

RRD Partners with doxo to Expand Online Billing and Payment Offerings

Feb 14, 2019

New partnership will provide RRD clients with access to a leading, simplified online and mobile bill pay solution to increase engagement and digital adoption

CHICAGO & SEATTLE--(BUSINESS WIRE)-- **R.R. Donnelley & Sons Company** (RRD) (NYSE:RRD), a leading global provider of multichannel solutions for marketing and business communications, and **doxo**, an innovative web and mobile bill payment solution provider, today announced a mutual partnership that will provide RRD clients with seamless access to a leading electronic bill pay capability. Doxo allows consumers to receive electronic bills, pay multiple providers, and schedule automatic payments through a single portal with a single password. This unique, secure payment solution enables consumers to use a single set of login credentials to transact with more than 45,000 payable billers.

“We know that in today’s communications environment, our clients need the option to communicate across every channel in order to fully engage with their entire customer base,” said Tim Reedy, President, RRD Business Communications Solutions. “We partnered with doxo because consumers are increasingly seeking a seamless, digital bill pay experience, and doxo has developed a capability that delivers that experience. Like our other business communications solutions, doxo integrates easily into our clients’ current workflows and processes to further enhance their communications program without any down time.”

“Today’s consumers seek a customer-centered experience across all interactions with every type of business, including those that they transact with to pay their bills,” said Steve Shivers, CEO and co-founder of doxo. “Doxo’s secure, all-in-one bill pay service simplifies life for consumers so they can quickly take care of bills anytime, whether online or through their mobile devices. We are excited to partner with RRD to extend this capability to their clients to boost e-payments, paperless adoption, and mobile engagement.”
