High RevPAR Focus

- **With 2012 RevPAR of $140, Ashford Prime compares favorably to the public lodging REIT universe. Through targeted acquisitions, we expect Ashford Prime to increase its comparative RevPAR profile over time**

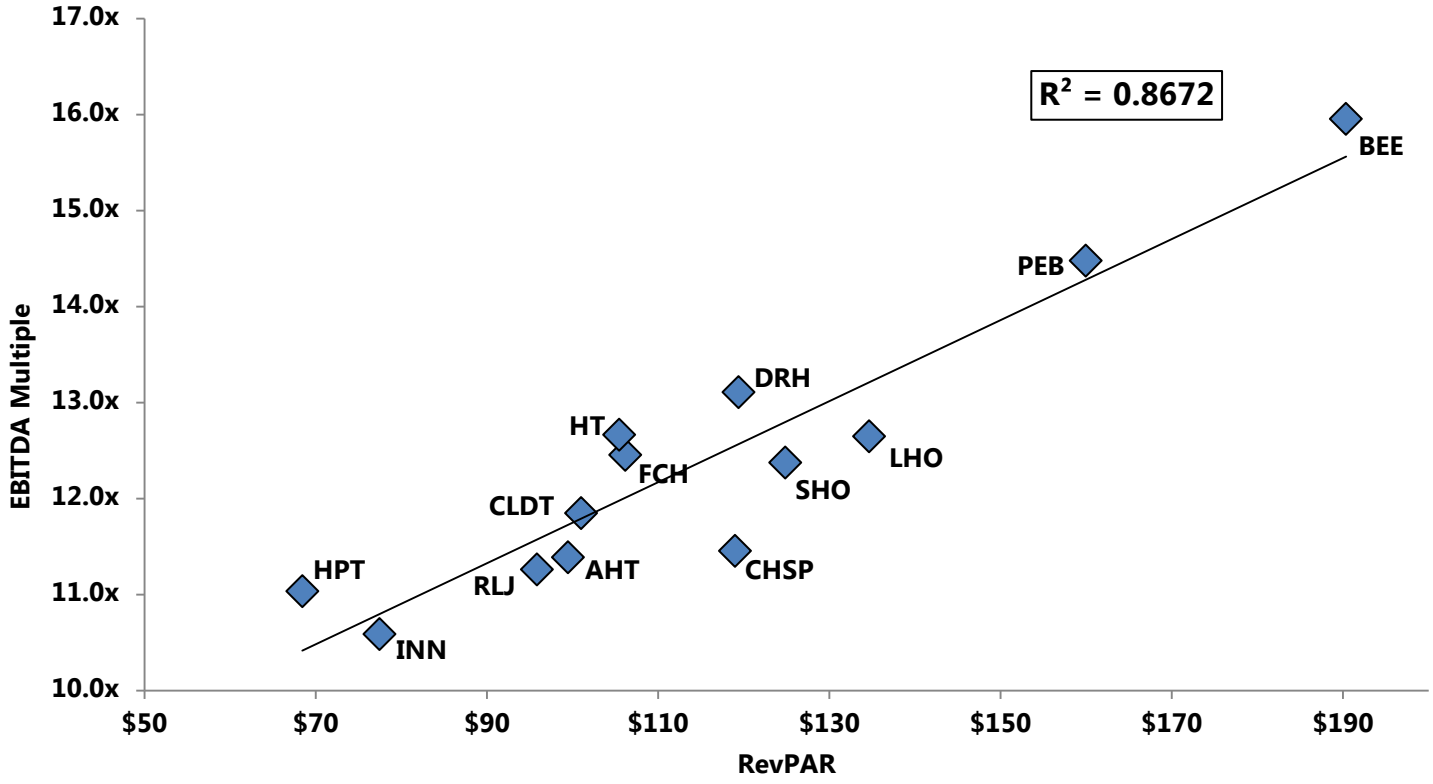

Public Lodging REITs include: BEE, CHSP, CLDT, DRH, FCH, HPT, HST, HT, INN, LHO, PEB, RLJ, SHO
Source: Company filings.
Note: Figure for Ashford Trust post-spinoff does not include pro rata share of Ashford Prime.

RevPAR Drives Multiple…

- **As the chart below shows, there is a very high correlation between RevPAR and EBITDA Multiple for the Hotel REIT universe. Ashford Prime, with its higher RevPAR assets and investment focus, should benefit from this correlation**

Q2 2013 Forward 12 Month Consensus EBITDA Multiple vs. RevPAR

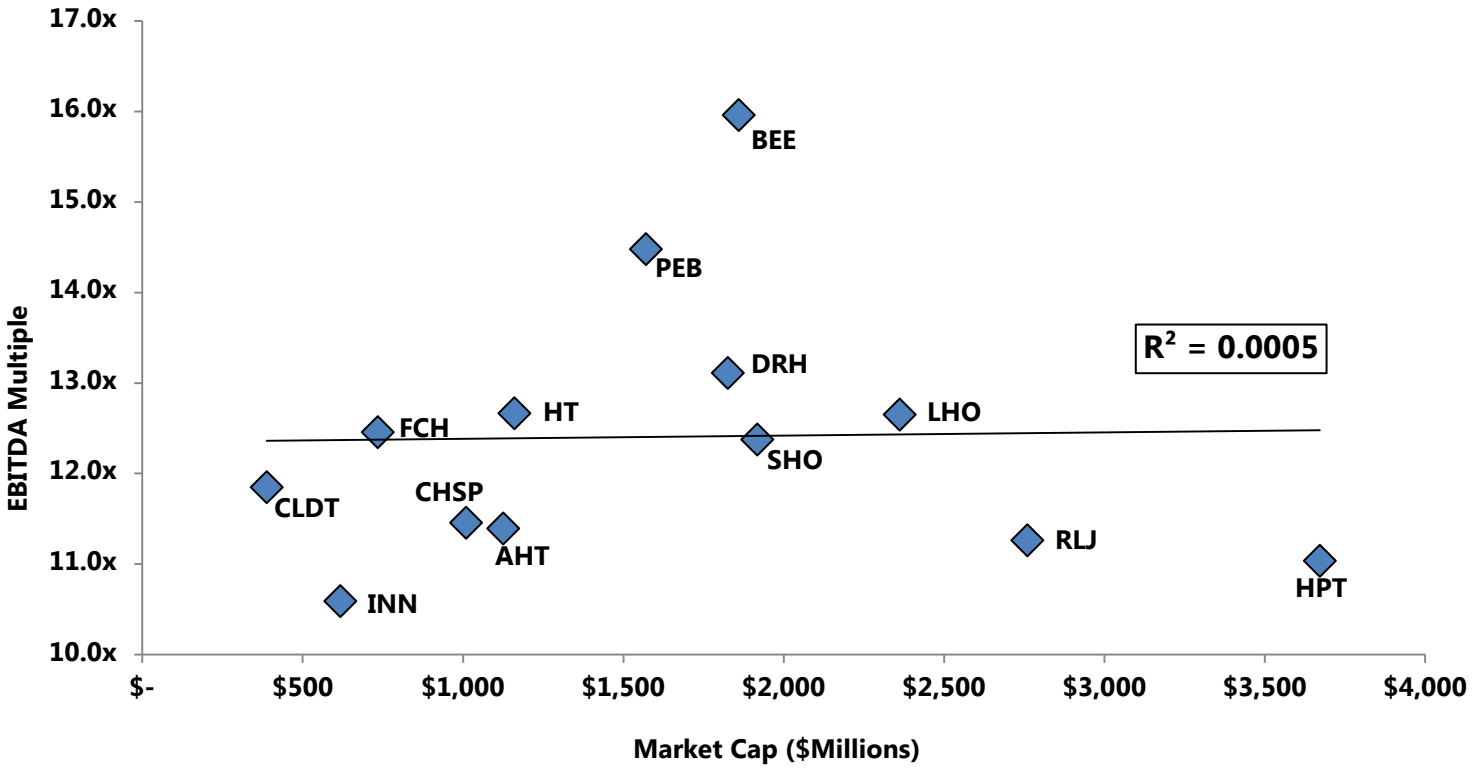

Public Lodging REITs include: AHT, BEE, CHSP, CLDT, DRH, FCH, HPT HT, INN, LHO, PEB, RLJ, SHO. Excludes HST due to its significantly higher market capitalization.
Source: Bloomberg, First Call, SNL and Company filings.

...Market Cap Does Not

- **Conversely, there is no correlation between Market Capitalization and EBITDA Multiple for the Hotel REIT universe. This is further evidence that the overall valuation of Ashford Prime should be based more on its RevPAR focus than by its market capitalization**

Q2 2013 Forward 12 Month Consensus EBITDA Multiple vs. Market Capitalization

Public Lodging REITs include: AHT, BEE, CHSP, CLDT, DRH, FCH, HPT, HT, INN, LHO, PEB, RLJ, SHO. Excludes HST due to its significantly higher market capitalization.
Source: Bloomberg, First Call, SNL and Company filings.

…Market Cap Does Not

- We also looked at the correlation between EBITDA multiple and market capitalization for other REIT property types. Below are the R-squared (correlation significance) values for those sectors:

Apartments	0.58
Industrial	0.22
Retail	0.04
Malls	0.02
Healthcare	0.01
Office	0.01
Hotels	0.01

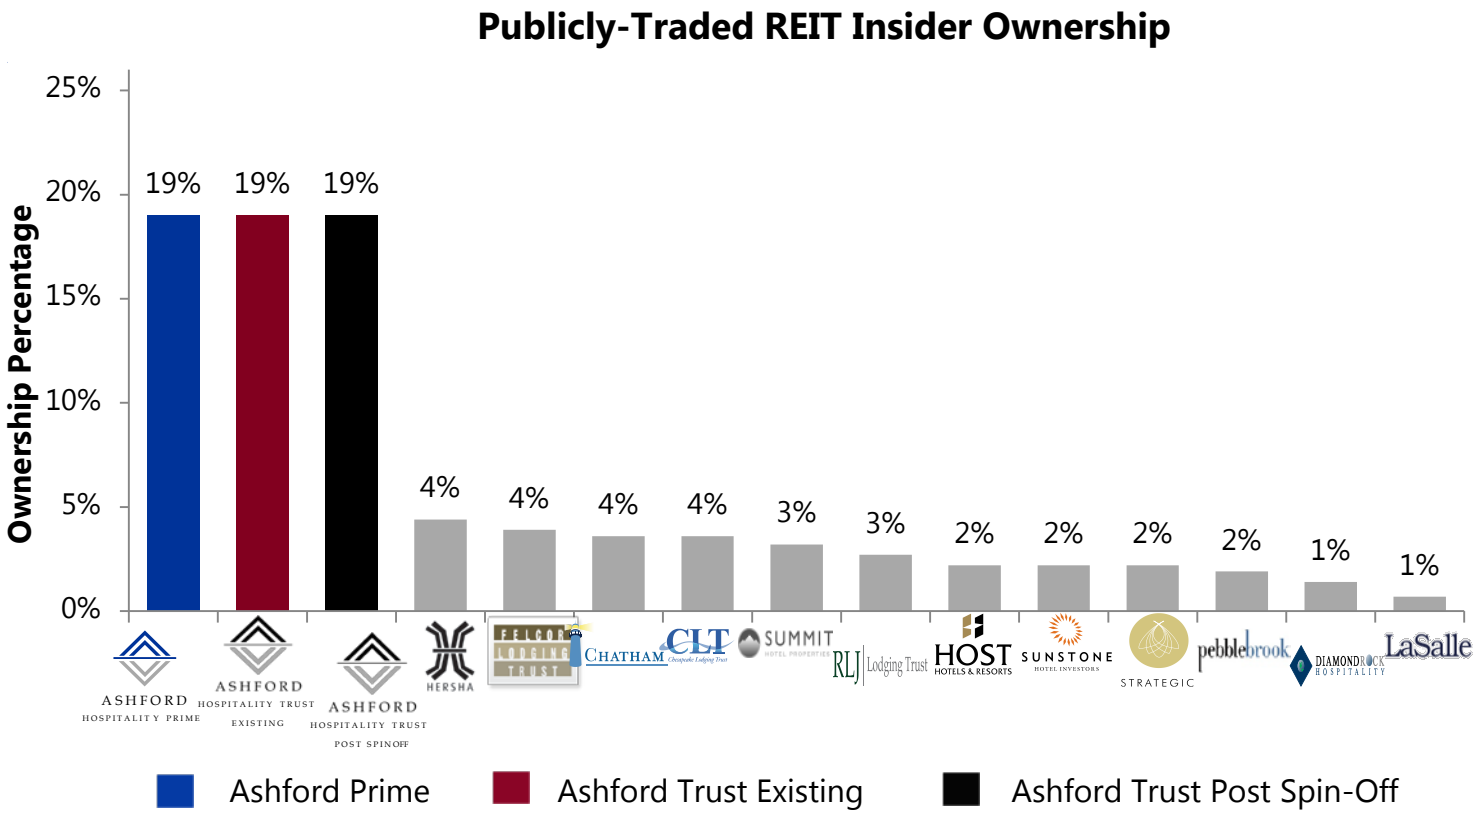

- With a 0.58 R-squared value - the apartment REIT sector was the only sector with a material correlation

- However, when dollar rents for apartment REITs are included in the analysis, the correlation with rents (like RevPAR, a measure of perceived property quality) was statistically significant while the correlation with market capitalization was not

Highly-Aligned Management

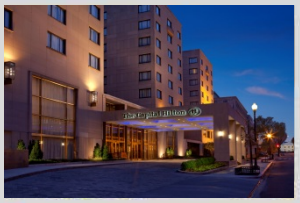

- **With insider ownership* of both platforms anticipated to be approximately 19%, management is highly-aligned with shareholder interests**

Public Lodging REITs include: BEE, CHSP, CLDT, DRH, FCH, HST, HT, INN, LHO, PEB, RLJ, SHO
