fair value of the collateral as of the reporting date, adjusted for selling costs as appropriate.

When the discounted cash flow method is used to determine the allowance for credit losses, management does not adjust the effective interest rate used to discount expected cash flow to incorporate expected prepayments.

Expected credit losses are estimated over the contractual term of the loans, adjusted for expected prepayments when appropriate. The contractual term excludes expected extensions, renewals, and modifications unless either of the following applies: management has a reasonable expectation at the reporting date that a troubled debt restructuring will be executed with an individual borrower, or the extension or renewal options are included in the original or modified contract at the reporting date and are not unconditionally cancellable by the Company.

Allowance for Credit Losses on Off-Balance Sheet Credit Exposures: The Company estimates expected credit losses over the contractual period in which the Company is exposed to credit risk via a contractual obligation to extend credit unless that obligation is unconditionally cancellable by the Company. The allowance for credit losses on off-balance sheet credit exposures is adjusted through credit loss expense. The estimate includes consideration of the likelihood that funding will occur, and an estimate of expected credit losses on commitments expected to be funded over its estimated life.

Leases: Leases are classified as operating or finance leases as of the lease commencement date. The Company leases certain bank branch buildings, as discussed in Note Q. The Company records leases on the balance sheet in the form of a lease liability for the present value of future minimum payments under the lease terms and a right-of-use asset equal to the lease liability adjusted for items such as deferred or prepaid rent, lease incentives, and an impairment of the right-of-use asset, if applicable. The discount rate used in determining the lease liability is based upon incremental borrowing rates the Company could obtain for similar loans as of the date of commencement or renewal. The Company does not record leases on the consolidated balance sheets that are classified as short term (less than one year).

At lease inception, the Company determines the lease term by considering the minimum lease term and all optional renewal periods that the Company is reasonably certain to renew. The lease term is also used to calculate straight-line rent expense. The depreciable life of leasehold improvements is limited by the estimated lease term, including renewals if they are reasonably certain to be renewed. The Company's leases do not contain residual value guarantees or material variable lease payments that will impact the Company's ability to pay dividends or cause the Company to incur additional expenses.

Operating lease expense consists of a single lease cost allocated over the remaining lease term on a straight-line basis, variable lease payments not included in the lease liability, and any impairment of the right-of-use asset. Rent expense and variable lease expense are included in occupancy and equipment expense on the Company's consolidated statements of operations. The Company's variable lease expense includes rent escalators that are based on market conditions. The amortization of the right-to-use asset arising from financing leases is expensed through occupancy and equipment expense and the interest on the related lease liability is expensed through interest expense on borrowings on the Company's consolidated statements of income. The Company does not currently have any financing leases.

REDWOOD CAPITAL BANCORP AND SUBSIDIARY  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2023 and 2022

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Premises and Equipment: Premises and equipment are stated at cost, less accumulated depreciation and amortization. The provision for depreciation and amortization is computed principally by the straight-line method over estimated useful lives of the related assets.

Investment in Federal Home Loan Bank Stock: As a member of the Federal Home Loan Bank (FHLB) System, the Bank is required to maintain an investment in capital stock of the FHLB. The investment exceeds the minimum requirement at December 31, 2023 and 2022. The investment is stated at cost in the accompanying balance sheets and is reported as part of other assets.

Mortgage Servicing Rights: When mortgage loans are sold with servicing retained, servicing rights are initially recorded at fair value with the income statement effect recorded in mortgage banking revenue. Fair value is based on market prices for comparable mortgage servicing contracts, when available, or alternatively, is based on a valuation model that calculates the present value of estimated future net servicing income.

Under the fair value measurement method, the Company measure servicing rights at fair value at each reporting date and reports changes in fair value of servicing assets in earnings in the period in which the changes occur, and are included with mortgage banking revenue, net on the income statement. The fair values of servicing rights are subjected to significant fluctuations as a result of changes in estimated and actual prepayment speeds and default rates and losses. Servicing fee income, which is reported on the income statement as mortgage banking revenue, net, is recorded for fees earned for servicing loans. The fees are based on a contractual percentage of the outstanding principal; or a fixed amount per loan and are recorded as income when earned.

Retirement Plans: Retirement plan expense is the net of service and interest cost and amortization of gains and losses not immediately recognized. Employee 401(k) expense is the amount of matching contributions. Retirement plan expense allocates the benefits over years of service.

Income Taxes: Provisions for income taxes are based on amounts reported in the statements of operations (after exclusion of non-taxable income such as interest on state and municipal securities) and include deferred taxes on temporary differences in the recognition of income and expense for tax and financial statement purposes. Deferred taxes are computed using the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. Deferred tax assets are recognized for deductible temporary differences and tax credit carryforwards, and then a valuation allowance is established to reduce that deferred tax asset if it is “more likely than not” that the related tax benefits may not be realized.

Net Income Per Share of Common Stock: Net income per share of common stock is computed by dividing net income by the weighted average number of shares of common stock outstanding during the year, after giving retroactive effect to stock dividends and splits. Net income per share assuming dilution is computed similar to net income per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the dilutive potential common shares had been issued. Included in the denominator is the dilutive effect of stock options computed under the treasury method.

Advertising: Advertising costs are charged to operations in the year incurred.

Off-Balance-Sheet Financial Instruments: In the ordinary course of business the Company has entered into off-balance sheet financial instruments consisting of commitments to extend credit and standby letters of credit. Such financial instruments are recorded in the financial statements when they become payable.

Stock-Based Compensation Accounting: Compensation cost is recognized for restricted stock awards issued to employees, based on the fair value of these awards at the date of grant. The market price of the Company’s common stock at the date of grant is used as fair value for restricted stock awards.

REDWOOD CAPITAL BANCORP AND SUBSIDIARY  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2023 and 2022

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Compensation cost is recognized over the required service period, generally defined as the vesting period. For awards with graded vesting, compensation cost is recognized on a straight-line basis over the requisite service period for the entire award. The Company's accounting policy is to recognize forfeitures as they occur.

Operating Segments: Reportable segments are based on products and services, geography, legal structure, management structure and any other manner in which management desegregates a company for making operating decisions and assessing performance. The Company has determined that its business is comprised of a single operating segment.

Cash and Cash Equivalents: For the purpose of presentation in the Statement of Cash Flows, cash and cash equivalents are defined as those amounts included in the balance sheet caption "Cash and due from banks," "Federal funds sold" and "interest-bearing deposits in other financial institutions."

Subsequent events: The Company has evaluated subsequent events for recognition and disclosure through March 25, 2024, which is the date the financial statements were available to be issued.

New Pronouncements: On January 1, 2023, the Company adopted ASU 2016-13 *Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*, as amended, which replaces the incurred loss methodology with an expected loss methodology that is referred to as the current expected credit loss (CECL) methodology. The measurement of expected credit losses under the CECL methodology is applicable to financial assets measured at amortized cost, including loan receivables and held-to-maturity debt securities. It also applies to off-balance sheet credit exposures not accounted for as insurance (loan commitments, standby letters of credit, financial guarantees, and other similar instruments) and net investments in leases recognized by a lessor in accordance with Topic 842 on leases. In addition, ASC 326 made changes to the accounting for available-for-sale debt securities. One such change is to require credit losses to be presented as an allowance rather than as a write-down on available-for-sale debt securities management does not intend to sell or believes that it is more likely than not they will be required to sell.

The Company adopted ASC 326 using the modified retrospective method for all financial assets measured at amortized cost, and off-balance-sheet (OBS) credit exposures. Results for reporting periods beginning after January 1, 2023, are presented under ASC 326 while prior period amounts continue to be reported in accordance with previously applicable GAAP. The implementation of ASC 326 did not have a significant impact on retained earnings as of January 1, 2023.

NOTE B – RESTRICTIONS ON CASH AND DUE FROM BANKS

Cash and due from banks include amount the Bank is required to maintain to meet certain average reserve and compensating balance requirements of the Federal Reserve Bank. The Federal Reserve Bank suspended the reserve requirement due to the COVID-19 pandemic. Consequently, the Bank did not have a reserve requirement with the Federal Reserve Bank at December 31, 2023 and 2022.

| U.S. Treasury Notes                      | \$ 22,530,722        |                     | \$ (2,056,698)         | \$ 20,474,024        |
| U.S. government agency securities        | 3,999,741            |                     | (351,557)              | 3,648,184            |
| Small Business Administration Securities | 3,211,404            | \$ 3,058            | (67,613)               | 3,146,849            |
| Mortgage-backed securities               | 31,355,243           | 313                 | (4,623,665)            | 26,731,891           |
| Municipal securities                     | 10,853,746           | 616                 | (2,502,409)            | 8,351,953            |
| Collateralized mortgage obligations      | 13,117,240           | 1,406               | (1,268,198)            | 11,850,448           |
| Total                                    | <u>\$ 85,068,096</u> | <u>\$ 5,393</u>     | <u>\$ (10,870,140)</u> | <u>\$ 74,203,349</u> |

The maturities of investment securities at December 31, 2023 were as follows:

|                                  | Available-for-Sale   |                      |
|----------------------------------|----------------------|----------------------|
|                                  | Amortized<br>Cost    | Fair<br>Value        |
| Due within one year              | \$ 4,102,950         | \$ 4,061,627         |
| Due from one year to five years  | 24,427,723           | 22,518,122           |
| Due from five years to ten years | 6,724,769            | 6,094,327            |
| Due after ten years              | 48,183,036           | 41,807,855           |
|                                  | <u>\$ 83,438,478</u> | <u>\$ 74,481,931</u> |

The amortized cost and fair value of mortgage-backed securities and collateralized mortgage obligations are presented by contractual maturity in the preceding table. Expected maturities will differ from contractual maturities because borrowers may have the right to call or prepay obligations without call or prepayment penalties.

There were no sales of investment securities available-for-sale during 2023 and 2022.

At December 31, 2023 and 2022, there were no holding of securities of any one issuer, other than the U.S. Government and its agencies, in an amount greater than 10% of shareholders equity.

Investment securities with an amortized cost of \$20,723,265 and a fair value of \$19,038,851 at December 31, 2023 were pledged to secure public deposits. Investment securities with an amortized cost of \$17,149,400 and a fair value of \$15,959,068 at December 31, 2022 were pledged to secure public deposits.

As of December 31, 2023, the Company's security portfolio consisted of 126 securities, 118 of which were in an unrealized loss position. The majority of unrealized losses, other than in U.S. Government and its agencies, are related to the Company's mortgage-backed and municipal securities, as discussed below.

At December 31, 2023, the mortgage-backed securities held by the Company were issued by U.S. government-sponsored entities and agencies and the municipal securities held by the Company were of high credit quality (rated AA or higher). Because the decline in fair value is attributable to changes in interest rates and illiquidity, and not credit quality, and because the Company does not have the intent to sell these securities and it is likely that it will not be required to sell the securities before their anticipated recovery, the Company does not consider these securities to be other-than-temporarily impaired at December 31, 2023.

NOTE D – LOANS, NET

Major classifications of loans at December 31 are summarized as follows:

|                                                                                                            | 2023                  | 2022                  |
|------------------------------------------------------------------------------------------------------------|-----------------------|-----------------------|
| Commercial real estate, including unamortized purchase premiums of \$225,090 in 2023 and \$438,686 in 2022 | \$ 293,976,692        | \$ 289,624,278        |
| Commercial loans, including unamortized purchase premiums of \$469,269 in 2023 and \$626,111 in 2022       | 41,728,944            | 36,235,394            |
| Construction and land loans                                                                                | 9,253,312             | 12,118,446            |
| Residential real estate                                                                                    | 18,588,678            | 16,894,480            |
| Loans to individuals                                                                                       | 21,224,056            | 20,684,086            |
| Agricultural                                                                                               | 3,777,406             | 3,976,167             |
|                                                                                                            | 388,549,088           | 379,532,851           |
| Net deferred loan fees and costs                                                                           | (124,899)             | (39,822)              |
| Allowance for loan losses                                                                                  | (6,121,650)           | (5,975,752)           |
|                                                                                                            | <u>\$ 382,302,539</u> | <u>\$ 373,517,277</u> |

The Company receives fees for servicing retained on loans sold. Loans being serviced by the Company for others totaled approximately \$191,357,271 and \$201,290,858 for the years ended December 31, 2023 and 2022, respectively.

The maturity and repricing of the loan portfolio is as follows at December 31:

|                                    | 2023                  | 2022                  |
|------------------------------------|-----------------------|-----------------------|
| Fixed rate loan maturities         |                       |                       |
| Three months or less               | \$ 59,840             | \$ 2,072,027          |
| Over three months to twelve months | 223,519               | 2,571,494             |
| Over one year to five years        | 10,331,803            | 12,442,711            |
| Over five years to fifteen years   | 18,564,704            | 16,209,669            |
| Over fifteen years                 | 4,217,317             | 3,255,842             |
| Floating rate loans repricing      |                       |                       |
| Quarterly or more frequently       | 157,231,859           | 157,771,726           |
| Quarterly to annual frequency      | 19,356,253            | 17,189,386            |
| One to five years frequency        | 154,148,474           | 136,117,700           |
| Five to fifteen years frequency    | 24,070,186            | 31,482,105            |
| Non-accrual loans                  | 345,133               | 420,191               |
|                                    | <u>\$ 388,549,088</u> | <u>\$ 379,532,851</u> |

NOTE E – ALLOWANCE FOR CREDIT LOSSES AND CREDIT QUALITY

Allowance for Credit Losses: The allowance for credit losses is maintained at a level which, in the opinion of management, is adequate to absorb probable losses in the loan portfolio. The Company's methodology for assessing the appropriateness of the allowance consists of three key elements, which include historical losses, qualitative adjustments, and forward-looking data. Management determines the adequacy of the allowance upon reviews of individual loans, using relevant available information, from internal and external sources, relating to past events adjusted for current conditions, and reasonable and supportable forecasts.

REDWOOD CAPITAL BANCORP AND SUBSIDIARY  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2023 and 2022

NOTE E – ALLOWANCE FOR CREDIT LOSSES AND CREDIT QUALITY (Continued)

The Company has adopted the Average Charge-off method that calculates an estimate of losses primarily based on past experience but applied prospectively over the remaining life of the loan. The Company used an average of quarterly historical loss rates from 2000 to the third quarter of 2023 in the calculation. Qualitative factors are the component of the allowance is management's best estimate of the probable impact that various qualitative factors may have on the loan portfolio. It is not allocated to specific loans or groups of loans, but rather is intended to absorb losses caused by several factors, including changes in the nature and volume of the portfolio, changes in the terms of loans, changes in lending policies and procedures, underwriting collection practices, changes in international, national, regional, and local economic and business conditions, changes in the experience and ability of lending management and staff, changes in the volume and severity of past due loans, changes in the volume of non-accrual loans, changes in the volume and severity of adversely classified or graded loans, changes in the quality of the Company's loan review system, changes in the value of underlying collateral, the existence and effect of any concentrations of credit, changes in the level of concentrations of credit and the effect of other external factors such as competition and legal and regulatory requirements. Forward-looking adjustments are calculated based on the Federal Open Market Committee (FOMC) most recent projections of Real Gross Domestic Product and Unemployment Rate. The forward-looking adjustments are applied to future cash flows for four quarters before reverting to historical loss rates. The forward-looking adjustments resulted in a total reduction of 16 basis points for all portfolio segments. Prepayment assumptions were based on the average prepayment speeds during the year ended December 31, 2022, which the Company considered to be the most representative of the current interest rate environment. Prepayment speeds ranged from no prepayment assumption to 10.54%, depending on the portfolio aging and collateral type. These various components are factored into a single allowance analysis.

The expected loss rates are applied to discounted cash flows over the remaining contractual term of the loans, adjusted for expected prepayments when appropriate. The contractual term excludes expected extensions, renewals, and modifications unless either of the following applies: management has a reasonable expectation at the reporting date that a troubled debt restructuring will be executed with an individual borrower, or the extension or renewal options are included in the original or modified contract at the reporting date and are not unconditionally cancellable by the Company.

These reserve factors are inherently subjective and are driven by the repayment risk associated with each portfolio segment described below:

**Commercial Real Estate**—These loans generally possess a higher inherent risk of loss than other real estate portfolio segments, except construction loans. Adverse economic developments or an overbuilt market impact commercial real estate project and may result in troubled loans. Trends in vacancy rates of commercial properties impact the credit quality of these loans. High vacancy rates reduce operating revenues and the ability for properties to produce sufficient cash flow to service debt obligations.

**Commercial**—Commercial loans generally possess a lower inherent risk of loss than real estate portfolio segments because these loans are generally underwritten to existing cash flows of operating businesses. Debt coverage is provided by business cash flows and economic trends influenced by unemployment rates and other key economic indicators are closely correlated to the credit quality of these loans.

**Construction and Land**—Construction and land loans generally possess a higher inherent risk of loss than other real estate portfolio segments. A major risk arises from the necessity to complete projects within specified cost and timelines. Trends in the construction industry significantly impact the credit quality of these loans, as demand drives construction activity. In addition, trends in real estate values significantly impact the credit quality of these loans, as property values determine the economic viability of construction projects.

**Residential Real Estate**—The loans consist of single-family residential loans. The degree of risk in residential real estate lending depends primarily on the loan amount in relation to collateral value, the interest rate and the borrower's ability to repay in an orderly fashion. These loans generally possess a lower inherent risk of loss than other real estate portfolio segments. Economic trends determined by unemployment rates and other key economic indicators are closely correlated to the credit quality of these loans. Weak economic trends indicate that the borrowers' capacity to repay their obligations may be deteriorating.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2023 and 2022

NOTE E – ALLOWANCE FOR CREDIT LOSSES AND CREDIT QUALITY (Continued)

Installment and other loans to individuals—The installment loan portfolio is comprised of a large number of small loans scheduled to be amortized over a specific period. Most installment loans are made directly for consumer purchases, but business loans granted for purchase of heavy equipment or industrial vehicles may also be included.

Agriculture—Loans secured by agricultural land and production are especially vulnerable to two risk factors that are largely outside the control of the Company and borrowers, commodity prices and weather conditions.

Although management believes the allowance to be adequate, ultimate losses may vary from its estimates. The Board of Directors review the adequacy of the allowance quarterly, including consideration of current economic conditions, known and inherent risks in the portfolio, adverse situations that may affect the borrower's ability to repay, the estimated value of any underlying collateral, or past loan experience and other factors. If the Board of Directors and management determine that changes are warranted based on those reviews, the allowance is adjusted.

In addition, the Company's primary regulators, the FDIC and the DFPI, review the adequacy of the allowance as an integral part of their examination process. These regulatory agencies may require additions to the allowance based on their judgment about information available at the time of their examinations.

The following table summarizes activity related to the allowance for credit losses by loan portfolio segment and the allocation of the allowance for credit losses by loan portfolio segment and by impairment methodology for the years ended December 31, 2023 and 2022:

|                                                 | Commercial<br>Real Estate | Commercial           | Construction<br>and Land | Residential<br>Real Estate | Individual           | Agriculture         | Unallocated       | Total                 |

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2023 and 2022

NOTE E – ALLOWANCE FOR CREDIT LOSSES AND CREDIT QUALITY (Continued)

Credit Quality of Loans

The Company assigns a risk rating to loans over a certain threshold and periodically performs detailed reviews of all such loans to identify credit risks and to assess the overall collectability of the portfolio. During these internal reviews, management monitors and analyzes the financial condition of borrowers and guarantors, trends in the industries in which borrowers operate and the fair values of collateral securing these loans. These credit quality indicators are used to assign a risk rating to each individual loan. These risk ratings can be grouped into the following major categories, defined as follows:

Pass: A pass loan is a strong credit with no existing or known potential weaknesses deserving of management's close attention.

Watch List: A watch list loan has significant weaknesses resulting from performance trends or management concerns.

Special Mention: A special mention loan is currently protected but is weak due to negative trends in the financial statements of the borrower and current cash flow problems, among other criteria. Special mention loans are not adversely classified and do not expose the Company to sufficient risk to warrant adverse classification.

Substandard: A substandard loan has well-defined weaknesses where a payment default and/or a loss is possible, but not yet probable. Cash flow is insufficient to service the debt, with prospects that the condition is permanent. Loans classified as substandard are inadequately protected by the current net worth and repayment capacity of the borrower and there is a likelihood that collateral will have to be liquidated and/or guarantor called upon to repay the debt.

Doubtful: Loans classified as doubtful have characteristics of those classified as substandard but available information suggests it is unlikely that the loan will be repaid in its entirety. Cash flow is insufficient to service the debt. If the current material adverse trends continue, it is unlikely the borrower will have the ability to meet the terms of the loan agreement. It may be difficult to project the exact amount of loss, but the probability of some loss is greater than 50%.

Loss: Loans classified as loss have characteristics those classified as of doubtful, but the loan will not be repaid in full. Debt service coverage clearly reflects the borrower's inability to service the debt. The borrower cannot generate sufficient cash flow to cover fixed charges. All near-term and long-term trends concerning cash flow and earnings are negative. Collateral and guarantees provide no support.

The following table shows the loan portfolio allocated by the amortized cost basis by origination year as of December 31, 2023:

Occasionally, the Company modifies loans to borrowers in financial distress by providing principal forgiveness, term extension, an other-than-insignificant payment delay or interest rate reduction. When principal forgiveness is provided, the amount of forgiveness is charged-off against the allowance for credit losses. The Bank made no modifications to borrowers in financial distress during 2023.

Purchased and/or sold loans

The company applies the above risk and review process to loans purchased and sold. The following table presents loans purchased and/or sold during the year by portfolio segment:

|             | Commercial<br>Real Estate | Commercial   | Residential<br>Real Estate | Total         |
|-------------|---------------------------|--------------|----------------------------|---------------|
| <u>2023</u> |                           |              |                            |               |
| Purchases:  |                           |              |                            | \$ -          |
| Sales:      |                           |              | \$ 5,151,930               | \$ 5,151,930  |
| <u>2022</u> |                           |              |                            |               |
| Purchases:  | \$ 22,030,843             | \$ 3,998,503 |                            | \$ 26,029,346 |
| Sales:      |                           |              | \$ 18,489,510              | \$ 18,489,510 |

Loans sold in both years 2023 and 2022 are loans sold with servicing retained.

| Less: Accumulated depreciation    | (5,513,201)         | (5,554,620)         |
|                                   | <u>\$ 8,464,863</u> | <u>\$ 6,658,880</u> |

Depreciation and amortization included in occupancy expense totaled \$468,084 and \$443,443 in 2023 and 2022, respectively.

NOTE G – MORTGAGE SERVICING RIGHTS

The following table presents the changes in the Bank's mortgage servicing rights for the years ended December 31:

|                                                                     | 2023                | 2022                |
|---------------------------------------------------------------------|---------------------|---------------------|
| Fair value, beginning of year                                       | \$ 1,931,990        | \$ 1,401,577        |
| Change for new mortgage servicing rights capitalized                | (95,839)            | 6,469               |
| Change in fair value due to changes in model inputs and assumptions | 10,349              | 523,944             |
| Fair value, end of year                                             | <u>\$ 1,846,500</u> | <u>\$ 1,931,990</u> |
| Balance of mortgage loans serviced for others                       | \$ 191,357,271      | \$ 201,290,858      |
| Mortgage servicing rights as a percentage of serviced loans         | 0.965%              | 0.960%              |

The amounts of contractually specified servicing fees, late fees and ancillary fees earned, recorded in mortgage banking revenue on the consolidated statements of operations, were \$489,142 and \$501,674 for the years ended December 31, 2023 and 2022, respectively. Changes in fair value are also included in mortgage banking revenue on the consolidated statements of operations.

The fair value of mortgage servicing rights is determined using a discounted cash flow model. In order to determine the fair value of the mortgage servicing rights, the present value of expected future cash flows is estimated. Assumptions used include market discount rates, anticipated prepayment speeds, delinquency and foreclosure rates, and ancillary fee income. Key assumptions used in measuring the fair value of mortgage servicing rights as of December 31, 2023 and 2022 include a discount rate of 10.50% and 9.50% for the years ended December 31, 2023 and 2022, respectively. A proprietary market implied prepayment model is used by the independent valuation group.

The expected life of the loans can vary from management's estimates due to prepayments by borrowers, especially when rates fall. Prepayments in excess of management's estimates would negatively impact the recorded value of the mortgage servicing rights. The value of the mortgage servicing rights is also dependent upon the discount rate used in the model, which is based on current market rates. A significant increase in the discount rate would reduce the value of mortgage servicing rights. The sensitivities surrounding mortgage servicing rights are expected to have an immaterial impact on fair value.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2023 and 2022

NOTE H – INTEREST-BEARING DEPOSITS

Interest-bearing deposits consisted of the following at December 31:

|                                      | 2023                  | 2022                  |
|--------------------------------------|-----------------------|-----------------------|
| Negotiable order of withdrawal (NOW) | \$ 128,946,272        | \$ 146,907,040        |
| Savings and money markets            | 174,405,138           | 154,926,869           |
| Time                                 | 21,755,454            | 20,916,074            |
|                                      | <u>\$ 325,106,864</u> | <u>\$ 322,749,983</u> |

Interest expense on these deposits for the years ended December 31 is as follows:

|                                      | 2023                | 2022              |
|--------------------------------------|---------------------|-------------------|
| Negotiable order of withdrawal (NOW) | \$ 173,998          | \$ 47,310         |
| Savings and money markets            | 1,008,532           | 85,343            |
| Time                                 | 267,829             | 264,165           |
|                                      | <u>\$ 1,450,359</u> | <u>\$ 396,818</u> |

The maturities of time deposits at December 31 are as follows:

|                                         | 2023                 | 2022                 |
|-----------------------------------------|----------------------|----------------------|
| Three months or less                    | \$ 5,501,995         | \$ 7,475,714         |
| Over three months through twelve months | 10,367,502           | 9,234,934            |
| Over one year through three years       | 5,456,374            | 3,941,370            |
| Over three years                        | 429,583              | 264,056              |
|                                         | <u>\$ 21,755,454</u> | <u>\$ 20,916,074</u> |

Time deposits that meet or exceed the FDIC insurance limit of \$250,000 at December 31, 2023 and 2022 were \$3,423,135 and \$4,376,245, respectively.

In addition to the Company's on-balance sheet deposits, the Company belongs to special networks that offer reciprocal deposit products to its customers. As of December 31, 2023, and 2022 these deposits total \$95,366,351 and \$125,738,450 respectively. These products provide the Company's customers a safe and convenient way to safeguard their funds in increments below the standard FDIC insurance maximum of \$250,000 so that both principal and interest are eligible for FDIC insurance. Although these deposits are not reflected on the balance sheet, the Bank maintains the client relationship and the funds remain available to the Bank if needed.

NOTE I – LENDING AGREEMENTS

The Company has federal funds line of credit agreements with other banks. The maximum borrowings available under these lines amount to \$36,500,000 and \$31,500,000 at December 31, 2023 and 2022, respectively. There were no borrowings outstanding under these agreements at December 31, 2023 and 2022.

The Company has an agreement to borrow from the Federal Home Loan Bank to the extent of pledged assets, up to 25% of total assets as of December 31, 2023 and 2022. Assets pledged under the agreement at December 31, 2023 totaled \$521,364,469, resulting in a limit on borrowings of \$130,341,117. Assets pledged under the agreement at December 31, 2022 totaled \$525,073,859, resulting in a limit on borrowings of \$131,268,465. The Company also maintains a letter of credit with the Federal Home Loan Bank of \$8,000,000, as of December 31, 2023 and 2022,

REDWOOD CAPITAL BANCORP AND SUBSIDIARY  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2023 and 2022

NOTE I – LENDING AGREEMENTS (Continued)

which serves as collateral for public and other deposits and is collateralized by a portion of the loans discussed above, that expires on May 13, 2024. No amounts were outstanding under this agreement as of December 31, 2023 and 2022.

The Company has an agreement to borrow from the Federal Reserve Bank by obtaining advances or discounting eligible paper to the extent of pledged collateral. Promissory notes and deeds of trust on the Bank's loans totaling \$3,534,957 and \$3,845,641 for 2023 and 2022, respectively, were held by the Federal Reserve Bank as collateral. There were no borrowings outstanding under this agreement at December 31, 2023 and 2022.

In September 2019, the Company obtained a \$9 million unsecured, subordinate loan from a commercial bank which was used to pay off the remaining balance of the loan received to finance the redemption of Series C Preferred Stock issued to the U.S. Treasury. The Company obtained a \$2 million principal increase in March 2021 under the same terms as the original loan, bringing the loan balance to \$11 million. The principal is due September 25, 2029 and interest is due quarterly. The interest rate will be fixed at 5.25% until September 2024 and will then be reset quarterly based on the Three-Month term SOFR rate for US dollars plus 312 basis points. A different benchmark rate may be substituted if the SOFR rate is not available.

NOTE J – OTHER EXPENSES

Other expenses consisted of the following for the years ended December 31:

|                                | 2023                | 2022                |
|--------------------------------|---------------------|---------------------|
| Data processing                | \$ 1,261,304        | \$ 1,069,702        |
| Professional fees              | 352,082             | 348,596             |
| Marketing and promotion        | 538,501             | 501,521             |
| Director and shareholder       | 464,614             | 428,764             |
| Loan and collection expense    | 248,237             | 302,169             |
| Insurance expense              | 315,357             | 278,738             |
| Operating expense              | 369,124             | 329,518             |
| Miscellaneous employee expense | 191,835             | 203,259             |
| Telephone expense              | 100,754             | 114,771             |
| Postage and delivery           | 117,786             | 96,161              |
| Stationery and forms           | 106,586             | 100,687             |
| Operational losses             | 52,699              | 58,877              |
| Dues and memberships           | 45,890              | 45,130              |
| Security expense               | 27,001              | 27,192              |
| Subscriptions                  | 1,518               | 1,513               |
| Other non-interest expense     | 1,157               | 11,232              |
|                                | <u>\$ 4,194,445</u> | <u>\$ 3,917,830</u> |

NOTE K – RETIREMENT PLANS

The Company has a defined contribution retirement plan covering substantially all of the Company's employees. Employees may elect to have a portion of their compensation contributed to the plan in conformity with the requirements of Section 401(k) of the Internal Revenue Code. The Company will make contributions equal to 100% of the effective deferral made by the employees, up to a maximum of 4% of the employees' eligible earnings. Salaries and employee benefits expense includes the Company's contributions to the plan of \$204,000 and \$192,000 during 2023 and 2022, respectively.

REDWOOD CAPITAL BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2023 and 2022

NOTE K – RETIREMENT PLANS (Continued)

The Company has single premium life insurance policies in connection with the retirement plans for thirteen key officers. The policies provide protection against the adverse financial effects from the death of key officers and to provide income to offset expenses associated with the plan. The officers are insured under the policies, but the Company is the primary owner and beneficiary. At December 31, 2023 and 2022, the cash surrender value of these policies totaled \$12,558,634 and \$12,176,256, respectively.

The Company has a deferred compensation plan that is unfunded, which allows the Directors to defer a portion of current compensation in exchange for the Company's commitment to pay a deferred benefit at retirement. If death occurs prior to or during retirement, the Company will pay the Director's beneficiary or estate the benefits set forth in the plan. Deferred compensation is vested as to the amounts deferred. At December 31, 2023 and 2022, the liability recorded for the deferred compensation plan totaled \$610,066 and \$501,431, respectively.

The Company has unfunded noncontributory defined benefit retirement plans that cover certain officers. The plan provides defined benefits that are typically a fixed amount over a ten-year period after retirement. The officers typically need to work ten years, or until the age of 65, from the plan date to be fully vested. The Company uses December 31 as the measurement date for its pension plans.

The ending benefit obligation was \$1,979,451 and \$1,658,544 at December 31, 2023 and 2022, respectively. There were no employer contributions or benefits paid for 2023 and 2022. The plan is unfunded so there were no plan assets at December 31, 2023 and 2022.

The weighted average discount rate assumptions used to determine the retirement benefit obligations for the years ended December 31, 2023 and 2022 were 5.21% and 5.27%, respectively. The weighted average discount rate assumptions used to determine the net periodic retirement cost for the years ended December 31, 2023 and 2022 was 4.95% and 4.97%, respectively.

The Company expects to have no contribution to its retirement plan in 2023 or 2022. Benefit payments, which reflect expected future service, are expected to be \$20,833 in 2025, \$50,000 in 2026, \$50,000 in 2027, \$134,040 in 2028 and \$1,846,807 in the following five years.

NOTE L – INCOME TAXES

The provision for income taxes was comprised of the following at December 31:

|                            | 2023                | 2022                |
|----------------------------|---------------------|---------------------|
| Current                    |                     |                     |
| Federal                    | \$ 2,428,215        | \$ 1,573,040        |
| State                      | 1,123,574           | 1,044,818           |
|                            | <u>3,551,789</u>    | <u>2,617,858</u>    |
| Deferred                   |                     |                     |
| Federal                    | (708,966)           | (109,404)           |
| State                      | (140,353)           | (173,886)           |
|                            | <u>(849,319)</u>    | <u>(283,290)</u>    |
| Provision for income taxes | <u>\$ 2,702,470</u> | <u>\$ 2,334,568</u> |

REDWOOD CAPITAL BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2023 and 2022

NOTE – L INCOME TAXES (Continued)

The following is a reconciliation of income taxes computed at the Federal statutory rate of 21% in 2023 and 2022 to the effective rate used for the provision for income taxes for the years ended December 31:

|                                                             | 2023                | 2022                |
|-------------------------------------------------------------|---------------------|---------------------|
| Income benefit at the Federal statutory rate                | \$ 2,046,718        | \$ 1,754,730        |
| State franchise tax benefit, less Federal income tax effect | 834,632             | 687,165             |
| Earnings on cash surrender value of life insurance          | (104,909)           | (63,098)            |
| Tax exempt municipal securities                             | (46,120)            | (47,610)            |
| Vesting of restricted stock grants                          | (14,897)            | (14,492)            |
| Nondeductible expenses and other                            | (12,954)            | 17,873              |
| Net provision for income taxes                              | <u>\$ 2,702,470</u> | <u>\$ 2,334,568</u> |

The tax effects of temporary differences that give rise to the components of the net deferred tax assets as of December 31 were as follows:

|                                  | 2023                | 2022                |
|----------------------------------|---------------------|---------------------|
| Deferred tax assets:             |                     |                     |
| Available-for-sale securities    | \$ 2,647,555        | \$ 3,212,011        |
| Allowance for loan losses        | 1,621,976           | 1,434,893           |
| Salary continuation accrual      | 585,197             | 490,325             |
| State taxes                      | 241,655             | 199,381             |
| Depreciation                     | 196,284             | 205,795             |
| Deferred compensation            | 180,357             | 148,241             |
| Non-qualified restricted stock   | 76,300              | 77,467              |
| Lease liability                  | 70,078              | 76,072              |
| Accrued vacation                 | 72,841              | 69,885              |
| Prepaid rent                     | 89,430              | 98,299              |
| Other                            | 49,134              | 37,903              |
| Total deferred tax assets        | <u>5,830,807</u>    | <u>6,050,272</u>    |
| Deferred tax liabilities:        |                     |                     |
| Federal Home Loan Bank dividends | (17,916)            | (17,933)            |
| Right of use asset               | (159,508)           | (174,371)           |
| Mortgage servicing rights        | (545,892)           | (571,166)           |
| Total deferred tax liabilities   | <u>(723,316)</u>    | <u>(763,470)</u>    |
| Net deferred tax assets          | <u>\$ 5,107,491</u> | <u>\$ 5,286,802</u> |

Amounts presented for the tax effects of temporary differences are based upon estimates and assumptions and could vary from amounts ultimately reflected on the Company's tax returns. Accordingly, the variances from amounts reported in prior years are primarily adjustments to conform to the tax returns as filed. As of December 31, 2023 and 2022, the Company had income taxes receivable of \$512,686 and \$529,148, respectively.

The Company and its subsidiary file an income tax return in the U.S. federal jurisdiction and a franchise tax return in the State of California jurisdiction. The Company is no longer subject to U.S. federal income tax examinations and State franchise tax examinations by taxing authorities for years prior to 2020 and 2019, respectively.

REDWOOD CAPITAL BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2023 and 2022

NOTE – L INCOME TAXES (Continued)

There have been no adjustments identified for unrecognized tax benefits requiring an adjustment to the income statement. The Company recognizes interest accrued and penalties related to unrecognized tax benefits in tax expense. The Company has recognized no interest or penalties since this pronouncement was implemented.

NOTE M– EARNINGS PER SHARE

The following is a computation of basic and diluted earnings per share for the years ended December 31, 2023 and 2022.

|                                                                                                   | 2023                | 2022                |
|---------------------------------------------------------------------------------------------------|---------------------|---------------------|
| Basic:                                                                                            |                     |                     |
| Net income                                                                                        | <u>\$ 7,043,798</u> | <u>\$ 6,021,290</u> |
| Weighted-average common shares outstanding                                                        | <u>1,952,750</u>    | <u>1,967,933</u>    |
| Earnings per share                                                                                | <u>\$ 3.61</u>      | <u>\$ 3.06</u>      |
| Diluted:                                                                                          |                     |                     |
| Net income                                                                                        | <u>\$ 7,043,798</u> | <u>\$ 6,021,290</u> |
| Weighted-average common shares outstanding                                                        | 1,952,750           | 1,967,933           |
| Net effect of dilutive securities - based on the Treasury stock method using average market price |                     |                     |
| Dilutive restricted stock                                                                         | <u>15,430</u>       | <u>20,358</u>       |
| Weighted-average common shares outstanding and common stock equivalents                           | <u>1,968,180</u>    | <u>1,988,291</u>    |
| Earnings per share - assuming dilution                                                            | <u>\$ 3.58</u>      | <u>\$ 3.03</u>      |

NOTE N – RESTRICTED STOCK GRANT PLAN

The Company has a restricted stock grant plan established in 2019 under which restricted stock may be granted. The Company's Restricted Stock Grant Plan provides for the granting of a maximum of 200,000 shares of the Company's authorized but unissued common stock to directors or officers through June 19, 2024, unless terminated earlier by the Board of Directors. The terms of the grants are set by the Board of Directors. Grants vest equally each year over the life of the grant from the date the restricted stock is granted. Generally, if a grantee's continuous status as a director or officer is terminated for various reasons, the non-vested grants expire. The Board of Directors have established a policy for the acceleration of the lessor of two years of vesting or the current unvested shares if certain conditions are met and Board of Director approval is obtained. The Bank estimates the number of awards that are expected to vest when determining the compensation costs. A summary of restricted stock activity follows for the years ended December 31:

| Nonvested at end of year       | <u>28,050</u>    | 16.70                                  | <u>\$ 632,528</u>         | <u>54,100</u> | 16.64                                  | <u>\$ 1,000,850</u>       |

As of December 31, 2023 and 2022, there was \$218,006 and \$659,254 of total unrecognized compensation cost related to non-vested restricted stock. That cost is expected to be recognized over a weighted-average period of .47 and 1.47 years, respectively.

Total compensation cost for all share-based payments recognized in net income for 2023 and 2022 totaled \$459,749 and \$448,700, respectively. A tax benefit of \$135,901 and \$132,652 was recognized during 2023 and 2022, respectively, related to this compensation cost.

NOTE O – RELATED PARTY TRANSACTIONS

During the normal course of business, the Company has entered into transactions with its directors, executive officers, significant shareholders and their affiliates (related parties). The aggregate amount of loans to such related parties totaled \$10,687,698 and \$11,332,283 at December 31, 2023 and 2022, respectively. At December 31, 2023 and 2022, commitments to related parties of \$2,039,798 and \$3,508,641, respectively, were undisbursed. The Company has received deposits from directors and officers and their related interests totaling \$5,876,518 and \$5,584,941 at December 31, 2023 and 2022, respectively.

NOTE P – CONTINGENT LIABILITIES AND COMMITMENTS

Financial Instruments with Off-Balance-Sheet Risk: The Company's financial statements do not reflect various commitments and contingent liabilities which arise in the normal course of business, and which involve elements of credit risk, interest rate risk and liquidity risk. These commitments and contingent liabilities are commitments to extend credit, standby letters of credit and credit card arrangements. A summary of the Company's commitments and contingent liabilities at December 31, 2023 and 2022 are as follows:

|                              | Contractual Amounts |               |
|------------------------------|---------------------|---------------|
|                              | 2023                | 2022          |
| Commitments to extend credit | \$ 76,303,293       | \$ 79,482,120 |
| Standby letters of credit    | 102,255             | 252,255       |

Commitments to extend credit, standby letters of credit and credit card arrangements include exposure to some credit loss in the event of nonperformance of the customer. The Company's credit policies and procedures for credit commitments and financial guarantees are the same as those for extension of credit that are recorded on the balance sheet. Because most of these instruments have fixed maturity dates, and because many of them expire without being

REDWOOD CAPITAL BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2023 and 2022

NOTE P – CONTINGENT LIABILITIES AND COMMITMENTS (Continued)

drawn upon, they do not generally present any significant liquidity risk to the Company. Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. The Company evaluates each customer's credit worthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Company upon extension of credit, is based on management's credit evaluation of the customer. Collateral held varies but may include accounts receivable, inventory, deeds of trust on residential real estate and income-producing commercial properties.

Standby letters of credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. Those guarantees are primarily issued to support public and private borrowing arrangements. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending facilities to customers.

The Company did not incur any losses on its commitments in 2023 and 2022.

NOTE Q – LEASES

Lease arrangement: On February 1, 2014, the Company entered into an agreement with Humboldt State University, now Cal Poly Humboldt (University) for the transfer of a Company-owned building to the University in exchange for a reduced lease rate on a building owned by the University that the Company is leasing from the University. The initial term of the lease will be five years with an option to extend the lease for seven periods of five years. The lease will be extended automatically the first five periods unless the Bank elects to decline the lease option. The original monthly rental rate is \$5,840 per month, but the rent is reduced by \$3,327 per month for the first twenty years of the lease as consideration for the transfer of the Bank building valued at \$505,000 and the Bank paying for \$95,000 of renovation costs at the Bank-owned building. The gross rental rate will increase at the beginning of each five-year renewal period based on CPI index for the month three months prior to the commencement date. The lease does not include residual value guarantees or covenants.

The Company includes lease extension and termination options in the lease term if, after considering relevant economic factors, it is reasonably certain the Company will exercise the option. In addition, the Company has elected to account for any non-lease components in its real estate leases as part of the associated lease component. The Company has also elected not to recognize leases with original lease terms of 12 months or less (short-term leases) on the Company's balance sheet.

Leases are classified as operating or finance leases as of the lease commencement date. Lease expense for operating leases and short-term leases is recognized on a straight-line basis over the lease term. Right-of-use assets represent the right to use an underlying asset for the lease term and lease liabilities represent the obligation to make lease payments arising from the lease. Right-of-use assets and lease liabilities are recognized at the lease commencement date based on the estimated present value of lease payments over the lease term.

The Company uses its incremental borrowing rate at lease commencement to calculate the present value of lease payments when the rate implicit in a lease is not known. The Company's incremental borrowing rate is based on the FHLB amortizing advance rate, adjusted for the lease term and other factors.

Right-of-use assets and lease liabilities by lease type, and the associated balance sheet classifications, are as follows for the years ended December 31:

NOTE R – CONCENTRATIONS OF CREDIT RISK

Most of the Company's business activity is with customers located within the State of California, primarily in and around the counties of Humboldt, Del Norte, Mendocino, and Trinity. Most of the Company's loans have been granted to customers in the Company's market area. General economic conditions or natural disasters affecting the primary market area could affect the ability of customers to repay loans and the value of real property used as collateral. The loans are expected to be repaid from cash flow or proceeds from the sale of selected assets of the borrowers. The Company requires that all loans have adequate collateral to secure the loan or that the borrower has evidence of sufficient cash flows to repay loans when the loans are made. All collateral must have an appraisal, if applicable, and collateral is generally secured by liens. The Company's access to this collateral is through judicial procedures.

REDWOOD CAPITAL BANCORP AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2023 and 2022

NOTE S – REGULATORY MATTERS

The Bank is subject to the dividend restrictions set forth by the FDIC. Under such restrictions, the Bank may not, without the prior approval of the FDIC, declare dividends in excess of the sum of the current year's net income plus the retained earnings from the prior two years. As of December 31, 2023, \$18,572,376 was available for cash dividend distribution without prior approval.

The Bank is subject to various regulatory capital requirements administered by its primary federal regulator, the FDIC. Failure to meet minimum capital requirements can initiate certain mandatory – and possibly additional discretionary – actions by regulators that, if undertaken, could have a direct material effect on the Bank's financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Bank must meet specific capital guidelines that involve quantitative measures of the Bank's assets, liabilities, and certain off-balance-sheet items as calculated under U.S. GAAP, regulatory reporting requirements and regulatory capital standards. The Bank's capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings, and other factors.

Quantitative measures established by regulation to ensure capital adequacy require the Bank to maintain minimum amounts and ratios (set forth in the table below) of total and Tier I capital (as defined in the regulations) to risk-weighted assets (as defined), and of Tier I capital (as defined) to average assets (as defined). Management believes, as of December 31, 2023, that the Bank meets all capital adequacy requirements to which it is subject.

As of December 31, 2023, the most recent notification from the FDIC categorized the Bank as well capitalized under the regulatory framework for prompt corrective action. To be categorized as well capitalized the Bank must maintain minimum total risk-based, Tier I risk-based, Common Equity Tier 1 risk-based, and Tier I leverage ratios as set forth in the table. There are no conditions or events since that notification that management believes have changed the Bank's category. The Bank's actual capital amounts and ratios are also presented in the table. There are no conditions or events since that notification that management believes have changed the institution's category (amounts and ratios for capital adequacy purposes below do not include capital conservation buffer).

|                              | Actual    |        | For Capital Adequacy Purposes |         | To Be Well Capitalized Under Prompt Corrective Action Provisions |          |

REDWOOD CAPITAL BANCORP AND SUBSIDIARY  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2023 and 2022

NOTE S – REGULATORY MATTERS (Continued)

Under the Basel III Capital Rules, in order to avoid limitations on capital distributions, including dividend payments and certain discretionary bonus payments to executive officers, a banking organization must hold a capital conservation buffer composed of common equity tier 1 capital above its minimum risk-based capital requirements. The effects of accumulated other comprehensive income items are not excluded from common equity tier 1 capital; however, the Bank made a one-time permanent election to exclude these items in order to avoid significant variations in the level of capital depending on the impact of interest rate fluctuations on the fair value of the Bank's investments portfolio. A banking organization with a buffer greater than 2.5 percent would not be subject to limits on capital distributions or discretionary bonus payments. The Bank does not expect to be subject to limits on capital distributions or discretionary bonus payments due to these requirements.

NOTE T – FAIR VALUE MEASUREMENT

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The following tables present information about financial instruments, whether or not recognized or recorded at fair value in the balance sheet. In general, fair values are determined by:

Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access.

Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. Fair values determined by Level 2 inputs utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 inputs are unobservable inputs for the asset or liability, and include situations where there is little, if any market activity for the asset or liability.

In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. In that regard, the derived fair value estimates cannot be substantiated by comparison to independent markets and, in many cases, could not be realized in immediate settlement of the instruments.

Fair value is a market-based measure considered from the perspective of a market participant who holds the asset or owes the liability rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Company's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date. The Company uses prices and inputs that are current as of the measurement date, including during periods of market dislocation, the observability of prices and inputs may be reduced for many instruments. This condition could cause an instrument to be reclassified from Level 1 to Level 2 or Level 2 to Level 3.

NOTE T – FAIR VALUE MEASUREMENT (Continued)

The carrying amounts in the preceding table are included in the balance sheet under the applicable captions. The following methods and assumptions were used by the Company in estimating its fair value disclosures for financial instruments:

Cash and due from banks, federal funds sold and interest-bearing deposits in other financial institutions: The carrying amount approximates fair value and is classified as level 1.

Investment securities: Fair values for investment securities are based on quoted market prices, where available, and are classified as level 1. If quoted market prices are not available, fair values are based on quoted market prices of comparable instruments and indications of value provided by brokers and are classified as level 2. The carrying amount of accrued interest receivable approximates its fair value and is classified as level 1.

Mortgages held for sale: The fair value for mortgages held for sale is based on the actual selling price, if available or quoted market prices of comparable loans, which are classified as level 2.

Loans, net: For variable-rate loans that reprice frequently and fixed rate loans that mature in the near future, with no significant change in credit risk, fair values are based on carrying amounts, resulting in a level 3 classification. The fair values for other fixed rate loans are estimated using discounted cash flow analysis, based on interest rates currently being offered for loans with similar terms to borrowers of similar credit quality, resulting in a level 3 classification. Loan fair value estimates include judgments regarding future expected loss experience and risk characteristics and are adjusted for the allowance for loan losses. The carrying amount of accrued interest receivable approximates its fair value and is classified as level 1.

Cash surrender value of life insurance: The carrying amount approximates fair value and is classified as level 1.

FHLB and correspondent bank stock: For FHLB and correspondent bank stock, the carrying amount is equal to the par value at which the stock may be sold back to FHLB or the correspondent bank, which approximates fair value and is classified as level 1.

Deposits: The fair values disclosed for demand deposits (for example, interest-bearing checking, money market and savings accounts) are, by definition, equal to the amount payable on demand at the reporting date (that is, their carrying amounts), resulting in a level 1 classification. The fair values for certificates of deposit are estimated using a discounted cash flow calculation that applies interest rates currently being offered on the certificates to a schedule of aggregated contractual maturities on such time deposits, resulting in a level 2 classification. The carrying amount of accrued interest payable approximates fair value and is classified as level 1.

Borrowings: The fair value is estimated using a discounted cash flow calculation that applies interest rates on similar borrowings.

The following table presents information about the Company's assets and liabilities measured at fair value on a recurring and nonrecurring basis as of December 31, 2023 and 2022, and indicate the fair value hierarchy of the valuation techniques utilized by the Company to determine such fair value.

The following methods were used to estimate the fair value of each class of financial instrument above:

Securities Available-for-Sale: To value securities available-for-sale, the Company obtains fair value measurements from an independent pricing service. The fair value measurement considers observable data that may include dealer quotes, market spreads, cash flows, the U.S. Treasury yield curve, live trading levels, trade execution data, market consensus prepayment speeds, credit information and the bond's terms and conditions among other things.

Mortgage Servicing Rights: Mortgage servicing rights do not trade in an active market with readily observable prices. Accordingly, the Company determines the fair value of mortgage servicing rights using a valuation model that calculates the present value of estimated future net servicing income. Fair value measurements of the mortgage servicing rights use significant unobservable inputs and, accordingly, are classified as Level 3. Total gains (losses) recognized in earnings during 2023 and 2022 were \$10,349 and \$523,944, respectively, which are reflected in mortgage banking revenue, on the consolidated statements of operations.

Impaired Loans: The fair value of impaired loans is estimated using one of several methods, including collateral value, market value of similar debt, enterprise value, liquidation value and discounted cash flows. Those impaired loans not requiring an allowance represent loans for which the fair value of the expected repayments or collateral exceed the recorded investments in such loans. Impaired loans where an allowance is established based on the fair value of collateral require classification in the fair value hierarchy. When the fair

REDWOOD CAPITAL BANCORP AND SUBSIDIARY

December 31, 2023 and 2022

NOTE T – FAIR VALUE MEASUREMENT (Continued)

value of the collateral is based on an observable market price or a current appraisal value, the Company records the impaired loan as nonrecurring Level 2. When an appraised value is not available or management determines the fair value of the collateral is further impaired below the appraised value and there is no observable market price, the Company records the impaired loan as nonrecurring Level 3. Management typically reduces the appraisal value by 10% or more to determine the fair value of the collateral.

Foreclosed Real Estate: Foreclosed real estate is held for sale and is initially recorded at fair value less estimated costs of disposition at the date of foreclosure, establishing a new cost basis. Subsequent to foreclosure, valuations are periodically performed by management and the assets are carried at the lower of cost or estimated fair value less costs of disposition. The fair value of foreclosed real estate is determined using various valuation techniques which are not readily observable in the marketplace, including consideration of appraised values and other pertinent real estate market data. Management typically reduces the appraisal value by 10% to determine the fair value of the property.

No amounts were transferred among level 1, level 2 or level 3 during 2023 or 2022.

The following table presents quantitative information about level 3 fair value measurement for assets measured at fair value at December 31, 2023 and 2022:

|                           | Fair Value | Valuation Techniques          | Unobservable Inputs                          | Range                    | Weighted Average |

NOTE U – REVENUE FROM CONTRACTS WITH CUSTOMERS

All of the Company's revenue from contracts with customers under the scope of Accounting Standards Codification Topic 606, *Revenue from Contracts with Customers*, (ASC 606) is recognized within Other Income reported in the Consolidated Statements of Operations. Service charges and fees on deposit accounts of \$1,442,689 and \$1,400,590 for the years ended December 31, 2023, and 2022, respectively, and are within the scope of ASC 606.

A description of the Company's revenue streams accounted for under ASC 606 follows:

Service charges and fees on deposit accounts: The Company earns service charges and fees from its deposit customers for transaction-based, account maintenance and overdraft services. Transaction-based fees consist primarily of ATM usage charges and wire transfer fees and are recognized at the time the transaction is fulfilled. Account maintenance fees, which are mainly monthly maintenance fees on deposit accounts, are earned over the course of a month, representing the period the Company satisfies the performance obligation. Overdraft fees are recognized at the point the overdraft occurs. Service charges and fees on deposit accounts are generally withdrawn from the customer's account.

REDWOOD CAPITAL BANCORP AND SUBSIDIARY  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

December 31, 2023 and 2022

NOTE U – REVENUE FROM CONTRACTS WITH CUSTOMERS (Continued)

Gain on sale of foreclosed real estate: The Company records a gain or loss from the sale of foreclosed property when control of the property transfers to the buyer, which generally occurs at the time a deed is executed. When the Company finances the sale of foreclosed real estate to the buyer, the Company assess whether the buyer is committed to perform their obligation under the contract and whether collectability of the transaction price is probable. Once these criteria are met, the foreclosed real estate asset is derecognized and the gain or loss on sale is recorded upon transfer of control of the property to the buyer. In determining the gain or loss on the sale, the Company adjusts the transaction price and related gain on sale if a significant financing component is present.

NOTE V – SUBSEQUENT EVENTS

In January 2024, the Company declared a cash dividend of \$.08 per share, or approximately \$155,135, to shareholders of record on January 29, 2024, that was paid on February 12, 2024.
