RRD Strengthens Position as Trusted Food Packaging Partner

2025-09-30

RRD earns additional safe quality food and organic certifications

CHICAGO--(BUSINESS WIRE)-- RRD has expanded its food packaging capabilities, reinforced by its recently earned Safe Quality Food (SQF) and organic food handling certifications, to meet brand and regulatory requirements for safe, traceable food.

RRD has expanded its food packaging capabilities, reinforced by its recently earned Safe Quality Food (SQF) and organic food handling certifications at multiple facilities, to meet brand and regulatory requirements for safe, traceable food.

reliability within the food supply chain.

Multiple RRD facilities have earned the certifications needed to meet the high standards required for food supply chain participants. These certifications, combined with RRD's end-to-end capabilities, underscore a commitment to quality, safety and

"In an era where food safety and traceability are paramount, these certifications underscore RRD's dedication to building trust and future-proofing our clients' supply chains," said Jay Parks, Senior Vice President of Operations, Packaging and Labels at RRD. "Our capabilities for food brands combined with these certifications demonstrate RRD's next-level operational excellence and a commitment to quality and transparency."

RRD helps clients meet strict food packaging and industry regulations while reducing operational complexity and increasing efficiency. With packaging solutions including folding cartons, value-added corrugated packaging and rigid boxes, RRD serves as a global partner for packaging, labeling, and supply chain management—accelerating time to market from production to final delivery.

Bringing decades of packaging and supply chain expertise, RRD supports prepared meals and proteins to bakery and confectionery categories, among others. RRD's offerings include:

- Integrated Packaging, Labeling & Kitting: Provides a streamlined solution for printing, packaging and kitting requirements with one partner to reduce client logistics costs and improve quality control.
- Direct-to-Consumer Shipping: Capable of managing shipping logistics directly to the end consumer, eliminating the need for multiple partners.
- Industry-Tailored Solutions: Offers a range of products including labels designed to meet the specific needs of various industries. This includes specialized options for the food industry, such as cold storage labels that ensure proper handling and clear identification of perishable goods in temperature-controlled environments.
- Retailer Requirement Expertise: Delivers unmatched understanding of various retailer stipulations, ensuring product compliance.
