PROSPECTUS SUMMARY

THE PROCTER & GAMBLE COMPANY DIRECT STOCK PURCHASE PLAN

The Procter & Gamble Company Direct Stock Purchase Plan (“Plan”) is a plan designed to encourage long-term investment in The Procter & Gamble Company (“the Company” or “P&G”) common stock (“Common Stock”) by providing eligible investors with a convenient and economical method to purchase Company shares and to reinvest cash dividends toward the purchase of additional shares.

Key features of the Plan are listed below:

- Make your initial investment directly through the Plan – no need for a broker
- Conduct easy recurring or periodic investments by automatic bank debit or by sending in a check
- Invest over time with a company you know and trust
- Reinvest all or a portion of your dividend
- Access your account and perform transactions online
- Put your investment dollars to work by purchasing full and fractional shares
- Benefit from low transaction fees
- Eliminate the need to track and safekeep certificated shares by depositing them into the Plan
- Sell your shares directly through the Plan

To the extent required by applicable law in certain jurisdictions, shares offered under the Plan are offered through the Plan Administrator. It is recommended that this prospectus be retained for future reference.

RISK FACTORS

You should carefully consider the following risk factors together with all of the other information included in this prospectus, any prospectus supplement and the information that we have incorporated by reference before investing in Common Stock of the Company. The following risks could materially and adversely affect the Company's business, financial condition, cash flows and results of operations. In that case, the trading price of the Common Stock could decline.

Our business is subject to numerous risks as a result of our having significant operations and sales in international markets, including foreign currency fluctuations, currency exchange or pricing controls and localized volatility.

We are a global company, with operations in approximately 70 countries and products sold in more than 180 countries and territories around the world. We hold assets, incur liabilities, earn revenues and pay expenses in a variety of currencies other than the U.S. dollar, and our operations outside the U.S. generate a significant portion of our net revenue. Fluctuations in exchange rates for foreign currencies, such as the recent volatility in the Russian ruble, may reduce the U.S. dollar value of revenues, profits and cash flows we receive from non-U.S. markets, increase our supply costs (as measured in U.S. dollars) in those markets, or otherwise adversely impact our business results or financial condition. Moreover, discriminatory or conflicting fiscal policies in different countries could adversely affect our results. See also the Results of Operations and Cash Flow, Financial Condition and Liquidity sections of the MD&A and Note 5 to our Consolidated Financial Statements.

We also have sizable businesses and maintain local currency cash balances in a number of foreign countries with exchange, import authorization, pricing or other controls, including Argentina, China, Egypt, Greece, India, Nigeria, Ukraine and Venezuela. Our results of operations and financial condition could be adversely impacted if we are unable to successfully manage such controls and repatriate earnings from overseas, or if new or increased tariffs, quotas, exchange or price controls, trade barriers or similar restrictions are imposed on our business outside the U.S.

Additionally, our business, operations or employees may be affected by political volatility, labor market disruptions or other crises or vulnerabilities in individual countries or regions, including political instability or upheaval, broad economic instability or sovereign risk related to a default by or deterioration in the credit worthiness of local governments, particularly in emerging markets, which could negatively impact our financial condition or results of operations.

Uncertain global economic conditions, including disruptions in credit markets or changes to our credit rating, may adversely impact demand for our products, cause our customers and other business partners to suffer financial hardship or reduce our access to credit, all of which could adversely impact our business.

Our business could be negatively impacted by reduced demand for our products related to one or more significant local, regional or global economic disruptions, such as: a slow-down in the general economy; reduced market growth rates; tighter credit markets for our suppliers, vendors or customers; or the inability to conduct day-to-day transactions through our financial intermediaries to pay funds to or collect funds from our customers, vendors and suppliers. Additionally, economic conditions may cause our suppliers, distributors, contractors or other third party partners to suffer financial difficulties that they cannot overcome, resulting in their inability to provide us with the materials and services we need, in which case our business and results of operations could be adversely affected. Customers may also suffer financial hardships due to economic conditions such that their accounts become uncollectible or are subject to longer collection cycles. If we are unable to generate sufficient income and cash flow, it could affect the Company's ability to achieve expected share repurchase and dividend payments.

A disruption in the credit markets or a downgrade of our current credit rating could increase our future borrowing costs and impair our ability to access capital and credit markets on terms commercially acceptable to us, which could adversely affect our liquidity and capital resources or significantly increase our cost of capital.

Disruption in our global supply chain may negatively impact our business results.

Our ability to meet our customers' needs and achieve cost targets depends on our ability to maintain key manufacturing and supply arrangements, including execution of our previously-announced supply chain simplifications and certain sole supplier or sole manufacturing plant arrangements. The loss or disruption of such manufacturing and supply arrangements, including for issues such as labor disputes, loss or impairment of key manufacturing sites, inability to procure sufficient raw or input materials, natural disasters, acts of war or terrorism or other external factors over which we have no control, could interrupt product supply and, if not effectively managed and remedied, have an adverse impact on our business, financial condition or results of operations.

Our businesses face cost fluctuations and pressures that could affect our business results.

Our costs are subject to fluctuations, particularly due to changes in the prices of commodities and raw materials and the costs of labor, transportation, energy, pension and healthcare. Therefore, our business results are dependent, in part, on our continued ability to manage these fluctuations through pricing actions, cost saving projects and sourcing decisions, while maintaining and improving margins and market share. In addition, our financial projections

include cost savings described in our announced productivity plan. Failure to manage these fluctuations and deliver the planned cost savings could adversely impact our financial results.

Our ability to meet our growth targets depends on successful product, marketing and operations innovation and successful responses to competitive innovation.

We are a consumer products company that relies on continued global demand for our brands and products. Achieving our business results depends, in part, on successfully developing, introducing and marketing new products and on making significant improvements to our equipment and manufacturing processes. The success of such innovation depends on our ability to correctly anticipate customer and consumer acceptance and trends, to obtain, maintain and enforce necessary intellectual property protections and to avoid infringing upon the intellectual property rights of others. We must also be able to successfully respond to technological advances made by, and intellectual property rights granted to, competitors. Failure to do so could compromise our competitive position and adversely impact our results.

The ability to achieve our business objectives is dependent on how well we can compete with our local and global competitors in new and existing markets and channels.

The consumer products industry is highly competitive. Across all of our categories, we compete against a wide variety of global and local competitors. As a result, we experience ongoing competitive pressures in the environments in which we operate, as well as challenges in maintaining profit margins. This includes, among other things, increasing competition from mid- and lower-tier value products, including private-label products, in both developed and developing markets. To address these challenges, we must be able to successfully respond to competitive factors, including pricing, promotional incentives and trade terms. In addition, the emergence of new sales channels and business models may affect customer and consumer preferences as well as market dynamics. Failure to successfully respond to competitive factors and effectively compete in new sales channels could negatively impact our results.

A significant change in customer relationships or in customer demand for our products could have a significant impact on our business.

We sell most of our products via retail customers, which include mass merchandisers, grocery stores, membership club stores, drug stores, department stores, salons, distributors, e-commerce and high-frequency stores. Our success is dependent on our ability to successfully manage relationships with our retail trade customers, which includes our ability to offer trade terms that are mutually acceptable and are aligned with our pricing and profitability targets. Continued consolidation among our retail customers could create significant cost and margin pressure on our business, and our business performance could suffer if we cannot reach agreement with a key customer based on our trade terms and principles. Our business could also be negatively impacted if a key customer were to significantly reduce the inventory level of our products or experience a significant business disruption.

If the reputation of the Company or one or more of our brands erodes significantly, it could have a material impact on our financial results.

The Company's reputation, and the reputation of our brands, form the foundation of our relationships with key stakeholders and other constituencies, including consumers, customers and suppliers. The quality and safety of our products are critical to our business. Many of our brands have worldwide recognition, and our financial success is directly dependent on the success of our brands. The success of our brands can suffer if our marketing plans or product initiatives do not have the desired impact on a brand's image or its ability to attract consumers. Our results could also be negatively impacted if one of our brands suffers a substantial impediment to its reputation due to a significant product recall, product-related litigation, allegations of product tampering or the distribution and sale of

counterfeit products. Additionally, negative or inaccurate postings or comments on social media or networking websites about the Company or one of its brands could generate adverse publicity that could damage the reputation of our brands or the Company. If we are unable to effectively manage real or perceived issues, including concerns about safety, quality, efficacy or similar matters, sentiments toward the Company or our products could be negatively impacted and our financial results could suffer. Our Company also devotes significant time and resources to programs that are consistent with our corporate values and are designed to protect and preserve our reputation, such as social responsibility and environmental sustainability. If these programs are not executed as planned or suffer negative publicity, the Company's reputation and financial results could be adversely impacted.

We rely on third parties in many aspects of our business, which creates additional risk.

Due to the scale and scope of our business, we must rely on relationships with third parties, including our suppliers, distributors, contractors, joint venture partners or external business partners, for certain functions. If we are unable to effectively manage our third party relationships and the agreements under which our third party partners operate, our financial results could suffer. Additionally, while we have policies and procedures for managing these relationships, they inherently involve a lesser degree of control over business operations, governance and compliance, thereby potentially increasing our financial, legal, reputational and operational risk.

A breach of information security, including a cybersecurity breach or failure of one or more key information technology systems, networks, hardware, processes, associated sites or service providers could have a material adverse impact on our business or reputation.

We rely extensively on information technology (IT) systems, networks and services, including internet sites, data hosting and processing facilities and tools and other hardware, software and technical applications and platforms, some of which are managed, hosted, provided and/or used by third-parties or their vendors, to assist in conducting our business. The various uses of these IT systems, networks and services include, but are not limited to:

- ordering and managing materials from suppliers;
- converting materials to finished products;
- shipping products to customers;
- marketing and selling products to consumers;
- collecting, transmitting, transferring and storing customer, consumer, employee, vendor, investor and other stakeholder information and personal data;
- summarizing and reporting results of operations;
- hosting, processing and sharing, as appropriate, confidential and proprietary research, business plans and financial information;
- complying with regulatory, legal and tax requirements;
- providing data security; and
- handling other processes necessary to manage our business.

Numerous and evolving information security threats, including advanced persistent cybersecurity threats, pose a risk to the security of our IT systems, networks and services, as well as the confidentiality, availability and integrity of our data. As cybersecurity threats rapidly evolve in sophistication and become more prevalent across the industry globally, the Company is continually increasing its sensitivity and attention to these threats. We continue to assess potential threats and make investments seeking to address these threats, including monitoring of networks and systems and upgrading skills, employee training and security policies for the Company and its third-party providers. However, because the techniques used in these attacks change frequently and may be difficult to detect for periods

of time, we may face difficulties in anticipating and implementing adequate preventative measures. Our IT systems have been, and will likely continue to be, subject to computer viruses or other malicious codes, unauthorized access attempts, phishing and other cyber-attacks. To date, we have seen no material impact on our business or operations from these attacks; however, we cannot guarantee that our security efforts will prevent breaches or breakdowns to our or our third-party providers' databases or systems. If the IT systems, networks or service providers we rely upon fail to function properly, or if we or one of our third-party providers suffer a loss, significant unavailability of or disclosure of our business or stakeholder information, due to any number of causes, ranging from catastrophic events or power outages to improper data handling or security breaches, and our business continuity plans do not effectively address these failures on a timely basis, we may be exposed to reputational, competitive and business harm as well as litigation and regulatory action. The costs and operational consequences of responding to breaches and implementing remediation measures could be significant.

We must successfully manage compliance with legislation, regulation and enforcement, as well as pending legal matters in the U.S. and abroad.

Our business is subject to a wide variety of laws and regulations across all of the countries in which we do business, including those laws and regulations involving intellectual property, product liability, marketing, antitrust, privacy, environmental, employment, anti-bribery or anti-corruption (such as the U.S. Foreign Corrupt Practices Act) or other matters. Rapidly changing laws, regulations and related interpretations, including changes in accounting standards, as well as increased enforcement actions, create challenges for our compliance and ethics programs and may alter the environment in which we do business. If we are unable to continue to meet these challenges and comply with all laws, regulations and related interpretations, it could negatively impact our reputation and our business results. Failure to successfully manage regulatory and legal matters and resolve such matters without significant liability or damage to our reputation may materially adversely impact our results of operations and financial position. Furthermore, if pending legal matters result in fines or costs in excess of the amounts accrued to date, that may also materially impact our results of operations and financial position.

Changes in applicable tax regulations could negatively affect our financial results.

The Company is subject to taxation in the U.S. and numerous foreign jurisdictions. Because the U.S. maintains a worldwide corporate tax system, the foreign and U.S. tax systems are somewhat interdependent. For example, certain income that is earned and taxed in countries outside the U.S. is not taxed in the U.S., provided those earnings are indefinitely reinvested outside the U.S. If those same foreign earnings are instead repatriated to the U.S., additional residual U.S. taxation will likely occur, due to the U.S.'s worldwide tax system and higher U.S. corporate tax rate. The U.S. is considering corporate tax reform that may significantly change the corporate tax rate and the U.S. international tax rules. Additionally, longstanding international tax norms that determine each country's jurisdiction to tax cross-border international trade are evolving, such as the Base Erosion and Profit Shifting project ("BEPS") currently being undertaken by the G8, G20, and Organization for Economic Cooperation and Development ("OECD"). As these and other tax laws and related regulations change, our financial results could be materially impacted. Given the unpredictability of these possible changes and their potential interdependency, it is very difficult to assess whether the overall effect of such potential tax changes would be cumulatively positive or negative for our earnings and cash flow, but such changes could adversely impact our financial results.

If we are unable to successfully execute our portfolio optimization strategy, as well as successfully manage ongoing acquisition, joint venture and divestiture activities, it could adversely impact our business.

In August 2014, the Company announced a plan to significantly streamline our product portfolio by divesting, discontinuing or consolidating about 100 non-strategic brands, resulting in a portfolio of about 65 brands. The Company has announced a series of transactions that will substantially complete this plan. It will take time to execute this plan, and our ability to successfully do so could impact our results.

In addition, as a company that manages a portfolio of consumer brands, our ongoing business model includes a certain level of acquisition, joint venture and divestiture activities. We must be able to successfully manage the impacts of these activities, while at the same time delivering against our business objectives. Specifically, our financial results could be adversely impacted by the dilutive impacts from the loss of earnings associated with divested brands. Our financial results could also be impacted in the event of acquisitions or joint venture activities if: 1) changes in the cash flows or other market-based assumptions cause the value of acquired assets to fall below book value, or 2) we are not able to deliver the expected cost and growth synergies associated with such acquisitions and joint ventures, which could also have an impact on goodwill and intangible assets.

Our business results depend on our ability to successfully manage ongoing organizational change.

Our financial targets assume a consistent level of productivity improvement, including those described in our announced productivity plan and our portfolio-optimization strategy. If we are unable to deliver these expected productivity improvements, while continuing to invest in business growth, our financial results could be adversely impacted. We expect these types of changes, which will include staffing adjustments as well as employee departures, to continue for the foreseeable future. Successfully executing these changes, including effective management transitions at leadership levels of the Company and retention of key employees, is critical to our business success. We are generally a build-from-within company and our success is dependent on identifying, developing and retaining key employees to provide uninterrupted leadership and direction for our business. This includes developing and retaining organizational capabilities in key growth markets where the depth of skilled or experienced employees may be limited and competition for these resources is intense. It also includes continued development and execution of robust leadership succession plans, including successful execution of our recently announced CEO transition.

USE OF PROCEEDS

Purchases of Common Stock under the Plan will be made in the open market and the Company will not receive any proceeds under the Program.

DETERMINATION OF OFFERING PRICE

The cost of shares of the Company's Common Stock acquired under the Plan is the average price of all shares purchased for each Investment Period, plus any brokerage charges and applicable transaction fees (see **Investment Summary and Fees**).

PLAN OF DISTRIBUTION

TERMS AND CONDITIONS OF THE DIRECT STOCK PURCHASE PLAN

The following is a description of The Direct Stock Purchase Plan of the Company:

Overview

- The purpose of the Plan is to encourage long-term investment in the Company by offering eligible participants a convenient and economical way to buy shares of the Company's Common Stock and to reinvest cash dividends toward the purchase of additional shares.
- The Plan is administered by Wells Fargo Shareowner Services ("WFSS"). WFSS also serves as the Company's stock transfer and dividend disbursing agent.
- Participation in the Plan is entirely voluntary. You may join the Plan at any time and request that your account be closed whenever you wish.

Eligibility

Any person or entity is eligible to enroll in the Plan provided that the enrollment procedures are satisfied as described below under the heading “How to Enroll.” Enrollment in the Plan is voluntary and may not be available to investors in certain countries. Persons residing outside of the United States should determine whether they are subject to any governmental regulation prohibiting their participation.

How to Enroll

- After being furnished with a copy of this prospectus, any shareholder of record may enroll in the Plan.
- Shareholders of record who are not employees may enroll by signing an Account Authorization Form (“AAF”) and submitting it to WFSS. Forms and all other Plan documents may be obtained from WFSS or by accessing them through our website at **shareowneronline.com**.
- If you are an employee of the Company and wish to enroll in the Plan through payroll deductions, wherever offered, you may initiate the deduction by following the enrollment instructions provided under “Life & Career” on **my.pg.com**.
- Persons or entities who are not shareholders of record may enroll by completing an AAF and submitting it to WFSS. In addition to your AAF, you must include your initial investment by authorizing an automatic withdrawal from your checking or savings account, or by sending a first-party check made payable to “Shareowner Services” in U.S. dollars and drawn on a U.S. or Canadian financial institution. Cash, money orders, traveler’s checks or third party checks are not accepted. The minimum initial investment in the Plan is required. You may also enroll and make your initial investment in the Plan online at **shareowneronline.com**. There is a onetime enrollment fee for new participants (see **Investment Summary and Fees**). If you are an employee of the Company, there is a minimum investment required per deduction if using the payroll deduction feature (see **Investment Summary and Fees**).
- If you currently own shares of P&G common stock that are held on your behalf by a bank or broker (in “street name”), you can instruct the bank or broker to transfer at least one share to a book-entry Direct Registration Shares (“DRS”) account registered in your name. Once the process is complete, you will receive a statement showing the deposit of shares to book-entry DRS. Upon receipt of the statement, you can enroll in the Plan as an existing registered shareowner.
- You can reinvest all or a portion of your P&G cash dividends. You also have the choice to receive your dividends in a cash payment. When you enroll in the Plan, you may select the option to automatically reinvest your dividend. If you do not select an option, the Plan Administrator will default your choice to full reinvestment. You may change your election at any time either online, by telephone or by sending a new AAF by mail. Changes received after the record date of a dividend will be effective for the following dividend. The record date is usually ten calendar days after a dividend is declared.
- Once you have enrolled, your participation continues automatically unless terminated by the Company or you request that your Plan account be closed (refer to sections “**Closing Your Account**” and “**Termination**”).

Optional Cash Investments

- Any initial, recurring, or one-time optional cash investment will be invested within five (5) trading days, and no later than 35 trading days, except where postponement is necessary to comply with Regulation M under the Securities Exchange Act of 1934 or other applicable provisions of securities law. In making purchases for the participant’s account, the Plan Administrator may commingle the participant’s funds with those of other participants of the Plan. Purchases may be subject to certain fees and conditions (see **Investment Summary and Fees**).

- **Checks** – To make an investment by mail, payments must be in U.S. dollars and drawn on a U.S. or Canadian financial institution. Cash, money orders, traveler’s checks or third party checks are not accepted.
- **Automatic investments** – A participant may setup a one-time, semi-monthly or monthly automatic withdrawal from a designated bank account. The request may be submitted online, by telephone or by sending an AAF by mail (see **Contact Information**). Requests are processed and become effective as promptly as administratively possible. Once the automatic withdrawal is initiated, funds will be debited from the participant’s designated bank account on or about the 5th and/or the 20th of each month and will be invested in P&G common stock within five (5) trading days. Changes or a discontinuation of automatic withdrawals can be made online, by telephone or by using the Transaction Request Form attached to the participant’s statement. To be effective with respect to a particular investment date, a change request must be received by the Plan Administrator at least 15 trading days prior to the investment date.

During the period that any initial investment or optional cash investment is pending, the collected funds in the possession of the Plan Administrator may be held uninvested or invested in certain Permitted Investments. For purposes of this Plan, “Permitted Investments” shall mean select Wells Fargo deposit products which may include money market mutual funds registered under the Investment Company Act (including those of an affiliate of the Plan Administrator or for which the Plan Administrator or any of its affiliates provides management advisory or other services) consisting entirely of (i) direct obligations of the United States of America; or (ii) obligations fully guaranteed by the United States of America. The risk of any loss from such Permitted Investments shall be the responsibility of the Plan Administrator. Investment income from such Permitted Investments shall be retained by the Plan Administrator.

- A minimum optional cash investment via Automatic Investment or check is required. You may make optional cash investments up to the total maximum in a calendar year. Optional cash investments in excess of the maximum limit for any calendar year or below the required minimum will be returned to you. There is no obligation to make optional cash payments at any time (see **Investment Summary and Fees**).
- Wherever available, employees may use payroll deductions to purchase shares in the Plan. If you wish to change any aspect of your payroll deduction selection, you must go into **my.pg.com**; Life & Career; Pay & Retirement; My Paycheck Deductions and submit the appropriate changes. The minimum investment is required per payroll deduction (see **Investment Summary and Fees**).
- If any optional cash investment, including payment by check or automatic withdrawal, is returned for any reason, the Plan Administrator will remove from the participant’s account any common stock purchased with such funds, and will sell these shares. The Plan Administrator may also sell additional common stock in the account to recover a returned funds fee for each optional cash investment returned unpaid for any reason and may sell additional shares as necessary to cover any market loss incurred by the Plan Administrator.

Dividend Reinvestment Options

The Plan Administrator will invest P&G dividend funds as soon as administratively possible and no later than 30 trading days, following the dividend payable date.

A participant can elect to reinvest all or a portion of the dividends payable (if any) to purchase additional shares of P&G common stock. The participant may also have the choice to receive the full dividend in a cash payment. The following describes the available options:

Full dividend reinvestment – All cash dividends payable on shares held in the Plan, along with any shares held in physical certificate form or through book-entry Direct Registration Shares (“DRS”), will be used to purchase additional shares. The participant will not receive cash dividends from P&G; instead, all dividends will be reinvested. Whole and fractional shares will be allocated to the Plan account. *(RD)*

Partial dividend reinvestment by percentage – A participant may elect to reinvest a portion of the dividend and receive the remainder in cash. The percentage elected will be applied to the total shares held in the Plan, along with any shares held in physical certificate form or held through book-entry DRS. A participant may elect percentages from 10%-90%, in increments of 10%. The cash portion of dividends will be sent by check unless the participant has elected to have those dividends deposited directly to a designated bank account. *(RX-N)*

An example of partial reinvestment by percentage: A participant has a total of 150 shares; 120 shares are held in the Plan, 15 in physical certificate form and 15 shares in book entry DRS. The participant chooses to have 50% of the total dividend reinvested. This will equate to 75 shares having dividends reinvested and 75 shares having dividends paid in cash.

Partial dividend reinvestment by share amount – A participant may elect to reinvest a portion of the dividend and receive the remainder in cash. The partial elected to reinvestment will be applied to the total shares held in the Plan, along with any shares held in physical certificate form or held through book entry DRS. The cash portion of dividends will be sent by check unless the participant has elected to have those dividends deposited directly to a designated bank account. *(RP-N)*

Partial cash dividend by share amount – A participant may elect to be paid cash for a portion of the dividend and reinvest the remainder. The partial elected to be paid will be applied to the total shares held in the Plan, along with any shares held in physical certificate form or held through book entry DRS. The cash portion of dividends will be sent by check unless the participant has elected to have those dividends deposited directly to a designated bank account. *(PS-N)*

Cash dividends – All dividends payable to the participant will be paid in cash. This includes the dividend payable on all shares held in the Plan, any shares held in physical certificate form or held through book entry DRS. The participant's dividend payment will be sent by check unless the participant has elected to have those dividends deposited directly to a designated bank account. *(RPO)*

Direct Deposit of Cash Dividends

For electronic direct deposit of any dividend funds, contact the Plan Administrator to request a Direct Deposit of Dividends Authorization Form. The participant should include a voided check or deposit slip from the bank account for which to set up direct deposit. If the shares are jointly owned, all owners must sign the form.

Investment Purchase and Pricing

Purchases are made through an affiliated broker, generally within five (5) trading days from receipt of your investment amount.

Shares are purchased in the open market. Your purchase price will be the weighted average purchase price per share for all shares purchased through the Plan for that investment date.

- Investments, other than payroll deductions, received less than one (1) business day before any Investment Date will not be available for investment until the next Investment Date.

PARTICIPANTS WILL RECEIVE NO INTEREST FROM THE COMPANY OR THE PLAN ADMINISTRATOR ON ANY FUNDS HELD PENDING INVESTMENT.

- WFSS may commingle your funds with those of other participants for the purpose of executing purchases.

The Company has no control over the times when and the prices at which WFSS purchases shares of Common Stock. The amount of shares of Common Stock to be purchased, the manner in which these shares are purchased, and the selection of a broker through which purchases may be executed for the Plan is also determined by WFSS.

Direct Registration System (DRS)

We have adopted a direct registration system, or DRS, for book-entry share registration and transfer of our Common Stock. No certificates representing your shares will be mailed to you. Under DRS, instead of receiving stock certificates, you will receive a statement reflecting your ownership interest in your shares. DRS is a method of recording shares of stock in electronic, or book-entry form, meaning shares can be registered in your name on the books of The Procter & Gamble Company without the need for physical certificates. Shares held in book-entry under DRS have all the traditional rights and privileges of shares held in certificated form.

DRS eliminates the risk and cost of paper certificates, while enabling you to maintain the benefits of direct ownership, including the ability to participate in the plan. If you hold any shares in book-entry form, you may at any

time choose to have all or a portion of your book-entry shares transferred to your broker electronically by contacting your broker or dealer. When using your broker to facilitate a share transfer, you will need to provide them with a copy of your DRS account statement.

Records

- WFSS will provide a detailed statement for each week in which your Plan account has optional investment, sale or transfer activity. This statement will describe all transactions for the calendar year-to-date.
- Statements will not be mailed following dividend reinvestments. Participants can enroll online at **shareowneronline.com**. Once enrolled, participants may then elect electronic notification, meaning eDelivery of statements, reports, prospectuses and other materials under the applicable securities laws.
- Annual statements reflecting calendar year-to-date activity will be mailed to all participants.
- Participants who are employees of the Company will not receive activity statements for payroll deductions. Their account information is available at **shareowneronline.com**.
- At a participant's request, WFSS will provide a historical statement. There may be a fee for a duplicate statement for participants (see **Investment Summary and Fees**). A first-party check (payable in U.S. dollars and drawn on a U.S. or Canadian financial institution) must be made payable to "Shareowner Services" and must accompany the written request.
- All notices, statements and reports will be sent to your address of record. Many States have enacted abandoned property laws which may require the Company or WFSS to remit to the State all stock and dividends held in those Plan accounts for which the owner cannot be located. Accordingly, you should promptly notify WFSS of any change of address.

Share Certificates and Share Safekeeping

- Shares purchased for your Plan account are held by WFSS.
- At the time of enrollment in the Plan, or at any later time, you may deposit any of your Common Stock certificates with WFSS for safekeeping. Shares represented by the deposited certificates will be included in book-entry form in your Plan account.
- If you wish to have only a portion of your cash dividends on Common Stock held in your Plan account reinvested, you must notify WFSS, in writing or online at **shareowneronline.com**
- If you wish to have none of your cash dividends reinvested, your shares may be placed in Direct Registration System form. Direct Registration System is a securities industry initiative that provides for electronic direct registration of securities on our books, in your existing WFSS account registration and allows shares to be transferred between WFSS and your broker electronically.
- Shares deposited are treated in the same manner as shares purchased through the Plan and may be transferred or sold through the Plan For tax purposes. It is important that you keep records of the original purchase price of these shares for subsequent gain or loss calculations.

A participant may elect to deposit physical P&G common stock certificate(s) for safekeeping, by sending the certificate(s) to the Plan Administrator together with instructions to deposit the certificate(s). The certificate(s) will show as surrendered with the corresponding credit to Plan shares. The transaction will appear on the Plan account statement, and shares will be held by the Plan Administrator in its name or nominee name. These shares will be held until the participant sells, withdraws or terminates participation in the Plan. Because the participant bears the risk

of loss in sending stock certificate(s), it is recommended that the participant sends them registered, insured for at least 3% of the current market value and request a return receipt.

Optional Mail Loss Insurance

The participant is advised that choosing registered, express or certified mail alone will not provide full protection, should the certificates become lost or stolen. Mail loss insurance provides the coverage needed to replace and reissue the shares should they become lost or stolen through the mail. As the Plan Administrator, we can provide low-cost loss insurance for certificates being returned for conversion to book-entry form. Replacement transaction fees may also apply.

To take advantage of the optional mail loss insurance, simply include a check in the amount of \$10.00, made payable to 'WFSS Surety Program', along with the certificates and instructions. Choose an accountable mail delivery service such as Federal Express, United Parcel Service, DHL, Express Mail, Purolator, TNT, or United States Postal Service Registered Mail. Any one shipping package may not contain certificates exceeding a total value of \$100,000. The value of certificate shares is based on the closing market price of the common stock on the trading day prior to the documented mail date.

Claims related to lost certificates under this service must be made within 60 days of the documented delivery service mail date. A copy of the certificate(s) mailed, along with proof that it was sent by trackable mail should be submitted with the claim. This is specific coverage for the purpose of converting shares to book-entry form and the surety is not intended to cover certificates being tendered for certificate breakdown or exchange for other certificates.

- Shares held in Plan accounts may not be pledged.

Sale of Shares

Sales are usually made through an affiliated broker, who will receive brokerage commissions. Typically, the shares are sold through the exchange on which the common shares of P&G are traded. Depending on the number of P&G shares to be sold and current trading volume, sale transactions may be completed in multiple transactions and over the course of more than one day. All sales are subject to market conditions, system availability, restrictions and other factors. The actual sale date, time or price received for any shares sold through the Plan cannot be guaranteed.

Participants may instruct the Plan Administrator to sell shares under the Plan through a Batch Order, Market Order, Day Limit Order, Good-'Til-Date/Canceled Limit Order or Stop Order.

Batch Order (online, telephone, mail) – The Plan Administrator will combine each request to sell through the Plan with other Plan participant sale requests for a Batch Order. Shares are then periodically submitted in bulk to a broker for sale on the open market. Shares will be sold no later than five business days (except where deferral is necessary under state or federal regulations). Bulk sales may be executed in multiple transactions and over more than one day depending on the number of shares being sold and current trading volumes. Once entered, a Batch Order request cannot be canceled.

Market Order (online or telephone) – The participant's request to sell shares in a Market Order will be at the prevailing market price when the trade is executed. If such an order is placed during market hours, the Plan Administrator will promptly submit the shares to a broker for sale on the open market. Once entered, a Market Order request cannot be canceled. Sales requests submitted near the close of the market may be executed on the next trading day, along with other requests received after market close.

Day Limit Order (online or telephone) – The participant's request to sell shares in a Day Limit Order will be promptly submitted by the Plan Administrator to a broker. The broker will execute as a Market Order when and

if the stock reaches, or exceeds the specified price on the day the order was placed (for orders placed outside of market hours, the next trading day). The order is automatically canceled if the price is not met by the end of that trading day. Depending on the number of shares being sold and current trading volumes, the order may only be partially filled and the remainder of the order canceled. Once entered, a Day Limit Order request cannot be canceled by the participant.

Good-'Til-Date/Canceled (GTD/GTC) Limit Order (online or telephone) – A GTD/GTC Limit Order request will be promptly submitted by the Plan Administrator to a broker. The broker will execute as a Market Order when and if the stock reaches, or exceeds the specified price at any time while the order remains open (up to the date requested or 90 days for GTC). Depending on the number of shares being sold and current trading volumes, sales may be executed in multiple transactions and may be traded on more than one day. The order or any unexecuted portion will be automatically canceled if the price is not met by the end of the order period. The order may also be canceled by the applicable stock exchange or the participant.

Stop Order (online or telephone) – The Plan Administrator will promptly submit a participant's request to sell shares in a Stop Order to a broker. A sale will be executed when the stock reaches a specified price, at which time the Stop Order becomes a Market Order and the sale will be at the prevailing market price when the trade is executed. The price specified in the order must be below the current market price (generally used to limit a market loss).

Sales proceeds will be net of any fees to be paid by the participant (see **Investment Summary and Fees** for details). The Plan Administrator will deduct any fees or applicable tax withholding from the sale proceeds. Sales processed on accounts without a valid Form W-9 for U.S. citizens or Form W-8BEN for non-U.S. citizens will be subject to Federal Backup Withholding. This tax can be avoided by furnishing the appropriate and valid form prior to the sale. Forms are available online at shareowneronline.com.

A check for the proceeds of the sale of shares (in U.S. dollars), less applicable taxes and fees, will generally be mailed by first class mail as soon as administratively possible after settlement date. If a participant submits a request to sell all or part of the Plan shares, and the participant requests net proceeds to be automatically deposited to a checking or savings account, the participant must provide a voided blank check for a checking account or blank savings deposit slip for a savings account. If the participant is unable to provide a voided check or deposit slip, the participant's written request must have the participant's signature(s) medallion guaranteed by an eligible financial institution for direct deposit. Requests for automatic deposit of sale proceeds that do not provide the required documentation will not be processed and a check for the net proceeds will be issued.

A participant who wishes to sell shares currently held in certificate form may send them in for deposit to the Plan Administrator and then proceed with the sale. To sell shares through a broker of their choice, the participant may request the broker to transfer shares electronically from the Plan account to their brokerage account. Alternatively, a stock certificate can be requested that the participant can deliver to their broker.

P&G's share price may fluctuate between the time the sale request is received and the time the sale is completed on the open market. The Plan Administrator shall not be liable for any claim arising out of failure to sell on a certain date or at a specific price. Neither the Bank nor any of its affiliates will provide any investment recommendations or investment advice with respect to transactions made through the Plan. This risk should be evaluated by the participant and is a risk that is borne solely by the participant.

The Insider Trading Policy provides that the participant may not trade in P&G's common stock if in possession of material, non-public information about the company. Share sales by employees, Affiliates and Section 16 officers must be made in compliance with P&G's Insider Trading Policy.

Transfer and Gift of Shares

- To authorize a transfer or gift of P&G shares, a participant must submit a Stock Power Form with instructions to transfer ownership of shares, to the Plan Administrator. The Form can be found on our website at shareowneronline.com. For additional assistance regarding the transfer of Plan shares, contact the Plan Administrator (see **Contact Information**). The Form will require a “Medallion Signature Guarantee” by a financial institution. A Medallion Signature Guarantee is a special guarantee for securities and may be obtained through a financial institution such as a broker, bank, savings and loan association, or credit union who participates in the Medallion Signature Guarantee program. The guarantee ensures that the individual requesting the transfer of securities is the owner of those securities. Most banks and brokers participate in the Medallion Signature Guarantee program.
- If a participant’s request to transfer all Plan shares in an account is received between a dividend record date and payable date, the request will be processed. However, on the payable date, any additional shares from a dividend reinvestment will be added to the account and the participant will need to submit a written request if they wish to transfer the additional shares.
- A participant can also gift shares from a Plan account to a non-participant by making an initial cash investment to establish an account in the recipient’s name. An optional cash investment can also be submitted on behalf of an existing Plan participant (see **Investment Summary and Fees**). If a participant’s investments or transfers are made to an existing account, dividends on the shares credited to such investments or transfers will be invested in accordance with the elections made by the existing account owner.

Termination

- A participant may terminate participation in the Plan at any time by instruction to the Plan Administrator. Requests can be made either online, by telephone or through the mail (see **Contact Information**). A participant requesting termination may elect to retain P&G shares or to sell all or a portion of the shares in the account. If a participant chooses to retain the Plan shares, they will be converted and held in book-entry DRS. Any fractional shares will be sold and a check will be sent to the participant for the proceeds. If a participant chooses to sell the Plan shares, the Plan Administrator will sell such shares at the current market value and will send the proceeds to the participant, less fees and any applicable taxes. If no election is made in the request for termination, whole Plan shares will be converted to book entry DRS. Upon termination, any uninvested contributions will be returned to the participant. Any future dividends will be paid in cash, unless the participant rejoins the Plan.
- If the participant’s request to terminate their participation in the Plan is received on or after a dividend record date, but before the dividend payable date, the participant’s termination will be processed as soon as administratively possible, and a separate dividend check will be mailed to the participant.
- If you are an employee of the Company and are using the payroll deduction feature, you must cancel your payroll deduction through Employee Resources at “Life & Career” on my.pg.com prior to closing your account.
- The Plan Administrator reserves the right to terminate participation in the Plan if a participant does not have at least one whole share in the Plan. Upon termination the participant may receive the cash proceeds from the sale of any fractional share, less any transaction fee and brokerage commission.
- The Company reserves the right to amend or terminate the Plan at any time and, upon any termination, to take appropriate action required to cause a distribution to you of all whole shares, the cash value of any fractional share, and any cash held in your account.

Tax Consequences

The reinvestment of dividends does not relieve the participant of any income tax that may be payable on such dividends. The Plan Administrator will report to all participants and the Internal Revenue Service (“IRS”) the amount of dividends credited to their accounts on Form 1099-DIV. For non-U.S. participants receiving U.S. sourced dividends, they will be reported on Form 1042-S.

If a participant sells shares through the Plan Administrator, a Form 1099-B or Form 1042-S as applicable for reporting the proceeds from the sale will be sent to the participant and the IRS.

Tax withholding will be applicable on accounts without a valid Form W-9 for U.S. citizens or Form W-8BEN for non-U.S. citizens. A participant can avoid this tax by furnishing the appropriate and valid form prior to the sale. Forms are available at **shareowneronline.com**.

A foreign person (nonresident alien individual or foreign entity) is subject to tax withholding at a 30% rate on the gross amount of certain payments of U.S. source income including dividends, unless the beneficial owner of the payment is entitled to a reduced rate of, or exemption from, withholding tax under an income tax treaty. Foreign Entity owned accounts may also be subject to 30% withholding on all applicable U.S. sourced income, including dividends, as required by the Foreign Account Tax Compliance Act (“FATCA”). Gross proceeds received from the sale, maturity or exchange of securities that can produce U.S. sourced dividends or interest will also be subject to potential FATCA withholding effective on January 1, 2017. Foreign persons should consult with their tax advisors or counsel as to which tax certification form they are required to provide and for more specific information regarding the withholding requirements under Chapters 3 and 4 (FATCA) of the U.S. Internal Revenue Code.

Annual account statements, which contain a detailed record of a participant’s purchases and sales, should be retained for tax purposes to assist with determining cost basis.

The participant should consult a personal tax advisor concerning proper tax treatment of these amounts as interpretations may differ, and laws, regulations and rulings may change over time.

This Plan assumes that each participant will use the first-in, first-out (FIFO) method when determining the tax basis of any shares sold. Participants may designate their preference for a different method of determining the tax basis of shares by identifying this preference in writing to the Plan Administrator. Participants may designate their preference for specific identification cost basis at any time.

Voting Rights

Participants in the Plan will receive voting materials and have the sole right to vote the common stock of P&G represented by the shares held for them in the Plan. In the event the participant does not provide direction for voting, the Plan shares will not be voted.

The participant is encouraged to read the information carefully. Votes may be submitted online, by telephone or by returning the signed, dated proxy card. A participant’s shares will be voted in accordance with the most recent submitted instructions.

Stock Dividend, Split, and Distribution of Rights

It is understood that any stock dividends or stock splits distributed by P&G on common stock held by the Plan Administrator for the participant will be credited to the participant’s account. This will include all whole and fractional shares.

In the event that P&G makes available to its shareowners any rights to subscribe for additional common stock, the rights to subscribe will be based on any shares held in and outside of the Plan. Any new shares distributed by P&G resulting from the exercise of the rights will be issued directly to the participant.

Purchase Rights

In the event P&G makes available to its shareowners rights to purchase additional common stock or other securities, the Plan Administrator will sell such rights accruing in common stock for the participant. The funds will be combined with the next regular dividend or optional cash investment for reinvestment. If a participant desires to independently exercise the purchase rights, the participant should request that whole common stock be issued in book-entry DRS.

Liability

Neither the Company nor Wells Fargo Shareowner Services shall be liable under the Plan for any act done in good faith or any good faith omission to act including, without limitation, any claims for liability:

- arising out of failure to terminate the participant's participation in the Plan upon the participant's death;
- with respect to the prices at which shares are purchased or sold for a participant's account and the times at which purchases or sales are made; and
- in connection with the value of shares after their purchase by WFSS

THE DIVIDEND POLICY OF THE COMPANY IS NOT AFFECTED BY THIS PLAN AND WILL CONTINUE TO DEPEND ON EARNINGS, FINANCIAL REQUIREMENTS AND OTHER FACTORS.

THE COMPANY CANNOT ASSURE YOU OF A PROFIT OR PROTECT YOU AGAINST A LOSS ON SHARES OF COMMON STOCK PURCHASED UNDER THE PLAN.

Governing Law

The terms and conditions of the Plan and its operation shall be governed by the laws of the State of Ohio without regard to the choice of law provisions of the State of Ohio, whether common law or statutory.

DESCRIPTION OF PROCTER & GAMBLE CAPITAL STOCK

The Company's Amended Articles of Incorporation (the "Amended Articles of Incorporation") authorize the issuance of 10,000,000,000 shares of Common Stock, 600,000,000 shares of Class A Preferred Stock and 200,000,000 shares of Class B Preferred Stock, all of which are without par value ("Common Stock," "Class A Preferred Stock," and "Class B Preferred Stock," respectively). The holders of Common Stock and Class A Preferred Stock are entitled to one vote per share on each matter submitted to a vote of shareholders. The holders of Class B Preferred Stock are not entitled to vote other than as provided by law. The Company's Board of Directors (the "Board") is not classified and each member is elected annually.

The holders of Class A Preferred Stock and Class B Preferred Stock have the right to receive dividends prior to the payment of dividends on the Common Stock. The Board has the power to determine certain terms relative to any Class A Preferred Stock and Class B Preferred Stock to be issued, such as the power to establish different series and to set dividend rates, the dates of payment of dividends, the cumulative dividend rights and dates, redemption rights and prices, sinking fund requirements, restrictions on the issuance of such shares or any series thereof, liquidation price and conversion rights. Also, the Board may fix such other express terms as may be permitted or required by law. In the event of any liquidation, dissolution or winding up, the holders of the Common Stock are entitled to receive as a class, pro rata, the residue of the assets after payment of the liquidation price to the holders of Class A Preferred Stock and Class B Preferred Stock.

The Board has determined the terms of shares of Class A Preferred Stock issued as Series A ESOP Convertible Class A Preferred Stock, which can only be held by a trustee or trustees of an employee stock ownership plan or other benefit plan of the Company. Upon transfer of Series A ESOP Convertible Class A Preferred Stock to any other person, such transferred shares shall be automatically converted into shares of Common Stock. Each share of Series A ESOP Convertible Class A Preferred Stock has a cumulative dividend of \$.5036075 per year and a liquidation price of \$6.82 per share (as adjusted for the stock splits on October 20, 1989, May 15, 1992, August 22, 1997 and May 21, 2004, and the Smucker transaction effective June 1, 2002), is redeemable by the Company or the holder, is convertible at the option of the holder into one share of Common Stock and has certain anti-dilution protections associated with the conversion rights. Appropriate adjustments to dividends and liquidation price will be made to give effect to any future stock splits, stock dividends or similar changes to the Series A ESOP Convertible Class A Preferred Stock.

The Board has also determined the terms of shares of Class A Preferred Stock issued as Series B ESOP Convertible Class A Preferred Stock. Each share of Series B ESOP Convertible Class A Preferred Stock has a cumulative dividend of \$1.022 per year and a liquidation price of \$12.96 per share, (as adjusted for the stock splits on August 22, 1997 and May 21, 2004, and the Smucker transaction effective June 1, 2002) is redeemable by the Company or the holder under certain circumstances, is convertible at the option of the holder into one share of Common Stock and has certain anti-dilution protections associated with the conversion rights. Appropriate adjustments to dividends and liquidation price will be made to give effect to any future stock splits, stock dividends or similar changes to the Series B ESOP Convertible Class A Preferred Stock.

All of the issued shares of Common Stock of the Company are fully paid and non-assessable. Common Stock does not have any conversion rights and is not subject to any redemption provisions. No holder of shares of any class of the Company's capital stock has or shall have any right, pre-emptive or other, to subscribe for or to purchase from the Company any of the shares of any class of the Company hereafter issued or sold. No shares of any class of the Company's capital stock are subject to any sinking fund provisions or to calls, assessments by, or liabilities of the Company.

INTERESTS OF NAMED COUNSEL

The legality of the shares of Common Stock offered hereby has been passed upon for the Company by Mr. Robert B. White, Counsel, The Procter & Gamble Company. Mr. White is an owner of shares of Common Stock of the Registrant and may be a participant in the Plan.

EXPERTS

The financial statements, incorporated in this prospectus by reference from the Company's Annual Report on Form 10-K for the year ended June 30, 2015, and the effectiveness of the Company's internal control over financial reporting as of June 30, 2015 have been audited by Deloitte & Touche LLP, an independent registered public accounting firm, as stated in their reports, which are incorporated herein by reference. Such financial statements have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

INCORPORATION OF CERTAIN INFORMATION BY REFERENCE

The Securities and Exchange Commission (the "SEC") allows us to "incorporate by reference" into this document the information which Procter & Gamble filed with the SEC. This means that we can disclose important information by referring you to those documents. Any information referred to in this way is considered part of this prospectus from the date we file that document. The information incorporated by reference is an important part of

this prospectus and information that Procter & Gamble files later with the SEC will automatically update and supersede this information.
