Safe Harbor Statement

Please note that the information provided in this presentation is accurate as of the date of the original presentation. The presentation will remain posted on this web site from one to twelve months following the initial presentation, but content will not be updated to reflect new information that may become available after the original presentation posting. The presentation contains forward-looking statements including, among other things, management's estimates of future performance, revenue and earnings, our management's growth objectives and our management's ability to produce consistent operating improvements. These forward-looking statements are based on expectations as of the time the statements were made only, and are subject to a number of risks and uncertainties which could cause us to fail to achieve our then-current financial projections and other expectations. We undertake no duty to update this information. More information about potential factors that could affect our business and financial results is included in our filings with the Securities and Exchange Commission, including our Annual Reports on Form 10-K and Quarterly Reports on Form 10-Q, including, among other sections, under the captions, "Risk Factors" and "Management’s Discussion and Analysis of Financial Condition and Results of Operations," which is on file with the SEC and available at the SEC's website at www.sec.gov.
Why Invest in Curtiss-Wright?

• Positioned for solid growth organically and through strategic acquisitions
• Innovative leader supplying critical technologies that matter
• Long standing customer relationships
• Reputation as a trusted supplier of advanced technology
• Solid financial and operational outlook
Curtiss-Wright Strategy – Acquisition

Successful track record of integrating acquisitions
Provide acquisitions with enhanced distribution and more efficient cost structure
Position Sensors (at Acquisition)
Position Sensors (Today)

#1 in Position Sensor market  •  Lowest cost structure in the industry
Annual sensor & controls revenues of approximately $400M
Global Sensor and Controls Business

- = Sales / Support office and/or Employee
  - = Rep / Agent / Distributor
  - = Manufacturing / Engineering

2013 Corporate Overview
Why Our Technologies Matter

• Curtiss-Wright supplies vital technology to a variety of industries
• Leading provider of unique, one-of-a-kind, sole source products
• Reputation for enhancing safety, reliability and performance in harsh operating environments
  □ Provider of complex “must-not-fail” applications
• Technologies aimed at #1 or #2 share within their respective markets
Advanced Technology

Defense Electronics

Embedded Computing Modules

Embedded Electronic Systems

Defense Platforms

Curtiss-Wright is industry leader in embedded computing
Focused on Commercial Off-the-Shelf (COTS) technology
Advanced Technology

AP1000 Reactor Coolant Pumps

Advanced Reactor Design
- AP1000 is only NRC-certified Gen III+ reactor design
- New construction continues in China and the U.S.
- New China order expected in 2013

Sanmen Nuclear Power Station, China
Advanced Technology
Surface Treatment

Industry leading expertise in enhancing performance, extending life and preventing premature failure of critical components
Generating Shareholder Value
