

Proposal on the appropriation of retained earnings

The Management Board proposes the following appropriation of the retained earnings in the amount of € 101,005,859.23 as presented in the Annual Financial Statements:

Distribution of a dividend in the amount
of € 3.45 per no-par share enjoying
dividend entitlement for the 2012 fiscal yearEuro 34,043,423.55
Carried forward to new account Euro 66,962,435.68
Euro 101,005,859.23

The dividend will be payable on May 29, 2013.

The proposed appropriation of retained earnings takes into consideration the fact that the Company does not presently hold any treasury shares which pursuant to § 71b, German Stock Corporation Act ("AktG"), would not enjoy dividend entitlement. The number of shares enjoying dividend entitlement could decrease prior to the Annual Shareholders Meeting through the acquisition of treasury shares. In this case, a correspondingly modified proposed resolution on the appropriation of retained earnings will be submitted to the Annual Shareholders Meeting, whereby there will be no change in the distribution of € 3.45 per no-par share enjoying dividend entitlement.
