Part II Organizational Action Attach additional statements if needed. See back of form for additional questions.

14 Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action ▶
Year to Date 2015, SeaWorld Entertainment, Inc. has declared and paid distributions to its common stockholders on record as follows:
Declared \$.21 per share on January 5, 2015 to shareholders of record January 13, 2015. Distribution was paid on January 22, 2015.
Declared \$.21 per share on March 3, 2015 to shareholders of record March 13, 2015. Distribution was paid on April 1, 2015.

15 Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ▶
SeaWorld Entertainment, Inc. has determined that of such distributions described above, a portion may be treated as a return of capital under IRC Section 301(c)(2). Generally, the portion of the distribution on the common stock that is treated as a return of capital should reduce the tax basis in shares of common stock up to a holder's adjusted basis, with any excess treated as capital gains pursuant to IRS Section 301(c)(3).

The final percentage that is considered as a return of capital for 2015 has not been determined. The final percentage will not be determined until after the close of 2015.
Based on current projections, it is estimated that approximately 60% - 70% of the distribution will be a taxable dividend, with the remaining portion being a return of capital.

16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ▶
Distributions made during 2015 could possibly exceed earnings and profits for the year. The amount that exceeds earnings and profits is considered a return of capital.
