Information Concerning Forward-Looking Statements

Certain statements regarding the expectations of Graphic Packaging Holding Company (“GPHC” and, together with its subsidiaries, the “Company”), including, but not limited to, statements regarding cost savings from its continuous improvement programs, capital investment, depreciation and amortization, interest expense, debt reduction, synergies from acquisitions, pension plan contributions and postretirement health care benefit payments, in this report constitute “forward-looking statements” as defined in the Private Securities Litigation Reform Act of 1995. Such statements are based on currently available operating, financial and competitive information and are subject to various risks and uncertainties that could cause actual results to differ materially from the Company’s historical experience and its present expectations. These risks and uncertainties include, but are not limited to, inflation of and volatility in raw material and energy costs, continuing pressure for lower cost products, the Company’s ability to implement its business strategies, including productivity initiatives and cost reduction plans, the Company’s debt level, currency movements and other risks of conducting business internationally, and the impact of regulatory and litigation matters, including those that could impact the Company’s ability to utilize its net operating losses to offset taxable income and those that impact the Company’s ability to protect and use its intellectual property. Undue reliance should not be placed on such forward-looking statements, as such statements speak only as of the date on which they are made and the Company undertakes no obligation to update such statements. Additional information regarding these and other risks is contained in Part I, “Item 1A., Risk Factors” of the Company’s 2012 Annual Report on Form 10-K, and in other filings with the Securities and Exchange Commission.

NOTE 1 — GENERAL INFORMATION

Nature of Business and Basis of Presentation

Graphic Packaging Holding Company (“GPHC” and, together with its subsidiaries, the “Company”) is a leading provider of packaging solutions for a wide variety of products to food, beverage and other consumer products companies. The Company is the largest U.S. producer of folding cartons and holds a leading market position in coated unbleached kraft paperboard, coated-recycled boxboard and flexible packaging. The Company’s customers include some of the most widely recognized companies in the world. The Company strives to provide its customers with packaging solutions designed to deliver marketing and performance benefits at a competitive cost by capitalizing on its low-cost paperboard mills and converting plants, its proprietary carton and packaging designs, and its commitment to customer service.

GPHC and Graphic Packaging Corporation (“GPC”) conduct no significant business and have no independent assets or operations other than GPHC’s ownership of all of GPC’s outstanding common stock, and GPC’s ownership of all of the outstanding common stock of Graphic Packaging International, Inc. (“GPII”).

The Company’s Condensed Consolidated Financial Statements include all subsidiaries in which the Company has the ability to exercise direct or indirect control over operating and financial policies. Intercompany transactions and balances are eliminated in consolidation.

In the Company’s opinion, the accompanying Condensed Consolidated Financial Statements contain all normal recurring adjustments necessary to present fairly the financial position, results of operations and cash flows for the interim periods. The Company’s year end Condensed Consolidated Balance Sheet data was derived from audited financial statements. The accompanying unaudited Condensed Consolidated Financial Statements have been prepared in accordance with instructions to Form 10-Q and Rule 10-01 of Regulation S-X and do not include all the information required by accounting principles generally accepted in the United States of America (“U.S. GAAP”) for complete financial statements. Therefore, these Condensed Consolidated Financial Statements should be read in conjunction with GPHC’s Form 10-K for the year ended December 31, 2012. In addition, the preparation of the Condensed Consolidated Financial Statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Condensed Consolidated Financial Statements and the reported amounts of revenues and expenses during the reporting period. Actual amounts could differ from those estimates and changes in these estimates are recorded when known. Certain reclassifications have been made to prior year amounts in order to conform to current year presentation.

For a summary of the Company’s significant accounting policies, please refer to GPHC’s Form 10-K for the year ended December 31, 2012.

Equity Secondary Offerings

During the second quarter of 2013, certain shareholders of the Company sold 15 million shares of common stock in a secondary public offering at \$7.73 per share. The shares were sold by certain affiliates of TPG Capital, L.P. (the “TPG Entities”), certain Coors family trusts (the “Coors Family Trusts”), Clayton, Dubilier & Rice Fund V Limited Partnership (the “CD&R Fund”) and Old Town, S.A. (“Old Town”). The shares outstanding held by the selling stockholders in this offering decreased from approximately 44% to approximately 39% .

During the first quarter of 2013, certain shareholders of the Company sold 28 million shares of common stock in a secondary public offering at \$7.00 per share, as well as an additional 4.2 million shares pursuant to the underwriters' overallotment option. The shares were sold by the TPG Entities, the Coors Family Trusts, the Adolph Coors Foundation, the CD&R Fund and Old Town. The shares outstanding held by the selling stockholders decreased in this offering from approximately 53% to approximately 44% . TPG Capital BD, LLC, an affiliate of TPG Capital, L.P., was one of the underwriters of the offering.

Adoption of New Accounting Standards

Effective January 1, 2013, the Company adopted revised guidance on the *Comprehensive Income* topic of the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“the FASB Codification”) which requires an entity to present either parenthetically on the face of the financial statements or in the notes, significant amounts reclassified from each component of accumulated other comprehensive income and the income statement line items affected by the reclassification. The adoption did not have any impact on the Company’s financial position, results of operations or cash flows.

Effective January 1, 2013, the Company adopted revised guidance on *Balance Sheet* topic of the FASB Codification, which clarifies the scope of disclosures about offsetting assets and liabilities. The clarification applies only to derivatives, repurchase agreements and reverse purchase agreements, and to certain securities borrowing and securities lending transactions, and not to ordinary trade receivables and payables. The adoption did not have any impact on the Company’s financial position, results of operations or cash flows.

Accounting Standards Not Yet Adopted

In March 2013, the FASB issued guidance amending the *Foreign Currency Matters* topic of the FASB Codification. The amendment requires a parent entity that ceases to have a controlling financial interest in a subsidiary or group of assets that represents a business,

within a foreign entity, to release any related cumulative translation adjustment into net income. This guidance will be effective for the Company in the fourth quarter of 2013, to be applied prospectively, and is not expected to have a material impact on the Company's financial position, results of operations or cash flows.

NOTE 3 — ACQUISITIONS

On December 31, 2012, the Company acquired Contego Cartons ("Contego"), a leading food and consumer product packaging company based in the United Kingdom. Under the terms of the transaction, the Company paid approximately \$ 93 million and assumed debt of approximately \$ 35 million in an all cash transaction funded with existing cash and debt under the Company's revolving line of credit. Contego operates four folding carton facilities that convert approximately 150,000 tons of paperboard annually into folding cartons for the food and consumer product industries. The acquisition and associated goodwill are included in the paperboard packaging segment. This transaction is herein referred to as the "Contego Transaction".

On December 31, 2012, the Company acquired A&R Carton's Beer and Beverage packaging business in Europe ("A&R"). Under the terms of the transaction, the Company paid approximately \$ 25 million in cash and assumed approximately \$ 2 million in debt. The transaction was funded with existing cash and borrowings from the Company's revolving line of credit. A&R includes two manufacturing facilities that convert approximately 30,000 tons of paperboard annually. The acquisition and associated goodwill are included in the paperboard packaging segment. This transaction is herein referred to as the "A&R Transaction". The A&R Transaction and the Contego Transaction are collectively referred to as the "European Acquisitions".

The purchase price of the European Acquisitions has been preliminarily allocated to the assets acquired and liabilities assumed based on the estimated fair values as of the purchase date and was subjected to adjustments in the current period. The European Acquisitions were made to grow the European food and beverage business and optimize the Company's supply chain footprint around customer needs. The Company does not expect goodwill to be deductible for tax purposes. The preliminary purchase price allocation is as follows:

The preliminary allocation of the purchase price presented above is subject to further adjustment as the third-party valuations are finalized. As of June 30, 2013, preliminary valuations subject to change relate to fixed and intangible assets and related deferred tax effects.

NOTE 4 — DEBT

On March 16, 2012, the Company entered into a \$ 2.0 billion amended and restated credit agreement with a syndicate of lenders consisting primarily of commercial banks (the “Credit Agreement”). The Credit Agreement provides for a \$ 1.0 billion revolving credit facility and a \$ 1.0 billion amortizing term loan facility, both due on March 16, 2017. The interest rate margin over London Interbank Offered Rate (LIBOR) will vary between 175 basis points and 275 basis points depending upon the Company's current consolidated total leverage ratio. The Company's current rate is LIBOR plus 225 basis points. This transaction was treated primarily as an extinguishment of debt, and a charge of \$ 8.9 million was recorded as Loss on Modification or Extinguishment of Debt in the Company's Condensed Consolidated Statements of Operations.

On December 18, 2012, the Company entered into Amendment No. 1 to the existing Credit Agreement to amend certain restrictions in the Credit Agreement and to provide an incremental term loan facility (the "Incremental Term Loan") in the amount of \$ 300 million to fund a concurrent share repurchase. The Incremental Term Loan was treated primarily as a modification of debt. As a result, \$ 2.1 million in third party fees were expensed as part of the loss on modification of debt, and the remaining fees paid to creditors of \$ 3.1 million were deferred and will be amortized using the effective interest method over the term of the debt.

On April 2, 2013, the Company completed the issuance and sale of \$ 425 million aggregated principal amount of its 4.75% Senior Notes due 2021. In connection with the new notes, the Company recorded deferred financing cost of approximately \$ 7.2 million.

During June of 2013, the Company redeemed 100% of the \$ 425 million aggregated principal of its 9.5% Senior Notes due in 2017. The bonds were redeemed at a price of 104.75%. The early redemption premium, unamortized issue premium and discount, and unamortized deferred financing costs of \$ 25.9 million are reflected as Loss on Modification or Extinguishment of Debt in the Company's Condensed Consolidated Statement of Operations.

For more information regarding the Company's debt, see “ Note 5 — Debt” of the Notes to Consolidated Financial Statements of the Company's 2012 Form 10-K.

Less: Short-Term Debt and Current Portion of Long-Term Debt	87.2	79.8
Total	\$ 2,236.0	\$ 2,253.5

At June 30, 2013, the Company and its U.S. and international subsidiaries had the following commitments, amounts outstanding and amounts available under revolving credit facilities:

<i>In millions</i>	Total Commitments	Total Outstanding	Total Available ^(a)
Revolving Credit Facility	\$ 1,000.0	\$ 348.9	\$ 624.1
International Facilities	56.9	34.1	22.8
Total	\$ 1,056.9	\$ 383.0	\$ 646.9

(a) In accordance with its debt agreements, the Company's availability under its Revolving Credit Facility has been reduced by the amount of standby letters of credit issued of \$ 27.0 million as of June 30, 2013. These letters of credit are used primarily as security against its self-insurance obligations and workers' compensation obligations. These letters of credit expire at various dates through 2014 unless extended.

The Credit Agreement and the indentures governing the 7.875% Senior Notes due 2018 and the 4.75% Senior Notes due 2021 (the "Indentures") limit the Company's ability to incur additional indebtedness. Additional covenants contained in the Credit Agreement and the Indentures, among other things, restrict the ability of the Company to dispose of assets, incur guarantee obligations, prepay other indebtedness, make dividend and other restricted payments, create liens, make equity or debt investments, make acquisitions, modify terms of the Indentures, engage in mergers or consolidations, change the business conducted by the Company and its subsidiaries, and engage in certain transactions with affiliates. Such restrictions, together with the highly leveraged nature of the Company, could limit the Company's ability to respond to changing market conditions, fund its capital spending program, provide for unexpected capital investments or take advantage of business opportunities.

Under the terms of the Credit Agreement, the Company must comply with a maximum consolidated total leverage ratio and a minimum consolidated interest coverage ratio. The Company's obligations under the Credit Agreement are secured by substantially all of the Company's domestic assets.

As of June 30, 2013, the Company was in compliance with the covenants in the Credit Agreement and the Indentures.

NOTE 5 — STOCK INCENTIVE PLANS

The Company has three active equity compensation plans, but since 2004 the Company's only plan pursuant to which new grants are made is the Graphic Packaging Holding Company Amended and Restated 2004 Stock and Incentive Compensation plan (the "2004 Plan"). Stock options and other awards granted under all of the Company's plans generally vest and expire in accordance with terms established at the time of grant. Shares issued pursuant to awards under the plans are from the Company's authorized but unissued shares. Compensation costs are recognized on a straight-line basis over the requisite service period of the award.

Stock Awards, Restricted Stock and Restricted Stock Units

[Table of Contents](#)

The Company's 2004 Plan permits the grant of stock awards, restricted stock and restricted stock units ("RSUs"). All outstanding RSUs vest and become payable in one to three years from date of grant. RSUs granted to employees generally contain performance conditions based on various financial targets and service requirements that must be met for the shares to vest. Upon vesting, RSUs are payable in shares of common stock. Stock awards granted to non-employee directors are unrestricted on the grant date.

Data concerning RSUs granted in the first six months of 2013 is as follows:

<i>Shares in thousands</i>	Shares	Weighted Average Grant Date Fair Value Per Share
RSUs — Employees	3,198	\$ 7.31
Stock Awards — Board of Directors	104	\$ 7.80

During the six months ended June 30, 2013 and 2012, \$ 11.3 million and \$ 14.1 million, respectively, were charged to compensation expense for stock incentive plans.

During the six months ended June 30, 2013 and 2012, approximately 3.5 million and 5.4 million shares were issued, respectively. The shares issued were primarily related to RSUs granted during 2009 and 2010.

During the six months ended June 30, 2013 and 2012, approximately 1.4 million shares and 0.3 million shares, respectively, were issued through the exercise of stock options at an average exercise price of \$ 6.49, and \$ 1.56 per share, respectively.

NOTE 6 — PENSIONS AND OTHER POSTRETIREMENT BENEFITS

The Company maintains both defined benefit pension plans and postretirement health care plans that provide medical and life insurance coverage to eligible salaried and hourly retired employees in North America and their dependents. The Company maintains international defined benefit pension plans which are either noncontributory or contributory and are funded in accordance with applicable local laws. Pension or termination benefits are based primarily on years of service and the employees' compensation.

Currently, the North American defined benefit plans are closed to newly-hired salaried and non-union hourly employees. Effective July 1, 2011, the North American defined benefit plans were frozen for most salaried and non-union hourly employees and replaced with a defined contribution plan. The U.K. and Canada defined benefit plans were frozen effective March 31, 2001 and December 31, 2009, respectively, and replaced with defined contribution plans. The Company assumed additional benefit plans due to the European Acquisitions.

Employer Contributions

GRAPHIC PACKAGING HOLDING COMPANY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

The Company made contributions of \$ 13.2 million and \$ 18.5 million to its pension plans during the first six months of 2013 and 2012, respectively. The Company expects to make contributions of \$40 to \$60 million for the full year 2013. During 2012, the Company made \$ 55.1 million of contributions to its pension plans.

The Company made postretirement health care benefit payments of \$ 1.0 million during the first six months of 2013 and 2012. The Company estimates its postretirement health care benefit payments for the full year 2013 to be approximately \$ 3 million . During 2012, the Company made postretirement health care benefit payments of \$ 3.2 million .

NOTE 7 — FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENT

The Company enters into derivative instruments for risk management purposes only, including derivatives designated as hedging instruments under the *Derivatives and Hedging* topic of the FASB Codification and those not designated as hedging instruments under this guidance. The Company uses interest rate swaps, natural gas swap contracts, and forward exchange contracts. These derivative instruments are designated as cash flow hedges and, to the extent they are effective in offsetting the variability of the hedged cash flows, changes in the derivatives' fair value are not included in current earnings but are included in Accumulated Other Comprehensive Income. These changes in fair value will subsequently be reclassified to earnings.

Interest Rate Risk

The Company uses interest rate swaps to manage interest rate risks on future interest payments caused by interest rate changes on its variable rate term loan facility. The differential to be paid or received under these agreements is recognized as an adjustment to Interest Expense related to debt. At June 30, 2013 and December 31, 2012, the Company had interest rate swap agreements outstanding with a notional amount of \$ 560 million and \$ 460 million , respectively. The swap agreements, under which the Company will pay fixed rates of 0.45% to 0.82% and receive one-month LIBOR rates, expire in April 2016.

Changes in fair value will subsequently be reclassified into earnings as a component of Interest Expense, Net as interest is incurred on amounts outstanding under the term loan facility. Ineffectiveness measured in the hedging relationship is recorded in earnings in the period it occurs.

During the first six months of 2013 and 2012, there were minimal amounts of ineffectiveness related to changes in the fair value of interest rate swap agreements. Additionally, there were no amounts excluded from the measure of effectiveness.

Commodity Risk

To manage risks associated with future variability in cash flows and price risk attributable to certain commodity purchases, the Company enters into natural gas swap contracts to hedge prices for a designated percentage of its expected natural gas usage. The Company has hedged a portion of its expected usage for 2013. Such contracts are designated as cash flow hedges. The contracts are carried at fair value with changes in fair value recognized in Accumulated Other Comprehensive Loss, and the resulting gain or loss is reclassified into Cost of Sales concurrently with the recognition of the commodity consumed. The ineffective portion of the swap contracts' change in fair value would be recognized immediately in earnings.

During the first six months of 2013 and 2012, there were minimal amounts of ineffectiveness related to changes in the fair value of natural gas swap contracts. Additionally, there were no amounts excluded from the measure of effectiveness.

Foreign Currency Risk

The Company enters into forward exchange contracts to manage risks associated with future variability in cash flows resulting from anticipated foreign currency transactions that may be adversely affected by changes in exchange rates. The contracts are carried at fair value with changes in fair value recognized in Accumulated Other Comprehensive Loss and gains/losses related to these contracts are recognized in Other Income, Net when the anticipated transaction affects income.

At June 30, 2013, multiple forward exchange contracts existed that expire on various dates through 2013. Those purchased forward exchange contracts outstanding at June 30, 2013 and December 31, 2012, when aggregated and measured in U.S. dollars at contractual rates at June 30, 2013 and December 31, 2012 had notional amounts totaling \$ 30.5 million and \$ 63.9 million , respectively.

No amounts were reclassified to earnings during the first six months of 2013 or during 2012 in connection with forecasted transactions that were no longer considered probable of occurring, and there was no amount of ineffectiveness related to changes in the fair value of foreign currency forward contracts. Additionally, there were no amounts excluded from the measure of effectiveness.

Derivatives not Designated as Hedges

The Company enters into forward exchange contracts to effectively hedge substantially all of its accounts receivable resulting from sales transactions denominated in foreign currencies in order to manage risks associated with foreign currency transactions adversely affected by changes in exchange rates. At June 30, 2013 and December 31, 2012, multiple foreign currency forward exchange contracts existed, with maturities ranging up to three months. Those foreign currency exchange contracts outstanding at June 30, 2013 and December 31, 2012, when aggregated and measured in U.S. dollars at exchange rates at June 30, 2013 and December 31, 2012, had net notional amounts

GRAPHIC PACKAGING HOLDING COMPANY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

totaling \$ 35.1 million and \$ 19.5 million , respectively. Unrealized gains and losses resulting from these contracts are recognized in Other Income, Net and approximately offset corresponding recognized but unrealized gains and losses on these accounts receivable.

Fair Value of Financial Instruments

The Company's derivative instruments are carried at fair value. The Company has determined that the inputs to the valuation of these derivative instruments are level 2 in the fair value hierarchy. Level 2 inputs are defined as quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly through market corroboration, for substantially the full term of the financial instrument. The Company uses valuation techniques based on discounted cash flow analyses, which reflect the terms of the derivatives and use observable market-based inputs, including forward rates and use market price quotations obtained from independent derivatives brokers, corroborated with information obtained from independent pricing service providers.

As of June 30, 2013, there has not been any significant impact to the fair value of the Company's derivative liabilities due to its own credit risk. Similarly, there has not been any significant adverse impact to the Company's derivative assets based on evaluation of the Company's counterparties' credit risks.

The fair value of the Company's derivative instruments is as follows:

<i>In millions</i>	Derivative Assets			Derivative Liabilities		
	Balance Sheet Location	June 30, 2013	December 31, 2012	Balance Sheet Location	June 30, 2013	December 31, 2012

Derivative Contracts Not Designated as Hedging Instruments						
Foreign Currency Contracts	Other Current Assets	0.2	—	Other Accrued Liabilities	—	—
Total Derivative Contracts		\$ 1.7	\$ 0.1		\$ 3.0	\$ 6.4

The fair values of the Company's other financial assets and liabilities at June 30, 2013 and December 31, 2012 approximately equal the carrying values reported on the Consolidated Balance Sheets except for Long-Term Debt. The fair value of the Company's Long-Term Debt (excluding capital leases) was \$ 2,293.6 million and \$ 2,399.1 million as compared to the carrying amounts of \$ 2,297.6 million and \$ 2,325.5 million as of June 30, 2013 and December 31, 2012, respectively. The fair value of the Company's Senior Notes is based on quoted market prices (Level 1 inputs) and the remainder of the Company's Long-Term Debt is based on Level 2 inputs. Level 2 valuation techniques for Long-Term Debt are based on quotations obtained from independent pricing service providers.

At June 30, 2013, the Company expects to reclassify approximately \$ 1.2 million of loss in the next twelve months from Accumulated Other Comprehensive Loss to earnings, contemporaneously with and offsetting changes in the related hedged exposure. The actual amount that will be reclassified to future earnings may vary from this amount as a result of changes in market conditions.

NOTE 8 — REDEEMABLE NONCONTROLLING INTERESTS

On December 8, 2011, the Company combined its multi-wall bag and specialty plastics packaging businesses with the kraft paper and multi-wall bag businesses of Delta Natural Kraft, LLC and Mid-America Packaging, LLC (collectively "DNK"), both wholly owned subsidiaries of Capital Five Investments, LLC ("CVI"). Under the terms of the transaction, the Company formed a new limited liability company, Graphic Flexible Packaging, LLC ("GFP") and contributed its ownership interests in multi-wall bag and specialty plastics packaging subsidiaries to it. CVI concurrently contributed its ownership interests in DNK to GFP. Neither party received cash consideration as part of the transaction. The Company owns approximately 87% of GFP and consolidates its results of operations. The remaining 13% of GFP is owned by CVI. CVI's noncontrolling interest in GFP is recorded as Redeemable Noncontrolling Interests in the Company's financial statements.

CVI has the right, at certain times, to require the Company to acquire their ownership interests in GFP at fair value based on third-party valuations. Since it is probable that the noncontrolling interests will become redeemable in the future, based on the passage of time, the noncontrolling interests subject to the put options are adjusted to their estimated redemption amounts each reporting period with a corresponding adjustment to Capital in Excess of Par Value. The adjustment to the carrying amount is determined after attribution of comprehensive income of the redeemable noncontrolling interests. The adjustment to the carrying amount does not impact net income or comprehensive income in the Company's Condensed Consolidated Financial Statements and does not impact earnings per share since the shares of the redeemable noncontrolling interests are redeemable at fair value. For accounting purposes, the redemption value at which the redeemable noncontrolling interests is recorded on the Condensed Consolidated Balance Sheets cannot be less than the initial amount plus attribution of comprehensive income of the noncontrolling interest. At June 30, 2013, the book value of the redeemable noncontrolling interests was determined as follows:

In millions

Balance at December 31, 2012	\$	10.8
Net loss attributable to redeemable noncontrolling interests		(0.4)
Other comprehensive income, net of tax		—
Change in fair value of redeemable securities		—
Balance at June 30, 2013	\$	10.4

The calculation of fair value (a Level 3 measurement) of the redeemable noncontrolling interest is determined by using a discounted cash flow analysis based on the Company's forecasts discounted using a weighed average cost of capital and market indicators of terminal year cash flows based upon a multiple of earnings before interest, taxes, depreciation and amortization ("EBITDA").

NOTE 9 — INCOME TAXES

During the three months and six months ended June 30, 2013, the Company recognized Income Tax Expense of \$ 11.4 million and \$ 35.1 million on Income before Income Taxes and Equity Income of Unconsolidated Entities of \$ 32.1 million and \$ 90.1 million, respectively. The effective tax rate for the six months ended June 30, 2013 was different than the statutory rate primarily due to the mix and levels between foreign and domestic earnings including losses in jurisdictions with full valuation allowances, as well as the effects of certain discrete tax items. During the three months and six months ended June 30, 2012, the Company recognized Income Tax Expense of \$ 28.6 million and \$ 41.6 million on Income before Income Taxes and Equity Income of Unconsolidated Entities of \$ 69.3 million and \$ 99.3 million, respectively. The effective tax rate for the six months ended June 30, 2012 was different than the statutory rate primarily due to the mix and levels between foreign and domestic earnings, including losses in jurisdictions with full valuation allowances, as well as the effects of certain discrete tax items. The Company has approximately \$ 859 million of Net Operating Losses for U.S. federal income tax purposes, which are currently being used and may be used to offset future taxable income.

NOTE 10 — ENVIRONMENTAL AND LEGAL MATTERS

Environmental Matters

The Company is subject to a broad range of foreign, federal, state and local environmental, health and safety laws and regulations, including those governing discharges to air, soil and water, the management, treatment and disposal of hazardous substances, solid waste and hazardous wastes, the investigation and remediation of contamination resulting from historical site operations and releases of hazardous substances, and the health and safety of employees. Compliance initiatives could result in significant costs, which could negatively impact the Company's consolidated financial position, results of operations or cash flows. Any failure to comply with environmental or health

GRAPHIC PACKAGING HOLDING COMPANY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

and safety laws and regulations or any permits and authorizations required thereunder could subject the Company to fines, corrective action or other sanctions.

Some of the Company's current and former facilities are the subject of environmental investigations and remediations resulting from historical operations and the release of hazardous substances or other constituents. Some current and former facilities have a history of industrial usage for which investigation and remediation obligations may be imposed in the future or for which indemnification claims may be asserted against the Company. Also, potential future closures or sales of facilities may necessitate further investigation and may result in future remediation at those facilities.

The Company has established reserves for those facilities or issues where liability is probable and the costs are reasonably estimable. The Company believes that the amounts accrued for all of its loss contingencies, and the reasonably possible loss beyond the amounts accrued, are not material to the Company's consolidated financial position, results of operations or cash flows. The Company cannot estimate with certainty other future corrective compliance, investigation or remediation costs. Costs relating to historical usage that the Company considers to be reasonably possible of resulting in liability are not quantifiable at this time. The Company will continue to monitor environmental issues at each of its facilities, as well as regulatory developments, and will revise its accruals, estimates and disclosures relating to past, present and future operations, as additional information is obtained.

Legal Matters

The Company is a party to a number of lawsuits arising in the ordinary conduct of its business. Although the timing and outcome of these lawsuits cannot be predicted with certainty, the Company does not believe that disposition of these lawsuits will have a material adverse effect on the Company's consolidated financial position, results of operations or cash flows.

NOTE 11 — SEGMENT INFORMATION

The Company reports its results in two reportable segments: paperboard packaging and flexible packaging. These segments are evaluated by the chief operating decision maker based primarily on Income from Operations as adjusted for depreciation and amortization. The Company's reportable segments are based upon strategic business units that offer different products. The accounting policies of the reportable segments are the same as those described in GPHC's Form 10-K for the year ended December 31, 2012.

The paperboard packaging segment is highly integrated and includes a system of mills and plants that produce a broad range of paperboard grades convertible into folding cartons. Folding cartons are used primarily to protect products, such as food, detergents, paper products, beverages, and health and beauty aids, while providing point of purchase advertising. The paperboard packaging reportable segment includes the design, manufacture and installation of packaging machinery related to the assembly of cartons, the production and sale of corrugated medium and kraft paper from paperboard mills in the U.S., and produces paper and heat transfer labels.

The flexible packaging segment produces kraft paper and converts kraft and specialty paper into multi-wall bags, consumer and specialty retail bags and produces flexible packaging and laminations. The multi-wall bags are designed to ship and protect a wide range of industrial and consumer products including fertilizers, chemicals, concrete, and pet and food products. The flexible packaging and laminations are converted from a wide variety of technologically advanced films for use in the food, pharmaceutical and industrial end-markets. Flexible packaging paper is used in a wide range of consumer applications.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

INTRODUCTION

This management's discussion and analysis of financial conditions and results of operations is intended to provide investors with an understanding of the Company's past performance, financial condition and prospects. The following will be discussed and analyzed:

- Overview of Business
- Overview of 2013 Results
- Results of Operations
- Financial Condition, Liquidity and Capital Resources
- Critical Accounting Policies
- New Accounting Standards
- Business Outlook

OVERVIEW OF BUSINESS

The Company's objective is to strengthen its position as a leading provider of packaging solutions. To achieve this objective, the Company offers customers its paperboard, cartons and packaging machines, either as an integrated solution or separately. Cartons and carriers are designed to protect and contain products. Product offerings include a variety of laminated, coated and printed packaging structures that are produced from the Company's coated unbleached kraft ("CUK"), coated-recycled board ("CRB") and uncoated-recycled board ("URB"), as well as other grades of paperboard that are purchased from third party suppliers. Innovative designs and combinations of paperboard, films, foils, metallization, holographics and embossing are customized to the individual needs of the customers. The Company's label business focuses on two product lines: heat transfer labels and lithographic labels.

The Company is a leading supplier of flexible packaging in North America. Products include multi-wall bags, shingle wrap, plastic bags and film for building materials (such as ready-mix concrete), retort pouches (such as meals ready to go), medical test kits, batch inclusion bags and film. Key end-markets include food and agriculture, building and industrial materials, chemicals, minerals, pet foods, and pharmaceutical products.

The Company is implementing strategies (i) to expand market share in its current markets and to identify and penetrate new markets; (ii) to capitalize on the Company's customer relationships, business competencies, and mills and converting assets; (iii) to develop and market innovative, sustainable products and applications; and (iv) to continue to reduce costs by focusing on operational improvements. The Company's ability to fully implement its strategies and achieve its objectives may be influenced by a variety of factors, many of which are beyond its control, such as inflation of raw material and other costs, which the Company cannot always pass through to its customers, and the effect of overcapacity in the worldwide paperboard packaging industry.

Significant Factors That Impact The Company's Business

Impact of Inflation. The Company's cost of sales consists primarily of energy (including natural gas, fuel oil and electricity), pine pulpwood, chemicals, recycled fibers, purchased paperboard, paper, aluminum foil, ink, plastic films and resins, depreciation expense and labor. Inflation increased costs in the first six months of 2013 by \$16.8 million, compared to the first six months of 2012. The higher costs in 2013 are related to energy costs (\$7.8 million) primarily due to the price of natural gas; wood costs (\$4.4 million); other costs (\$3.0 million); labor and related benefits (\$2.5 million); freight (\$2.5 million); other chemicals (\$1.9 million) and corrugated cases (\$1.4 million). These higher costs were partially offset by lower secondary fiber (\$3.4 million); ink and coating (\$1.7 million); resin (\$0.8 million) and externally purchased board (\$0.8 million).

The Company has entered into contracts designed to manage risks associated with future variability in cash flows caused by changes in the price of natural gas. The Company has entered into natural gas swap contracts to hedge prices for a portion of its expected usage for the remainder of 2013. Since negotiated sales contracts and the market largely determine the pricing for its products, the Company is at times limited in its ability to raise prices and pass through to its customers any inflationary or other cost increases that the Company may incur.

Commitment to Cost Reduction. In light of increasing margin pressure throughout the packaging industry, the Company has programs in place that are designed to reduce costs, improve productivity and increase profitability. The Company utilizes a global continuous improvement initiative that uses statistical process control to help design and manage many types of activities, including production and maintenance. This includes a Six Sigma process focused on reducing variable and fixed manufacturing and administrative costs. The Company expanded the continuous improvement initiative to include the deployment of Lean Sigma principles into manufacturing and supply chain services. As the Company strengthens the systems approach to continuous improvement, Lean Sigma supports the efforts to build a high performing culture. During the first six months of 2013, the Company achieved approximately \$33 million in incremental cost savings as compared to the first six months of 2012, through its continuous improvement programs and manufacturing initiatives.

The Company's ability to continue to successfully implement its business strategies and to realize anticipated savings and operating efficiencies is subject to significant business, economic and competitive uncertainties and contingencies, many of which are beyond the Company's control. If the Company cannot successfully implement the strategic cost reductions or other cost savings plans it may not be able to continue to compete successfully against other manufacturers. In addition, any failure to generate the anticipated efficiencies and savings could adversely affect the Company's financial results.

Competition and Market Factors. As some products can be packaged in different types of materials, the Company's sales are affected by competition from other manufacturers' CUK board and other substrates such as solid bleached sulfate and recycled clay-coated news. Substitute products also include plastic, shrink film and corrugated containers. In addition, while the Company has long-term relationships with many of its customers, the underlying contracts may be re-bid or renegotiated from time to time, and the Company may not be successful in renewing on favorable terms or at all. The Company works to maintain market share through efficiency, product innovation and strategic sourcing to its customers; however, pricing and other competitive pressures may occasionally result in the loss of a customer relationship.

In addition, the Company's sales historically are driven by consumer buying habits in the markets its customers serve. Increases in the costs of living, the condition of the residential real estate market, unemployment rates, access to credit markets, as well as other macroeconomic factors, may significantly negatively affect consumer spending behavior, which could have a material adverse effect on demand for the Company's products. New product introductions and promotional activity by the Company's customers and the Company's introduction of new packaging products also impact its sales. The Company's containerboard business is subject to conditions in the cyclical worldwide commodity paperboard markets, which have a significant impact on containerboard sales.

Debt Obligations . The Company had \$2,323.2 million of outstanding debt obligations as of June 30, 2013. This debt can have consequences for the Company, as it requires a portion of cash flow from operations to be used for the payment of principal and interest, exposes the Company to the risk of increased interest rates and restricts the Company's ability to obtain additional financing. Covenants in the Credit Agreement and the Indentures also prohibits or restricts, among other things, the disposal of assets, the incurrence of additional indebtedness (including guarantees), payment of dividends, loans or advances, and certain other types of transactions. These restrictions could limit the Company's flexibility to respond to changing market conditions and competitive pressures. The Credit Agreement also requires compliance with a maximum Consolidated Total Leverage Ratio and a minimum Consolidated Interest Coverage Ratio. The Company's ability to comply in future periods with these financial covenants will depend on its ongoing financial and operating performance, which in turn will be subject to many other factors, many of which are beyond the Company's control. See "Financial Condition, Liquidity and Capital Resources — Liquidity and Capital Resources" for additional information regarding the Company's debt obligations.

The debt and the restrictions under the Credit Agreement and the Indentures could limit the Company's flexibility to respond to changing market conditions and competitive pressures. The outstanding debt obligations and the restrictions may also leave the Company more vulnerable to a downturn in general economic conditions or its business, or unable to carry out capital expenditures that are necessary or important to its growth strategy and productivity improvement programs.

OVERVIEW OF 2013 RESULTS

This management's discussion and analysis contains an analysis of Net Sales, Income from Operations and other information relevant to an understanding of results of operations.

- Net Sales for the three months ended June 30, 2013 increased by \$27.8 million , or 2.5% , to \$1,139.7 million from \$1,111.9 million for the three months ended June 30, 2012 primarily due to higher volume due to the European Acquisitions completed in the fourth quarter of 2012 and new consumer product business. This increase was partially offset by lower volume in flexible packaging due to continued general market softness and the internalization of paper, lower global beverage sales, lower pricing and unfavorable exchange rates primarily in Japan.
- Income from Operations for the three months ended June 30, 2013 decreased to \$87.7 million from Income from Operations of \$96.7 million for the three months ended June 30, 2012. The change was primarily driven by the lower pricing and higher inflation primarily for energy and labor and benefits. These decreases were partially offset by improved performance due to cost savings through continuous improvement programs and other strategic initiatives, the impact of the European Acquisitions and synergies.
- During the second quarter of 2013, certain shareholders of the Company sold 15 million shares of common stock in a secondary public offering at \$7.73 per share. The shares were sold by certain affiliates of TPG Capital, L.P. (the "TPG Entities"), certain Coors family trusts (the "Coors Family Trusts"), Clayton, Dubilier & Rice Fund V Limited Partnership (the "CD&R Fund") and Old Town, S.A. ("Old Town"). The shares outstanding held by the selling stockholders in this offering decreased from approximately 44% to approximately 39% .

Paperboard Packaging

The Company's Net Sales from paperboard packaging for the three months ended June 30, 2013 increased by \$44.0 million, or 4.7%, to \$972.1 million from \$928.1 million for the same period in 2012 as a result of the European Acquisitions, new consumer product business and open market sales. This was partially offset by lower volume due to general market softness in global beverage, cereal and frozen food businesses, lower pricing due to deflationary cost pass throughs and the impact of unfavorable exchange rates primarily in Japan.

Flexible Packaging

The Company's Net Sales from flexible packaging for the three months ended June 30, 2013 decreased by \$ 16.2 million or 8.8%, to \$167.6 million from \$ 183.8 million for the same period in 2012 primarily due to lower volume and pricing. The decreases in volume/mix was primarily a result of internalization as more paper was consumed internally. In addition, continued market softness in certain agriculture sectors and industrial sectors contributed to reduced volume. The slightly lower pricing was primarily due to deflationary cost pass throughs.

Paperboard Packaging

The Company's Income from Operations from paperboard packaging for the three months ended June 30, 2013 decreased by \$17.5 million, or 14.4%, to \$104.4 million from \$121.9 million for the same period in 2012 as a result of the lower pricing, inflation in certain commodities, integration related expenses, and unfavorable currency exchange rates, primarily in Japan. These decreases were partially offset by cost savings through continuous improvement programs and other strategic initiatives and the volume from the European Acquisitions. The inflation was primarily related to higher energy costs (\$6.6 million); labor and benefits (\$4.5 million); wood (\$2.2 million); chemicals (\$1.1 million); corrugated cases (\$0.8 million) and freight (\$0.5 million). These higher costs were partially offset by other costs (\$1.7 million); lower secondary fiber (\$1.4 million); inks & coatings (\$0.9 million) external board (\$0.3 million) and resin (\$0.1 million).

Flexible Packaging

The Company's Loss from Operations from flexible packaging for the three months ended June 30, 2013 was \$ 1.4 million compared to Loss from Operations of \$ 7.5 million for the same period in 2012 as a result of improved performance due to synergies and cost savings programs. Additionally, in the prior year there were one time charges to achieve synergies. The improvements were partially offset by inflation, the lower pricing and higher production costs at the New Philadelphia, OH converting facility. The inflation was related to labor and benefits, externally purchased paper and energy.

Corporate

The Company's Loss from Operations from corporate for the three months ended June 30, 2013 was \$ 15.3 million compared to \$ 17.7 million for the same period in 2012 as a result of lower incentive compensation and other corporate costs including outside consulting, partially offset by costs related to the secondary offering.

Paperboard Packaging

The Company's Net Sales from paperboard packaging for the first six months of 2013 increased by \$96.8 million , or 5.3% , to \$1,908.2 million from \$1,811.4 million for the same period in 2012 as a result of the European Acquisitions and new consumer product introductions. These increases were partially offset by lower volume due to general market softness in global beverage and cereal, lower pricing due to deflationary cost pass throughs and the impact of unfavorable exchange rates primarily in Japan.

Flexible Packaging

The Company's Net Sales from flexible packaging for the first six months of 2013 decreased by \$ 35.7 million , or 9.7% , to \$ 332.0 million from \$ 367.7 million for the same period in 2012 primarily as a result of higher internalization of board. In addition, there was lower organic volume/mix due to market softness in certain agriculture sectors, construction and other industrial sectors.

Paperboard Packaging

The Company's Income from Operations from paperboard packaging for the first six months of 2013 decreased by \$3.0 million , or 1.4% , to \$207.1 million from \$210.1 million for the same period in 2012 as a result of the lower pricing due to deflationary cost pass throughs, higher inflation, integration related expenses, and unfavorable currency exchange rates. These decreases were partially offset by the European Acquisition. The inflation was primarily related to higher energy costs (\$7.5 million), mainly due to the price of natural gas; wood (\$4.3 million); freight (\$2.1 million); chemical-based input (\$1.8 million); corrugated cases (\$1.4 million) and labor and benefits (\$0.9 million). These higher costs were partially offset by lower secondary fiber (\$3.3 million); other costs (\$2.2 million); lower inks & coatings (\$1.5 million); externally purchased board (\$1.1 million) and resin (\$0.2 million).

Flexible Packaging

The Company's Loss from Operations from flexible packaging for the first six months of 2013 was \$ 5.2 million , compared to Loss from Operations of \$ 8.9 million for the same period in 2012. The current year loss was due to inflation and the lower pricing. These decreases were offset by improved performance due to synergies, cost saving programs and lower one-time costs, which were offset by lower production at the Pine Bluff, AR mill and higher production costs at the New Philadelphia, OH converting facility. The inflation was related to externally purchased paper (\$4.6 million); labor and benefits (\$1.9 million); other inflation (\$1.0 million); freight (\$0.4 million) and energy (\$0.3 million). These higher costs were partially offset by lower chemical-based inputs, primarily resin (\$0.4 million) and inks and coatings (\$0.2 million).

Corporate

The Company's Loss from Operations from corporate for the six months of 2013 was \$ 29.0 million compared to \$ 33.5 million for the same period in 2012. The change was primarily due to lower incentive compensation, outside consulting and other general corporate costs and the favorable impact of the foreign exchange rates from the Company's derivative instruments partially offset by expenses related to the secondary offering.

INTEREST EXPENSE, NET AND INCOME TAX EXPENSE

Interest Expense, Net

Interest Expense, Net was \$ 56.9 million and \$ 59.5 million for the first six months of 2013 and 2012, respectively. Interest Expense, Net decreased due to lower average interest rates on the Company's debt. As of June 30, 2013, approximately 47% of the Company's total debt was subject to floating interest rates.

Income Tax Expense

During the three months and six months ended June 30, 2013, the Company recognized Income Tax Expense of \$ 11.4 million and \$ 35.1 million on Income before Income Taxes and Equity Income of Unconsolidated Entities of \$ 32.1 million and \$ 90.1 million , respectively. The effective tax rate for the six months ended June 30, 2013 was different than the statutory rate primarily due to the mix and levels between foreign and domestic earnings including losses in jurisdictions with full valuation allowances, as well as the effects of certain discrete tax items. During the three months and six months ended June 30, 2012, the Company recognized Income Tax Expense of \$ 28.6 million and \$ 41.6 million on Income before Income Taxes and Equity Income of Unconsolidated Entities of \$ 69.3 million and \$ 99.3 million , respectively. The effective tax rate for the six months ended June 30, 2012 was different than the statutory rate primarily due to the mix and levels between foreign and domestic earnings, including losses in jurisdictions with full valuation allowances, as well as the effects of certain discrete tax items. The Company has approximately \$ 859 million of Net Operating Losses ("NOLs") for U.S. federal income tax purposes, which are currently being used and may be used to offset future taxable income.

FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

[Table of Contents](#)

The Company broadly defines liquidity as its ability to generate sufficient funds from both internal and external sources to meet its obligations and commitments. In addition, liquidity includes the ability to obtain appropriate debt and equity financing and to convert into cash those assets that are no longer required to meet existing strategic and financial objectives. Therefore, liquidity cannot be considered separately from capital resources that consist of current or potentially available funds for use in achieving long-range business objectives and meeting debt service commitments.

Cash Flows

<i>In millions</i>	Six Months Ended	
	June 30,	
	2013	2012
Net Cash Provided by Operating Activities	\$ 109.9	\$ 142.5
Net Cash Used in Investing Activities	(86.5)	(69.9)
Net Cash Used in Financing Activities	(39.0)	(313.9)

Net cash provided by operating activities for the first six months of 2013 totaled \$109.9 million, compared to \$142.5 million for the same period in 2012. The decrease was due primarily to higher inventory as a result of lower sales and payment of higher incentive compensation; partially offset by lower interest payments due to the lower average interest rates on the Company's debt. Pension contributions for the first six months of 2013 and 2012 were \$13.2 million and \$18.5 million, respectively.

Net cash used in investing activities for the first six months of 2013 totaled \$ 86.5 million, compared to \$ 69.9 million for the same period in 2012. The year over year change was primarily due to due a slight increase in capital spending, primarily for improving process capabilities. In the prior year, the Company had proceeds from the sale of assets of \$12.9 million.

Net cash used in financing activities for the first six months of 2013 totaled \$ 39.0 million, compared to \$ 313.9 million for the same period in 2012. Current year activities include primarily net borrowing under revolving credit facilities of \$21.1 million and payments on debt of \$29.7 million. The Company completed its debt offering of \$425 million aggregated principal amount of 4.75% senior notes due 2021 in a registered public offering and used the net proceeds, together with cash on hand, to refinance, through a redemption, all \$425 million of the 9.5% senior notes due 2017. The Company incurred approximately \$27 million in fees and expenses related to the refinancing activities. In the prior year, the Company entered into an amended and restated Credit Agreement, and approximately \$ 1.53 billion was drawn at closing which, when combined with cash on hand, was used to repay the outstanding term loans due in May 2014 which totaled \$1.68 billion. The Company incurred approximately \$22 million in fees and expenses related to the refinancing activities.

Liquidity and Capital Resources

The Company's liquidity needs arise primarily from debt service on its indebtedness and from the funding of its capital expenditures, ongoing operating costs and working capital. Principal and interest payments under the term loan facility and the revolving credit facility, together with principal and interest payments on the Company's 7.875% Senior Notes due 2018 and the 4.75% Senior Notes due 2021 (the "Notes"), represent liquidity requirements for the Company. Based upon current levels of operations, anticipated cost savings and expectations as to future growth, the Company believes that cash generated from operations, together with amounts available under its revolving credit facility and other available financing sources, will be adequate to permit the Company to meet its debt service obligations, necessary capital expenditure program requirements and ongoing operating costs and working capital needs, although no assurance can be given in this regard. The Company's future financial and operating performance, ability to service or refinance its debt and ability to comply with the covenants and restrictions contained in its debt agreements (see "Covenant Restrictions") will be subject to future economic conditions, including conditions in the credit markets, and to financial, business and other factors, many of which are beyond the Company's control, and will be substantially dependent on the selling prices and demand for the Company's products, raw material and energy costs, and the Company's ability to successfully implement its overall business and profitability strategies.

Covenant Restrictions

The Credit Agreement and the Indentures limit the Company's ability to incur additional indebtedness. Additional covenants contained in the Credit Agreement and the Indentures, among other things, restrict the ability of the Company to dispose of assets, incur guarantee obligations, prepay other indebtedness, make dividends and other restricted payments, create liens, make equity or debt investments, make acquisitions, modify terms of the indentures under which the Notes are issued, engage in mergers or consolidations, change the business conducted by the Company and its subsidiaries, and engage in certain transactions with affiliates. Such restrictions, together with the disruptions in the credit markets, could limit the Company's ability to respond to changing market conditions, fund its capital spending program, provide for unexpected capital investments or take advantage of business opportunities.

Under the terms of the Credit Agreement, the Company must comply with a maximum Consolidated Total Leverage Ratio covenant and a minimum Consolidated Interest Expense Ratio covenant. The Amended and Restated Credit Agreement which contains the definitions of these covenants, was filed as an exhibit to the Company's Form 8-K filed on March 22, 2012. The Company must maintain a maximum Consolidated Total Leverage Ratio of less than the following:

[Table of Contents](#)

Fiscal Quarter	Consolidated Total Leverage Ratio
March 31, 2012 - December 31, 2012	4.75 to 1.00
March 31, 2013 - December 31, 2013	4.50 to 1.00
March 31, 2014 and thereafter	4.25 to 1.00

The Company must also comply with a minimum consolidated interest expense ratio of the following:

Minimum Consolidated Interest Expense Ratio: 3.00 to 1.00

The Company's management believes that presentation of the Consolidated Total Leverage Ratio, Consolidated Interest Expense Ratio and Credit Agreement EBITDA herein provides useful information to investors because borrowings under the Credit Agreement are a key source of the Company's liquidity, and the Company's ability to borrow under the Credit Agreement is dependent on, among other things, its compliance with the financial ratio covenants. Any failure by the Company to comply with these financial covenants could result in an event of default, absent a waiver or amendment from the lenders under such agreement, in which case the lenders may be entitled to declare all amounts owed to be due and payable immediately.

Credit Agreement EBITDA is a financial measure not calculated in accordance with U.S. GAAP, and is not a measure of net income, operating income, operating performance or liquidity presented in accordance with U.S. GAAP. Credit Agreement EBITDA should be considered in addition to results prepared in accordance with U.S. GAAP, but should not be considered a substitute for, or superior to, U.S. GAAP results. In addition, Credit Agreement EBITDA may not be comparable to EBITDA or similarly titled measures utilized by other companies because other companies may not calculate Credit Agreement EBITDA in the same manner as the Company does.

The calculations of the components of the Consolidated Total Leverage Ratio and Consolidated Interest Expense Ratio for and as of the period ended June 30, 2013 are listed below:

At June 30, 2013, the Company was in compliance with the Consolidated Total Leverage Ratio covenant in the Credit Agreement and the ratio

was as follows:

[Table of Contents](#)

Consolidated Total Leverage Ratio: 3.29 to 1.00

At June 30, 2013, the Company was in compliance with the minimum Consolidated Interest Expense Ratio covenant in the Credit Agreement and the ratio was as follows:

Consolidated Interest Expense Ratio: 6.83 to 1.00

As of June 30, 2013, the Company's credit rating was BB+ by Standard & Poor's and Ba2 by Moody's Investor Services. Both Standard & Poor's and Moody's Investors Services' ratings on the Company included a stable outlook.

If inflationary pressures on key inputs continue, or depressed selling prices, lower sales volumes, increased operating costs or other factors have a negative impact on the Company's profitability, the Company may not be able to maintain its compliance with the financial covenants in its Credit Agreement. The Company's ability to comply in future periods with the financial covenants in the Credit Agreement will depend on its ongoing financial and operating performance, which in turn will be subject to economic conditions and to financial, business and other factors, many of which are beyond the Company's control, and will be substantially dependent on the selling prices for the Company's products, raw material and energy costs, and the Company's ability to successfully implement its overall business strategies, and meet its profitability objective. If a violation of the financial covenants or any of the other covenants occurred, the Company would attempt to obtain a waiver or an amendment from its lenders, although no assurance can be given that the Company would be successful in this regard. The Credit Agreement and the Indentures governing the Notes have certain cross-default or cross-acceleration provisions; failure to comply with these covenants in any agreement could result in a violation of such agreement which could, in turn, lead to violations of other agreements pursuant to such cross-default or cross-acceleration provisions. If an event of default occurs, the lenders are entitled to declare all amounts owed to be due and payable immediately. The Credit Agreement is collateralized by substantially all of the Company's domestic assets.

Capital Investment

The Company's capital investment in the first six months of 2013 was \$ 84.6 million compared to \$ 80.9 million in the first six months of 2012. During the first six months of 2013, the Company had capital spending of \$68.5 million for improving process capabilities, including the biomass boiler project in Macon, GA, \$10.8 million for capital spares and \$5.3 million for manufacturing packaging machinery.

Environmental Matters

Some of the Company's current and former facilities are the subject of environmental investigations and remediations resulting from historical operations and the release of hazardous substances or other constituents. Some current and former facilities have a history of industrial usage for which investigation and remediation obligations may be imposed in the future or for which indemnification claims may be asserted against the Company. Also, potential future closures or sales of facilities may necessitate further investigation and may result in future remediation at those facilities. The Company has established reserves for those facilities or issues where liability is probable and the costs are reasonably estimable.

For further discussion of the Company's environmental matters, see Note 10 in Part I, Item 1, Notes to Condensed Consolidated Financial Statements.

CRITICAL ACCOUNTING POLICIES

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of net sales and expenses during the reporting period. Actual results could differ from these estimates, and changes in these estimates are recorded when known. The critical accounting policies used by management in the preparation of the Company's condensed consolidated financial statements are those that are important both to the presentation of the Company's financial condition and results of operations and require significant judgments by management with regard to estimates used.

The Company's most critical accounting policies which require significant judgment or involve complex estimations are described in GPHC's Form 10-K for the year ended December 31, 2012.

NEW ACCOUNTING STANDARDS

For a discussion of recent accounting pronouncements impacting the Company, see Note 1 in Part I, Item 1, Notes to Condensed Consolidated Financial Statements.

BUSINESS OUTLOOK

The Company expects to realize between \$70 million and \$90 million of year over year operating cost savings from its continuous improvement programs, including Lean Sigma manufacturing projects.

Total capital investment for 2013 is expected to be between \$215 million and \$235 million and is expected to relate principally to the Company's process capability improvements and biomass boiler (approximately \$190 million), acquiring capital spares (approximately \$20 million), and producing packaging machinery (approximately \$15 million).

The Company also expects the following in 2013:

- Depreciation and amortization between \$270 million and \$280 million.
- Interest expense of \$100 million to \$110 million, including approximately \$5 million to \$10 million of non-cash interest expense associated with amortization of debt issuance costs.
- Debt reduction of approximately \$250 million.
- Pension plan contributions of \$40 million to \$60 million.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

For a discussion of certain market risks related to the Company, see Part II, “Item 7A, Quantitative and Qualitative Disclosure about Market Risk”, in GPHC’s Form 10-K for the year ended December 31, 2012. There have been no significant developments with respect to derivatives or exposure to market risk during the first six months of 2013. For a discussion of the Company’s Financial Instruments, Derivatives and Hedging Activities, see GPHC’s Form 10-K for the year ended December 31, 2012 and “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Financial Condition, Liquidity and Capital Resources.”

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

The Company’s management has carried out an evaluation, with the participation of its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the Company’s disclosure controls and procedures pursuant to Rule 13a-15 of the Securities Exchange Act of 1934, as amended. Based upon such evaluation, management has concluded that the Company’s disclosure controls and procedures were effective as of June 30, 2013.

Changes in Internal Control over Financial Reporting

There was no change in the Company’s internal control over financial reporting that occurred during the fiscal quarter ended June 30, 2013 that has materially affected, or is likely to materially affect, the Company’s internal control over financial reporting.

PART II — OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company is a party to a number of lawsuits arising in the ordinary conduct of its business. Although the timing and outcome of these lawsuits cannot be predicted with certainty, the Company does not believe that disposition of these lawsuits will have a material adverse effect on the Company's consolidated financial position, results of operations or cash flows. For more information see Note 10 - Environmental and Legal Matters in the Notes to Condensed Consolidated Financial Statements.

ITEM 1A. RISK FACTORS

There have been no material changes from the risk factors previously disclosed in GPHC's Form 10-K for the year ended December 31, 2012.

ITEM 4. MINE SAFETY DISCLOSURES

None.

CERTIFICATION

I, David W. Scheible certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Graphic Packaging Holding Company;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
