Werner® Honored With 2026 Quest for Quality Award by Logistics Management

2026-08-11

OMAHA, Neb.--(BUSINESS WIRE)-- Werner Enterprises, Inc. (Nasdaq: WERN), a premier transportation and logistics provider, has been honored with Logistics Management's 2026 Quest for Quality Award in the Truckload: Dry Freight Carriers category.

Now in its 42nd year, the Quest for Quality Awards are among the industry's most respected benchmarks of customer satisfaction. Winners are determined entirely by Logistics Management readers—qualified supply chain professionals who interact with service providers daily and rate them on essential service attributes.

Carriers in the Truckload: Dry Freight Carriers category are evaluated on five critical service criteria: on-time performance, value, information technology, customer service and equipment and operations.

"Earning this recognition from the very customers who rely on us every day is a tremendous honor," said Werner's Executive Vice President and Chief Commercial Officer, Craig Callahan. "This award is a direct reflection of our team's continuous commitment to excellence. Whether through our drivers on the road or our operational and technology teams behind the scenes, we remain dedicated to delivering safe, reliable and high-value solutions across our customers' supply chains."

This year's recipients were selected following an extensive six-month research process conducted by Peerless Research Group, evaluating service providers who delivered exceptional performance and value over the past year.

Werner's robust dry freight capabilities and diverse, multi-modal portfolio, spanning dedicated, intermodal, final mile, cross-border and truckload brokerage services, provide shippers with the flexibility, technology and scale

needed to navigate evolving market dynamics.
