

NEWS RELEASE

Werner® Named a 2025 Top 3PL and Cold Storage Provider by Food Logistics for Ninth Consecutive Year

2025-06-03

OMAHA, Neb.--(BUSINESS WIRE)-- **Werner Enterprises, Inc.** (Nasdaq: WERN), a premier transportation and logistics provider, is proud to announce its continued recognition as a Top 3PL & Cold Storage Provider by Food Logistics for the ninth year in a row. This annual award honors the leading third-party logistics and cold storage companies supporting the global refrigerated food and beverage supply chain.

“Making this list for the ninth consecutive year speaks volumes about the dedication of our team and the strength of our cold chain capabilities,” said Werner’s Senior Vice President of Brokerage & Werner PowerLinkSM, Jordan Strawn. “From our advanced transportation management systems and innovative temperature-monitoring technology to our modern fleet and trusted professional drivers, our team continues to go above and beyond to support the temperature-sensitive demands of our customers and keep America moving.”

Werner’s service offerings are further strengthened by its state-of-the-art cross-dock facility in Laredo, Texas, a key hub for refrigerated goods. The facility enhances supply chain efficiency and ensures seamless cross-border cold chain operations. Combined with Werner’s alliance carrier network and dedicated logistics professionals, these capabilities enable scalable, end-to-end solutions across North America.

“Many of today’s 3PL providers are challenged with rising fuel costs, the race toward electrification, driver safety and evolving regulations,” said Marina Mayer, editor-in-chief of Food Logistics and Supply & Demand Chain Executive. “But thanks to the adoption of emerging technologies, end-to-end visibility and cutting-edge TMS tools, these 3PLs continue to keep on truckin’. Cold storage providers are also adapting—despite inventory slowdowns and audit-ready mandates—by implementing robotics, wearables and multi-temperature solutions to meet the evolving needs of the cold chain market.”
