

NEWS RELEASE

Werner Recognized as a 2023 Quest for Quality Award Recipient

8/18/2023

OMAHA, Neb.--(BUSINESS WIRE)-- **Werner Enterprises** (Nasdaq: WERN), a premier transportation and logistics provider, is thrilled to announce its selection as a 2023 Quest for Quality award recipient from Logistics Management in the category for truckload-dry freight carriers. The Quest for Quality awards are considered a significant measure of customer satisfaction and performance in the transportation and logistics industry, and this is Werner's 12th time receiving this recognition since 2012.

"Our team is dedicated to delivering an exceptional experience for our customers through strong execution, a diverse portfolio of services and ultimately, keeping our promises," said Werner's Executive Vice President and Chief Commercial Officer, Craig Callahan. "Earning this Quest for Quality award is a great honor and reinforces our steady and unwavering commitment to serving our customers with excellence."

These prestigious awards result from an extensive six-month research project conducted by the Peerless Research Group. More than 3,500 logistics and supply chain decision-makers cast their votes for the carriers and third-party logistics providers who provided outstanding customer satisfaction and performance excellence over the past year. Werner was evaluated in five categories including: on-time performance, value, information technology, customer service and equipment and operations.

"In the face of the ongoing disruption in the freight marketplace, it has been a challenging year for customers and carriers alike. This makes it an even greater privilege to earn a Quest for Quality award in the category for truckload-dry freight carriers," said Werner's Chairman, President and CEO, Derek Leathers. "Our Werner DRIVESM strategy positions us for success to deliver superior results today and in the future."
