Public Storage Company Update

January 2026

Important Information

FORWARD-LOOKING STATEMENTS: This presentation contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include statements relating to our 2025 outlook and all underlying assumptions; our expected acquisition, disposition, development, and redevelopment activity; supply and demand for our self-storage facilities; information relating to operating trends in our markets; expectations regarding operating expenses, including property tax changes; expectations regarding the impacts from inflation and changes in macroeconomic conditions; our strategic priorities; expectations with respect to financing activities, rental rates, cap rates, and yields; leasing expectations; our credit ratings; and all other statements other than statements of historical fact. Such statements are based on management's beliefs and assumptions made based on information currently available to management and may be identified by the use of the words "outlook," "guidance," "expects," "believes," "anticipates," "should," "estimates," and similar expressions. These forward-looking statements involve known and unknown risks and uncertainties, which may cause our actual results and performance to be materially different from those expressed or implied in the forward-looking statements. Risks and uncertainties that may impact future results and performance include, but are not limited to those risks and uncertainties described in Part 1, Item 1A, "Risk Factors" in our most recent Annual Report on Form 10-K filed with the Securities and Exchange Commission (the "SEC") on February 24, 2025 and in our other filings with the SEC. These include changes in demand for our facilities; changes in macroeconomic conditions; changes in national self-storage facility development activity; impacts from our strategic corporate transformation initiative; impacts of natural disasters; adverse changes in laws and regulations including governing property tax, evictions, rental rates, minimum wage levels, and insurance; adverse economic effects from public health emergencies, international military conflicts, international trade disputes (including threatened or implemented tariffs imposed by the U.S. and threatened or implemented tariffs imposed by foreign countries in retaliation), or similar events impacting public health and/or economic activity; increases in the costs of our primary customer acquisition channels; adverse impacts to us and our customers from high interest rates, inflation, unfavorable foreign currency rate fluctuations, or changes in federal or state tax laws related to the taxation of REITs; security breaches, including ransomware; or a failure of our networks, systems, or technology. These forward-looking statements speak only as of the date of this presentation or as of the dates indicated in the statements. All of our forward-looking statements, including those in this presentation, are qualified in their entirety by this cautionary statement. We expressly disclaim any obligation to update publicly or otherwise revise any forward-looking statements, whether as a result of new information, new estimates, or other factors, events, or circumstances after the date of these forward-looking statements, except when expressly required by law. Given these risks and uncertainties, you should not rely on any forward-looking statements in this presentation, or which management may make orally or in writing from time to time, neither as predictions of future events nor guarantees of future performance.

NON-GAAP MEASURES: This presentation contains non-GAAP measures, including FFO, NOI, and EBITDA. Non-GAAP measures should not be considered as an alternative to, or more meaningful than, net income (determined in accordance with GAAP) or other GAAP financial measures, as an indicator of financial performance and are not an alternative to, or more meaningful than, cash flow from operating activities (determined in accordance with GAAP) as a measure of liquidity. Non-GAAP measures have limitations as they do not include all items of income and expense that affect operations and, accordingly, should always be considered as supplemental financial results to those presented in accordance with GAAP. In addition, other REITs may compute these measures differently, so comparisons among REITs may not be helpful. Please refer to our SEC periodic reports and the reconciliations attached to this presentation for definitions of our non-GAAP measures and reconciliations to the nearest GAAP measures.

Appendix: 4Q25 Operating Update

Public Storage

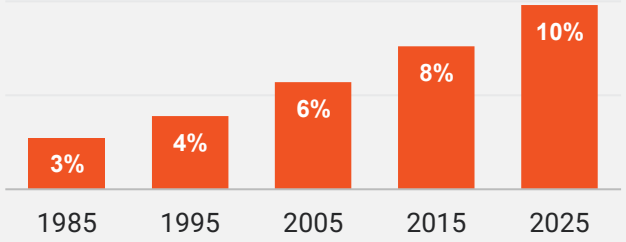

Favorable Fundamentals With Embedded Growth

Growing Secular Demand

- Needs-based, multi-faceted demand from individuals and business
- Net pro-cyclical, but with strong recession resilience
- The affordable option among space alternatives

Rising Utilization

% of U.S. Population Using Self Storage

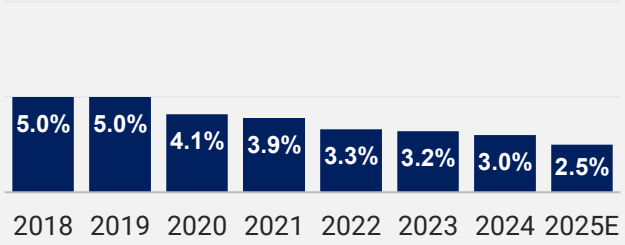

New Supply Constraints

- Primarily small regional developers that are highly subject to pressures including:
  - ❖ Economic cycles
  - ❖ Interest rates
  - ❖ Construction costs
  - ❖ Municipal processes
  - ❖ Underwriting complexity
  - ❖ Operational intensity
- Pressures create acquisition and third-party management opportunity

Declining Competitive New Supply

New Supply Growth[1]

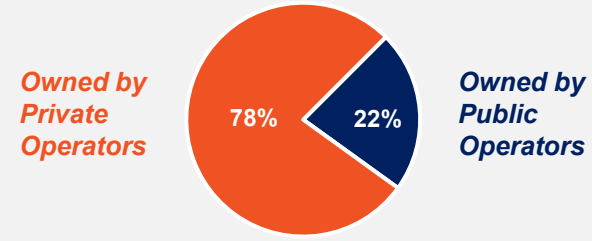

Fragmentation Leads to Growth

- Majority of properties are owned by smaller regional and individual operators
- Institutional ownership with defined hold periods increasing over the past decade
- Strong operational upside potential on more-sophisticated owner platforms

Fragmented Ownership

~2.7 billion square feet[2]

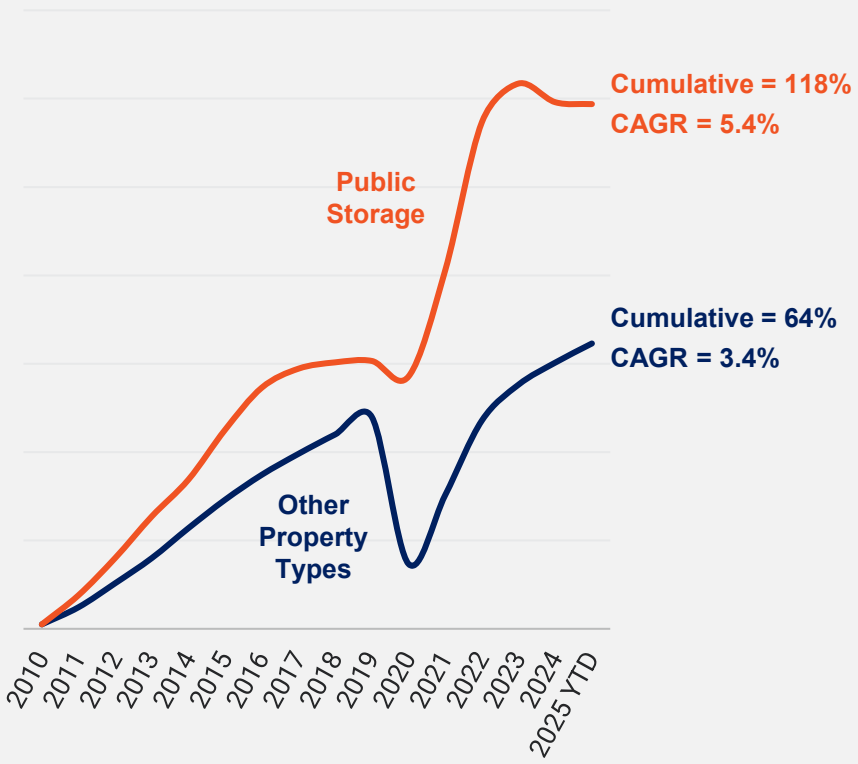

A fundamentally strong industry with benefits accruing to the larger and more-sophisticated operators

Source: U.S. Census, The Self Storage Almanac, Radius+, Yardi Matrix, and Public Storage

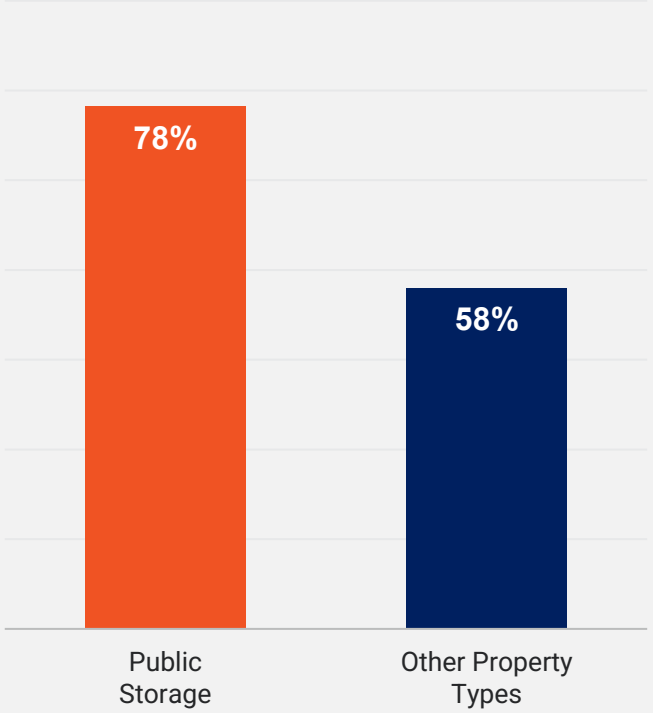

1. Reflects estimated annual expansion of total self storage net rentable square footage in the United States.
2. Public owners include Public Storage, CubeSmart, Extra Space, National Storage Affiliates, SmartStop, and U-Haul.

A Superior Cash Flow Profile

Strong NOI Growth[1]

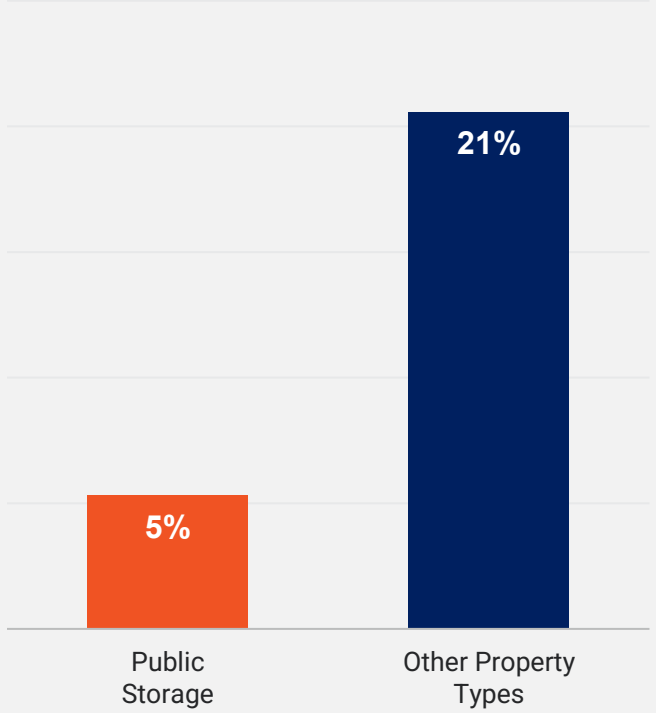

High NOI Margin[1]

Low Capital Expenditures[1]

% of NOI

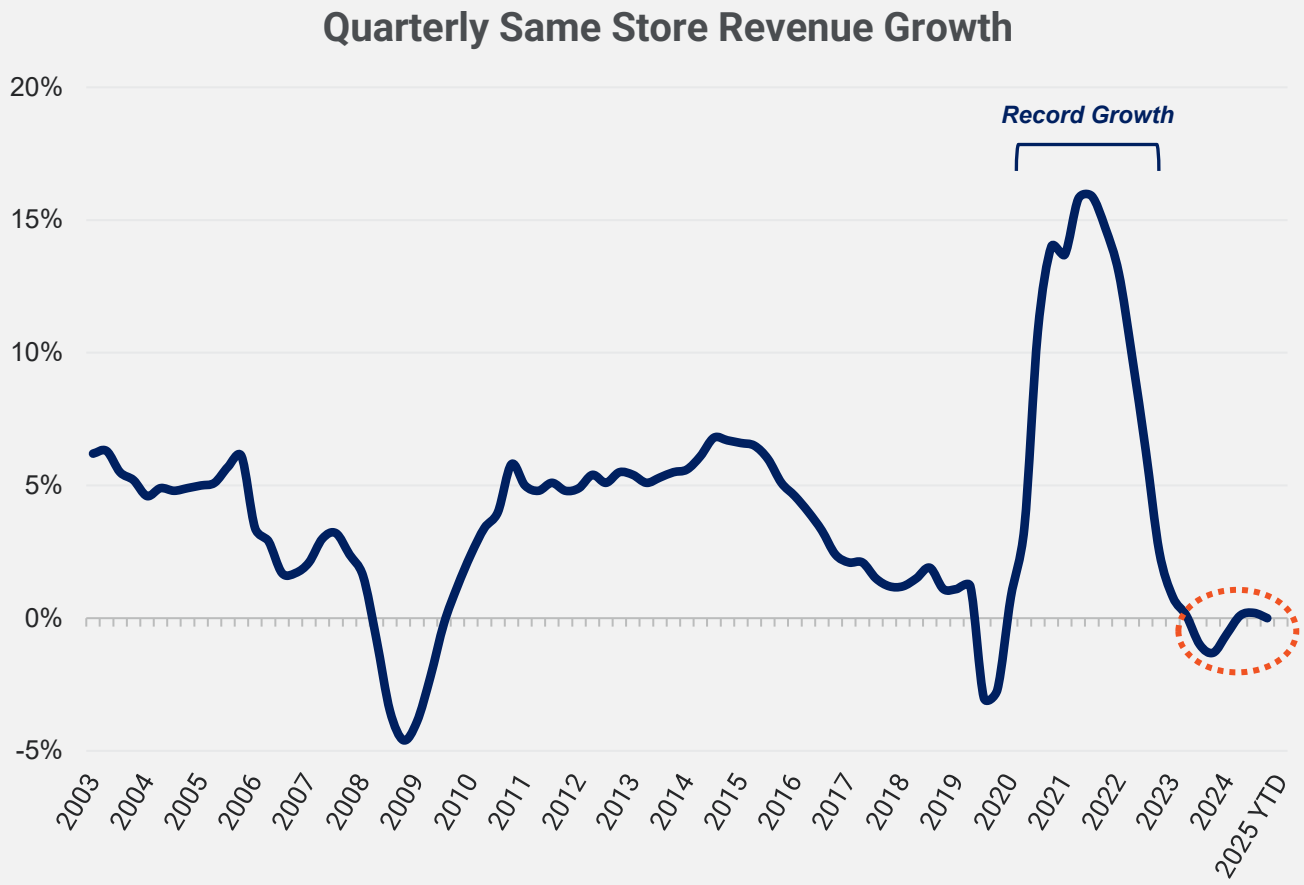

Public Storage's competitive advantages combine with industry dynamics to drive robust cash flows and returns

1. NOI growth and margins are for respective same store pools. Maintenance capital expenditures are for consolidated pools. Other Property Types is an average of apartments, office, industrial, mall, strip center, manufactured housing, and lodging sectors.

Operations Stabilizing From Extraordinary Times

Stabilization Considerations

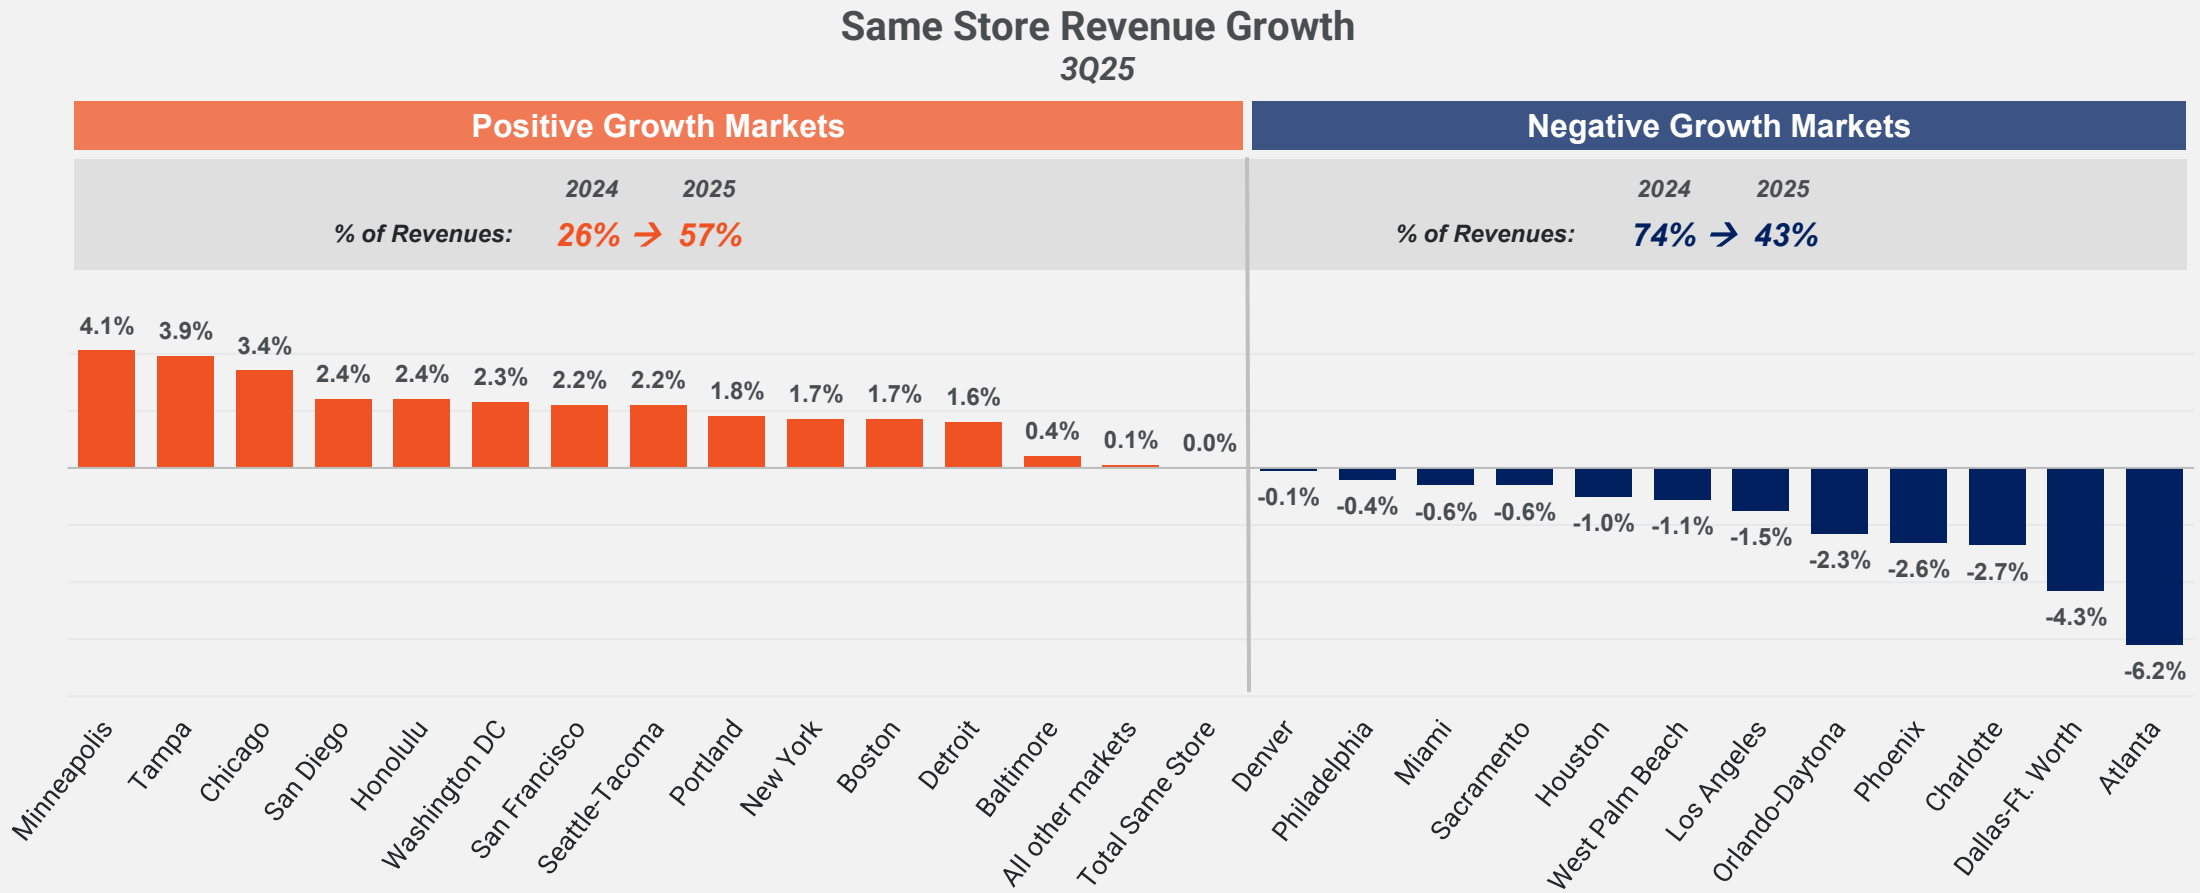

- Broad-based improvement occurring across markets
- Versus the past, a more gradual total same store acceleration expected due to:
  - Impact of pricing restrictions in Los Angeles[1]
  - Competitive customer move-in environment
  - Muted housing market activity

Improvement following tough comparisons, demand moderation, and competitive market move-in rent dynamics

Source: Company filings

1. Pricing restrictions resulting from the State of Emergency declared in response to the recent fires are having a negative impact on same store revenue growth relative to what would have otherwise occurred in 2025.
