2026-04-22

OMAHA, Neb.--(BUSINESS WIRE)-- **Werner Enterprises**, Inc. (Nasdaq: WERN), a premier transportation and logistics provider, is expanding its intermodal presence in Mexico to give local customers more reliable shipping options. Building on a long-standing commitment to the region, Werner is deploying its fleet of 53-foot containers into the Mexican market. There are currently 400 containers in the fleet, with an additional 400 units hitting the network throughout 2026.

"We want Mexican businesses to know there is a local, asset-based solution ready for them," said Werner's Commercial Vice President of Mexico, Bernardo Alexander. "With our long, trusted history in Mexico since 1999, we have the expertise to simplify cross-border shipping. By combining our advanced tracking technology with 24/7 bilingual support, we are removing the friction from cross-border trade and making the process more efficient than ever."

Werner's asset intermodal focus will begin in Monterrey and Silao, with the Mexico City market being added in the second half of 2026. Intermodal demand has remained steady over the last 12 months, presenting a great opportunity to expand our growing asset footprint into Mexico.
